DATE March 27, 2024

DATE March 28, 2024

Description of the possible adverse effects of the pesticides as per the Material Safety Data Sheets for the pesticides to be used, if available:

Contact with spray mists may cause eye or skin irritation. Inhalation of spray mist may cause headache, nausea or dizziness, or aggravate existing respiratory problems.

Pesticide product label instructions and precautions related to Public Safety:

Do not enter treatment area until sprays have dried.

Note: as required by law, we are advising you of the following statement:

The Office of Pesticide Programs of the United States Environmental Protection Agency has stated:

“Where possible, persons who potentially are sensitive, such as pregnant women, infants, and children, should avoid any unnecessary pesticide exposure.”
