

MARIPOSA ELEMENTARY SCHOOL

March 4, 2024

Dear Mariposa Families:

As you already may know, school attendance is a major contributor to academic success. Consistent attendance lays the foundation for academic success by ensuring your child doesn't miss out on crucial learning experiences. Each day in class presents opportunities for growth and development, both academically and socially.

Regular absenteeism can disrupt your child's learning and take a toll on grades and performance on standardized tests. Beyond test scores, irregular attendance impacts social interactions and emotional well-being, as students may feel disconnected from their peers and teachers.

I am very excited to share with you that in our effort to support and increase student attendance, Mariposa has created a third trimester contest with great prizes!

Students who have 95% or better attendance from March 4th to May 24th will be invited to a Dance Party on Friday, May 31st with a D.J., snacks and great prizes. We have prizes such as bicycles, Harkins movie passes, backpacks and more!

All your student needs to do is come to school! We feel so strongly about the importance of consistent attendance that we want to celebrate and reward those students who come to school and do their best.

Sincerely,

Laraissa Gill
Principal
