

2024 - 2025

McDowell

Scheduling Guide

Millcreek Township School District

BOARD OF EDUCATION

Mr. Gary J. Winschel—President
Mr. J. Michael Linder—Vice President
Mr. Wade Brink
Mr. Jason Dean
Ms. Janis Filbeck
Mr. Michael Kobylka
Ms. Sallie Newsham
Mrs. Sue Ellen Pasquale
Ms. Shirley Winschel
Mrs. Mackenzie O'Connor, Board Secretary

CENTRAL OFFICE ADMINISTRATION

Dr. John Cavanagh—Superintendent
Mr. Trevor Murnock—Assistant Superintendent
Mr. Aaron O'Toole—Chief Financial Officer
Dr. Joseph Jablonski—Director of Human Resources
Mrs. Hilary Gehrlein—Supervisor of ELA & Social Studies K-12
Mrs. Jennifer Dunmire—Supervisor of Math & Science K-12
Dr. Edward Nientimp—Director of Pupil Services
Mrs. Lori Baniewicz—Supervisor of Special Education
Mrs. Kate Barbaro—Supervisor of Special Education
Dr. Mary Triana—Supervisor of Special Education

McDowell Intermediate High School Administration

Mr. Scott Quivey, Principal
Ms. Brigitta Anthony, Assistant Principal
Mr. Kirk Atwood, Assistant Principal
Mrs. Rose Grimshaw, Secretary

Guidance

Dr. Kim Quirk, School Psychologist
Mrs. Remle Moyak, Guidance Counselor A-G
Mr. Robert Marriott, Guidance Counselor H-O
Mrs. Jessie Zablotny, Guidance Counselor P-Z
Ms. Heidi Wells, Secretary

McDowell High School Administration

Mrs. Sandra Means, Principal
Mr. Justin Izbicki, Assistant Principal
Mr. Matthew Calabrese, Assistant Principal
Mr. Mark Becker, Director of Athletics
Ms. Kimberley Womack, Secretary

Guidance

Dr. Kim Quirk, School Psychologist
Ms. Megan Boesch, Guidance Counselor A-E
Ms. Nicole Spencer, Guidance Counselor F-L
Mr. Scott Boyd, Guidance Counselor M-R
Mrs. Pamela Dixon, Guidance Counselor S-Z
Ms. Taylor Teel, Secretary

Student Course Request

All students entering grades 9 through 12 will enter course requests for elective courses online using the Infinite Campus Portal.

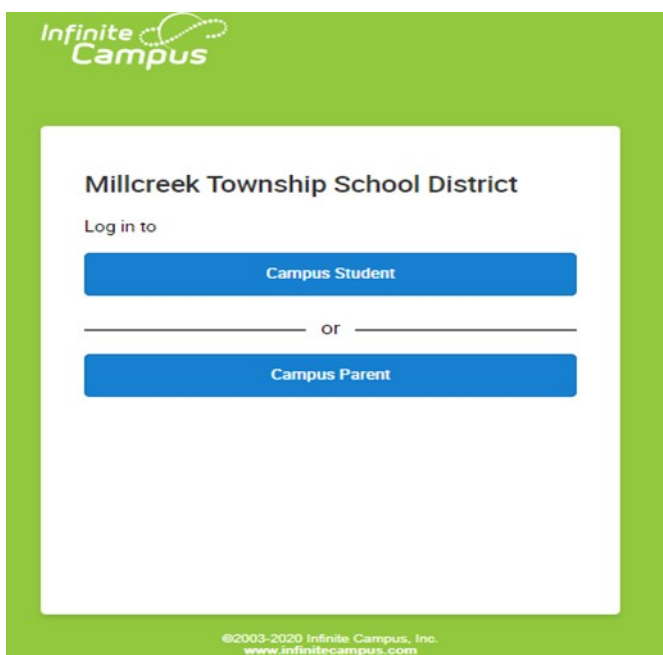

All core courses (math, science, social studies, and language arts/English) will be recommended and scheduled for students by teachers and/or administrative staff based on grade level requirements and a student's academic achievement. These recommended courses can be revised and/or changed:

- after the initial draft of a student's schedule is received via the mail in July or August
- only through an appointment with the student's assigned guidance counselor

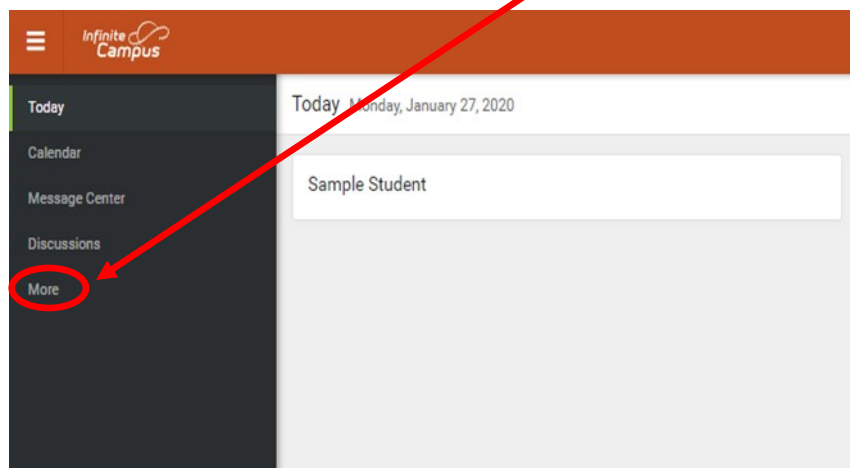

INSTRUCTIONS FOR SCHEDULING / REQUESTING COURSES

Go to the Infinite Campus (IC) Portal and select Campus Student.

NOTES:

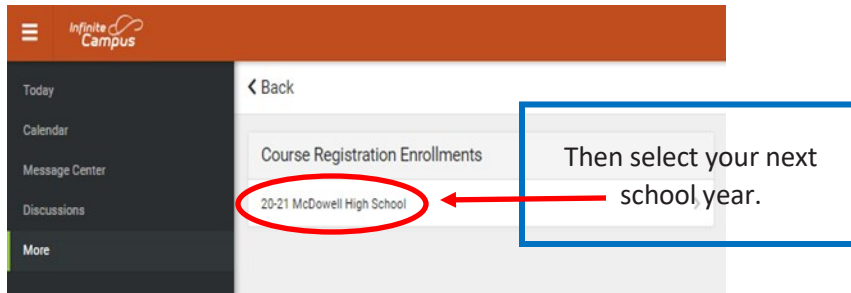

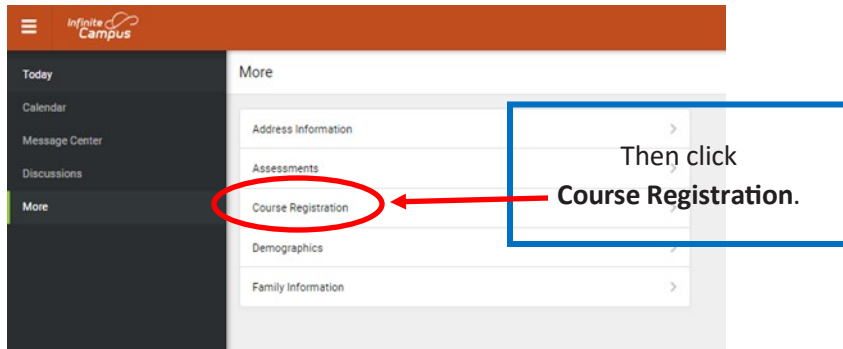

Once logged in, click on **More**.

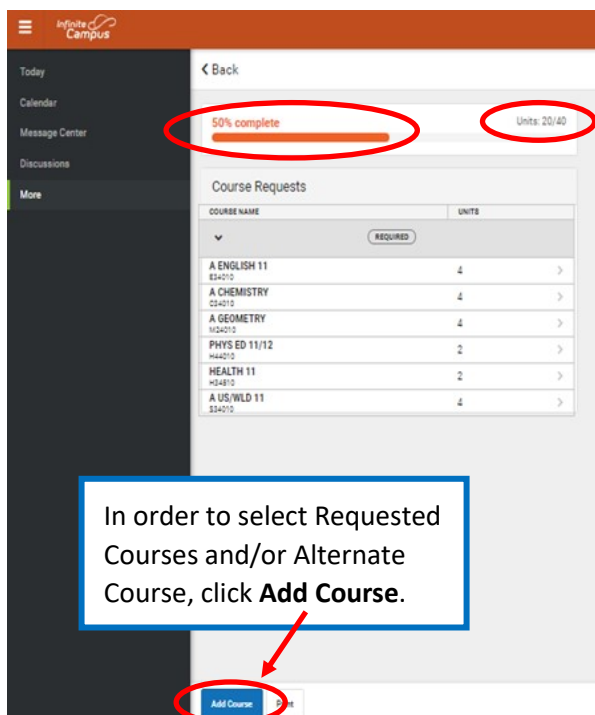

Student Course Request

NOTES:

Students will see their **Course Requests** with **Required Courses** entered, which have been previously selected by core teachers/administrators based upon demonstrated achievement, prerequisites, and departmental guidelines. Students cannot change Required Requests in IC. In this Course Registration Window, it shows total number of units out of the required number of units. Additionally, there is a Request Completion Bar indicating how complete your scheduling request is to date.

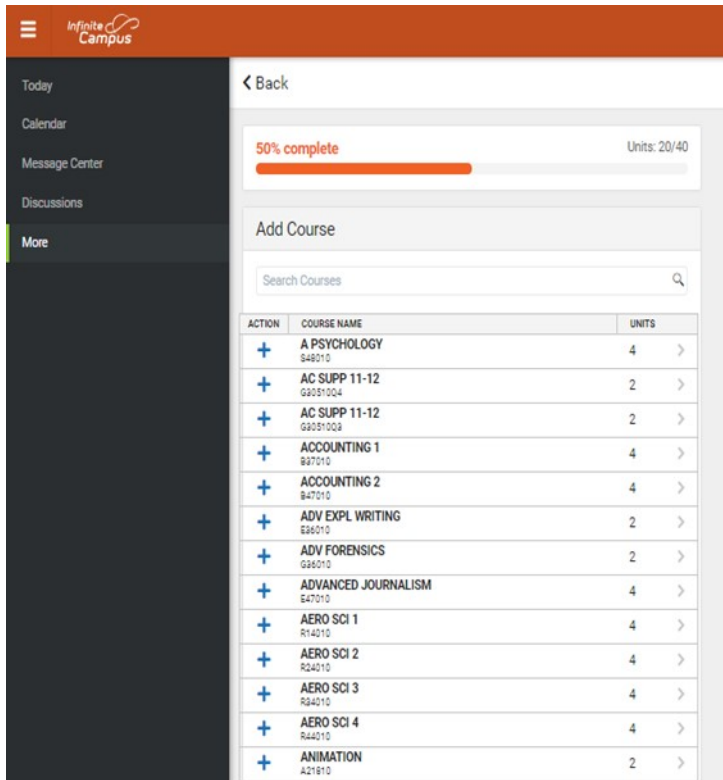

Students are to select two types of elective options: **Requested Courses** – are courses requested by students as their most preferred elective choices. Students continue to select Requested Courses until they have all units fill/100% is showing on the Completion Bar.

Alternate Courses – are courses selected by students as secondary selections if a Requested Courses is/are unavailable. It is recommended a student selects at least 3-4 alternates.

Student Course Request

Once you click **Add Course**, a listing of all available electives will display.

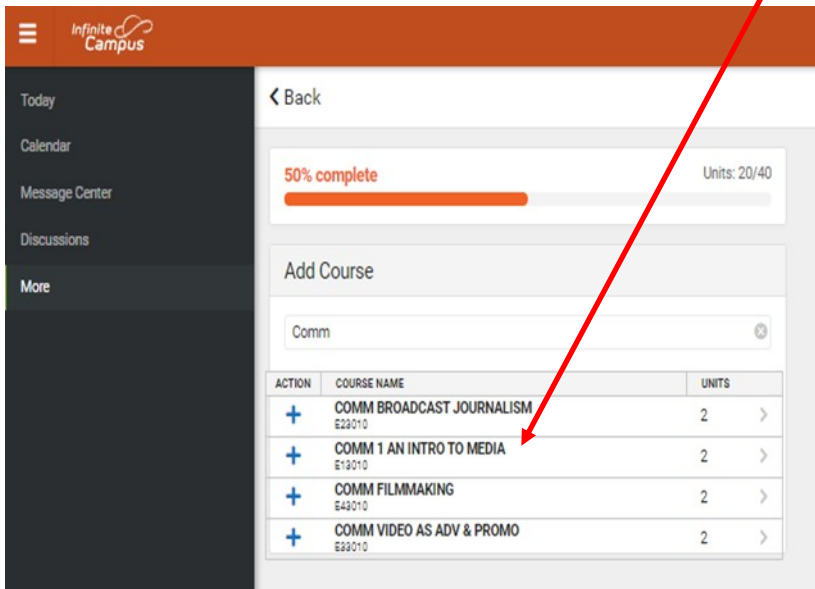

NOTES:

[illegible]

Students can then search these elective offerings by:

- 1) Course Number (i.e. E23010)
- 2) Full or part of the course name (i.e. Communications or Comm)

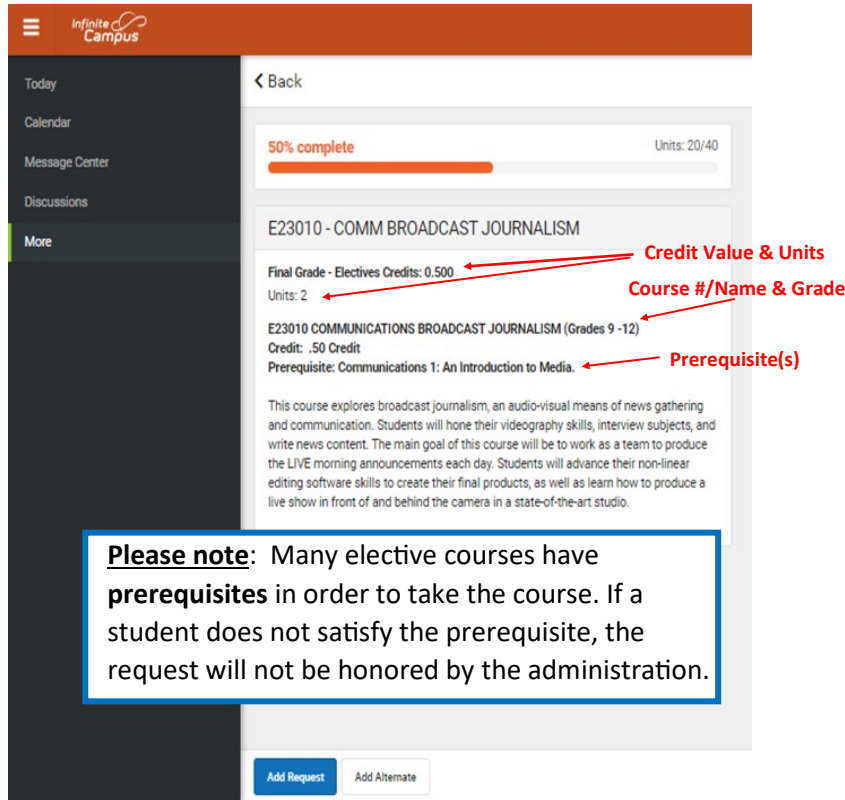

To review a course description, click on the course name of the elective.

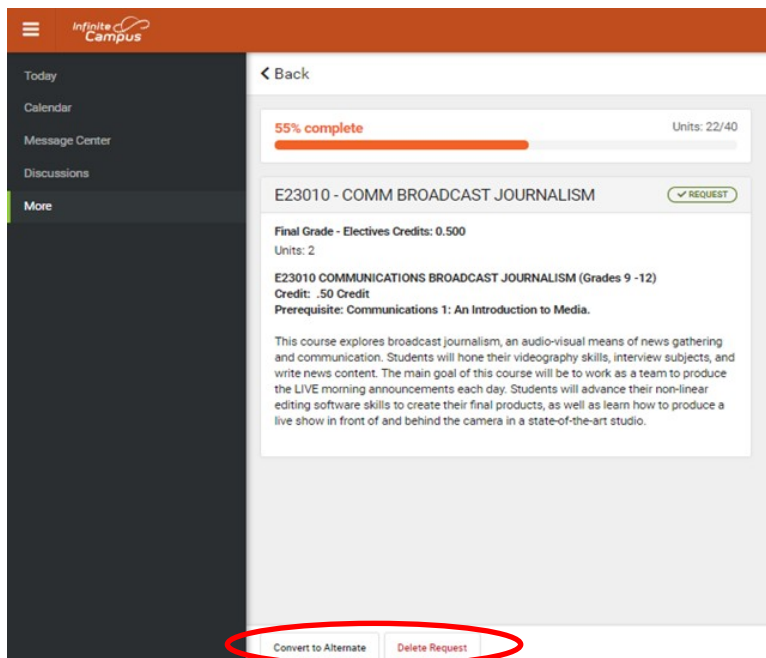

Student Course Request

After you have reviewed the course description, if you do not want to add the course to your elective choices click **<Back**. If you do wish to add the course to your elective choices click either **Add Request** or **Add Alternate**.

NOTES:

[illegible]

Once you select **Add Request**, if you would rather have the course be an Alternate Course click **Convert to Alternate** or if you wish, you can remove the course by clicking **Delete Request**.

Student Course Request

As you add courses, you will be able to see how you have identified them as either **REQ** or **ALT**. You can also click on **ACTION** for courses. If a course has been selected, Action will indicate an **X** if you wish to Delete the selection. If you know you want a course and you do not require the description, you can just click on the **+**.

General Information

AIR FORCE JUNIOR ROTC

AFJROTC is open to all students. The program consists of up to four years of classroom instruction in Aerospace Science, leadership education, physical wellness, and drill and ceremony. Students are required to wear the uniform on a designated day of each week and conform to grooming and ROTC standards. Uniforms are supplied by the Air Force with no cost to the students.

ALTERNATE COURSE SELECTIONS

Each student can identify alternate elective courses in the event that scheduling conflicts make the original elective choices impossible to schedule. Students can select these alternate courses when registering through Infinite Campus.

ARTICULATION AGREEMENT

An articulation agreement is a contract between McDowell High School and a post-secondary institution that assures that the curricula of the two institutions are coordinated. This helps eliminate situations in which students are inadequately prepared for the courses they will experience in the post-secondary institution.

Although agreements vary, the articulation usually insures that a student, who has successfully completed the required sequence of courses, one or more of the following: 1) admission, 2) advanced standing, and 3) credit waived. For specifics, see your counselor.

CLASS RANK PERCENTILE

The course multiplier value for each course is multiplied by the final grade point value. The total of these products is then divided by the total credits attempted. The value obtained is a total weighted point value from which class rank is calculated. An unweighted point average (GPA) is calculated based on a four (4) point scale. Weighted and unweighted GPA and weighted class rank percentile shall be entered on student records and on all transcripts where they will be available for the review by authorized persons.

COMMENCEMENT HONORS FOR SENIORS

The Latin Laude model will be used to recognize students' academic excellence at the conclusion of their high school career. A student's final cumulative GPA (weighted) will be used to determine the level of honor on the student's high school transcript and diploma and for academic recognition at commencement exercises. The three levels of academic honors are: Summa Cum Laude: "With Highest Distinction" - cumulative GPA average of 4.2 and above; Magna Cum Laude: "With Great Distinction" - cumulative GPA average of 3.850 to 4.199; and Cum Laude: "With Distinction" - cumulative GPA average of 3.410 to 3.849.

COMMUNITY SERVICE

This option is designed to provide students an opportunity to give something back to the community through voluntary service while at the same time registering this good work in their permanent record and transcript. The experience will help students acquire skills useful throughout life and learn about the significance of rendering aid to our community. Students who complete 60 hours of community service will receive 1/4 credit. Community service may begin at the completion of 8th grade. The credit does not count toward the graduation requirements.

COURSE (SCHEDULE) CHANGES

Course schedule changes must have counselor or administrator approval. Course schedule changes are available prior to the beginning of the school year. It is strongly recommended students make changes at this time. Student requests to change teachers will not be considered. No changes will be considered after the first week of the course. During the year a student may be withdrawn from a course for disciplinary reasons or at administrator discretion with a grade of WF.

COURSE LEVELS

Academic - Academic courses provide a challenging curriculum that prepares all students for college, career, or other post-high school training. Real life and hands-on experiences are emphasized, in addition to standard academic skills.

Academic courses have a course multiplier value = 1.0.

Honors - Honors courses are upper-level college preparatory courses. The content of these courses is more demanding than academic courses.

Honors courses have a course multiplier value = 1.10.

Advanced Placement® (AP®) - Advanced Placement® courses are introductory college-level courses teaching curricula specified by the Advanced Placement® Program of the College Board. It is an excellent opportunity for the ablest sophomores, juniors and seniors to pursue college-level studies and receive advanced placement®, credit, or both, in college, by achieving a specified score on an AP® Exam given in May. The fee for each Advanced Placement® exam is set by the College Board each year. The fee is typically under \$100.00.

Students develop content mastery and critical thinking skills expected of college students through rigorous AP® courses. Students who enroll in AP® courses do so because they are motivated to challenge themselves beyond an honors level course. A key component of the AP® program is the AP® Exam. Students who participate in an AP® course will be required to take the AP® Exam for that course. Any student who is not committed to taking the AP® Exam should enroll in the honors level of the course. A deposit/payment may be required at the beginning of the academic year to ensure AP® Exam participation.

Advanced Placement® courses have a course multiplier value = 1.20.

General Information

Advanced Placement® Courses

Course	Credit
Biology.....	2.0
Calculus AB—Semester.....	1.0
Calculus AB—Yearlong	2.0
Calculus BC.....	1.0
Chemistry.....	2.0

U.S. Government & Politics.....	1.0
U.S. History.....	1.0
World History: Modern.....	1.0

*See AP® Course Map on Page 15

COURSE MULTIPLIER VALUES

Course multiplier values are used to calculate a total weighted percentage for the purpose of class ranking. The multiplier values are as follows: Advanced Placement® Courses = 1.20, Honors Courses = 1.10, and Academic Courses = 1.0.

COURSE PREREQUISITES

Some courses have prerequisites that must have been satisfactorily completed prior to enrollment. Those courses and their prerequisites are listed in the Course Description section on Infinite Campus.

COURSE REQUEST SUMMARY

Every student will be asked to print a completed Course Request Summary sheet once all required, requested and alternate courses sections have been entered. **Required Course Section:** core course teachers will select a student's next core course utilizing their knowledge of the student's achievement, ability as shown in class, and course prerequisites for a student. The administration will enter any grade level required courses. **Requested Course Section:** Students will enter their elective choices. **Alternate Course Section:** Students will enter their alternate course choices. It is suggested students should choose no less than 3 alternate courses. Alternate courses are defined as courses a student is willing to consider if any requested courses (electives) are not available. Once required, requested, and alternate courses sections are input, a completed Course Request Summary sheet should be printed and signed by a parent/guardian. This signed form will then be turned into the appropriate Guidance Office at a date to be determined. Each student will then be scheduled to meet with a guidance counselor to review the course selection summary and prepare a final course selection list that will be given to the student. These forms will be completed in conjunction with a "Career Learning Plan" that will identify a Career Pathway as the basis of course selection. **Please note the Course Request Summary is not your student's final schedule, but rather the listing of courses most desired in next year's schedule for your student.**

DUAL ENROLLMENT PROGRAMS

This grouping of programs provides eligible students with the opportunity to enroll in college courses that are offered off-campus of McDowell High School. Students begin academic studies through a local university and earn college credits, while still completing a high school diploma. Credits earned may count toward high school elective credits or credit requirements for graduation. These college credits are offered to the high school student at a greatly reduced cost. General eligibility for the dual enrollment programs requires that seniors have an unweighted GPA of at least 3.25 and juniors have an unweighted GPA of at least 3.5.

Regional Choice Initiative (RCI):

Local colleges and universities (currently Gannon University, Mercyhurst University and PennWest University) offer college courses that are mostly used to fulfill general education requirements and are taught by preferred university faculty. The site for the RCI program is the former skills center next to the Erie County Technical School. Currently, the district provides transportation to the RCI location. Classes offered may include such options as Introduction to Philosophy, Sociology, College Algebra, Environmental Science, Introduction to Psychology, College Writing Skills, and Foundations of Western Heritage. New courses and opportunities are expanded each year. Students register for this program in the spring of the previous year, scheduling courses for both semesters.

On-Campus College Program:

Each of the local universities offers high school students the opportunity to enroll in and attend courses on the college campus. These courses may meet during the school day or in the evenings, as well as the summer. Transportation and cost of the college course are the responsibility of the student. The following schools participate in the program:

- ◆ PennWest University - Main Campus
- ◆ Gannon University
- ◆ Mercyhurst University
- ◆ Penn State Erie, The Behrend College: EXCEL Program

For each of these opportunities, students will need to complete an application and submit course fees after meeting with the guidance counselor at McDowell High School. Final acceptance into the program rests with the college to which the student has applied. See your guidance counselor in the guidance office for more information.

ELECTIVE COURSES

Elective courses may not be offered if enrollment does not justify the offering.

FAILED REQUIRED COURSES

Failed required courses should be made up in Summer School.

General Information

GRADUATION REQUIREMENTS

Graduation is based on the successful completion of required coursework.

To earn a diploma, students need to complete the required credits and Keystone/standardized state tests and/or competencies.

COURSE/PROJECT REQUIREMENTS	CREDITS
Mathematics	4.0
English	4.0
Social Studies	4.0
Science	3.5
Physical Education	2.0
Health	1.0
Electives	9.5
Total Credits	28.0

INDEPENDENT STUDY

Independent study is a program that is available for students who wish to pursue an in-depth study of a particular topic. Both teacher and student-designed programs are available and scheduled by half credit only. Students may earn a maximum of one credit per year for independent study. The course will be pass/fail and will not be included in class rank but will count as an elective credit for graduation. A PowerPoint presentation must be produced to explain your independent study project. **The Independent Study Program is only available to students who formally apply and are approved.** Contact the Guidance Office for further information.

KEYSTONE EXAMS

The Keystone Exams are end-of-course assessments designed to assess proficiency in selected core subject areas (e.g., Literature, Algebra I, Biology). A student's schedule determines when s/he participates in the Keystone Exams. There will be two assessment windows during the academic school year. **Beginning with the class of 2023, students must demonstrate proficiency on the Literature, Algebra I, and Biology Keystone Exams to graduate.** Please contact your students guidance counselor for more specific information regarding Keystone Exams and graduation requirements.

NCAA

The NCAA, or National Collegiate Athletic Association, is the athletics governing body for more than 1,280 colleges, universities, conferences, and organizations. They develop the rules and guidelines for athletics eligibility and athletics competition for each of the three NCAA divisions. One of the differences among the three divisions (Division I, Division II, Division III) is that colleges and universities in Division I and II may offer athletic scholarships, while Division III colleges and universities may not. The NCAA Eligibility Center will certify the academic and amateur credentials of all college-bound student-athletes who wish to compete in NCAA Division I or II athletics in college. The NCAA determines eligibility through a review of the student's high school courses and test scores (ACT or SAT). The high school courses must be core courses. A core course is defined and approved by the NCAA and must be an academic course in one of these areas: English, mathematics (Algebra I or higher), natural/physical science, social science, or foreign language. It must also be considered a four-year college preparatory course, and be at or above the regular academic level. NCAA Division I and II require 16 core courses. As a student-athlete, this means that one must carefully plan the sequence of courses that are taken in high school in order to meet eligibility requirements.

More information can be found by accessing the Eligibility Center's resource page on their website:

<http://www.eligibilitycenter.org>.

*Please see pages 59-62 for detailed NCAA information.

PROMOTION

To be promoted from ninth grade to tenth grade, a student is required to have a minimum of 5 credits. Students must earn 12 credits to be promoted from grade 10 to grade 11. To be promoted from eleventh grade to twelfth grade, a student must have a minimum of 20 credits.

SCHOOL SERVICE

This program is for students who assist office personnel or act as library aides. A pass/fail grade is given to the student and will be noted on the transcript, but no credit is earned.

SPECIAL EDUCATION SERVICES

There is a continuum of services available to students with disabilities, based on a student's IEP, including adapted and modified curriculum, aide support, collaborative instruction and self-contained services. Please contact the Guidance Office at the school if you or your parents have questions about scheduling.

STEM CERTIFICATE (Science, Technology, Engineering, and Math)

The MTSD Science, Technology, Engineering, and Math (STEM) Certificate recognizes students who have demonstrated their success as critical thinkers and problem-solvers and are prepared to reach their fullest potential in a STEM field. Through their coursework and extra-curricular activities, STEM-certificated students have dedicated themselves to preparing for the challenges of a dynamic world. Interested students should see their guidance counselor.

WELLNESS/PHYSICAL EDUCATION

All students are required to take a wellness/physical education course each year. All 9th graders are required to take Aquatics. Grades 10-12 must select one wellness/physical education requirement.

McDowell STEM Certificate Program

The MTSD Science, Technology, Engineering, and Math (STEM) certificate recognizes students who have demonstrated their success as a critical thinker and problem solver and are prepared to reach their fullest potential in a STEM-related field. Through their coursework and extracurricular activities, STEM-certificated students have dedicated themselves to preparing for the challenges of a dynamic world. Students completing these tasks will receive STEM certification in conjunction with their diploma from McDowell upon graduation.

Requirements = Coursework A or B plus STEM Category 1 and Category 2

Coursework A

CAREER & TECHNICAL SCHOOL STUDIES:

ECTS students involved in any of the identified labs earning a B or better. **I will be completing one of the programs at ECTS.** (Any ECTS students completing these programs automatically qualify.)

One program earning a B or better

- ☐ Automotive Technologies
- ☐ Computer Networking
- ☐ Computer Programming
- ☐ Drafting & Design Engineering
- ☐ Electrical Engineering
- ☐ Graphic Media Design
- ☐ Health Assistant
- ☐ Metal Fabrication
- ☐ Precision Machining

Coursework B

DIVERSE HIGH SCHOOL STEM COURSES:

McDowell students, not attending ECTS, must earn a B or better in at least 4 separate areas within this category to qualify for STEM.

Advanced Business/Computer Science

One or more earning a B or better

- ☐ AP® Computer Science A
- ☐ AP® Computer Science Principles
- ☐ Computer Applications: Manipulate It
- ☐ Foundations of Comp Programming 1
- ☐ Foundations of Comp Programming 2
- ☐ Entrepreneurship
- ☐ Game Development & Programming
- ☐ Web Design 1
- ☐ Web Design 2-Mobile App Dev

Advanced Creativity and Innovation

One or more earning a B or better

- ☐ Video Production
- ☐ Animation
- ☐ Sports and News Broadcast Journalism
- ☐ Digital Technology in Art
- ☐ Graphics

Advanced English

One or more earning a B or better

- ☐ Exploring Writing
- ☐ Honors or AP® English 11
- ☐ Honors or AP® English 12

Advanced Math

One or more earning a B or better

- ☐ AP® Calculus AB
- ☐ AP® Calculus BC
- ☐ AP® Statistics
- ☐ Honors Algebra 2
- ☐ Honors Calculus
- ☐ Honors PreCalc/Trig
- ☐ Honors Probability & Statistics

Advanced Science

One or more earning a B or better

- ☐ Aerospace Science 2
- ☐ AP® Biology
- ☐ AP® Chemistry
- ☐ AP® Environmental Science
- ☐ AP® Physics 1
- ☐ AP® Physics C—Mechanics
- ☐ CSI Forensic Science
- ☐ Honors Anatomy & Physiology
- ☐ Honors Chemistry
- ☐ Mechanical Science
- ☐ Honors Organic Chemistry
- ☐ Honors Physics

Advanced Technology

One or more earning a B or better

- ☐ Advanced Computer Design & Mfg
- ☐ Architectural Design
- ☐ CNC Manufacturing
- ☐ Graphics Technology 2
- ☐ Introduction to Applied Engineering
- ☐ Metal Technology 2
- ☐ Robotics 2
- ☐ Building Trades 2
- ☐ Building Trades 3

Global Awareness/Citizenship

One or more earning a B or better

- ☐ AP® Comparative Govt. & Politics
- ☐ AP® Human Geography
- ☐ AP® Psychology
- ☐ AP® U.S. Government & Politics
- ☐ Hon. French 3, German 3, or Spanish 3
- ☐ Hon. French 4, German 4, or Spanish 4
- ☐ Honors Spanish 5
- ☐ International Business and Ethics
- ☐ Justice Education

STEM Category 1 & Category 2 -

Students must be able to check both categories to qualify and complete the required verification forms. Category 2 requires at least two approved STEM activities that are indicated on the STEM Approved Activities page.

Category 1: STEM-related and preapproved work experiences

- ☐ AP® Research
- ☐ Independent Study related to STEM fields
- ☐ Internship
- ☐ McDowell Manufacturing
- ☐ Part-time employment in a STEM-related job
- ☐ STEM Camp or After School Program
- ☐ Two pre-approved STEM Field Trip Options
- ☐ Volunteer Work

Category 2: STEM-related and approved extracurricular activity during high school. Students must be involved in at least 2 approved activities prior to graduation. This can be either 2 consecutive years of the same activity or 1 year in 2 different activities. See STEM Approved Activities page for more details.

- ☐ Biology Club
- ☐ Computer Science Club
- ☐ Cyber Patriot (ROTC)
- ☐ FIRST Robotics
- ☐ Garden Club
- ☐ Math Club
- ☐ PJAS
- ☐ Sports Medicine
- ☐ TEAMS
- ☐ United States Academic Decathlon
- ☐ Youth in Med
- ☐ Other: _____

Note: Students must meet with Guidance before the 2nd semester of their Senior year to verify all requirements completed.

STEM—APPROVED ACTIVITIES

SCIENCE—TECHNOLOGY—ENGINEERING—MATH

Students who wish to earn a STEM certificate must meet several requirements as listed below (coursework—scheduling time, job shadowing, internship, or summer camp, and two or more STEM activities prior to graduation). Current activities which are STEM approved are listed on this page.

BIOLOGY CLUB

Mr. Gilroy—McD gilroy@mtsd.org

The Computer Science Club provides an environment for students interested in the field of computer science to further explore their knowledge with peers at McDowell. Annual projects completed by the Computer Science Club are designed to better the community and grow members' knowledge of computer science.

COMPUTER SCIENCE CLUB

Mr. Palmer—McD palmer@mtsd.org

The Computer Science Club provides an environment for students interested in the field of computer science to further explore their knowledge with peers at McDowell. Annual projects completed by the Computer Science Club are designed to better the community and grow members' knowledge of computer science.

CYBER PATRIOT (ROTC)

Chief Holmes—MIHS holmes@mtsd.org

Air Force Association's (AFA) Cyber Patriot is the nation's premier youth cyber education program, featuring the National Youth Cyber Defense Competition. The competition is open to all high schools and middle schools in the nation, as well as all JROTC units, Civil Air Patrol or cadet squadrons, and Naval Sea Cadets Corps units. Students learn the importance of cybersecurity and skills that can be valuable in cyber careers. Registration of teams occurs in early October and online rounds occur through the winter months. The National Finals Competition occurs in Washington D.C. in March. If teams do not qualify for the national level, then they compete at state and regional recognition rounds.

FIRST ROBOTICS (For Inspiration and Recognition of Science and Technology)

Mr. Bucholtz—McD bucholtz@mtsd.org

This is a varsity sport for the mind, FIRST Robotics Competition combines the excitement of sport with the rigors of science and technology. Under strict rules, limited resources, and time limits, teams of 25 students or more are challenged to raise funds, design a team "brand", hone teamwork skills, and build and program robots to perform prescribed tasks against a field of competitors. It's as close to "real-world engineering" as a student can get. Volunteer professional mentors lend their time and talents to guide each team.

GARDEN CLUB

Mrs. Taylor—MIHS jtaylor@mtsd.org

The Garden Club will continue to develop and maintain the flower garden outside the Little Theatre, focusing on pollinator plants. We will meet to plan and to work in the greenhouse planting seeds and propagating plants during the colder months. There will be opportunities to complete service hours after school and during the summer to maintain the garden. Students may choose to attend tutorial meetings, after-school work sessions, or both.

MCDOWELL MATH CLUB

Ms. Testa—McD testa@mtsd.org

This club is for students that enjoy doing math and want to look at the history of mathematicians, higher-level math problems and how they relate to what we do in math class, math activities for all levels (K-12), and math competitions.

PJAS: Pennsylvania Junior Academy of Science

Mrs. Allaman—MIHS allaman@mtsd.org

Students research a science topic, design an experiment, and analyze the results. They then present their results at a regional competition at Penn State Behrend in March. They may move on to the state competition in May. Students must sign up in September to register on time.

SPORTS MEDICINE

Ms. Kelly Bruce—McD bruce@mtsd.org

Students learn about CPR, First-Aid, catastrophic injury management, concussion management, injury prevention, acute injury care, basic rehabilitation exercises, hydration, field/court game, and practice set up. Students do travel with some teams to away games. In addition to working with McDowell teams, there are opportunities to visit and shadow various settings including PT/Sports Medicine Clinics, Orthopedic Surgeon's offices, and even observe Orthopedic Surgeries. Also, coordinate campus visits to colleges and university Sports Medicine and Athletic Training programs. The SAT's come to the Athletic Training Room located below Paul Goll Gymnasium on a daily basis to assist with each day's activities.

TEAMS (Test of Engineering Aptitude, Mathematics, and Science)

Mr. Bucholtz—McD bucholtz@mtsd.org

This is an annual competition for high school students designed to help them discover their potential for engineering. During this one-day competition, students apply math and science knowledge in practical, creative ways to solve real-world engineering challenges.

USAD (United States Academic Decathlon)

Mr. Andrzejczak—McD
andrzejczak@mtsd.org

USAD was formerly known as ASL and is the country's premier academic competition. USAD competitions test your knowledge of the information found in economics, art, music, language and literature, **math, science**, and social science research packets with a common theme. Each Packet is over 150 pages. Each Decathlete spends hours looking over the research, studying, creating personal study guides, playing review games, and finally competing against schools from across the state and country.

YOUTH IN MED

Ms. Moyer—McD moyer@mtsd.org

Youth in Med is a med club intended to provide students with resources that engage them in the medical field. Opportunities included are becoming CPR & First Aid Certified, splinting, and dissections. The club also features guest speakers of diverse medical professions, career exploring, practice medical case studies, and science-based activities/projects (biology & anatomy).

Focused Study Programs

CENTER FOR THE PERFORMING ARTS

The Millcreek School District Center for the Performing Arts has the most comprehensive course of study in Northwest PA for students interested in music, drama, and dance. Numerous instrumental ensembles include a marching band, jazz band, two concert bands, orchestra, and a wind ensemble for students interested in playing one or more instruments. Choral ensembles include two concert choirs, a mixed chorus, and a vocal ensemble. Performing Arts courses are offered for students who are interested in drama, musical theatre, and technical theatre. In addition, several levels of dance classes are provided in a variety of disciplines. Elective courses in piano and guitar are available for students who wish to learn theory and fundamental music skills while playing an instrument.

Certification

Students who successfully complete the following course selection and performance requirements will receive a Performing Arts Certificate upon graduation. Student must complete the following:

- ◆ Minimum of three years involvement with Performance Arts curriculum
- ◆ Minimum of six credits in Performance Arts courses
- ◆ Performs a minimum of three major productions (performer, technical, or musician)
- ◆ Work in a minimum of two community productions (community theatre, church productions, etc.)
- ◆ Member of the International Thespian Society
- ◆ Recommended by Performance Arts Department

Center for Performing Arts Certificate Course Sequence

Certificate Plan	Grade 9	Grade 10	Grade 11	Grade 12
3 YEAR		<input type="checkbox"/> Performing Arts 1 <input type="checkbox"/> Ensemble * <input type="checkbox"/> PE Dance	<input type="checkbox"/> Performing Arts 2 <input type="checkbox"/> Ensemble * <input type="checkbox"/> PE Dance <input type="checkbox"/> Music Theory or Music History (11 or 12)	<input type="checkbox"/> Performing Arts 3 <input type="checkbox"/> Ensemble * <input type="checkbox"/> PE Dance <input type="checkbox"/> Popular Dance
4 YEAR	<input type="checkbox"/> Performing Arts 1 <input type="checkbox"/> Ensemble * <input type="checkbox"/> PE Dance	<input type="checkbox"/> Performing Arts 2 <input type="checkbox"/> Ensemble * <input type="checkbox"/> PE Dance	<input type="checkbox"/> Performing Arts 3 <input type="checkbox"/> Ensemble * <input type="checkbox"/> PE Dance <input type="checkbox"/> Music Theory or Music History (11 or 12)	<input type="checkbox"/> Performing Arts 4 <input type="checkbox"/> Ensemble *

**Students may select more than one ensemble (Concert Band, Jazz Band, Orchestra, Wind Ensemble, The McDowell Choral Project, and VOX Collective).*

There are many options available to the students who choose a three or four-year plan. Students interested in pursuing a career in musical theatre should consider courses in dance. If you have already studied dance for several years, we recommend that you audition for the advanced dance electives.

EDUCATION PROFESSION PATHWAY CERTIFICATE PROGRAM

A career pathway program targeting students who are interested in pursuing a degree in education or a career working with children.

The goal of this program is to provide direct instruction related to the early childhood education field. Students will learn through hands-on experiences and internship opportunities in various educational settings to better prepare for future educational and career opportunities.

Students who successfully complete the program will be awarded an Education Profession Pathway Certificate at graduation from Millcreek Township School District, as well as the possibility to earn college credits from partnering Universities.*

Required Courses (4.5 Credits)

Education Profession Level 1 (1.0)
Education Profession Level 2 (1.0)
Education Profession Level 3 (1.0)
Career Exploration (0.5)
Internship (1.0)

*Certain requirements must be met

Focused Study Programs

ERIE COUNTY TECHNICAL SCHOOL (ECTS)

Erie County Technical School (ECTS) offers a wide variety of career, trade, and technical opportunities leading to career or collegiate study, or directly to employment. Students entering grades 10 through 12 may attend ECTS for a half-day, and take their remaining academics at McDowell. Students may apply to programs of interest by completing an application through the Guidance Office.

To be eligible, all 9th-grade students must pass their academic and elective courses or complete them in summer school. Programs are designed to be completed in 3 years (grades 10, 11, and 12). For each successful year, students will earn four (4) credits toward graduation. Senior students who have attained the appropriate skills level are afforded the opportunity to participate in Co-Op Programs that provide valuable work experience with on the job training and the opportunity to earn money. Students within many programs have the opportunity to earn post-high school credits due to established articulation agreements with several colleges and trade/technical schools. These schools may offer preferred admission, award credit(s), and/or advanced standing to students who have successfully completed the technical program.

Recommended Course Sequence

Grade 9	Grade 10	Grade 11	Grade 12

*Graduation requirements will be modified for ECTS students.

MCDOWELL MANUFACTURING ACADEMY

The goal of this program is to provide employment opportunities for students graduating high school or students entering a technical training program. Students who successfully complete the program will be awarded a Manufacturing Academy Certificate at graduation along with their OSHA 10 hour Safety Certification Card.

Required Courses (4.0 Credits)

Financial Literacy (0.5)	Introduction to Wood & Building Trades (0.5)
Foundations of Technology Design and Engineering (1.0)	Building Trades 1 (1.0)
Smart Manufacturing (0.5)	Internship (0.5)
**OSHA Training Certification (Tutorial)	

Elective Courses (1.5 Credits)

Materials Manufacturing: Wood Technology 2 (1.0)	Materials Manufacturing: Metal Technology 1 (0.5)
Surviving and Thriving Adulthood (0.5)	Introduction to Welding (0.5)
CNC Manufacturing (1.0)	Intro to Robotics (1.0)
Introduction to Applied Engineering (1.0) - (Grades 10-12)	Internship (Additional 0.5)
Any Physics Course (1.0)	

ADVANCED PLACEMENT® (AP®) COURSES

Taking AP® is a sign that you are up for the most rigorous classes your high school has to offer. Taking an AP® course builds the skills you will need throughout your college years. By taking an AP® course and scoring successfully on the related AP® Exam, you can save on college expenses.

For more information on Advanced Placement® courses, visit the College Board site:

<https://apstudent.collegeboard.org/exploreap>

Focused Study Programs

MCDOWELL HONORS COLLEGE OF LEADERSHIP AND SERVICE

Selection for the McDowell Honors College of Leadership and Service is based on an application process and thorough review of each student's academic record. The mission of the Honors College is to provide the most dedicated high-achieving students with a small learning community that provides a structure for superior performance, leadership experiences, and community service opportunities. Honors College students demonstrate a commitment to a pursuit of rigorous and challenging coursework, a commitment to physical and mental health through exercise and a drug-free lifestyle, and a participation in a variety of school-based and community-based activities.

Students accepted into the program will be placed in common homerooms, led by Honors College Advisors. Advisors will serve as mentors to students as they guide them through the students' independent service projects, monitor their accumulation of community service hours, and ensure proper completion of Honors College program requirements. This mentoring relationship assists the students in making decisions about choosing a college and setting goals for professional careers of interest.

For more information about the Honors College program, visit <http://www.mtsd.org/district/activities-programs/honors-college>

Honors College Scheduling Requirements:

- ◆ 9th/10th must enroll in three honors level courses
 - ◆ 11th/12th must enroll in four honors level and/or AP® courses
 - ◆ All students must take at least three AP® courses by graduation
 - ◆ Must complete three (3) credits of a world language
-

DISTINCTIVE SCHOLAR PROGRAM

The Distinctive Scholar Program (DSP) is a more selective and rigorous pathway for students of high ability and motivation encompassing current Honors College requirements plus additional requirements including specific courses, service hours, and mentorships. Students who meet the criteria will receive an invitation to apply for the program.

Distinctive Scholar Program Scheduling Requirements:

- ◆ Full enrollment in all honors and/or AP® courses
 - ◆ AP® Seminar & AP® Research courses
 - ◆ At least four additional AP® courses
 - ◆ Work towards Capstone Diploma
 - ◆ Must complete at least three (3) credits of a world language
-

AP® CAPSTONE

According to College Board, AP® Capstone is a College Board program that equips students with the independent research, collaborative teamwork, and communication skills that are increasingly valued by colleges. It cultivates curious, independent, and collaborative scholars and prepares them to make logical evidence-based decisions.

AP® Capstone is comprised of two AP® courses—AP® Seminar and AP® Research—and is designed to complement and enhance the discipline-specific study in other AP® courses. Students typically take AP® Seminar in grade 10 or 11, followed by AP® Research. Students who earn scores of 3 or higher in AP® Seminar and AP® Research and on four additional AP® Exams of their choosing receive the AP® Capstone Diploma™. Students who earn scores of 3 or higher in AP® Seminar and AP® Research, but not on four additional AP® Exams receive the AP® Seminar and Research Certificate™. Additional info may be retrieved from <http://advancesinap.collegeboard.org/ap-capstone>.

AP® Seminar Overview

AP® Seminar is a foundational course that engages students in cross-curricular conversations where they can explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Using an inquiry framework, students practice reading and analyzing articles, research students and foundational, literary, and philosophical texts; listening to and viewing speeches, broadcasts, and personal accounts; and experiencing artistic works and performances. They synthesize information from multiple sources, develop their own perspectives in written essays, and design and deliver oral and visual presentations, both individually and as a team. Ultimately, the course aims to equip students with the power to analyze and evaluate information with accuracy and precision so they can craft and communicate evidence-based arguments.

AP® Research Overview

AP® Research allows students to deeply explore an academic topic, problem, or issue of individual interest. Through this exploration, students design, plan, and conduct a yearlong investigation to address a research question.

In the AP® Research course, students further develop the skills acquired in the AP® Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Students reflect on their skill development, document their processes, and curate the artifacts of their scholarly work through a process and reflection portfolio.

Advanced Placement®

Aerospace Science (AFJROTC)

R14010 AEROSPACE SCIENCE 1
CREDIT: 1.00 CREDIT
PREREQUISITE: THE ABILITY TO PARTICIPATE IN MARCHING AND PHYSICAL WELLNESS/PT
OTHER INFO: SEE ADDITIONAL REQUIREMENTS

This course is open to all students who have the ability to participate in physical wellness, marching maneuvers, and carry a minimum overall 2.0 grade point average. Aerospace Science is divided into categories with Aerospace Science comprising 40% of the curriculum, Leadership Education 40%, and 20% is made up of physical wellness/PT. The first year is a history course designed to acquaint the students with the historical development of flight and the role of the military in history. The leadership portion develops leadership skills and acquaints students with life skills such as discipline, leadership, citizenship, customs, and courtesies. Further leadership training encompasses communication skills, management studies, and basic marching skills. Students are exposed to numerous field trips and competitive drill meets. Aerospace Science is a pathway of civilian/military career exploration into the many different occupations that are available. Careers will be discussed and guest speakers will be invited in to speak of career opportunities.

R24010 AEROSPACE SCIENCE 2
CREDIT: 1.00 CREDIT
PREREQUISITE: THE ABILITY TO PARTICIPATE IN MARCHING AND PHYSICAL WELLNESS/PT AND MUST HAVE PASSED AS-1
OTHER INFO: SEE ADDITIONAL REQUIREMENTS

This course is open to all students who have successfully completed Aerospace Science 1 and its requirements. Aerospace Science is divided into categories with Aerospace Science comprising 40% of the curriculum, Leadership Education 40%, and 20% is made up of physical wellness/PT. This year is a science course designed to acquaint the students with the Aerospace environment; the human requirements of flight, principles of aircraft flight, and principles of navigation. **The leadership portion of the class stresses communication life skills and career opportunities.** Written and oral communication requirements complement academic materials. Cadet Corps activities include holding positions of greater responsibility in the planning and execution of Corps projects. Aerospace Science is a pathway of civilian/military career exploration into the many different occupations that are available. Careers will be discussed and guest speakers will be invited to speak of career opportunities.

R34010 AEROSPACE SCIENCE 3
CREDIT: 1.00 CREDIT
PREREQUISITE: THE ABILITY TO PARTICIPATE IN MARCHING AND PHYSICAL WELLNESS/PT AND MUST HAVE PASSED AS-2 (SCIENCE CREDIT AWARDED IF REQUESTED)
OTHER INFO: SEE ADDITIONAL REQUIREMENTS

This course is open to all Junior and Senior students with prior approval from JROTC staff. JROTC prefers successful AS-1 and AS-2 completion; however, staff will evaluate admittance on a case-by-case basis. Aerospace Science is divided into categories with Aerospace Science comprising 40% of the curriculum, Leadership Education 40%, and 20% is made up of physical wellness/PT. The academic subject of this course is Global and Cultural Studies. Leadership classes stress communication and personal development and include actual experience in commanding the Cadet Corps and serving in support command and staff positions. The cadets assist in the planning and supervising of all cadet activities, physical wellness, and drill. Numerous community service opportunities and field trips enhance the classroom experience. **One science credit may be awarded to students who successfully complete 3 credits of Aerospace Science.** Aerospace Science continues to be a pathway of career exploration into the many different occupations that are available. Careers will be discussed and guest speakers will be invited to speak of career opportunities.

R44010 AEROSPACE SCIENCE 4
CREDIT: 1.00 CREDIT
PREREQUISITE: THE ABILITY TO PARTICIPATE IN MARCHING, PHYSICAL WELLNESS/PT, AND TEACHER RECOMMENDATION
OTHER INFO: SEE ADDITIONAL REQUIREMENTS

This course is open to all Junior and Senior students with prior approval from JROTC staff. JROTC prefers successful AS-1 and AS-2 completion; however, staff will evaluate admittance on a case-by-case basis. Aerospace Science is divided into categories with Aerospace Science comprising 40% of the curriculum, Leadership Education 40%, and 20% is made up of physical wellness/PT. Aerospace Science continues to be a pathway of career exploration into the many different occupations that are available. Careers will be discussed and guest speakers will be invited to speak of career opportunities. **One science credit may be awarded to students who successfully complete 3 credits of Aerospace Science.**

ADDITIONAL REQUIREMENTS:
CADETS ARE REQUIRED TO PARTICIPATE IN THE HOMECOMING PARADE, MCDOWELL DRILL COMPETITION, DINING-OUT, AND THE ANNUAL SUPERINTENDENT'S REVIEW. CADETS MUST, AT ALL TIMES, MAINTAIN ACCEPTABLE PERSONAL APPEARANCE AND HIGH ACADEMIC STANDARDS. THIS INCLUDES WEARING THE JROTC UNIFORM AND PARTICIPATING IN FOUR COMMUNITY SERVICE EVENTS PER QUARTER. THREE INCIDENCES OF IN-SCHOOL SUSPENSION (ISS) OR OUT-OF-SCHOOL SUSPENSION (OSS) MAY RESULT IN INVOLUNTARY DISMISSAL FROM JROTC. IF DISMISSED FROM OR RECEIVING A FINAL GRADE OF "F", STUDENTS CANNOT RE-ENROLL IN ANY JROTC CLASS. FAILURE TO WEAR THE UNIFORM WILL RESULT IN A CONTRACT VIOLATION AND COULD LEAD TO INVOLUNTARY DISMISSAL FROM JROTC. FAILURE IN ANY MIHS/MHS CLASSES PRECLUDES INVOLVEMENT IN ANY OUT-OF-SCHOOL FIELD TRIPS. FAILURE TO TURN IN ASSIGNED JROTC PROJECTS WILL RESULT IN A CONTRACT VIOLATION AND COULD LEAD TO INVOLUNTARY DISMISSAL FROM JROTC.

THE GOALS OF THE WELLNESS PROGRAM ARE TO:

1. CREATE AN INDIVIDUALIZED TRAINING PROGRAM BASED ON NATIONAL STANDARDS BY AGE AND GENDER.
2. IDENTIFY AREAS OF IMPROVEMENTS FOR EACH CADET.
3. INCORPORATE A PHYSICAL TRAINING PROGRAM TO REACH GOALS.

McDowell Intermediate and McDowell High School Descriptions

Business

B11510 **COMPUTER APPLICATIONS: DIGITAL DESIGN & PUBLICATIONS (GRADES 9-12)**

CREDIT: .50 CREDIT
PREREQUISITE: N/A

This course will integrate the desktop publishing, word processing, and graphic capabilities of the personal computer. In this class, students will produce and design professional publication documents such as announcements, fliers, posters, certificates, brochures, menus, catalogs, newsletters, newspapers, and reports. Students will also create and design a professional web page using web page editing software. Proper digital citizenship will be stressed throughout each project during the course.

B12010 **INTRODUCTION TO BUSINESS (GRADES 9-12)**

CREDIT: .50 CREDIT
PREREQUISITE: N/A

This course is designed to introduce students to basic business and economic principles through a hands-on exploratory approach. Students will read a variety of texts for vocabulary development and acquisitions and use the internet to research. Concepts that are integrated throughout the course include entrepreneurship, international business, management, marketing, accounting, economics, the stock market, and career exploration. Specific computer applications will be incorporated into a variety of classroom projects.

B21510 **COMPUTER APPLICATIONS: MANIPULATE IT (GRADES 9-12)**

CREDIT: .50 CREDIT
PREREQUISITE: N/A

This course will integrate spreadsheet, database, and presentation software for the management of data. Students will explore how to manage data in a variety of network settings, such as in a Cloud, network, or single user computer throughout the course. Students will use database software to create, maintain, and manipulate large data files. Construction of formulas, various functions, and "If Statements" will be taught utilizing spreadsheet software. Students will manipulate graphs, charts, images, sounds and video, along with the data from spreadsheets and databases to be included in digital presentations. This course is an excellent way to develop those needed computer skills that will set you apart from others!

B26010 **SPORTS AND ENTERTAINMENT MARKETING (GRADES 10-12)**

CREDIT: .50 CREDIT
PREREQUISITE: N/A

This course will focus on the real-world business perspective by using examples from the marketing world to illustrate features, concepts, and activities. Sports and Entertainment Marketing is an exciting and competitive business in the world today and students will recognize its relevance due to the local pro sports teams and theaters. It is our hope to create partnerships with those entities to allow students to work directly with them and learn hands-on. Concentration will be on basic principles of marketing and economics, including demographics and the marketing mix, with special emphasis on sports and entertainment marketing. Literacy and research skills will be improved as students read a variety of texts and articles and use the internet to search for marketing ideas to complete class projects.

B34010 **FINANCIAL LITERACY (GRADES 11-12)**

CREDIT: .50 CREDIT
PREREQUISITE: N/A

Financial Literacy teaches students how to manage their money in the 21st century! We dive into the real world of money, including behavioral economics, managing a checking account, buying a vehicle, managing credit, avoiding common financial mistakes, saving for the future, investing for retirement, purchasing insurance for your most valuable assets, preparing taxes, and more. This course utilizes engaging simulations so students can practice the skills they will need to manage their personal finances throughout their lives, not just read or hear about them. Even better, this course often kickstarts lots of helpful money conversations between students and their loved ones. It's a win for the next generation and for the adults in their lives!

B37010 **ACCOUNTING 1 (GRADES 10-12)**

CREDIT: 1.00 CREDIT
PREREQUISITE: N/A

The complete accounting cycle is presented by means of specific principles and situations. Accounting theory and concepts will be applied to maintain journals, ledgers, and formulating fundamental financial statements including a Balance Sheet, Income Statement, and Trial Balance. Students will study payroll accounting and multiple journals in a manual system as well as an automated system. Directed practice through carefully planned projects and problems provides the student opportunities to perform accounting tasks commonly found in business. In addition, students will complete a program from the IRS on understanding taxes.

B47010 **ACCOUNTING 2 (GRADES 10-12)**

CREDIT: 1.00 CREDIT
PREREQUISITE: ACCOUNTING 1 WITH A "C" OR HIGHER

This course is a continuation of the study of accounting through financial statements. This one-credit elective course is offered to students who have successfully completed Accounting 1 with a "C" or higher. Topics include long-term receivables and payables, inventory, fixed assets, accruals, and equity (i.e. common stock, dividends, earnings per share, and additional paid-in capital). The course will then focus on specialized accounting procedures relating to departmentalized accounting, internal controls, and managerial and cost accounting systems. Throughout the course, automated accounting procedures are emphasized.

B48510 **INTERNATIONAL BUSINESS AND ETHICS (GRADES 10-12)**

CREDIT: .50 CREDIT
PREREQUISITE: N/A

This one-term course provides content and activities for understanding the role, factors, and impact of engaging in a global business environment. Course topics include international business communications, environment, ethics, finance, management, marketing, and import/export trading. A major requirement of the course includes a simulated project whereby students will choose a country with which to do business. Students will use literacy and research skills to become familiar with significant aspects of the country such as their culture, economy, customers, and business etiquette. Students will then choose a product and develop a marketing plan based on the needs and wants of that country. These activities provide the foundation for becoming an informed participant in the global economy.

McDowell Intermediate and McDowell High School Descriptions

B49010 BUSINESS LAW (GRADES 10-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course involves the principles of law that apply to daily living. It includes the study of legal rights and duties concerning torts and crimes, contracts, and insurance. Class activities include discussion of current events as they relate to the law, debates on current legal issues, research and reports on various related legal topics, a mock trial, and reading, analyzing, and discussing court cases followed by a trip to the Erie County Court House and Prison.

B49510 ENTREPRENEURSHIP (GRADES 10-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course provides students with a hands-on opportunity to study the process of starting and running a business. Students will learn concepts such as forms of ownership, management, raising capital, financials, and analyzing their market and competition. These concepts will be integrated and reinforced through a Virtual Business simulation where students will start and run their own business. The course will conclude with a Virtual business competition and business plan presentation for their business simulation. Students will conduct market research and participate in a job shadowing experience.

McDowell Intermediate and McDowell High School Descriptions

Center for the Performing Arts

P11010 GUITAR (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Are you ready to embark on an exploration into the intriguing world of guitar, where you'll unlock the power of six strings and tap into your inner musician? This course is your passport to the thrilling realm of guitar playing, designed for absolute beginners who want to learn the art of playing the guitar.

P11510 PIANO (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Are you ready to unlock the captivating world of music? Dive into the rhythms and melodies that lay the foundation for a lifetime of music making. This course is your gateway to the realm of piano playing, designed for absolute beginners who want to experience the joy of creating music.

P12010 CONCERT BAND (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: PARTICIPATION MAY BE LIMITED BY AUDITION FOR SOME INSTRUMENTS

Are you prepared to embark on an electrifying musical voyage? Join the ranks of the McDowell Concert Band. This course is your ticket to the grand stage, where you'll experience the sheer thrill of performing captivating music with like-minded, passionate musicians. You and your friends will perform cinematic hits, current popular songs, and original music for band.

P14110 MCDOWELL CHORAL PROJECT (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

Get ready to elevate your vocal skills and embark on an enchanting musical journey in the McDowell Choral Project (formerly Mixed Chorus). This course is designed for high school students who are ready to take their vocal talents to the next level. You and your friends will perform Broadway hits, current popular songs, and original music for chorus. Join our vibrant choir family and immerse yourself in the art of singing with passion, precision, and artistic expression.

P16010 PERFORMING ARTS 1 (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

Step into the spotlight and discover the magical world of theater, where acting, music, dance, and technology converge. This course is your key to igniting your dramatic journey, encompassing both the art of musical theater and the magic behind the scenes. Designed for budding performers, tech enthusiasts, and theater lovers, this thrilling course will take you on a captivating voyage through the heart of the stage, where the Broadway musical comes to life.

P23010 JAZZ BAND (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: DIRECTOR RECOMMENDATION UPON SUCCESSFUL AUDITION

Step into the exhilarating world of jazz, where every note is a canvas for artistic expression and every performance is a dynamic journey through rhythm, harmony, and improvisation. Join the McDowell Jazz Band, an electrifying musical experience that will transport you to the heart of the jazz movement. Designed for passionate musicians who are ready to embrace the spirit of jazz, this course will unleash your inner improviser and groove to the rhythms of the jazz age.

P24010 WIND ENSEMBLE (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: MUST HAVE DIRECTOR RECOMMENDATION

Get ready to embark on an extraordinary musical odyssey as we invite you to join the McDowell Wind Ensemble. If you're a dedicated wind or percussion instrumentalist looking to explore musical excellence, this course is your path to an exhilarating journey through the world of performance. Experience the power of performing challenging musical compositions with a community of passionate musicians and friends.

P25010 ORCHESTRA (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: STUDENTS MUST HAVE SOME EXPERIENCE PLAYING A STRING INSTRUMENT

Prepare to embark on an extraordinary musical journey in the McDowell Orchestra. This course is your gateway to the mesmerizing world of orchestral music, where every note carries the soul of a composition and every performance is a grand adventure through the symphonic realm. Designed for passionate musicians ready to join an ensemble of exceptional talent, this course will immerse you in the harmonious tapestry of orchestral sounds and unlock the secrets of symphonic storytelling.

P26010 PERFORMING ARTS 2 (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: SUCCESSFUL COMPLETION OF PERFORMING ARTS 1 AND/OR DIRECTOR RECOMMENDATION

Welcome to the second stage of your theatrical adventure in the McDowell CPA program. In this thrilling continuation of our theater program, we delve deeper into the intricacies of both performance and technical elements. This course is designed for aspiring actors, writers, tech enthusiasts, and theater lovers who seek to further explore the world of musical theater. Join us on this captivating journey where storytelling, creativity, and the magic of technology unite to create unforgettable performances.

P27510 MUSIC THEORY/MUSIC HISTORY (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: RECOMMENDATION FROM MUSIC TEACHER

Unlock the captivating world of music theory with a modern twist. This course is designed for those eager to dive deep into the heart of musical understanding. This enchanting journey combines the time-honored principles of music theory along with an introduction to music technology. Immerse yourself in a world where classical harmony meets digital innovation, and where creativity knows no bounds.

P28010 POPULAR DANCE (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Get ready to go on a dance adventure like no other in Popular Dance Class. This class is your gateway to the world of movement, expression, and creativity. Discover the joy of dance in contemporary styles, and let your passion for dance ignite in a world where your imagination knows no bounds.

P34510 VOX COLLECTIVE (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: DIRECTORS RECOMMENDATION UPON SUCCESSFUL AUDITION

Prepare to embark on a challenging musical journey as we invite you to join the brilliance of the McDowell VOX Collective (formerly Vocal Ensemble). This course is your ticket to a world where your voice becomes an instrument of unparalleled expression, designed for distinguished high school vocalists with a passion for excellence. Join a talented ensemble of like-minded vocalists and experience the thrill of creating memorable vocal masterpieces.

McDowell Intermediate and McDowell High School Descriptions

P36010 **PERFORMING ARTS 3 (GRADES 11-12)**
P46010 **PERFORMING ARTS 4 (GRADE 12)**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **SUCCESSFUL COMPLETION OF PREVIOUS
LEVEL AND/OR DIRECTOR
RECOMMENDATION**

Welcome to the pinnacle of Advanced Musical Theater Mastery: Tech, Directing, and Student Musical theater performances. This electrifying course is designed for seasoned theater enthusiasts who are ready to unlock the full spectrum of their creative potential. Join us on a journey that combines the magic of performance, the wizardry of tech, and the art of directing. This course culminates in a student-led production that puts you in the director's chair. This is where the spotlight meets the control booth, and the stage bows to your artistic vision.

P50030 **ARTS DUAL ENROLLMENT**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **CRITERIA LISTED BELOW AND
PRINCIPAL PRE-APPROVAL**

Juniors (mostly second semester) with an unweighted GPA of 3.5 and Seniors with an unweighted GPA of 3.25 may attend college courses (either at a local college campus or an RCI site). The college course and grade earned will be placed on the high school transcript. Where school dismissal is required to attend such classes, the schedule at McDowell shall be adjusted. See your counselor in Guidance for more information.

H17010 **PE DANCE (GRADES 9-12)**
CREDIT: **.50 CREDIT**
PREREQUISITE: **N/A**

Get ready to embark on a spectacular dance journey that fuses the elegance of ballet, the rhythm of tap, and the vibrancy of jazz dances. Open to dancers of all ability levels, this class fills 10th-12th grade PE requirements (9th graders can take as an elective). This class is your passport to a world of artistic expression and physical prowess, where you'll master three distinctive dance forms while unlocking the secrets of grace, rhythm, and style.

McDowell Intermediate and McDowell High School Descriptions

Computer Science

D11010 INTRODUCTION TO COMPUTER SCIENCE (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course is an intro computer science course with a unique focus on creativity and problem-solving. Students explore several important topics of computing, such as programming, digital citizenship, networks, and web design.

D12510 FOUNDATIONS OF COMPUTER PROGRAMMING 1 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: ALGEBRA 1 WITH AT LEAST A "C" AVERAGE

Foundations of Computer Programming 1 is an elective course offered to students who are interested in learning about the foundational concepts of computer science and challenges them to explore how computing and technology impact the world. Additionally, students will investigate how computers represent all types of information and how the internet allows that information to be shared with people. Students will research and identify methods to store large and complex pieces of digital information in computers. Concepts introduced include variables, user input, text strings, Boolean expressions, and if-statements. Students will explore the fundamental topics of programming, algorithms, and abstraction while learning to programmatically design a digital scene.

D13510 FUNDAMENTALS OF CYBERSECURITY (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course is designed for students with some exposure to computer science. Students will learn foundational cybersecurity topics, including networking fundamentals, software security, system administration, and the basics of cryptography and programming. The content is a mix of web-based and physical activities. Students will modify existing code and run it in the browser, investigate cyber related topics and reflect on them and discuss them, create digital presentations, and engage in in-person collaborative exercises with classmates.

D16010 SMART MANUFACTURING (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course would include Intro to Smart Manufacturing, Industrial Internet of Things, Python, AI and Machine Learning, Cybersecurity, and Careers in Smart Manufacturing. This would be done with collaboration and guidance from West Virginia University. Implementing their scalable curricula for Smart Manufacturing and using their models.

D21010 WEB DESIGN 1 (GRADES 10-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course provides an introduction to creating web pages using HTML. It is designed for high school students who have completed a Computer Applications course. The course will begin with an introduction to the Internet and World Wide Web. Emphasis is then placed on design techniques used to produce effective web pages. The course will then proceed through the process of creating and editing a web page; creating a website with links; creating tables in a website and creating frames on a web page. A major requirement will entail the development of any original website that contains links to multiple web pages.

D22010 WEB DESIGN 2 - MOBILE APP DEVELOPMENT (GRADES 10-12)

CREDIT: .50 CREDIT

PREREQUISITE: WEB DESIGN 1 WITH AT LEAST A "C" AVERAGE

Web Design 2 - Mobile App Development will take what was learned in Web Design 1 to the next level by providing the advanced tools you need to create mobile apps that run on just about any smartphone or tablet. You will learn advanced features of HTML5 and CSS and will be introduced to jQuery and JavaScript to add interactivity to your site. Ultimately, you will design and build a mobile app that will be both attractive and effective.

D22510 FOUNDATIONS OF COMPUTER PROGRAMMING 2 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: FOUNDATIONS OF COMPUTER PROGRAMMING 1 WITH AT LEAST A "C" AVERAGE

Foundations of Computer Programming 2 is a continuation of the learning presented in Foundations of Computer Programming 1. Students will explore the technical, legal, and ethical questions from computers enabling the collection of data to the analysis and use of the data. Additionally, students will continue to develop their ability to program in the industry standard languages. Concepts introduced include arrays, functions, classes, and advanced structures. Students will also differentiate between list-processing and be introduced to advanced programming topics using Object Oriented Programming.

D23010 GAME DEVELOPMENT AND PROGRAMMING (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: RECOMMENDATION FROM FOUNDATIONS OF COMPUTER PROGRAMMING 1 TEACHER

In this course, students will learn technical skills such as programming, graphic design, animation, testing and debugging relating game development and design. Skills taught will be transferable to other STEM* career paths. Game Development will begin with drag-n-drop programming and advance to more complex projects that involve writing code. The engineering problem-solving cycle plays a large role in integrating physics and math principles into game functionality.

D32530** AP® COMPUTER SCIENCE PRINCIPLES (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: ALGEBRA 1 WITH A "B" OR HIGHER

AP® Computer Science Principles introduces students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity, and how computing impacts our world. Students will develop the computational thinking skills needed to fully exploit the power of digital technology and help build a strong foundation in core programming and problem-solving.

- *Engaging Students New to Computer Science:* The course is designed to engage students from diverse backgrounds and those new to computing—and excite students with a curriculum that focuses on the core ideas that shape the landscape of computer science and its impact on our society.
- *Project-Based and Collaborative Learning Approach:* Using project-based lessons and materials throughout, students will work to address real-world problems and design solutions to put computational thinking into practice. These culminate in a capstone Performance Task project where students can demonstrate what they've learned—to become creators, instead of merely consumers, of the technology all around them.

Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.

 (GRADES 10-12)
CREDIT: **1.00 CREDIT**
PREREQUISITE: **AP® COMPUTER SCIENCE PRINCIPLES (3 OR**
 BETTER ON AP® EXAM) AND ALGEBRA 2 (B
 OR BETTER)

This rigorous course introduces students to software engineering and object-oriented programming and design using the Java programming language. The curriculum covers a broad range of topics, including the design of solutions to problems, the use of data structures to organize large sets of data, the development and implementation of algorithms to process data and discover new information, the analysis of potential solutions, and the ethical and social implications of computing systems. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

D50030 **TECHNOLOGY DUAL ENROLLMENT**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **CRITERIA LISTED BELOW AND**
 PRINCIPAL PRE-APPROVAL

Juniors (mostly second semester) with an unweighted GPA of 3.5 and Seniors with an unweighted GPA of 3.25 may attend college courses (either at a local college campus or an RCI site). The college course and grade earned will be placed on the high school transcript. Where school dismissal is required to attend such classes, the schedule at McDowell shall be adjusted. See your counselor in Guidance for more information.

McDowell Intermediate and McDowell High School Descriptions

English Language Arts

E10010 LITERACY (GRADES 9-12)
CREDIT: 1.00 CREDIT
PREREQUISITE: TEACHER RECOMMENDATION
OTHER INFO: CAN BE TAKEN MORE THAN ONCE
 This course utilizes whole-class novels and independent student practice to bolster decoding, fluency, comprehension, grammar, and vocabulary abilities. Students are guided through large-group, small-group, and independent work. These literacy skills will be applied in real-life situations as students engage in career and vocational training in the community.

E11010 ENGLISH LANGUAGE AND CULTURE (GRADES 9-12)
CREDIT: 2.00 CREDIT
PREREQUISITE: N/A
 This course is for students who are beginning their study of the English language. We will introduce the basics of English listening, speaking, reading, and writing for students who are new to the American school setting. You will explore culture and meaning-making across your languages as well as practical language skills for social and academic purposes.

E12010 FILM APPRECIATION AND ANALYSIS (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: N/A
 Come watch movies during school! Join us as we see how production teams put together frames, lights, sound, sets, and costumes. We won't be making our own movies, but we'll watch a range of genres to explore the basics of film studies.

E12210 DISNEY: THE HAPPIEST ELECTIVE ON EARTH (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: N/A
 Experience a whole new world of Disney animation while revisiting old classics and new releases. You will take a look at the progression of Disney films from early movies to contemporary "live-action" remakes. What were the fairy tales that inspired the early films? How have Disney films represented or misrepresented people from around the world? What is it about Disney that makes so many of us keep coming back? Join us in this elective to find out!

E12610 FANTASY AND SCIENCE FICTION LITERATURE (GRADES 9-12)**
CREDIT: .50 CREDIT
PREREQUISITE: N/A
 Revolutionaries! Aliens! Adventurers! Magical creatures! Impressive technology! In this elective, we will discover fantastical landscapes, dystopian governments, and far-away worlds. We will read short stories, explore a few novels, and view films that help us define the fantasy and science fiction genres. See what fantasy and science fiction authors have to say about our current, everyday world and why these stories continue to be created and enjoyed.

E13010 DIGITAL CONTENT CREATION (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: N/A
 Ever wonder how to take a GOOD picture with your smartphone WITHOUT a filter? Want to know how TikTok influencers create cool transitions? Dream of being a YouTuber? In this course, students explore the world of media by understanding the basic building blocks of what makes a video. The course starts with the basics of photography and then moves into how a video is actually made of moving pictures. Students will plan, write scripts, film with video cameras, and edit using basic video editing software.

E13210 HOLOCAUST AND JEWISH LITERATURE (GRADES 9-12)**
CREDIT: .50 CREDIT
PREREQUISITE: N/A
 The Holocaust, as a genocidal event in the twentieth century, continues to draw attention and study. In this course, we will read nonfiction accounts and historical fiction to illuminate the horrors of antisemitism and the resistance to dictatorship. However, the Jewish experience is not limited to the 1930s and 1940s. This course will also consider contemporary literature by Jewish authors featuring Jewish characters that move beyond the Holocaust. This course would make a great extension of the Justice Education elective.

E13610 MARVEL, DC, AND BEYOND (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: N/A
 We will never be able to settle which comic universe is better, but we can try! Join us in sifting through illustrations, words, and movies to explore the world of comics, manga, and graphic novels. We will take a look at the history of this storytelling form and then jump into the many ways we now mix and match words and pictures to tell convincing stories. We will discuss and debate heroes, supervillains, adventure, and entertainment, and even explore how comics comment on the world we live in!

E14010 ACADEMIC ENGLISH 9**
CREDIT: 1.00 CREDIT
PREREQUISITE: N/A
 Academic English 9 develops literacy and communication strategies through the application of the Pennsylvania Core Standards for English Language Arts. Students will read a variety of fiction and nonfiction, including an exploration of mythology and an introduction to the work of William Shakespeare. Writing will build on prior knowledge of grammar and composition with a concentration on style, focus, organization, and conventions of language.

E14020 HONORS ENGLISH 9**
CREDIT: 1.00 CREDIT
PREREQUISITE: CRITERIA BASED ON PREVIOUS ACHIEVEMENT AND TEACHER RECOMMENDATION
 Honors English 9 develops literacy and communication strategies through the application of the Pennsylvania Core Standards for English Language Arts. Students will read a variety of fiction and nonfiction, including an exploration of mythology and an introduction to the work of William Shakespeare. Writing will build on prior knowledge of grammar and composition with a concentration on style, focus, organization, and conventions of language. Honors English requires more independent reading of advanced texts, detailed writing with greater clarity, and independent application of study skills with effective time management.

E16110 DEBATE ON CURRENT EVENTS (GRADES 9-12)**
CREDIT: .50 CREDIT
PREREQUISITE: N/A
 Are you interested in what is happening in society? Do you enjoy politics and learning more about what other people think? This course helps you hone your speaking skills, helps you work on your persuasion skills, and allows you to become familiar with the aspects of debate. This class will help you become informed about the world and grow in an essential skill for future success: public speaking.
This course was formerly part of Basic Forensics (G26010). All students may take this course, even if you already took Basic Forensics. Basic Forensics is no longer offered as a one-credit course.

McDowell Intermediate and McDowell High School Descriptions

E16210** PUBLIC SPEAKING (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This is one of the most important classes McDowell offers because an essential skill to future success is the ability to communicate well. This safe and non-controversial class will help you develop those skills and become more comfortable. You will analyze excellent speakers, read short pieces, and write your own speeches, preparing you well for high school, college, and the all-important job interview.

This course was formerly part of Basic Forensics (G26010). All students may take this course, even if you already took Basic Forensics. Basic Forensics is no longer offered as a one-credit course.

E23010 SPORTS AND NEWS BROADCAST JOURNALISM (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Do you like to ask people about their opinions on sports and news events? Do you watch ESPN "Sports Center" and find yourself talking about sports like you're an announcer at a game? Or perhaps you dreamed of being a reporter on "CCN10" when you were younger. This course explores video broadcast journalism, where students write stories like they are a news/sports anchor while working as a team to produce a live broadcast television-style program. Students use video cameras, microphones, and basic video editing software to create a finished production to share with the McDowell audience.

E24010** ACADEMIC ENGLISH 10

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

Academic English 10 fosters academic literacy and communication skills through the Pennsylvania Core Standards for English Language Arts. Students will read and analyze a variety of texts—fiction and nonfiction, short and extended pieces, poetry and drama—and explore the impact of propaganda. The development of student writing will concentrate on style, focus, organization, and conventions of language. This course culminates in the Literature Keystone Exam, which is a graduation requirement.

E24020** HONORS ENGLISH 10

CREDIT: 1.00 CREDIT

PREREQUISITE: A "B" AVERAGE IN 9TH GRADE HONORS ENGLISH AND/OR TEACHER RECOMMENDATION

Honors English 10 fosters academic literacy and communication skills through the Pennsylvania Core Standards for English Language Arts. Students will read and analyze a variety of texts—fiction and nonfiction, short and extended pieces, poetry and drama—and explore the impact of propaganda. The development of student writing will concentrate on style, focus, organization, and conventions of language. Honors English requires more independent reading of advanced texts, detailed writing with greater clarity, and independent application of study skills with effective time management. This course culminates in the Literature Keystone Exam, which is a graduation requirement.

E26010** CREATIVE WRITING (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

If you like writing poetry, short stories, or even essays, this course will help keep you on the "write track" in a low-risk classroom environment. You'll explore fiction, nonfiction, and poetry, and perhaps even get a piece or two of yours published!

E31010 EXPANDING ENGLISH LANGUAGE AND CULTURE (GRADES 9-12)

CREDIT: 2.00 CREDIT

PREREQUISITE: N/A

This course will expand on the foundations you learned in English Language and Culture. You will progress in proficiency in English listening, speaking, reading, and writing. Utilizing your home language(s) and English, you will explore meaning-making and expression. Our class will preview, revisit, and practice concepts from your other English Language Arts course. ACCESS test: here we come!

E33510 VIDEO PRODUCTION (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: DIGITAL CONTENT CREATION (INTRODUCTION TO MEDIA) OR SPORTS AND NEWS BROADCAST JOURNALISM CAN BE TAKEN MORE THAN ONCE

OTHER INFO:

"Lights! Camera! ACTION!" Students in this course expand on their videography and editing skills to become directors and filmmakers of short films and promotional videos. For all projects, students write scripts, shoot video using unique film techniques, and edit video using advanced editing software (e.g., Adobe Premiere). The projects give students lots of opportunities for creativity and teamwork.

E34010** ACADEMIC ENGLISH 11

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

Academic English 11 continues the development of the skills needed to show competency in the Pennsylvania Core Standards for English Language Arts of reading, writing, speaking, and listening. Students will read both the fiction and nonfiction of American writers. The improvement of research and writing skills is fostered through composition and vocabulary study. Students develop the literacy skills necessary for post-secondary experiences.

E34020** HONORS ENGLISH 11

CREDIT: 1.00 CREDIT

PREREQUISITE: A "B" AVERAGE IN 10TH GRADE HONORS ENGLISH AND/OR A TEACHER RECOMMENDATION

This is a course for the advanced English student. It is designed to utilize basic skills in language structure, to promote library research, and to develop the skills of expository writing. Representative works of American literature are studied.

E34410 INDEPENDENT RESEARCH PROJECT (GRADES 11-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

An independent research project involves rigorous investigation into an area of your choosing. Through carefully selected steps, students will identify a research question and prepare a written and oral presentation of their findings. The steps will vary by subject but may include analyzing advanced data, reading peer-reviewed research papers, speaking to mentors in the field, and possibly even designing and running their own experiment.

E34610** SHORT STORIES (GRADES 10-12)

CREDIT: .50 CREDIT

PREREQUISITE: GRADE 10 STUDENTS WILL NEED AN ELA TEACHER RECOMMENDATION

Short stories were created for busy people! What started as publishing chapters from a novel in magazines quickly became a genre of its own: the short story. In this class, we will study how a single day, or even an hour, can completely change a character's life.

E3530** AP® ENGLISH LANGUAGE AND COMPOSITION 11 (GRADE 11)

CREDIT: 1.00 CREDIT

PREREQUISITE: A "B" AVERAGE IN 10TH GRADE HONORS ENGLISH AND/OR A RECOMMENDATION FROM THE 10TH GRADE HONORS ENGLISH TEACHER

This language and composition introductory college course follows the College Board AP® curriculum in order to prepare students to take the AP® Exam in May. Emphasis on and practice of various modes of writing is central to the course. This course is designed for college-bound students who have a superior command of composition and grammar skills. Students read several texts critically, examining both rhetorical structure and content, with emphasis on understanding how authors use language to convey meaning. **Some works of literature studied in the AP® English 11 course are read in the summer preceding the AP® English course. Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

McDowell Intermediate and McDowell High School Descriptions

E36310 FORENSICS—SPEECH & DEBATE (GRADES 10-12)**
CREDIT: .50 CREDIT
PREREQUISITE: DEBATE ON CURRENT EVENTS AND/OR PUBLIC SPEAKING

A fear of public speaking can ruin your life. Studies show that his fear can lead to you being stuck in that dead-end job forever. If you want to increase your chance at SUCCESS, take Forensics-Speech & Debate and lead the way!

E36510 EXPLORING WRITING (GRADES 10-12)**
CREDIT: .50 CREDIT
PREREQUISITE: ADMISSION TO EXPLORING WRITING IS GAINED BY ACHIEVING A GRADE OF "B" OR BETTER IN HONORS ENGLISH OR A RECOMMENDATION FROM THE 10TH OR 11TH GRADE ACADEMIC TEACHER

Do you believe in the power of words? Do you want to search for and write about topics that are of interest to YOU instead of an assignment? Then come to Exploring Writing and find out what separates people who write from writers.

E37510 INTRODUCTION TO JOURNALISM (GRADES 9-12)**
CREDIT: .50 CREDIT
PREREQUISITE: N/A

Anyone who wants to expand their writing ability beyond a TDA, constructed response, or a 5-paragraph essay should try journalism. Here, students learn to become newspaper and magazine writers with the potential to see their names in print in a McDowell publication! Students get to choose their own topics in the areas of opinion, news, feature, or sports writing. Students research, interview, write, revise and publish their stories on a deadline.

E38010 YOUNG ADULT LITERATURE (GRADES 10-12)**
CREDIT: .50 CREDIT
PREREQUISITE: N/A

The goal of the Young Adult Literature course is for students to see themselves in the novels they read, analyze how authors craft character identities, build empathy for the world they interact in, and, ultimately, grow within their own identities. Students will read a wide variety of current YA novels that focus on identity/coming of age. This class is for avid readers and will largely be structured through independent reading time, inquiry discussions, and project-based activities.

E44010 ACADEMIC ENGLISH 12**
CREDIT: 1.00 CREDIT
PREREQUISITE: N/A

Academic English 12 focuses on the mastery of the Pennsylvania Core Standards for English Language Arts of reading, writing, speaking, and listening. Literacy skills in both print and non-print media are developed. Students will read representative selections of English literature. The composition component of the course is directed toward both expository and research writing. Vocabulary study supplements both the reading and writing components of the course. Emphasis on written and spoken communication skills provides opportunities to prepare for post-secondary experiences.

E44020 HONORS ENGLISH 12**
CREDIT: 1.00 CREDIT
PREREQUISITE: A "B" AVERAGE FROM 11TH GRADE HONORS ENGLISH AND/OR A RECOMMENDATION FROM THE 11TH GRADE HONORS ENGLISH TEACHER

This is a course for the advanced English student. It includes expository writing assignments that focus on text knowledge and critical analysis of representative works from various genres and periods. Course activities focus on the use of critical standards for evaluation of the writer's craft and interpretation of the text. Additionally, the research paper project encourages the advanced English student to develop skills in research, organization, writing, editing, documentation, and ethical use of source material.

E45530 AP® ENGLISH LITERATURE AND COMPOSITION 12 (GRADE 12)**
CREDIT: 1.00 CREDIT
PREREQUISITE: A "B" AVERAGE IN AP® ENGLISH LANGUAGE AND COMPOSITION 11 AND/OR A RECOMMENDATION FROM THE 11TH GRADE TEACHER

This AP® course follows the College Board Advanced Placement® curriculum and prepares students to take the Advanced Placement® Exam in May. This course develops specific analytical approaches to literature. The course includes an emphasis on various types of writing based upon a college text on composition. In addition to reading from various genres, students will concentrate on literary devices in the specific works studied utilizing meta-cognitive tools for reading. This concentration involves taking at least four AP® practice exams with the intention of preparing students to take the AP® Exam. Students are required to write 2 essays per quarter of 500 words or 5 paragraphs based on the works covered during that quarter. Additional in-class assignments include written reflections, journals, text summaries, and research based upon the cognitive dimension. **Some works of literature studied in the AP® English 12 course are read in the summer preceding the AP® English course. Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

E47010Q MCDOWELL MEDIA NEWSROOM (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: INTRODUCTION TO JOURNALISM (JOURNALISM 1) OR SPORTS AND NEWS BROADCAST JOURNALISM
OTHER INFO: CAN BE TAKEN MORE THAN ONCE

E47010 MCDOWELL MEDIA NEWSROOM (GRADES 9-12)
CREDIT: 1.00 CREDIT
PREREQUISITE: INTRODUCTION TO JOURNALISM (JOURNALISM 1) OR SPORTS AND NEWS BROADCAST JOURNALISM
OTHER INFO: CAN BE TAKEN MORE THAN ONCE

Come to work in a real newsroom where everyone works toward one goal: publication! Whether you are going to continue writing the opinion, news, or feature stories you learned in Introduction to Journalism or choose to make more video stories like you did in Sports and News Broadcast Journalism, you will help inform the Millcreek community through various McDowell Media outlets. Some students choose to expand their journalistic knowledge into other media-related jobs like copyediting, photography, magazine design, or podcasting. Students are encouraged to explore their own areas of interest and work independently while understanding what the McDowell audience needs to know and bring that together as a team.

E50030 ENGLISH DUAL ENROLLMENT
CREDIT: 1.00 CREDIT
PREREQUISITE: CRITERIA LISTED BELOW AND PRINCIPAL PRE-APPROVAL

Juniors (mostly second semester) with an unweighted GPA of 3.5 and Seniors with an unweighted GPA of 3.25 may attend college courses (either at a local college campus or an RCI site). The college course and grade earned will be placed on the high school transcript. Where school dismissal is required to attend such classes, the schedule at McDowell shall be adjusted. See your counselor in Guidance for more information.

McDowell Intermediate and McDowell High School Descriptions

Family and Consumer Sciences

F10510 EXPLORING CULINARY ARTS (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: N/A

Exploring Culinary Arts is an introductory course in foods and nutrition. Students will have the opportunity to cook in each unit, as well as participate in food preparation demonstrations and various classroom activities. Units will include Safety & Sanitation, Kitchen Tools & Techniques, Kitchen Appliances, Microwave Cooking, Basic Nutrition, Menu Planning, and Grocery Shopping.

F10810 LIFETIME NUTRITION (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: N/A

Lifetime Nutrition is a course based on a wide range of cooking experiences. Students will have the opportunity to learn and practice culinary techniques from all food groups, including grains, fruits, vegetables, dairy, eggs, and proteins. Special diets for health concerns will also be addressed in this course.

F11210 CREATIVE COOKING (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: N/A

Creative Cooking is a culinary course focusing on advanced cooking techniques and ingredients. Students will prepare recipes from the following units: Meats, Poultry, Beans, Soups, Stocks, Sauces, Spices and Herbs, Salads and Dressings, Casseroles, Appetizers, Party Planning, and Entertaining.

F11610 BAKING & PASTRY ARTS (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: N/A

This course is designed to enhance the students' knowledge of baking techniques and ingredients. They will have the opportunity to explore the creative aspects of baking to include the following units: Breads, Cakes and Cake Decorating, Pies, Pastries, Cookies, and Candies.

F12010 FASHION & FABRICS 1 (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: N/A

This course is designed to introduce the student to the world of fashion and clothing construction techniques. Students will be able to apply the principles of design to fashion and fabrics while completing a variety of sewing projects.

F21610 BAKING AND PASTRY ARTS 2 (GRADES 10-12)
CREDIT: .50 CREDIT
PREREQUISITE: "B" OR BETTER IN BAKING AND PASTRY ARTS

Baking and Pastry Arts 2 is an upper-level course that provides in-depth work in various baked goods and confections, which require skills, techniques, and knowledge from Baking and Pastry Arts. Each unit will focus on a specific skill in baking and the student's ability to use that skill successfully and creatively to make, create, and/or modify a variety of baked and dessert products. Students will learn how to apply the principles of baking to produce quality products while focusing on visual appeal, taste, texture, and nutritional content. Students will be tasked researching baked goods to create their own recipes to achieve desired outcomes, including nutritional aspects. The students will be equipped to prepare a variety of baked goods and varying degrees of difficulty for a variety of occasions in their lives.

F22010 FASHION & FABRICS 2 (GRADES 9-12)
CREDIT: .50 CREDIT
PREREQUISITE: FASHION & FABRICS 1

This course is offered to students who successfully completed Fashion and Fabrics 1. The students will advance their sewing skills while applying a creative approach to the world of fashion. Students will expand their skills on the conventional sewing machine and become proficient on the serger and embroidery machines.

F23010 EDUCATION PROFESSION LEVEL 1 (GRADES 9-12)
CREDIT: 1.00 CREDIT
PREREQUISITE: CLEARANCES REQUIRED

This course is designed to help students prepare for a career in early childhood education or to simply learn more about children in general. The curriculum teaches techniques to guide children through a variety of daily experiences in safe, educational ways. Success in working with children begins by understanding children. This course begins with an overview of the physical, intellectual, social, and emotional characteristics of young children. The curriculum goes on to teach practical techniques for guiding children as one establishes rules and handles daily routines. In addition, students will learn techniques for keeping children safe, healthy, and nourished, as well as learning to provide experiences and lessons that build children's enthusiasm for learning. Also, students will spend time observing and doing fieldwork in our on-site preschool. **Please note, there are student fees required for this course. See guidance for details.**

F27010 CAREER EXPLORATION (GRADES 10-12)
CREDIT: .50 CREDIT
PREREQUISITE: N/A

This course guides students through an informed career decision-making process, which includes several self-awareness experiences, and directs them through career research, post-secondary education research, and a budget and lifestyle component. Students research careers they are interested in, and they complete a final exam project that incorporates the career choice as well as other course experiences and information. It is recommended this course be taken during the 10th and 11th grade year.

F32010 FASHION ENTREPRENEURSHIP (GRADES 10-12)
CREDIT: .50 CREDIT
PREREQUISITE: FASHION & FABRICS 1 & 2

This class allows students to further develop their skills and techniques related to clothing construction. Students will continue to complete various projects and performance tasks while furthering their construction skills. Emphasis will be placed on concepts and skills associated with entrepreneurship in related areas of Fashion and Fabrics. Students will operate an existing business, Trojan Tailors while advancing their skills in alteration, embroidery, and product design. A wide variety of career opportunities related to the clothing industry will also be covered.

F33010 EDUCATION PROFESSION LEVEL 2 (GRADES 10-12)
CREDIT: 1.00 CREDIT
PREREQUISITE: EDUCATION PROFESSION LEVEL 1, "B" AVERAGE, TEACHER RECOMMENDATION, CLEARANCES REQUIRED

This course is a laboratory experience designed for motivated students who have demonstrated effective work habits in Education Profession Level 1 and have a strong interest in possible careers working with children. A student selecting the Education Profession Level 2 course will have the personal opportunity of observing firsthand the concepts taught in Education Profession Level 1, concerning the physical, social, emotional, and cognitive development of the preschool child through observation and teaching of children in a preschool classroom located within our community. This experience also includes planning, children's activities in weekly and daily block plans, teaching lessons to children around various subject areas and themes, maintaining portfolios, completing written observations, and continued work in meeting CDA Competencies. **Please note, there are student fees required for this course. See guidance for details.**

McDowell Intermediate and McDowell High School Descriptions

F34010 SURVIVING AND THRIVING ADULTHOOD (GRADES 11-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

The Surviving and Thriving Adulthood course is designed to create a smooth transition from high school into the “real world”. Students will work through units of study designed to create a foundation of knowledge and skills that will better equip them to handle adult challenges and obstacles. Areas of study will include healthy dating relationships, personal and career success, adult behaviors, and skills. In addition, students will explore current events and participate in service learning opportunities.

F43010 EDUCATION PROFESSION LEVEL 3 (GRADES 11-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: EDUCATION PROFESSION LEVELS 1 & 2,
TEACHER RECOMMENDATION,
CLEARANCES REQUIRED

Students who have taken both Education Profession Level 1 and Education Profession Level 2 courses and have obtained the necessary teacher recommendation, may choose to select the Education Profession Level 3. The Education Profession Level 3 is recommended for students who have a sincere interest in pursuing a career in Early Childhood Education, Elementary or Secondary Education, daycare, or related fields dealing with children. The curriculum is designed to help students understand child growth and development through direct interaction with children in a setting where they are with a certified teacher. In-class time is devoted to preparation/completion of the CDA Ready Certificate Requirements. **Please note, there are student fees required for this course. See guidance for details.**

McDowell Intermediate and McDowell High School Descriptions

General Electives

G14010 UNITED STATES ACADEMIC DECATHLON (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

G44510 UNITED STATES ACADEMIC DECATHLON (GRADE 12 ONLY)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course is open to any 9-12th grade student who would like to participate in the United States Academic Decathlon competitions. The topics of study include Language & Literature, Fine Arts, Music, Mathematics, Science, Economics, Social Science, Essay, Interview, Prepared Speech, and Impromptu Speech. This course is definitely NOT designed solely for honor students. In order for McDowell to compete successfully, students are needed from all academic levels: Honors (GPA 3.75-4), Scholastic (GPA 3.0-3.74), and Varsity (GPA 3.0 and below). Participation in United States Academic Decathlon League affords all students, regardless of GPA, the opportunity to earn college scholarships as well as other awards. Former participants will also attest to the benefit they have gained in their study skills and personal communication skills because of USAD. Students may also participate individually in the program without being in the class with the prior permission from the instructor.

Note: This is an extracurricular activity as well as a class, and students should not sign up for the class unless they are prepared to meet after school and occasional weekends.

G17010 SOCIAL SKILLS (GRADES 9-10)

G37010 SOCIAL SKILLS (GRADES 11-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: IEP

Students with social or behavioral needs will schedule this elective course. This course is offered to students who need assistance in developing friendships and social interactions with peers and the community. It can be taken as a yearlong or semester course. Topics will include adolescent/young adult social issues, dealing with feelings, manners, getting along with others, etc. Field trips into the community to practice and develop these skills will be part of the curriculum.

G17410 DECISION MAKING 1 (GRADES 9-10)

G37410 DECISION MAKING 2 (GRADES 11-12)

CREDIT: .50 CREDIT

PREREQUISITE: IEP

This course is designed to develop individual decision-making skills immediate reaction to short-term and long-term planning. The use of researched based strategies, individual student needs, and real-life application are a fundamental part of the course. Students who are at a basic level of utilizing decision-making skills will be recommended for this course through their advisor or counselor.

G17610 DAILY LIVING (GRADES 9-10)

G37610 DAILY LIVING (GRADES 11-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: IEP

Students needing instruction with personal care and developing independent skills at home and in the community will be scheduled for this elective course. Topics may include personal hygiene, basic cooking, daily schedules, cleaning, laundry, grocery shopping, and self-advocacy. Field trips into the community to practice and develop these skills will be a part of the curriculum.

G17710 WORK SKILLS (GRADES 9-10)

G37710 WORK SKILLS (GRADES 11-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: IEP

Students needing a high level of support to develop employable skills will be scheduled for this elective course. Instruction will focus on the development of soft skills and hard skills for the workplace. Work experiences in school and in the community will be a part of the curriculum.

G24030**

CREDIT:

PREREQUISITE: ADMINISTRATIVE APPROVAL REQUIRED

AP® SEMINAR (GRADES 10-11)
1.50 CREDIT
AP® Seminar is a foundational course that engages students in cross-curricular conversations where they can explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Using an inquiry framework, students practice reading and analyzing articles, researching foundational, literary, and philosophical texts; listening to and viewing speeches, broadcasts, and personal accounts; and experiencing artistic works and performances. They synthesize information from multiple sources, develop their own perspectives in written essays, and design and deliver oral and visual presentations, both individually and as a team. Ultimately, the course aims to equip students with the power to analyze and evaluate information with accuracy and precision so they can craft and communicate evidence-based arguments. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

G29110 INDEPENDENT STUDY (GRADES 9-10)

G39110 INDEPENDENT STUDY (GRADES 11-12)

CREDIT: .50 CREDIT

PREREQUISITE: APPLICATION PROCESS

Independent Study is a program that is available for students who wish to pursue an in-depth study of a particular topic. Both teacher and student-designed programs are available and scheduled by quarter/semester only. Students may earn a maximum of one credit, per year, for independent study. The course will be Pass/Fail and will not be included in class rank, but will count as an elective credit for graduation. A PowerPoint presentation must be produced to explain your independent study project. The student must complete Independent Study paperwork and be approved before Independent Study can be placed on a students' schedule. **Independent Study will not be scheduled until approved.** Contact the Guidance Office for further information.

G30510 ACADEMIC SUPPORT (GRADES 11-12)

CREDIT: .50 CREDIT

PREREQUISITE: IEP

Students with academic needs will schedule this elective course. This program provides reinforcement and support for the student and develops study skills and learning strategies in the content areas. Taking this course will help students develop organizational skills, a greater understanding of their own learning styles, and develop learning strategies. Grading is Pass/Fail.

G33510 CURRENT EVENTS (GRADES 11-12)

CREDIT: .50 CREDIT

PREREQUISITE: IEP

Students requiring a higher level of instruction to understand current events will be scheduled for this course. Topics will be focused on current local, state, and national events and how it impacts the individual.

G44030**

CREDIT:

PREREQUISITE: ADMINISTRATIVE APPROVAL REQUIRED

AP® RESEARCH (GRADE 12)
2.00 CREDIT
AP® Research allows students to deeply explore an academic topic, problem, or issue of individual interest. Through this exploration, students design, plan, and conduct a yearlong investigation to address a research question. In the AP® Research course, students further develop the skills acquired in the AP® Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Students reflect on their skill development, document their processes, and curate the artifacts of their scholarly work through a process and reflection portfolio. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

McDowell Intermediate and McDowell High School Descriptions

G48510 INTERNSHIP/JOB SHADOWING (GRADES 11-12)

CREDIT: .50 CREDIT

PREREQUISITE: 2.0 GPA AND 90% ATTENDANCE RATE

Internship is an opportunity for students to get outside the walls of McDowell and job shadow in a field they have an interest in learning more about and/or pursuing after graduation. It is an opportunity to gain real-world experience, build community connections, develop professional skills, and looks great on a transcript and resume. Students will shadow 4 hours per week during Monday-Thursday. Every Friday, students report to class for instruction/reflection/experience sharing. Students are required to find their own replacement and must provide their own transportation. Students can take this elective for a max of 2 quarters, with a different shadowing experience each quarter.

G48610 MCDOWELL MANUFACTURING INTERNSHIP (GRADES 11-12)

CREDIT: .50 CREDIT

PREREQUISITE: 2.0 GPA AND 90% ATTENDANCE RATE

This course is an opportunity for students to develop new and additional career awareness and career education activities to better prepare for the workplace and post-secondary education. Students with specific career objectives are matched with related employment experiences as they will be creating real parts for local manufacturing companies and adding value to the local supply chain. Schedules are individualized based on employer and student needs. Students will be doing their internship in the McDowell Manufacturing Lab located on the McDowell campus.

McDowell Intermediate and McDowell High School Descriptions

Mathematics

M11010 MATH (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: TEACHER RECOMMENDATION

OTHER INFO: CAN BE TAKEN MORE THAN ONCE

This course reviews math computation and word problems while introducing algebraic concepts using manipulatives and guided practice. Students engage with the material through large-group, small-group, and independent work. These mathematical skills will be applied in real-life situations as students engage in career and vocational training in the community.

M12010** MATH 1 (GRADE 9)

CREDIT: 1.00 CREDIT

PREREQUISITE: IEP

This course is designed for students who need additional support with the Algebra 1 curriculum. The Math 1, Math 2, and Math 3 courses provide the full Algebra 1 curriculum. Students are scheduled for this course by recommendation from an advisor or counselor.

M13910A** ACADEMIC ALGEBRA 1 Part A

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

This course is designed for students who have shown sufficient knowledge of fundamental operations and Pre-algebra concepts. Students will begin learning concepts of algebra including a thorough review of Pre-algebra skills, solving equations and inequalities, linear functions, and systems of equations. Students who complete this course successfully will be scheduled into Algebra 1 Part B.

M13910B** ACADEMIC ALGEBRA 1 Part B

CREDIT: 1.00 CREDIT

PREREQUISITE: SUCCESSFUL COMPLETION OF ALGEBRA 1 PART A

This course is designed for students who have completed Algebra 1 Part A successfully. Students will finalize their learning of concepts of algebra including solving systems of equations, working with exponents and radicals, investigating data analysis and probability, and solving with polynomials. Students who complete this course successfully will be prepared for Geometry and Algebra 2.

M14010** ACADEMIC ALGEBRA 1

CREDIT: 1.00 CREDIT

PREREQUISITE: RECOMMENDATION FROM AN ADVISOR OR COUNSELOR

Algebra 1 is a one-semester, one-credit course designed as a beginning study of Algebra. The course introduces students to variables, algebraic expressions, functions, linear equations and inequalities, linear systems, polynomials, probability, and data analysis while giving students the opportunity to explore and solve real-world application problems.

M22010** MATH 2 (GRADE 10)

CREDIT: 1.00 CREDIT

PREREQUISITE: IEP

This course is designed for students who need additional support with the Algebra 1 curriculum. The Math 1, Math 2, and Math 3 courses provide the full Algebra 1 curriculum. Students are scheduled for this course by recommendation from an advisor or counselor.

M23410 GEOMETRY ESSENTIALS (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: ALGEBRA 1 PART A AND ALGEBRA 1 PART B

Geometry Essentials focuses on points, lines, planes, and other geometric figures as they relate to our physical world. Students will engage in a study of coordinate geometry, parallel and perpendicular lines, triangle congruence, properties of polygons and circles, similarity, right triangle trigonometry, area, and volume.

M24010** ACADEMIC GEOMETRY

CREDIT: 1.00 CREDIT

PREREQUISITE: STUDENTS WHO HAVE SUCCESSFULLY COMPLETED ALGEBRA 1

Academic Geometry is a one-semester, one-credit course which focuses on points, lines, planes, and other geometric figures as they relate to our physical world. Students will engage in a study of geometric reasoning, coordinate geometry, parallel and perpendicular lines, triangle congruence, properties of polygons and circles, similarity, right triangle trigonometry, area, and volume and will apply this learning to solve real-world mathematical problems.

M24020** HONORS GEOMETRY

CREDIT: 1.00 CREDIT

PREREQUISITE: A "B" AVERAGE OR BETTER IN ALGEBRA 1 WITH TEACHER RECOMMENDATION

Honors Geometry is a one-semester, one-credit course in which emphasis is placed on problem-solving, understanding, applying, justifying, and developing geometric properties in two and three dimensions. Students will engage in an in-depth study of geometric reasoning, coordinate geometry, parallel and perpendicular lines, triangle congruence, properties of polygons and circles, similarity, right triangle trigonometry, area, and volume and will apply this learning to solve real-world mathematical problems.

M32010** MATH 3 (GRADE 11)

CREDIT: 1.00 CREDIT

PREREQUISITE: IEP

This course is designed for students who need additional support with the Algebra 1 curriculum. The Math 1, Math 2, and Math 3 courses provide the full Algebra 1 curriculum. Students are scheduled for this course by recommendation from an advisor or counselor.

M33410 ALGEBRA 2 ESSENTIALS (GRADES 11-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: ALGEBRA 1 PART A AND ALGEBRA 1 PART B AND GEOMETRY ESSENTIALS

This course is designed for students who require additional support or have varying learning needs in the study of Algebra. It focuses on the essential algebraic concepts necessary for success in subsequent mathematics courses and in everyday life. The course provides a supportive and structured environment for students to develop a foundational understanding of algebraic principles.

M34010** ACADEMIC ALGEBRA 2 (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: STUDENTS WHO SUCCESSFULLY COMPLETED GEOMETRY

This course is designed for college-bound students who need sufficient math to prepare for college admissions tests and meet college entrance requirements to various fields of study. Higher level Algebra topics including functions and their representations will be covered.

M34020** HONORS ALGEBRA 2 (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: A "B" AVERAGE OR BETTER IN ALGEBRA 1 AND HONORS GEOMETRY AND/OR TEACHER RECOMMENDATION

Honors Algebra 2 is a one-semester, one-credit course that introduces students to advanced functions, while emphasizing problem-solving and reasoning. Students will engage in a study of functions, linear equations, systems, matrices, polynomials, rational expressions and equations, quadratics, exponential and logarithmic functions, series and sequences, probability, and statistics and will apply this learning to solve real-world mathematical problems.

McDowell Intermediate and McDowell High School Descriptions

M34720 HONORS FINANCIAL ALGEBRA (GRADES 11-12)
CREDIT: 1.00 CREDIT
PREREQUISITE: ACADEMIC ALGEBRA 2 OR HONORS ALGEBRA 2

This honors-level course is designed to empower students with the mathematical skills and financial knowledge necessary to navigate the complex world of personal finance and make informed decisions about their financial futures. The course combines fundamental algebraic concepts with practical applications in the context of personal finance, investments, and economics.

M42010 CONSUMER MATHEMATICS (GRADE 12)
CREDIT: 1.00 CREDIT
PREREQUISITE: N/A

This course is designed for students who plan to complete their fourth credit in mathematics outside the traditional college preparatory curriculum. Mathematical procedures will be applied to everyday consumer problems. Units will include budgeting, banking, earning and spending money, taxes, and managing household and travel expenses.

M45010 ACADEMIC TRIGONOMETRY/ALGEBRA 3**
CREDIT: 1.00 CREDIT
PREREQUISITE: AT LEAST A "C" AVERAGE IN ALGEBRA 2 AND GEOMETRY WITH A TEACHER RECOMMENDATION

This course is designed for students who are college bound and/or contemplate math or science-related careers. The depth and difficulty of problems demand that computations be completed with speed and accuracy, which will be a focal point of this course. College-bound students who contemplate math or science-related careers are encouraged to take this course to expand their problem-solving and analyses skill sets.

M46020 HONORS PRE-CALCULUS/TRIGONOMETRY**
CREDIT: 1.00 CREDIT
PREREQUISITE: AT LEAST A "B" AVERAGE IN HONORS ALGEBRA 2 OR AT LEAST A "B" AVERAGE IN TRIGONOMETRY/ALGEBRA 3 WITH A TEACHER RECOMMENDATION

This course is designed to effectively prepare the college-bound student with the appropriate math skills, manipulative methods, and concept comprehension requisite to successfully study calculus. It is a blending of the major topics from Algebra 3, Trigonometry, and Analytical Geometry. Students needing to study calculus in the pursuit of their careers would benefit from this course. These fields of study include engineering, science, mathematics, business, medicine, finance, economics, architecture, and education.

M50030 MATHEMATICS DUAL ENROLLMENT
CREDIT: 1.00 CREDIT
PREREQUISITE: CRITERIA LISTED BELOW AND PRINCIPAL PRE-APPROVAL

Juniors (mostly second semester) with an unweighted GPA of 3.5 and Seniors with an unweighted GPA of 3.25 may attend college courses (either at a local college campus or an RCI site). The college course and grade earned will be placed on the high school transcript. Where school dismissal is required to attend such classes, the schedule at McDowell shall be adjusted. See your counselor in Guidance for more information.

M56020 HONORS CALCULUS**
CREDIT: 1.00 CREDIT
PREREQUISITE: AT LEAST A "B" AVERAGE GRADE IN HONORS PRE-CALCULUS WITH TEACHER RECOMMENDATION

Honors Calculus is a full credit course offered to those students with high math aptitude and mastery of acquired prerequisite math skills. The curriculum will be similar to an introductory college-level course including functions, graphs, limits, derivatives, integrals, applications, modeling, and use of technology. Students who need to study calculus in college will benefit from this course. These include students majoring in science, business, mathematics, engineering, medical, and computer-related fields.

M56030S AP® CALCULUS AB (GRADES 11-12)**
CREDIT: 1.00 CREDIT—SEMESTER
M56030Y AP® CALCULUS AB (GRADES 11-12)**
CREDIT: 2.00 CREDIT—YEARLONG
PREREQUISITE: "A" AVERAGE IN HONORS PRE-CALCULUS WITH A TEACHER RECOMMENDATION

A Pre-calculus packet must be completed prior to the first day of class. This packet will be available in the Guidance Office once the course is added to a student's schedule. Calculus AB includes topics equivalent to most college level Calculus 1 and some Calculus II. This course will follow the College Board Advanced Placement® Exam in May. It is offered to those students with exceptional math aptitude and mastery of algebraic, geometric, trigonometric, analytical, and calculator skills. Modern themes of the revised AP® curriculum to be emphasized include multi-representational approaches of functions, graphs, limits, derivatives, integrals, applications, modeling, and use of technology. Test-taking strategies requisite for successful performance on the AP® Exam will be emphasized throughout the course. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

M57010 PROBABILITY AND STATISTICS (GRADES 11-12)**
CREDIT: 1.00 CREDIT
PREREQUISITE: AT LEAST A "B" IN ALGEBRA 2 OR HIGHER

This is a course designed to effectively prepare college-bound students with the appropriate statistical tools and theory necessary to collect and analyze data wisely. The students will also be able to use the data to draw the appropriate inferences for populations and regarding hypothesis testing. Students interested in pursuing a career in technology, medicine, engineering, business, economics, nursing, mathematics, psychology, sociology, or education will benefit from this elective.

M57020 HONORS PROBABILITY AND STATISTICS (GRADES 11-12)**
CREDIT: 1.00 CREDIT
PREREQUISITE: "A" OR "B" IN HONORS ALGEBRA 2 OR HIGHER MATH WITH A TEACHER RECOMMENDATION

This is a course designed to effectively prepare college-bound students with the appropriate statistical tools and theory necessary to collect and analyze data wisely. The students will also be able to use the data to draw the appropriate inferences for populations and regarding hypothesis testing. Topics are presented at an accelerated pace and in greater depth than the academic course. Students interested in pursuing a career in technology, medicine, engineering, business, economics, nursing, mathematics, psychology, sociology, or education will benefit from this elective.

M57030 AP® STATISTICS (GRADES 10-12)**
CREDIT: 1.00 CREDIT
PREREQUISITE: "A" OR "B" IN HONORS ALGEBRA 2 OR HIGHER MATH WITH A TEACHER RECOMMENDATION

AP® Statistics involves the study of four main areas: exploring data, sampling and experimentation, anticipating patterns using probability, and statistical inference. This is **not** Calculus-based statistics. The materials presented will allow the students to not only calculate the data but also interpret and communicate the data effectively. This course, unlike other math courses, requires the students to read the text and answer questions with written explanations on a daily basis. In addition to reading, the students will also learn through a variety of discovery, group and calculator activities that allow the students to develop their own understanding at a higher level of thinking. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

McDowell Intermediate and McDowell High School Descriptions

M58030** **AP® CALCULUS BC (GRADES 11-12)**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **HONORS OR AP® CALCULUS WITH A
TEACHER RECOMMENDATION REQUIRED**

Calculus BC includes topics equivalent to most college level Calculus I, II, and some Calculus III. Through the use of the unifying themes of derivatives, integrals, limits, approximation and applications, and modeling, the course becomes a cohesive whole rather than a collection of unrelated topics. The course emphasizes a multi-representational approach to calculus, with concepts, results, and problems being expressed graphically, numerically, analytically, and verbally. The connections among these representations also are important. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

NOTE:

Students are not able to take two math courses in one school year without teacher recommendation, administrative approval, and parent consent.

McDowell Intermediate and McDowell High School Descriptions

Science

C10010 **SCIENCE**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **IEP**

Students with academic needs will schedule this elective course. The course focuses on developing science skills and understanding used in real life situations.

C14110** **ACADEMIC ENVIRONMENTAL SCIENCE (GRADE 9)**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **TEACHER RECOMMENDATION**

The environmental science student at McDowell will study earth processes and resources and evaluate how human use of those resources impacts the environment. Topics include plate tectonics, earth's resources, land use, watersheds, sustainability and climate change. By the end of the course, students will have a better understanding of how to live more sustainably in order to balance environmental protection and the development of human society.

C15510 **EARTH AND SPACE SCIENCE (GRADES 9-12)**
CREDIT: **.50 CREDIT**
PREREQUISITE: **NOT FOR STUDENTS WHO HAVE TAKEN EARTH AND SPACE SCIENCE 1.0 CREDIT**

In this course, students will examine concepts through experimentation and research. These topics may include but are not limited to Astronomy, Meteorology, and Geology. In Astronomy, possible topics include the universe, galaxies, stars, motions of the Earth, moon phases, and the Solar System. In meteorology, topics may include air and atmosphere, weather conditions, and severe storms. In Geology, topics may include weathering and erosion, Earth's history, and rocks and minerals.

C22010** **APPLIED BIOLOGY**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **TEACHER RECOMMENDATION**

Biology is designed to meet the state standards of biological sciences. The emphasis of this course is on the characteristics of life, classification of living things, the chemical and cellular basis of life, genetics, evolution, and ecology. The course includes laboratory experiences and frequent quizzes. Students are expected to keep an organized binder and to be able to work both in groups and independently. Students will take the Keystone Biology Exam upon completion of the course.

C24010** **ACADEMIC BIOLOGY**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **TEACHER RECOMMENDATION**

Academic Biology meets the state standards for biological sciences and offers a broad survey of biology with emphasis on the characteristics of life, classification of living things, the chemical and cellular basis of life, microscopy, genetics, DNA technology, evolution, and ecology. Students are expected to keep an organized notebook, complete independent reading of the text, apply analytical skills in laboratory investigations, and demonstrate high motivation. Students will take the Keystone Biology Exam upon completion of the course.

C24020** **HONORS BIOLOGY (GRADES 9-10)**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **AN "A" IN GRADE 8 SCIENCE AND AN "A" OR "B" IN GRADE 8 HONORS ENGLISH LANGUAGE ARTS**

Honors Biology is designed for college-bound students who have maintained an "A" or "B" average in previous honors level math and science classes. Students are expected to have a strong interest in science as well as a desire to challenge themselves. The course stresses the depth of subject matter to begin to prepare students for future biology courses while covering the state standards for biological science. Students experience a rigorous study in the areas of biochemistry, cytology, genetics, and evolution, enhanced by in-depth laboratory investigations. Students will take the Keystone Biology Exam upon completion of the course.

C25030** **AP® BIOLOGY (GRADES 11-12)**
CREDIT: **2.00 CREDIT**
PREREQUISITE: **HONORS BIOLOGY (FINAL GRADE OF "B" OR HIGHER) AND HONORS/AP CHEMISTRY (FINAL GRADE OF "B" OR HIGHER) WITH PRE-APPROVAL FROM THEIR CURRENT SCIENCE INSTRUCTOR. RECOMMENDED COMPLETION OR CONCURRENT ENROLLMENT IN A STATISTICS COURSE.**

AP® Biology is a rigorous course focusing on enduring, conceptual understandings and the content that supports them. Students will spend a large amount of time on inquiry-based learning of essential concepts, develop reasoning skills necessary to engage in the "6 Science Practices", and is laboratory intensive. Students who take AP® Biology will also develop advanced inquiry and reasoning skills, such as designing a plan for collecting data, analyzing data, applying mathematical routines, and connecting concepts in and across domains. The result will be readiness for the study of advanced topics in subsequent college courses. The AP® Biology course is equivalent to a two-semester college introductory biology course covering four "Big Ideas": Evolution, Cellular Processes, Genetics & Information Transfer, and Biological Interactions. This AP® course will follow the College Board Advanced Placement® curriculum and will facilitate students preparing to take the Advanced Placement® Exam. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

C28010** **CSI FORENSIC SCIENCE (GRADES 11-12)**
CREDIT: **.50 CREDIT**
PREREQUISITE: **AN "A" OR "B" IN ACADEMIC/HONORS BIOLOGY**

The focus of this laboratory intensive, upper-level course will be to introduce students to some of the specialized fields of forensic science, the principles of science and technology upon which they are based, and the application of these principles to various analyses of crime scene evidence. Students will examine forensic sciences, criminal cases, and the law from an interdisciplinary approach. Students will be exposed to tools and techniques employed by forensic science, expert witnesses, and the application of forensic science to the law. Example topics include History of Forensic Science, types of evidence; crime scene investigation, latent fingerprints; trace evidence; hair and fiber analysis; soil and glass analysis; blood and serology; DNA analysis; drugs and toxicology; human remains; firearms, tool marks, and impressions; forensic entomology and decomposition. Other possible topics include fraudulent document identification, as well as fire and explosives examination. The laboratory experience will involve analyses based on methods such as observation; thin-layer chromatography, microscopic examination and evaluation; forensic photography; latent fingerprint lifting and analysis; density and refractive index of glass; luminal detection of blood, blood spatter analysis, ABO and Rh blood typing, DNA extraction and gel electrophoresis; measurement and comparison. Students will be required to complete "Crime Reports" based on evidence they have collected.

C31010** **SCIENCE IN THE COMMUNITY**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **IEP**

Science in the Community is the hands-on practical study of scientific principles in the real world. Students will study concepts and principles in the area of general science by conducting experiments and laboratory activities.

C32010** **APPLIED CHEMISTRY**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **TEACHER RECOMMENDATION**

In this course each unit presents a science-technology-society problem or issue then develops the chemistry concepts that help to resolve the issue. The course focuses on 4 units that explore fundamental chemistry concepts: Water: Exploring Solutions, Materials: Structure and Uses, Petroleum: Breaking and Making bonds, and Air: Chemistry and the Atmosphere.

McDowell Intermediate and McDowell High School Descriptions

C33010 MECHANICAL SCIENCE (GRADES 11-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

This course emphasizes hands-on laboratory analysis, with a focus on problem-solving abilities and communication. Students will collaborate to investigate simulations of experiences in the science industry. The physical science course will examine topics such as coding, electroplating, innovation through work in the fields of physics, chemistry, manufacturing, and engineering. Students will be given real-world scenarios that will duplicate situations experienced in the industry. The students will then be required to work together with groups, assuming varied roles in the group to interpret data, evaluate situations, create solutions and propose changes based on the simulated scenarios.

C33510 CONSERVATION SCIENCE (GRADES 11-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

Students will develop skills, build an understanding of science and learn scientific techniques taught through the lens of conservation with an emphasis on hands-on, real-world activities. The curriculum focuses on wildlife conservation and the outdoor recreational activities that financially support the North American model of Wildlife Conservation, such as hunting, fishing, trapping, conservation work, shooting sports, and boating.

C34010 ACADEMIC CHEMISTRY**

CREDIT: 1.00 CREDIT

PREREQUISITE: SUCCESS IN THIS COURSE REQUIRES A SOLID BACKGROUND IN MATHEMATICS AND A MINIMUM GRADE OF "C" IN ALGEBRA 1. ALL STUDENTS MUST BE ENROLLED IN ALGEBRA 2, OR ALGEBRA 3/ TRIG OR PRE-CALCULUS.

This chemistry course is the study of the composition, structure, and properties of matter and the changes it undergoes and it prepares students for post-secondary education. This course is organized around the central theme that the properties of matter are a consequence of its structure and follows a logical, sequential development of major chemical principles.

C34020 HONORS CHEMISTRY**

CREDIT: 1.00 CREDIT

PREREQUISITE: A "B" OR HIGHER IN ALGEBRA 1, A "B" OR BETTER IN HONORS BIOLOGY AND ALL STUDENTS MUST BE ENROLLED IN ALGEBRA 2, OR ALGEBRA 3/TRIG, OR PRE-CALCULUS

This advanced course will present essential principles and fundamental concepts of chemistry and it prepares students for post-secondary experiences. More topics in chemistry will be covered than in academic and in more depth. A higher level of quantitative analysis of data and information will be expected than in Academic Chemistry.

C34030 AP® CHEMISTRY (GRADES 10-11)**

CREDIT: 2.00 CREDIT

PREREQUISITE: AN "A" IN ALGEBRA 1 AND ALL STUDENTS MUST BE ENROLLED IN ALGEBRA 2 DURING THE FALL SEMESTER OR HAVE TAKEN THE CLASS EARNING A "B" OR HIGHER

OTHER INFO: MEETS DAILY FOR A FULL YEAR

This is a college course in chemistry. Essential principles and fundamental concepts of chemistry are presented. Enriched topics and concepts are also studied when appropriate. Laboratory experiences are emphasized and a mathematical interpretation of laboratory data is often required. This course will follow the College Board Advanced Placement® curriculum and will prepare you to take the Advanced Placement® Exam in May. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

C34220 HONORS CHEMISTRY 2 (GRADES 11-12)**

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Science Honors Chemistry 2 would cover chemical content related to thermochemistry, kinetics, equilibrium, and aqueous equilibrium (including acid/base chemistry).

C36020 HONORS ANATOMY & PHYSIOLOGY (GRADES 10-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: ACADEMIC BIOLOGY (FINAL GRADE OF "A") OR HONORS/AP BIOLOGY (FINAL GRADE OF "B" OR HIGHER)

OTHER INFO: POSSIBLY 10TH GRADE WITH PREREQUISITES TAKEN EARLY

Honors Anatomy & Physiology is an elective course offered to students who are interested in the health and science-related fields after graduation. These include such areas as a medical doctor, physician assistant, nursing, physical therapy, occupational therapy, dentistry, x-ray technician, exercise science, mortuary, and many others. Students will learn about evidence-based medicine and the human body (integumentary, skeletal, muscular, digestive, respiratory, cardiovascular, urinary, and reproductive systems) in depth. There is extensive lab time spent with small mammal (fetal pig/cat/mink) dissection, organ (heart, eye, kidney, etc.) dissections, models, charts, and personal physiology. Students are required to complete all dissections and coursework. This class is taught at the level of a first-year college Anatomy & Physiology course.

C37010 ENVIRONMENTAL ISSUES (GRADES 10-12)**

CREDIT: .50 CREDIT

PREREQUISITE: NOT FOR STUDENTS WHO HAVE COMPLETED ENVIRONMENTAL SCIENCE

The environmental issues student at McDowell will evaluate how human use of resources impacts the environment. Topics include watersheds, sustainability and climate change. By the end of the course, students will have a better understanding of how to live more sustainably in order to balance environmental protection and the development of human society.

C37030 AP® ENVIRONMENTAL SCIENCE (GRADES 10-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: RECOMMENDATION FROM HONORS BIOLOGY TEACHER

The goal of the AP® Environmental Science course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving or preventing them. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

C43010 CONCEPTUAL PHYSICS**

CREDIT: 1.00 CREDIT

PREREQUISITE: PASSING GRADES IN ALGEBRA 1 AND CHEMISTRY AND CURRENTLY ENROLLED IN ALGEBRA 2

This course will cover topics in physics with less emphasis on mathematics than other physics courses. This course is hands-on with an emphasis on discovery and understanding. Students will be required to use basic algebra to solve problems.

McDowell Intermediate and McDowell High School Descriptions

C44010** **ACADEMIC PHYSICS**
CREDIT: 1.00 CREDIT
PREREQUISITE: A "B" AVERAGE IN HONORS OR ACADEMIC SCIENCE AND MATH COURSES, INCLUDING ALGEBRA 1 AND 2, AND CURRENTLY ENROLLED IN ACADEMIC ALGEBRA 3/ TRIG, OR PRE-CALCULUS OR CALCULUS

This course prepares students for post-secondary education and requires strong math skills. This course will emphasize the mathematical concepts of physics for students planning on going on to college. Students will be required to use basic algebra such as volume, area, and density formulas, and the Pythagorean Theorem. Students will also be required to use basic trigonometry (sine, cosine, and tangent functions) to solve a variety of word problems.

C44020** **HONORS PHYSICS**
CREDIT: 1.00 CREDIT
PREREQUISITE: A "B" OR BETTER IN HONORS MATHEMATICS AND SCIENCE COURSES AND CURRENTLY ENROLLED IN TRIGONOMETRY OR PRE-CALCULUS (OR HIGHER LEVEL OF MATH)

This course prepares students for post-secondary education and requires superior ability and achievement in mathematics and science. Prospective Honors Physics students should be able to use a variety of formulas including the quadratic equation, basic trigonometry functions, and systems of algebraic equations to solve various word problems.

C44030** **AP® PHYSICS 1 (GRADES 11-12)**
CREDIT: 2.00 CREDIT
PREREQUISITE: A "B" OR BETTER IN HONORS OR AP® SCIENCE AND MATHEMATICS COURSE—MUST BE CURRENTLY ENROLLED IN TRIGONOMETRY IN THE FALL SEMESTER OR HAVE PREVIOUSLY TAKEN THE CLASS EARNING A "B" OR HIGHER
OTHER INFO: MEETS DAILY FOR A FULL YEAR

This is a rigorous course in College Physics for students with superior ability and high achievement in mathematics and science. It is taught from a college text. The course meets five blocks per week. Prospective AP® Physics students should be able to use the quadratic equation, basic trigonometric functions, and systems of algebraic equations to solve a variety of word problems. This AP® course will follow the College Board Advanced Placement® curriculum and will facilitate students preparing to take the Advanced Placement® Exam. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

C45020** **HONORS ORGANIC CHEMISTRY (GRADES 11-12)**
CREDIT: .50 CREDIT
PREREQUISITE: A "B" OR BETTER IN HONORS OR AP® CHEMISTRY OR RECOMMENDATION FROM ACADEMIC CHEMISTRY TEACHER

This course is designed for students who have had chemistry. It will provide a foundation for students who plan on entering the fields of nursing, medicine, chemistry, environmental or industrial chemistry, or science education. This course focuses on organic functional groups and on laboratory experiments. Experiments will include comparisons of organic groups, extractions, synthesis of esters and aspirin.

C47010** **GENERAL SCIENCE**
CREDIT: .50 CREDIT
PREREQUISITE: N/A

In this course, students will examine concepts in science from an experimental and research perspective. Emphasis will be placed on problem-solving, collection and interpretation of data and classroom participation. Topics will include lab safety, measurement, and scientific method in addition to topics from both physical and biological sciences.

C50030 **SCIENCE DUAL ENROLLMENT**
CREDIT: 1.00 CREDIT
PREREQUISITE: CRITERIA LISTED BELOW AND PRINCIPAL PRE-APPROVED

Juniors (mostly second semester) with an unweighted GPA of 3.5 and Seniors with an unweighted GPA of 3.25 may attend college courses (either at a local college campus or an RCI site). The college course and grade earned will be placed on the high school transcript. Where school dismissal is required to attend such classes, the schedule at McDowell shall be adjusted. See your counselor in Guidance for more information.

C54030** **AP® PHYSICS C—MECHANICS (GRADES 11-12)**
CREDIT: 1.00 CREDIT
PREREQUISITE: A "B" OR BETTER IN HONORS OR AP® CHEMISTRY AND A "B" OR BETTER IN TRIG/PRE-CALCULUS AND CALCULUS

This is a rigorous course in College Physics for students with superior ability and high achievement in mathematics and science. It is taught from a college text. Prospective AP® Physics C students should be able to use the quadratic equation, trigonometry, systems of algebraic equations, and basic calculus functions to solve a variety of word problems related to Kinematics. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

McDowell Intermediate and McDowell High School Descriptions

Social Studies

S10010 SOCIAL STUDIES

CREDIT: 1.00 CREDIT

PREREQUISITE: IEP

Students with academic needs will schedule this elective course. The course focuses on developing social studies skills and understanding used in real life situations.

S14110** ACADEMIC WORLD GEOGRAPHY

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

The purpose of 9th grade World Geography is to develop an understanding of geographical elements (physical, economic, political, human, and cultural) that contribute to the world we live in. Students will demonstrate knowledge of how these features make world regions distinct but will also determine how we contribute to a global society. Students will exhibit their understanding by successfully mastering a variety of geographic skills.

S14120** HONORS WORLD GEOGRAPHY

CREDIT: 1.00 CREDIT

PREREQUISITE: CRITERIA IS BASED ON PREVIOUS ACHIEVEMENT AND TEACHER RECOMMENDATION

This course is an honors level course that will develop an understanding of geographical elements (physical, economic, political, human, and cultural) that contribute to the world we live in. Students will demonstrate knowledge of how these features make world regions distinct but will also determine how we contribute to a global society. Students will exhibit their understanding by successfully mastering a variety of geographic skills. This course is designed for college-bound students with higher level thinking skills. Students will be required to engage in oral reporting, in-depth reading, library research, and major projects.

S18010 POSITIVE PSYCHOLOGY (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Positive Psychology uses scientific methods to study and develop ways for people and communities to thrive. This course will look at the history and development of the field of positive psychology as well as introduce students to the important psychologists in this field. Students taking this course will have the ability to practice researched based methods to improve their mental well-being and learn about the science behind developing habits and engaging in activities and thought processes that can lead to a more meaningful life. Students taking this course must be willing to try to implement various methodologies (gratitude journal, engaging in flow practice) as well as taking online happiness inventories.

S23510** CURRENT ISSUES (GRADES 9-10)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course will introduce students to issues and events that impact our lives in a global and multicultural society. It will focus on the big ideas of how conflict and change affect society at a local, regional, national, and global level. Students will research current economic, political, and social problems and will explore how conflicts affect groups, as well as individuals. Students will analyze, evaluate, and formulate informed positions on topics dealing with business and economics, environmentalism, teenage issues, health and medicine, law and politics, science and technology, ethics, society and culture, and war and diplomacy. Students will participate in tasks such as debates, discussions, and presentations.

S23710** INTRODUCTION TO CRIMINAL JUSTICE (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

The purpose of this course is to provide an overview of three major areas of the criminal justice system: Law Enforcement, Courts, and Corrections. Students will explore the process of criminal investigations, functions of local, state, and federal courts, and individual rights. The course will require students to apply content using critical thinking and logical reasoning.

S24110** ACADEMIC WORLD HISTORY 10

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

This is an academic level course that covers U.S. History and World History through the 19th and early 20th centuries. The course will cover political, economic, geographic, cultural, and legal developments of the time periods. Students will engage in a variety of learning activities including class discussion, oral presentations, library research, and instruction utilizing computer/internet resources. This course will prepare students for post-secondary experiences.

S24120** HONORS WORLD HISTORY 10

CREDIT: 1.00 CREDIT

PREREQUISITE: PLACEMENT IS BASED ON PREVIOUS ACHIEVEMENT AND TEACHER RECOMMENDATION

This is an honors level course that covers U.S. History and World History through the 19th and early 20th centuries. The course will cover political, economic, geographic, cultural, and legal developments of the time periods. This course is designed for college-bound students with higher level thinking skills. Students will be required to engage in oral reporting, in-depth reading, library research, and major projects.

S24130** AP® WORLD HISTORY: MODERN (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: RECOMMENDATION FROM HONORS WORLD GEOGRAPHY TEACHER

In AP® World History: Modern, students investigate significant events, individuals, developments, and processes from 1200 to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning and comparison, causation, and continuity and change over time. The course provides six themes that students explore throughout the course in order to make connections among historical developments in different times and places: humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

S25030** AP® HUMAN GEOGRAPHY (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: RECOMMENDATION FROM HONORS WORLD GEOGRAPHY TEACHER

The AP® Human Geography course is equivalent to an introductory college-level course in human geography. The course introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine the socioeconomic organization and its environmental consequences. They also learn about the methods and tools geographers use in their research and applications. By the end of the course, students should be more geoliterate, more engaged in contemporary global issues, and more multicultural in their viewpoints. They should have developed skills in approaching problems geographically, using maps and geospatial technologies, thinking critically about texts and graphic images, interpreting cultural landscapes, and applying geographic concepts such as scale, region, diffusion, interdependence, and spatial interaction, among others. Students should see geography as a discipline relevant to the world in which they live; as a source of ideas for identifying, clarifying, and solving problems at various scales; and as a key component of building global citizenship and environmental stewardship. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

McDowell Intermediate and McDowell High School Descriptions

S28110 JUSTICE EDUCATION (GRADES 9-12)**

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course allows students the opportunity to explore topics such as race relations, terrorism roots, prejudice and bias, genocide, and gender bias. We will explore the dangers presented by the presence of prejudice and hate in the world today and how to become active in preventing such actions. We will also investigate incidents of bias which include any acts against people or property that are motivated by prejudice based on race, religion, ethnicity, sexual orientation, gender social groups, ability or appearance. This course strives to cultivate an appreciation of the positive aspects of diversity in our society today. This course requires students to complete a final project as stipulated in the course syllabus.

S29010 CONSTITUTIONAL LAW (GRADES 10-12)**

CREDIT: .50 CREDIT

PREREQUISITE: 10TH GRADE SOCIAL STUDIES TEACHER RECOMMENDATION

Constitutional Law is an in-depth study for juniors and seniors to investigate how the Supreme Court has interpreted the US Constitution over time. This course dives deeply into exploring questions such as "What is freedom of speech?" and "How far does that freedom extend?" "What is freedom of religion?" and "How do the Establishment and Free Exercise Clauses protect it?" "How has the Equal Protection Clause of the Fourteenth Amendment been applied to current issues?" The constitutional text and Supreme Court decisions will guide our inquiry.

S33010 CONTEMPORARY ISSUES (GRADES 11-12)**

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Contemporary Issues will provide students with the opportunity to explore issues and events that impact our lives on an international, national, state and local scale. Through the course, students will also address pressing social issues in their world. Some of those issues will be selected by the teacher and others will be selected by the students. Students will investigate their issues and summarize and present their findings to the class, as well as lead a discussion on their chosen topics. As students address the various topics, they will develop a sense of where things are in the world, nation, state, and region. Students will develop a habit of checking the news at all different levels by accessing a variety of print and online sources. This course provides students with the foundational understanding, knowledge, and skills necessary to develop informed opinions about the global, national, state, and local issues.

S34110 ACADEMIC U.S. HISTORY 11**

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

This is an academic course that will provide a survey of the social, political, economic, cultural, and intellectual history of the United States from the Reconstruction era to the present. United States History examines industrialization, immigration, world wars, the Great Depression, Cold War, and post-Cold War eras. Themes that may be addressed include American culture, religion, civil and human rights, technological change, economic change, immigration and migration, urbanization and suburbanization, the expansion of the federal government, and the study of U.S. foreign policy.

S34120 HONORS U.S. HISTORY 11**

CREDIT: 1.00 CREDIT

PREREQUISITE: PLACEMENT IS BASED ON PREVIOUS ACHIEVEMENT AND TEACHER RECOMMENDATION

This is an honors course that will provide a survey of the social, political, economic, cultural, and intellectual history of the United States from the Reconstruction era to the present. United States History examines industrialization, immigration, world wars, the Great Depression, Cold War, and post-Cold War eras. The content and pace of themes are generally accelerated, and students will be required to draw upon multiple analysis measures in their daily work. Themes that may be addressed include American culture, religion, civil and human rights, technological change, economic change, immigration and migration, urbanization and suburbanization, the expansion of the federal government, and the study of U.S. foreign policy. Required readings are detailed and require advanced critical thinking and analysis.

S34130 AP® U.S. HISTORY (GRADES 11-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: RECOMMENDATION FROM HONORS SOCIAL STUDIES TEACHER

In AP® U.S. History, students investigate significant events, individuals, developments, and processes in nine historical periods from approximately 1491 to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical comparisons; and utilizing reasoning about contextualization, causation, and continuity and change over time. The course also provides seven themes that students explore throughout the course in order to make connections among historical developments in different times and places: American and national identity; migration and settlement; politics and power; work, exchange, and technology; America in the world; geography and the environment; and culture and society. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

S44010 ACADEMIC U.S. GOVERNMENT 12**

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course presents the structure, function, and application of government and political systems at local, state, and federal levels. This course will prepare students for post-secondary experiences. This class requires students to complete an out-of-class project as stipulated in the course syllabus.

S44020 HONORS U.S. GOVERNMENT 12**

CREDIT: .50 CREDIT

PREREQUISITE: PLACEMENT IS BASED ON PREVIOUS ACHIEVEMENT AND TEACHER RECOMMENDATION

Honors U.S. Government presents the structure, function, and application of the United States Government and political system with the main focus on the national level with some connections made to the state and local governments. Current events are used as a tool to help students to make connections to concepts and theories taught in the class to the real world situations of today. It provides honor students a faster paced and more challenging government course that expects them to grasp key concepts and information of the course through specified readings and class activities. This class requires students to complete an out-of-class project as stipulated in the course syllabus.

McDowell Intermediate and McDowell High School Descriptions

S45530** AP® U.S. GOVERNMENT AND POLITICS (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: RECOMMENDATION FROM PREVIOUS SOCIAL STUDIES TEACHER

This introductory college course will follow the College Board Advanced Placement® curriculum and prepare students to take the Advanced Placement® Exam in May. It will focus on the constitutional underpinnings of democracy, political beliefs and behaviors, political parties and interest groups, and mechanisms that facilitate the communication of interests and preferences of like-minded citizens. Also, Congress, the presidency, the bureaucracy, federal courts, institutions and policy processes, civil liberties, and civil rights will be covered. This course requires students to complete an out-of-class project as stipulated in the course syllabus. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

S46010** ACADEMIC ECONOMICS 12

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This is an academic economics course that covers basic economic theory, comparative economics, consumer economics, and budgeting. This course will prepare students for post-secondary experiences.

S46020** HONORS ECONOMICS 12

CREDIT: .50 CREDIT

PREREQUISITE: PLACEMENT IS BASED ON PREVIOUS ACHIEVEMENT AND TEACHER RECOMMENDATION

This is an honors economics course that covers economic theory, comparative economics, consumer economics, and budgeting. It will provide honors students with a more challenging economics course through reading, writing, and numerous class activities.

S46030** AP® MACROECONOMICS (GRADE 12)

CREDIT: 1.00 CREDIT

PREREQUISITE: TEACHER RECOMMENDATION

AP® Macroeconomics provides students with a thorough understanding of the principles of economics. The course looks at the United States economy as a whole, while also investigating how the world's different economies affect each other. This course is designed to help the beginning economics student comprehend the principles essential for understanding the basic economizing problem, with a particular focus on a national income and price-level determination, and the study of other major macroeconomic policies and sectors. Students will be able to understand and apply the economic perspective, to reason accurately and objectively about economic matters, and develop a lasting and relevant interest in economics and the economy. Macroeconomics is a mathematical and technical look at the economy and the course will require an extensive time commitment outside of the classroom dedicated to reading, research, and problem-solving. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

S48010** ACADEMIC PSYCHOLOGY (GRADES 11-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

Academic Psychology is an elective course that is geared toward juniors and seniors who wish to explore the fascinating field of psychology. The focus of this academic course will be on important psychological concepts and principles, as well as their practical applications for life. Topics include approaches and history, research methods, biological basis of behavior, sensation and perception, states of consciousness, learning, cognition, motivation and emotion, developmental psychology, personality, abnormal psychology, treatment of psychological disorders, and social psychology.

S48020** HONORS PSYCHOLOGY (GRADES 11-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: STRONG PERFORMANCE IN ENGLISH AND SOCIAL STUDIES RECOMMENDED

Honors Psychology is an elective course that is geared toward juniors and seniors who wish to undertake a more challenging and in-depth investigation into the field. This course uses a college-level textbook. Topics covered are approaches and history, research methods, biological basis of behavior, sensation and perception, states of consciousness, learning, cognition, motivation and emotion, developmental psychology, personality, abnormal psychology, treatment of psychological disorders, and social psychology.

S48030** AP® PSYCHOLOGY (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: RECOMMENDATION FROM HONORS U.S. HISTORY 11, HONORS ENGLISH, OR HONORS SCIENCE TEACHER

This is the most advanced level of psychology designed for grades 10, 11, and 12 who are considering a major/career in psychology and will prepare to take the Advanced Placement® Exam, as well as enjoy the challenge of a college level course. The course follows the College Board Advanced Placement® Curriculum. It is more intense than the honors course and out-of-class expectations are greater. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

S50030 SOCIAL STUDIES DUAL ENROLLMENT

CREDIT: 1.00 CREDIT

PREREQUISITE: CRITERIA LISTED BELOW AND PRINCIPAL PRE-APPROVAL

Juniors (mostly second semester) with an unweighted GPA of 3.5 and Seniors with an unweighted GPA of 3.25 may attend college courses (either at a local college campus or an RCI site). The college course and grade earned will be placed on the high school transcript. Where school dismissal is required to attend such classes, the schedule at McDowell shall be adjusted. See your counselor in Guidance for more information.

S55530** AP® COMPARATIVE GOVERNMENT AND POLITICS (GRADES 11-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: TEACHER RECOMMENDATION

The AP® Comparative Government and Politics course enables students to learn about diverse political institutions and processes and teaches the tools that citizens need to understand global events. Students are encouraged to think about international politics in a way that enables comparison and generalization and to become more analytical in their understanding of political events. The course content includes a study of six countries—Britain, China, Iran, Mexico, Nigeria, and Russia. Students will utilize the United States as a measure of known concepts before engaging in how terms and concepts apply to the six nations. This AP® course focuses, not only on government systems, but also the economies, environments, institutions, and policies of these nations. Although this is a senior course, juniors will be considered for this course with a teacher recommendation. This AP® course fulfills the requirement for government courses at McDowell. **Some supportive resources may be required readings over the summer months preceding the AP® Comparative Government and Politics course. Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

McDowell Intermediate and McDowell High School Descriptions

Technology Education

T11310 INTRODUCTION TO WOOD & BUILDING TRADES (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

In this course, we will cover the basics of tools, safety, machine operation, measuring, dimensional drawings, and print reading along with following procedures and instructions.

T12010 FOUNDATIONS OF TECHNOLOGY DESIGN AND ENGINEERING (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

OTHER INFO: STUDENTS PURSUING ENGINEERING AND INDUSTRIAL TECHNOLOGY PATHWAY WILL BENEFIT FROM THIS COURSE (EIT)

Students will be introduced to the Engineering Design Process to develop critical, creative thinking, and problem-solving skills. This course provides a meaningful context for learning scientific, mathematical, and technological concepts. Students will be introduced to Engineering Design Software Programs.

T13510 INTRO TO ROBOTICS (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

Intro to Robotics is a full credit high-level course that is appropriate for students who are interested in the design, engineering, and programming of robots or other technical careers. The Intro to Robotics course is designed to explore the past, current, and future use of automation technology in the industry and everyday use. The students will receive a comprehensive overview of robotic systems, the subsystems that comprise them, and how all of the parts work together to form one robot. Students will research, design, and build functioning robots to complete various tasks through remote control and basic programming. Careers in robotics, programming, and engineering will be discussed also. Intro to Robotics focuses heavily on prior knowledge from STEM-related courses and further develops understanding and supports further exploration of STEM in other subject areas.

T14510 INTRODUCTION TO WELDING (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course will cover the basics of welding. Starting with the MIG welder, we will go over how to choose the correct settings on your welder, several different techniques/positions of welding, the different types of joints, and how to work with different types of metals. Once we finish with the MIG welder, we will then move on to using the stick welder. In this unit, we will cover the different types of welding rods, what they are used for, and how to choose the correct rod for the task at hand.

T15010 MATERIALS MANUFACTURING: METAL TECHNOLOGY 1 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This beginning metals course introduces students to the basic fundamental metal working process. Areas of content include basic CAD, safety, measuring/layout, sheet metal, machining, welding, foundry, and forging. Students will be working on the required projects. This course is recommended for the pre-engineering student.

T17010 ENVIRONMENTAL AGRICULTURE AND LANDSCAPING (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course will introduce students to multiple areas of the agriculture field and agricultural practices. Students will develop agricultural knowledge that will allow them to understand the complexity of food and natural resources, sustainable environmental practices, agricultural practices, and agricultural career fields. The study of agriculture will allow students to be active participants and problem solvers in real agricultural issues that affect the community and on a global scale. Through a variety of engaging hands-on lessons, students will develop industry skills and become more aware of their own environment.

T21110 MATERIALS MANUFACTURING: WOOD TECHNOLOGY 2 (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: INTRODUCTION TO WOOD & BUILDING TRADES

This course is a continuation of the Introduction to Wood & Building Trades course. This course places more emphasis on the engineering and design process. Students will continue to develop critical, creative, and problem-solving skills as they create solutions to designs related to the woodworking industry. This course provides meaningful contexts for learning scientific, mathematical, and technological concepts. Additionally, students will utilize design software programs currently used in the workplace.

T21310 BUILDING TRADES 1 (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: INTRODUCTION TO WOOD & BUILDING TRADES

Introduces general aspects of the building trades, the building process, and its phases. Emphasizes health and safety issues related to the building trades. Explores print reading, building design, building site planning, site preparation, and estimating as it relates to construction. Includes an overview of applicable equipment and materials required in the building trades.

T21510 HOME MAINTENANCE (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: RECOMMENDATION FROM METAL 1 OR INTRODUCTION TO WOOD & BUILDING TRADES TEACHER

This course provides students with an opportunity to explore the many different areas in construction that relate to home maintenance and repair. Students will develop advanced problem-solving skills as they relate to home repair and essential life skills that will help make them self-reliant in maintaining or updating a residential structure along with basic vehicle maintenance. Examples of projects students will work on are electrical, plumbing, roofing, drywall and including vehicle maintenance projects.

T22110 ARCHITECTURAL DESIGN (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: FOUNDATIONS OF TECHNOLOGY DESIGN AND ENGINEERING

This course follows "Foundations of Technology Design and Engineering". Students will utilize the Engineering Design Process and continue to develop critical, creative, and problem-solving skills as they create solutions to engineering design problems. This course provides meaningful contexts for learning scientific, mathematical, and technological concepts. Additionally, students will utilize design and manufacturing software programs currently used in the workplace.

T23510 ROBOTICS 2 (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: RECOMMENDATION FROM ROBOTICS 1 TEACHER

This course will build upon the foundation knowledge built in Intro to Robotics. The course will follow the FIRST (For the Inspiration and Recognition of Science and Technology) Robotics curriculum. The students will develop both a robot to meet current year game guidelines and the development of team components such as promotion, travel, fundraising, programming, graphic design, team strategy, and community outreach. This course will provide students with specialized task teams designed to operate in a "business" style setting.

McDowell Intermediate and McDowell High School Descriptions

T24510 ADVANCED WELDING (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: [INTRODUCTION TO WELDING](#)

In this course, we will start with a quick review of the stick welder. Once this is complete, we will move on to the more advanced techniques of using the stick welder and perfecting their skills, as it would be needed in the field. We will then move on to the most difficult form of welding, which is TIG welding. During this unit, we will focus on how to choose the correct setting on your welder and how to control the welding torch. Finally, we will learn how to properly use filler rod to make an aesthetically pleasing and strong weld.

T25010 MATERIALS MANUFACTURING: METAL TECHNOLOGY 2 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: [MATERIALS MANUFACTURING: METAL TECHNOLOGY 1](#)

This course is designed to give the students an in-depth study of machine metalworking. This course will continue to explore machine metalworking with an emphasis on tolerances and specifications as prescribed by working drawings selected by the instructor. Each student will also be introduced to Mast CAD/CAM and CNC machine prototyping.

T31310 BUILDING TRADES 2 (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: [INTRO TO WOOD & BUILDING TRADES](#) [AND BUILDING TRADES 1](#)

This course is designed for students wishing to enter one of the building trades, such as carpentry, sheet rock, formwork, concrete work, painting, or other related trades. Areas also included will be electrical, HVAC and plumbing.

T32110 ADVANCED COMPUTER DESIGN AND MANUFACTURING (GRADES 11-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: [ARCHITECTURAL DESIGN](#)

This course follows Architectural Design. This course will allow students to focus their study in either the architectural or mechanical design disciplines. The Engineering Design Process will continue to be used to develop critical, creative, and problem-solving skills as they create solutions to engineering design problems. This course incorporates higher level math, science, and technological concepts.

T36010 GRAPHICS TECHNOLOGY 1 (GRADES 11-12)

T46010 GRAPHICS TECHNOLOGY 2 (GRADES 11-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

To keep pace with technology, a computer-aided design/drafting and graphics course will be offered as a new approach to creative art and geometric design. In this course, students will develop critical thinking and problem-solving skills. This course will integrate the technological and problem-solving methods with the knowledge of math, communications, and their discipline. It will provide students with an opportunity to research, design, develop, build, and evaluate solutions to real-life problems. This information will then be applied in the design process as students work individually and in groups on a number of design activities.

T41010 CNC MANUFACTURING (GRADE 12)

CREDIT: 1.00 CREDIT

PREREQUISITE: [TEACHER RECOMMENDATION](#) [AND INTRODUCTION TO WOOD & BUILDING TRADES](#) [AND METAL 1](#)

This course is for the student who would like to advance their knowledge, skills, and capabilities in the use of Master CAD/CAM and CNC woodworking machinery. Topics include safety, speeds, feed, tooling, setups, and programming. The student project will be computer-based design, layout, and machining techniques as used in the industry.

T41310 BUILDING TRADES 3 (GRADES 9-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: [INTRO TO WOOD & BUILDING TRADES](#) [AND BUILDING TRADES 1](#) [AND BUILDING TRADES 2](#)

This course is designed for students to create a capstone project that incorporates carpentry, sheet rock, formwork, concrete work, painting, electrical, HVAC, plumbing, and other related trades.

T47510 INTRODUCTION TO APPLIED ENGINEERING (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: [ALGEBRA 2](#)

OTHER INFO: [STUDENTS PURSUING ENGINEERING AND INDUSTRIAL TECHNOLOGY PATHWAY WILL BENEFIT FROM THIS COURSE \(EIT\)](#)

Students interested in engineering as a career will explore hands-on projects. Students must be able to use mathematical and physical science skills to solve engineering problems and apply this knowledge to construct models/prototypes. Emphasis will be placed on developing skills needed by first-year college engineering students.

McDowell Intermediate and McDowell High School Descriptions

Visual Arts Department

A10110 DESIGN EXPLORATION (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Design Exploration is an introductory course providing an opportunity for beginning art students interested in gaining experiences in a variety of media. Students will examine the fundamentals of both two and three-dimensional design within historical and multi-cultural contexts.

A13010 CERAMICS 1 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course deals with ceramic construction and design techniques and may include coil binding, sculpture, pinch method, hard slab, soft slab, tile making, throwing on the potter's wheel, and surface decoration of ceramics. A current and historical perspective of ceramic objects will be explored.

A14010 DRAWING 1 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Drawing 1 introduces students to the fundamentals of drawing. The course explores elements and principles of design through observational, abstract, and nonrepresentational drawing. Emphasis will be on technique, perspective, composition, building form, value, and light. Students may use tools such as pencils, Conte crayons, charcoal, pastels, and ink to explore such themes as still life, portraiture, and figure drawing.

A15010 DIGITAL TECHNOLOGY IN ART (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Digital Technology in Art is an introductory course providing an opportunity for students interested in gaining experience in digital media. Students will learn how to use appropriate software to create a variety of artworks. Additionally, students will compose artwork that employs multiple disciplines, applications, and materials. Students will be required to utilize basic art skills, knowledge, and creativity to be successful.

A16010 INTERIOR DESIGN 1 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This course is offered to students who have an interest in interior design, home furnishing, and housing design. The focus is on the use of the art elements and principles of design through various creative, hands-on projects involving interior space and home furnishing/accessories. Course may include color schemes, floor plans, furniture/accessory product design, housing careers, elevations, blueprints, housing styles and history, style boards, interior design treatments, and field trips.

A17010 PAINTING 1 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Painting 1 covers the fundamentals of the element of color, color theory and mixing, composition, and form in space. Students will develop skills in watercolor, tempera, acrylic, and other painting media. Emphasis will be placed on the development of technical abilities, observation skills, and acquisition of knowledge within the discipline of painting set against the cultural fabric of art history.

A18010 SCULPTURE (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Sculpture will provide students with the opportunity to explore the elements and principles of three-dimensional design. Sculpting processes such as modeling, carving, and assembly may be employed to create original forms. A wide variety of media such as paper, cardboard, wood, metal, brick, plastics, clay, and found objects will provide the media from which to make sculpture. Historical, contemporary, and cultural sculpture forms will be examined to assist students in image and design options.

A21310 GRAPHIC ARTS (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Graphic Arts is a course providing an opportunity for students interested in gaining experience using digital media in the content area of graphic arts. Students will use computers as a base to compose graphic artwork that employs multiple disciplines, applications, and materials. Students will work with product design, advertising concepts, marking designs, etc. Students will be required to utilize basic art skills, knowledge, and creativity to be successful.

A21810 ANIMATION (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

Animation provides an opportunity for students interested in gaining experience in various aspects of creating art through the use of animation. Students will learn how to use appropriate software to create a variety of animation projects. Projects will include different types of animation, applications, and techniques employed within the process itself based on the principles of animation. Students will be required to utilize basic art skills, knowledge, and creativity to be successful.

A23010 CERAMICS 2 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: SUCCESSFUL PERFORMANCE IN CERAMICS 1

Ceramics 2 is designed to allow students to expand their understanding of the basic principles of ceramic practice. Construction and design techniques may include coil binding, sculpture, pinch method, hard slab and soft slab, tile making, and throwing on the potter's wheel. Students will continue to build on their knowledge of glaze techniques.

A23510 MIXED MEDIA (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

This intermediate-level class builds on basic art skills, utilizing drawing and painting media, fibers, printmaking, sculpture, assemblage, photography and graphic arts to explore how combining those various media and techniques allows the student to create artwork with a personal thematic approach. Contemporary mixed media techniques and concepts, with emphasis on understanding the fundamentals of artistic expression, are a means for each student to experiment, discover, and develop personal imagery. Students will also research how artists create a brand using personal imagery. The various media are presented as a means to improve technical and perceptual art abilities and to demonstrate their proficiency with each media on a technical as well as conceptual level.

McDowell Intermediate and McDowell High School Descriptions

A24010 DRAWING 2 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: **SUCCESSFUL PERFORMANCE IN DRAWING 1**

Drawing 2 expands on fundamentals learned in Drawing 1. The course employs the elements and principles of design with exploratory media in order to develop techniques. Students will practice observational skills and abstraction process and make informed design-based decisions for nonrepresentational pieces. Media may include pen and ink, markers, Conte crayons, charcoal, and pastels. The importance of art history in drawing will also be explored.

A27010 PAINTING 2 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: **SUCCESSFUL PERFORMANCE IN PAINTING 1**

Painting 2 further develops the fundamentals of painting. Emphasis will include the concepts of space, light and shade, and color and composition through the student's direct observation of subject matter and non-observational images. The development of the technical facility and the forging of a personal artistic style is the ultimate goal of this course. Sketchbooks will be required to record ideas for painting. The importance of art history in painting will also be explored.

A33010 CERAMICS 3 (GRADES 10-12)

CREDIT: .50 CREDIT

PREREQUISITE: **SUCCESSFUL PERFORMANCE IN CERAMICS 2**

Ceramics 3 will focus on the mastery of individual aesthetic development. Students may expand on techniques such as pinch, coil, hard slab and soft slab, methods of hand building, along with some skill in throwing on the potter's wheel, as well as explore the use of them in combination. Successful completion of this course, along with an additional art course, fulfills the prerequisite for AP® art courses.

A34010 DRAWING 3 (GRADES 10-12)

CREDIT: .50 CREDIT

PREREQUISITE: **SUCCESSFUL PERFORMANCE IN DRAWING 2**

Drawing 3 will focus on the mastery of individual aesthetic development. Students will expand on thematic foci such as still life, portraiture, cartooning, figure, landscape, fantasy, or experimental subject matter. Drawing media may include a variety of tools such as charcoal and pastel, ink and Conte crayon. Successful completion of this course, along with an additional art course, fulfills the prerequisite for AP® art courses.

A36010 INTERIOR DESIGN 2 (GRADES 9-12)

CREDIT: .50 CREDIT

PREREQUISITE: **SUCCESSFUL PERFORMANCE IN INTERIOR DESIGN 1**

This course further develops advanced skills in the fields of Interior Design, Decorations, and Living Environments. Students will build upon knowledge gained in areas such as the elements and principles of design, basic color theory, choosing backgrounds, and space planning to further develop their artistic and creative skills in the design and maintenance of living environments. Students will explore the various components of an Interior Design career and practical skills for living environments, such as interior construction, furniture styles and selection of furniture, remodeling and renovating, storage design, home maintenance, budgeting, and the relatively new field of Redesign. Sketchbooks will be required for this course.

A44030 AP® STUDIO ART: DRAWING (GRADES 10-12)

CREDIT: 1.00 CREDIT

PREREQUISITE: **SUCCESSFUL PERFORMANCE IN DRAWING 3**

AP® Drawing Studio is a semester-long college-level course that focuses on the techniques, skills, and media surrounding the study of drawing. A portfolio is assembled through the course of the students' best work that is then submitted to the College Board in lieu of taking an exam in the spring. Technical skills will be sharpened and creative experimentation with various forms of media encouraged. Prerequisites include Drawing 1, 2, and 3 as well as a portfolio application prior to acceptance into the class. **Students who choose to participate in an AP® course will be required to take the AP® Exam for that course.**

McDowell Intermediate and McDowell High School Descriptions

Wellness

H14010 **AQUATICS (GRADE 9)**
CREDIT: **.50 CREDIT**
PREREQUISITE: **N/A**
OTHER INFO: **9TH GRADE PHYSICAL EDUCATION REQUIREMENT**

This course is divided into four units: 1) Stroke Mechanics, 2) Basic Water Skills, 3) Basic Water Safety, and 4) Aquatic Sports. The first unit is devoted to stroke mechanics including the six styles of swimming: Front Crawl, Elementary Backstroke, Back Crawl, Sidestroke, Breaststroke, and Butterfly. The second unit deals with basic water skills (i.e. surface diving, diving entries, treading water, and underwater swimming). This unit is designed to give students personal water safety skills to use in case of an aquatic emergency. The third unit offers basic water safety including elementary forms of rescue and activities using clothes for flotation and the canoe for rescue. The fourth unit, aquatic sports, offers students the opportunity to participate in an aquatic sports tournament. Sports included in this unit are Water Volleyball, Water Basketball, and Inner Tube Water Polo. All students receive Red Cross swimming certificates based on competencies performed throughout the course.

H14210 **AQUATICS II (GRADE 10-12)**
CREDIT: **.50 CREDIT**
PREREQUISITE: **SUCCESSFUL DEEP-WATER TEST IN AQUATICS AND COMPLETE COOPER SWIM IN THE BIG POOL (AT LEAST 14 LENGTHS)**

This course is divided into four units. Unit 1 (Stroke Mechanics and Basic Water) is devoted to stroke mechanics, including the six styles of swimming: Front Crawl, Elementary Backstroke, Back Crawl, Sidestroke, Breaststroke, and Butterfly. Unit 1 will also cover basic water skills (i.e., surface dives, diving entries, treading water, floating, turns, transitions, and starts). Unit 2 (Water Safety and Basic Rescues) is designed to give students personal water safety skills to use in an aquatic emergency. It offers basic water safety, including survival float/swim, elementary forms of rescue, cold water survival skills, wading rescues, and scenarios that require rescue decision-making. In Unit 3 (Swimming Endurance and Cardiovascular Training), students will be given the opportunity to improve their fitness level through endurance swimming and other cardiovascular exercises in and out of the water, including water aerobics and water exercises. Unit 4 (Water Sports and Water Activities) will focus mainly on the sport of water polo but will also cover basic diving board techniques and recreational activities such as water basketball, water volleyball, and kayaking/canoeing/paddleboarding. This course does fulfill a physical education requirement.

H14510 **HEALTH 9**
CREDIT: **.50 CREDIT**
PREREQUISITE: **N/A**

This required course is designed to encourage students to improve health literacy and to recognize personal responsibility for their well being by examining their own lives and choices concerning their health. Through a variety of classroom activities and community guest speakers, students will evaluate and discover new ways to improve or maintain their present health status. Current teen health issues drive the curriculum that includes wellness, self-esteem, mental health, eating disorders, nutrition, drug education, relationships, infectious diseases, STI's, and abstinence education.

H15010 **ADVANCED TEAM SPORTS (GRADES 9-10)**
H35010 **ADVANCED TEAM SPORTS (GRADES 11-12)**
CREDIT: **.50 CREDIT**
PREREQUISITE: **N/A**

This course is designed to provide students with the opportunity to improve physical fitness through competitive advanced team sports. Demonstration and explanation of safety techniques/rules as well as rules/game strategy/play will be given to the students. The student will complete written, skills, and fitness tests. Warm-ups will include cardiorespiratory endurance activities. Instruction in high intensity team sports with an emphasis on cardio will be included. The student will use the information provided to create a new competitive game as a final project.

H17010 **PE DANCE (GRADES 9-12)**
CREDIT: **.50 CREDIT**
PREREQUISITE: **N/A**

PE Dance class fulfills the student's physical education requirement **but does not fulfill the 9th-grade Aquatics requirement.** The PE Dance is divided into three disciplines: Ballet, Jazz, and Tap. Students in the course are then divided into beginner, intermediate, and advanced levels prior to beginning each discipline. Levels are determined by audition. The technique is stressed in each class and routines are choreographed for group recitals. This is an excellent course for any student (male or female) who wishes to study dance or is interested in the theater.

H22010 **WEIGHT TRAINING (GRADES 9-10)**
H33010 **WEIGHT TRAINING (GRADES 11-12)**
CREDIT: **.50 CREDIT**
PREREQUISITE: **N/A**

Content for this course includes an emphasis on (1) healthy living, (2) health-related fitness, and (3) skills and habits necessary for a lifetime of activity. This course is designed to help students of multiple athletic backgrounds develop their muscular strength and muscular endurance. Content for this course includes an emphasis on healthy weightlifting, types of lifting, and skills and habits necessary for a lifetime of resistance training. Finally, upon completion of this course, students will have developed the foundation skills and understandings necessary for continuing a healthy, active lifestyle for the remainder of their lifetime. In addition, they will be encouraged to continue physical activity beyond their high school career to remain healthy in their future endeavors. This course does fulfill a physical education requirement.

H23110 **PERSONAL FITNESS (GRADES 9-10)**
H33110 **PERSONAL FITNESS (GRADES 11-12)**
CREDIT: **.50 CREDIT**
PREREQUISITE: **N/A**

This course allows students to improve physical fitness through aerobic activities and resistance training. Content may include, but not limited to high intensity interval training, circuit training, yoga, biking, Zumba Dance, kickboxing, functional equipment training (kettlebells, medicine balls, resistance bands, etc.), and other forms of fitness activities. The student will learn about five components of fitness, be tested in each component, and plan how to achieve a healthy level of each. Students will be required to use heart rate monitors to ensure they meet moderate-vigorous intensity guidelines. Resistance training exercises will be taught to improve basic muscle tone, flexibility exercises will be utilized to increase range of motion, and cardiovascular exercises will be completed to improve heart health. Weather and facility availability will determine the specific activities offered throughout the course's duration.

H24010 **PHYSICAL EDUCATION 10 (GRADE 10 ONLY)**
CREDIT: **.50 CREDIT**
PREREQUISITE: **N/A**

The physical education classes are quarter classes meeting every day for the nine weeks. The physical education program has been designed to meet the needs of our Intermediate High School students with an emphasis on physical fitness. The program consists of individualized lifetime fitness activities and sports. All activities will be co-educational.

H34510 **HEALTH 11**
CREDIT: **.50 CREDIT**
PREREQUISITE: **N/A**

This quarter course is designed to help prepare the students for the challenge of modern life, to meet personal needs for the future, and to assist students in making healthy, lifestyle choices. Stress management, reproduction and sexuality, AIDS, substance abuse, domestic violence, first aid/CPR, and death education are some examples of units that are covered.

McDowell Intermediate and McDowell High School Descriptions

H44010 PHYSICAL EDUCATION 11/12 (GRADES 11-12)

CREDIT: .50 CREDIT

PREREQUISITE: N/A

The program in physical education provides students an opportunity to improve their personal fitness level through many types of physical activity. Students will rotate through a variety of team, individual, and recreational sports.

H48010 INTRODUCTION TO HEALTH SCIENCES (GRADE 12 ONLY)

CREDIT: .50 CREDIT

PREREQUISITE: A "B" IN ACADEMIC BIOLOGY, ACADEMIC CHEMISTRY, AND 11TH GRADE HEALTH

This senior course prepares students for careers in health professions. Course topics will include human anatomy and physiology, medical terminology, disorders, diseases, and health care. The body systems covered include anatomical terminology, skeletal system, muscular system, respiratory system, cardiovascular system, and the nervous system.

McDowell Intermediate and McDowell High School Descriptions

World Language

W14010 FRENCH 1 (GRADES 9-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

French 1 is carefully designed to guide students toward proficiency in communication while developing general communication into how languages work. The goal is to equip students: 1) to function in a French-speaking culture, 2) to use the language for a lifetime of personal enjoyment and enrichment, and 3) to appreciate the role of French culture in a global context. The relevancy of developing world language proficiency in all career pathways will be evident in this course. Many literacy strategies are incorporated into each of the four modalities of world language study (listening, speaking, reading, and writing).

W15010 GERMAN 1 (GRADES 9-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

German 1 is carefully designed to guide students toward proficiency in communication while developing a general communication into how languages work. The goal is to equip students: 1) to function in a German-speaking culture, 2) to use the language for a lifetime of personal enjoyment and enrichment, and 3) to appreciate the role of German-speaking cultures in a global context. The relevancy of developing world language proficiency in all career pathways will be evident in this course. Many literacy strategies are incorporated into each of the four modalities of world language study (listening, speaking, reading, and writing).

W17010 SPANISH 1 (GRADES 9-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: N/A

Spanish 1 is carefully designed to guide students toward proficiency in communication while developing a general insight into how languages work. The goal is to equip students: 1) to function in a Spanish-speaking culture, 2) to use the language for a lifetime of personal enjoyment and enrichment, 3) to appreciate the role of Hispanic cultures in a global context, and 4) to continue expanding their proficiency for further education or for the workplace. The relevancy of developing world language proficiency in all career pathways will be evident in this course. Many literacy strategies are incorporated into each of the four modalities of world language study (listening, speaking, reading, and writing).

W24010 FRENCH 2 (GRADES 9-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: FRENCH 1 WITH AT LEAST A "C" AVERAGE PLUS TEACHER RECOMMENDATION

French 2 is a second-year course with an emphasis placed upon the reinforcement of the audio-lingual skills, the acquisition of a broader active vocabulary, and the development of reading and writing skills through personal involvement and association of ideas. The relevancy of developing world language proficiency in all career pathways will be evident in this course. Many literacy strategies are incorporated into each of the four modalities of world language study (listening, speaking, reading, and writing).

W24510 FRENCH CULTURE (GRADES 10-12)**

CREDIT: .50 CREDIT

PREREQUISITE: SUCCESSFUL COMPLETION OF FRENCH 2

This is a quarter-long bilingual course and will include the following units: Fine Arts, Current Events, History and Governmental Structure, and traditional holidays and foods of French-speaking countries. The course will be structured around and incorporate the National Standards for Foreign Language Learning.

W25010 GERMAN 2 (GRADES 9-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: GERMAN 1 WITH AT LEAST A "C" AVERAGE PLUS TEACHER RECOMMENDATION

German 2 continues the reading and writing skills in the target language. The abilities of speaking and understanding are stressed continuously throughout the year. German 2 offers a more detailed study of vocabulary and grammar with emphasis on the use of the language in both oral and written exercises. The relevancy of developing world language proficiency in all career pathways will be evident in this course. Many literacy strategies are incorporated into each of the four modalities of world language study (listening, speaking, reading, and writing).

W25510 GERMAN CULTURE (GRADES 10-12)**

CREDIT: .50 CREDIT

PREREQUISITE: SUCCESSFUL COMPLETION OF GERMAN 2

This is a quarter-long bilingual course and will include the following units: Fine Arts, Current Events, History and Governmental Structure, and traditional holidays and foods of German-speaking countries. The course will be structured around and incorporate the National Standards for Foreign Language Learning.

W27010 SPANISH 2 (GRADES 9-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: SPANISH 1 WITH AT LEAST A "C" AVERAGE PLUS TEACHER RECOMMENDATION

Spanish 2 is a continuation of Spanish 1. Spanish 2 begins with an opening unit that acts as a "bridge" from past learning to the content to come. Each chapter teaches all four communication skills, with communicative objectives provided for new word sections and grammar sections. A strong cultural strand reveals the richness and diversity of the Spanish-speaking world. The relevancy of developing world language proficiency in all career pathways will be evident in this course. Many literacy strategies are incorporated into each of the four modalities of world language study (listening, speaking, reading, and writing).

W27510 SPANISH CULTURE (GRADES 10-12)**

CREDIT: .50 CREDIT

PREREQUISITE: SUCCESSFUL COMPLETION OF SPANISH 2

This is a quarter-long bilingual course and will include the following units: Fine Arts, Current Events, History and Governmental Structure, and traditional holidays and foods of Spanish-speaking countries. The course will be structured around and incorporate the National Standards for Foreign Language Learning.

W34020 HONORS FRENCH 3 (GRADES 9-12)**

CREDIT: 1.00 CREDIT

PREREQUISITE: FRENCH 2 WITH AT LEAST A "B" AVERAGE PLUS TEACHER RECOMMENDATION

French 3 is an honors course that is a continuation of French 2. French 3 begins with an opening unit that acts as a "bridge" from past learning to the content to come. Each chapter teaches all four communication skills. There is a reciprocal relationship between proficiency-based teaching and the development of critical thinking skills. Students begin incorporating higher-order thinking skills, from simple observing, sorting, identifying, restating, and describing through the very highest levels of justifying, persuading, assessing, predicting, and hypothesizing.

McDowell Intermediate and McDowell High School Descriptions

W35020** **HONORS GERMAN 3 (GRADES 9-12)**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **GERMAN 2 WITH AT LEAST A "B" AVERAGE PLUS TEACHER RECOMMENDATION**

Honors German 3 is a continuation of German 2. This course helps students to develop proficiency in the four basic communication skills: listening, speaking, reading, and writing. German 3 aims to increase the students' knowledge and appreciation of the diverse cultures of Germany and the German-speaking countries of Europe. The opportunity for creative use of the language is stressed, both in oral and written exercises. Many literacy strategies are incorporated into each of the four modalities of world language study (listening, speaking, reading, and writing).

W37020** **HONORS SPANISH 3 (GRADES 9-12)**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **SPANISH 2 WITH AT LEAST A "B" AVERAGE PLUS TEACHER RECOMMENDATION**

Honors Spanish 3 is a continuation of Spanish 2. Spanish 3 begins with an opening unit that acts as a "bridge" from past learning to the content to come. Each chapter teaches all four of the communication skills. Students begin incorporating higher-order thinking skills from simple observing, sorting, identifying, restating, and describing through higher levels of justifying, persuading, assessing, predicting, and hypothesizing. The relevance of developing world language proficiency in all career pathways will be evident in this course. Many literacy strategies are incorporated into each of the four modalities of world language study (listening, speaking, reading, and writing).

W44020** **HONORS FRENCH 4 (GRADES 9-12)**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **HONORS FRENCH 3 WITH AT LEAST A "B" AVERAGE PLUS TEACHER RECOMMENDATION**

French 4 is an honors course that is a continuation of French 3. Each chapter works on all four communication skills. Students continue to incorporate higher-level thinking skills and build proficiency. There is a complete review of grammar and the introduction of new concepts. Students will be given the opportunity to write a children's story in French. French 4 aims to develop the student's understanding of the French culture and that of various French-speaking countries around the world.

W45020** **HONORS GERMAN 4 (GRADES 9-12)**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **HONORS GERMAN 3 WITH AT LEAST A "B" AVERAGE PLUS TEACHER RECOMMENDATION**

This honors course places equal emphasis on the oral and written aspects of German. There is a complete review of grammar and selected texts deal with German literature featuring various well-known authors. The course also includes video and German TV series, German cinema, and news and current events in German. If possible, students may teach lessons to elementary children. Many literacy strategies are incorporated into each of the four modalities of world language study (listening, speaking, reading, and writing).

W47020** **HONORS SPANISH 4 (GRADES 9-12)**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **HONORS SPANISH 3 WITH AT LEAST A "B" AVERAGE PLUS TEACHER RECOMMENDATION**

Spanish 4 is an honors course that is a continuation of Honors Spanish 3. Each chapter works the four modalities of world language study. Students will continue to incorporate higher-level thinking skills and build their Spanish proficiency. Activities provide students practice in interpreting, expressing, and negotiating meaning through constant interactions as they continue to work on more open-ended, personalized speaking and writing tasks.

W50030 **FOREIGN LANGUAGE DUAL ENROLLMENT**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **CRITERIA LISTED BELOW AND PRINCIPAL PRE-APPROVED**

Juniors (mostly second semester) with an unweighted GPA of 3.5 and Seniors with an unweighted GPA of 3.25 may attend college courses (either at a local college campus or an RCI site). The college course and grade earned will be placed on the high school transcript. Where school dismissal is required to attend such classes, the schedule at McDowell shall be adjusted. See your counselor in Guidance for more information.

W57020** **HONORS SPANISH 5 (GRADES 9-12)**
CREDIT: **1.00 CREDIT**
PREREQUISITE: **HONORS SPANISH 4 WITH AT LEAST A "B" AVERAGE PLUS TEACHER RECOMMENDATION**

Spanish 5 is an honors level course that will take the knowledge and skills developed through Spanish 1-4 and apply them to new learning tasks. This class is the bridge between the different styles and requirements of high school and university instruction. Students will use a variety of resources (such as literature, music, art, periodicals, the Internet, textbooks, and videos) to make connections from culture to culture in a relevant and authentic way. As in levels 1-4, the four modalities of language will be strengthened and assessed with an emphasis on speaking in various situations.

COMMUNICATION CLUSTER

- V22010 ART AND DESIGN FOR BUSINESS (GRADE 10)**
V32010 ART AND DESIGN FOR BUSINESS (GRADE 11)
V42010 ART AND DESIGN FOR BUSINESS (GRADE 12)

CREDIT: 4.00 CREDIT
PREREQUISITE: APPLICATION PROCESS

In the first year of the Art & Design program, students receive training in core art skills, including color theory, perspective and illustrative drawing, lettering photography, and basic graphic design. Students also focus on work skills such as preparing a resume, writing business correspondence and acquiring basic computer skills. In the second and third years, students receive complex training in problem-solving skills by applying the design process to projects. Using a combination of computerization, photographic and conventional illustrative methods, students prepare portfolios of approximately 30 pieces of artwork. Prospective students should possess the following characteristics: 1) a demonstrated talent in drawing; 2) solid verbal and written communication skills; 3) a good sense of color, proportion, and design; 4) applied math skills; 5) developed problem-solving skills, and 6) fine motor skills. Students completing the Art & Design program can earn up to 15 credits at the Art Institute of Pittsburgh.

- V26510 GRAPHIC MEDIA AND DESIGN (GRADE 10)**
V36510 GRAPHIC MEDIA AND DESIGN (GRADE 11)
V46510 GRAPHIC MEDIA AND DESIGN (GRADE 12)

CREDIT: 4.00 CREDIT
PREREQUISITE: APPLICATION PROCESS

The Graphic Media and Design program introduces students to theoretical aspects as well as hands-on experiences using computers, darkroom equipment, and printing presses. Students acquire marketable skills in job planning, design and layout, copy preparation, proofing, plate making, offset press operation, bindery, and finishing. Desktop publishing and computer graphics have become an essential part of the printing industry. To meet the demands of the industry, students acquire introductory skills in electronic imaging techniques using software applications including Adobe Photoshop and PageMaker. Prospective students should possess the following characteristics: a creative mind, good typing skills, a good background in English and spelling, strong mechanical skills, good attention to detail, organized, and neatness.

- V22510 COMPUTER PROGRAMMING (GRADE 10)**
V32510 COMPUTER PROGRAMMING (GRADE 11)
V42510 COMPUTER PROGRAMMING (GRADE 12)

CREDIT: 4.00 CREDIT
PREREQUISITE: APPLICATION PROCESS

Students achieve entry-level skills in areas of computer operations, data entry, and computer programming depending on their ability and interests. Combined with a background of knowledge, skills, and appreciation of the data processing industry, each student is able to seek employment in the area of their interest. This course aims to present current and future practices in the ever-changing world of data processing. All instructional materials provide students with entry-level skills for positions in data processing through hands-on experience. Studies include the basics of computer science in such areas as design and internal functions, operations, computer operation and programming, data processing, and systems design. The Computer Information Systems program allows students to explore a career path that can lead to higher education in computer programming and many other related fields. Students will gain marketable skills to use computers in any field. Prospective students should be able to think logically, have good speaking, reading and writing skills, and pay attention to detail.

- V29210 COMPUTER NETWORKING (GRADE 10)**
V39210 COMPUTER NETWORKING (GRADE 11)
V49210 COMPUTER NETWORKING (GRADE 12)

CREDIT: 4.00 CREDIT
PREREQUISITE: APPLICATION PROCESS

This course is designed to provide students with classroom and laboratory experience in current and emerging networking technology that will empower them to further their education and training in the computer networking field. Instruction includes safety, networking, network terminology, and protocols, network standards, local area networks (LANs), wide-area networks (WANs), Open System Interconnection (OSI) models, cabling, cabling tools, routers, router programming, Ethernet, Internet Protocol (IP) addressing, and network standards. Particular emphasis is given to the use of decision-making and problem-solving techniques in applying science, mathematics, communication, and social studies concepts to solve networking problems. In addition, instruction and training are provided in the proper care, maintenance and use of networking software, tools and equipment and all local, state and federal safety, building and environmental codes, and regulations.

CONSTRUCTION CLUSTER

V23510 COSMETOLOGY (GRADE 10)
V33510 COSMETOLOGY (GRADE 11)
V43510 COSMETOLOGY (GRADE 12)

CREDIT: 4.00 CREDIT
PREREQUISITE: APPLICATION PROCESS

Cosmetology is an art and a science involving the study of the skin, hair, and nails. The Cosmetology program provides each student with the knowledge and skills required to become a licensed cosmetologist. The license requires 1,250 hours of instruction. The curriculum includes specialized classroom training in 1) hair and scalp analysis; 2) hair cutting, setting, and styling techniques; 3) hair coloring and permanent waving; 4) skin care, facials, and make-up techniques; 5) manicures and pedicures; 6) wig styling; 7) anatomy and physiology; 8) sanitation and sterilization, and; 9) salon management. Students receive hands-on experience by using mannequin heads and live models during clinic service. The proper use of tools, equipment, safety procedures, and state laws and regulations are also important elements of the curriculum. Prospective students should possess creative and artistic aptitude, enjoy working with people, physical stamina, flexibility, and patience.

V24010 CULINARY, BAKING, & PASTRY ARTS (GRADE 10)
V34010 CULINARY, BAKING, & PASTRY ARTS (GRADE 11)
V44010 CULINARY, BAKING, & PASTRY ARTS (GRADE 12)

CREDIT: 4.00 CREDIT
PREREQUISITE: APPLICATION PROCESS

The Culinary Arts program assists the student who is interested in the fast-paced and ever-growing food services industry. The program offers a comprehensive presentation of basic principles and techniques necessary to obtain an entry-level position in the food service industry or prepare for continued training and education. Incorporating theory and practical experience, this program introduces students to a variety of food preparation techniques using the school's fully equipped commercial kitchen and restaurant. Realistic instruction is provided by using the dining room, instructional kitchen, cafeteria, baker, and theory room. Students learn the preparation of soups, sauces, salads, meats, shellfish, poultry, vegetables, presentation, garnishing, and the preparation of desserts. In addition, instructional areas include safety and sanitation, proper use of equipment, purchasing, inventory control, menu planning, diet and nutrition, serving, and food service management. Prospective students should enjoy working with people and be able to work well under pressure; have physical stamina and coordination; good organization skills; and basic math and reading abilities.

V21510 EARLY CHILDHOOD EDUCATION (GRADE 10)
V31510 EARLY CHILDHOOD EDUCATION (GRADE 11)
V41510 EARLY CHILDHOOD EDUCATION (GRADE 12)

CREDIT: 4.00 CREDIT
PREREQUISITE: APPLICATION PROCESS

The Early Childhood Education program provides the student with the necessary skills for entry-level positions in the childcare field, with an emphasis on the preschool environment. The students gain knowledge of child development principles and will learn positive guidance techniques needed for working with children. In this program, students participate in both group theory lessons and in individualized, self-directed training toward an occupational goal. Students select and work on competency-based learning guides, which lead to mastery of specific childcare skills in a preschool setting. Curriculum areas include preschool teaching techniques, child development and growth, nutrition, art, music, and children's literature. Students work three days per week in the Tech Tikes preschool as a Preschool Aide. Prospective students should enjoy children and have a pleasant personality, even temperament, patience, and good communication skills, particularly spelling and grammar.

V28510 EMERGENCY & PROTECTIVE SERVICES (GRADE 10)
V38510 EMERGENCY & PROTECTIVE SERVICES (GRADE 11)
V48510 EMERGENCY & PROTECTIVE SERVICES (GRADE 12)

CREDIT: 4.00 CREDIT
PREREQUISITE: APPLICATION PROCESS

The Emergency and Protective Services program is an ideal choice for students considering a career in the field of public safety and security. Communities rely on professionals to ensure public safety, respond to community needs, and assist in times of crisis. The Emergency and Protective Services program will train students in the areas of safety, security, firefighting, corrections and law enforcement, and emergency response. Students will engage in practical applications and hands-on training within the lab and through field experiences with local agencies. The need for certified professionals is growing, and students will have the opportunity to earn industry certifications. Prospective students should have good communication and interpersonal skills, be problem solvers, be team players, be compassionate, and be service-oriented.

V27010 HEALTH ASSISTANT (GRADE 10)
V37010 HEALTH ASSISTANT (GRADE 11)
V47010 HEALTH ASSISTANT (GRADE 12)

CREDIT: 4.00 CREDIT
PREREQUISITE: APPLICATION PROCESS

The Health Assistant program is ideal for students considering a career in the health and medical field. This program introduces students to various career opportunities that exist in health care. It prepares the student to enter the health care system as a competent assistant to the healthcare professional. The course exposes the student to health and medical practices such as physical therapy, occupational therapy, dietetics, medical office, nursing, medical secretary, and medical laboratory. Students are introduced to basic medical terminology, anatomy and physiology, and beginning skills in medical procedures. An emphasis is placed on work attitudes necessary to be caring men and women sensitive to the complex needs of patients. Prospective students should possess good communication and interpersonal skills, neatness and cleanliness, manual dexterity, good professional appearance, the ability to maintain confidentiality, and the ability to lift fifty pounds.

V29610 HOSPITALITY MANAGEMENT & TOURISM (GRADE 10)
V39610 HOSPITALITY MANAGEMENT & TOURISM (GRADE 11)
V49610 HOSPITALITY MANAGEMENT & TOURISM (GRADE 12)

CREDIT: 4.00 CREDIT
PREREQUISITE: APPLICATION PROCESS

When you work in lodging or food service, you're part of the hospitality profession. You are also part of the largest, fastest-growing industry in work-travel and tourism, where opportunities abound. The Tourism & Lodging Management program has everything you will need to get started in a hospitality career. Upon graduation, students are ready to begin their hospitality career or continue their education at a college or university. In this program, students participate in classroom activities that teach valuable lodging skills and knowledge. Students will also participate in internships supervised by the instructor and a worksite mentor. Major instructional units in the curriculum include an overview of lodging management, the front office, housekeeping, leadership and management, marketing and sales, and food and beverage service. The objectives of this program correspond to competency lists used in the American Hotel & Motel Association's Educational Institute's post-secondary curriculum and form the basis for articulation agreements with colleges and universities. A national certificate from the Hospitality Business Alliance (HBA) will be issued to recognize student achievement, both in the classroom and in the workplace. Future employers and college admissions officers will recognize the HBA credential as evidence of a graduate's preparation for hospitality success. This credential can put you on the road to management in one of America's largest industries.

McDowell Intermediate and McDowell High School Descriptions

V27210 **SPORTS THERAPY AND EXERCISE SCIENCE (GRADE 10)**
V37210 **SPORTS THERAPY AND EXERCISE SCIENCE (GRADE 11)**
V47210 **SPORTS THERAPY AND EXERCISE SCIENCE (GRADE 12)**

CREDIT: **4.00 CREDIT**

PREREQUISITE: **APPLICATION PROCESS**

The Sports Therapy and Exercise Science career major will prepare students to work in the field of physical therapy, occupational therapy, and sports medicine. Coursework starts with foundations in human anatomy, physiology, medical terminology, and clinical rehabilitation skills. Students will develop skills in injury prevention, assessment, and rehabilitation. Other topics covered include nutrition and hydration, emergency care, human development, and mental health. Upon completion of the program, students will be prepared to assess injuries and illnesses, provide care for various patient populations, and design basic rehabilitation and fitness programs. Prospective students should possess good communication and interpersonal skills, manual dexterity, a professional attitude and appearance, the ability to maintain confidentiality, and the ability to lift fifty pounds.

MANUFACTURING CLUSTER

V24510 **DRAFTING AND DESIGN ENGINEERING (GRADE 10)**
V34510 **DRAFTING AND DESIGN ENGINEERING (GRADE 11)**
V44510 **DRAFTING AND DESIGN ENGINEERING (GRADE 12)**

CREDIT: **4.00 CREDIT**

PREREQUISITE: **APPLICATION PROCESS**

Drafting careers are changing rapidly as computer technology replaces traditional procedures and functions. The course instructs students in industry standards while using one of the most up-to-date drafting laboratories in the area. The Drafting & Design Engineering program prepares students to step into the workplace or it gives them an important edge if choosing to further their education in this field. Drafting, mechanical drafting, and CAD involve making precise, instrument-aided drawings that show how to construct machines, buildings, and infrastructures. The Drafting & Design Engineering curriculum includes all facets of drawing, including the preparation of reports, charts, and data sheets. The Drafting & Design Engineering program is designed for those students interested in drafting, mechanical design, engineering, and architectural drawing. Prospective students should possess the following characteristics: creative mind and a good imagination, logical thinking, basic math skills, accuracy, and artistic ability.

V25010 **ELECTRICAL ENGINEERING (GRADE 10)**
V35010 **ELECTRICAL ENGINEERING (GRADE 11)**
V45010 **ELECTRICAL ENGINEERING (GRADE 12)**

CREDIT: **4.00 CREDIT**

PREREQUISITE: **APPLICATION PROCESS**

Students in this program learn the fundamentals of electrical skills and theory. The Electrical Engineering students acquire the skills for employment in all industrial electric occupations. The students learn in detail the theory and hands-on application of alternating current, direct current, hydraulics, pneumatics, motor controls, programmable logic controllers, and residential wiring. Using a variety of hand tools and electrical testing equipment, the students learn how to wire a variety of industrial-rated components (relays, motor starter, motors, transformers, timing relays, push buttons, selector switches) and all components used in residential wiring applications. In addition, the students receive instruction in reading residential wiring schematics, motor control schematics, programmable logic controller schematics, and hydraulic or pneumatic schematics. Prospective students should possess mechanical aptitude, ability in basic math, and manual dexterity.

V27510 **METAL FABRICATION (GRADE 10)**
V37510 **METAL FABRICATION (GRADE 11)**
V47510 **METAL FABRICATION (GRADE 12)**

CREDIT: **4.00 CREDIT**

PREREQUISITE: **APPLICATION PROCESS**

This is a comprehensive program designed to give students entry-level skills in the field of metal fabrication. Areas of study include the techniques and fundamentals of pattern development, fabrication, design, proper use of hand and power tools, acetylene welding, acetylene cutting, and metal inert gas welding. Students experience training on a variety of machines. Emphasis is placed on bench work, precision measuring instruments, shearing, forming, rolling, assembly, welding, heat treatment, blueprint reading, layout and design, quality control, press brake operation, gas tungsten arc welding (TIG) and shielded metal arc welding. Prospective students need manual dexterity, mechanical aptitude, physical stamina, and basic math skills.

V28010 **PRECISION MACHINING (GRADE 10)**
V38010 **PRECISION MACHINING (GRADE 11)**
V48010 **PRECISION MACHINING (GRADE 12)**

CREDIT: **4.00 CREDIT**

PREREQUISITE: **APPLICATION PROCESS**

The machinist is a skilled worker who forms and shapes metals from their raw state to a finely finished and accurately shaped part. Students trained in this program develop the necessary skills to be entry-level machinists. The Precision Machining program gives students the opportunity to manufacture machine parts from various metals on machines such as engine lathes, vertical and horizontal milling machines, surface and cylindrical grinders, drill presses, and the band saw. Students learn the properties of steel, aluminum, and brass. Then they see how these properties are applicable in the trade. This basic-to-advanced curriculum offers in-depth training from hand and power tools to state-of-the-art techniques such as computerized numerical control and electrical discharge machining. The understanding of shop mathematics, trigonometry, blueprint reading, and precision measuring instruments are critical elements of this program. Prospective students should possess above-average math skills, good work attitudes, mechanical aptitude, eye-hand coordination, and the patience of work neatly and accurately.

TRANSPORTATION CLUSTER

V20510 **AUTOMOTIVE BODY REPAIR (GRADE 10)**
V30510 **AUTOMOTIVE BODY REPAIR (GRADE 11)**
V40510 **AUTOMOTIVE BODY REPAIR (GRADE 12)**

CREDIT: **4.00 CREDIT**

PREREQUISITE: **APPLICATION PROCESS**

This course presents current and future practices in the rapidly changing world of auto body repair. Projects and class work use the latest technologies, equipment, and shop practices. The latest approaches to modern automobile repair and reconstruction require skilled workmanship. Students in the Auto Body Repair program learn all phases of auto body repair including the proper use of hand and power tools; damage analysis; rebuilding, reconditioning, sanding, and refinishing; basic metalworking and dent repair; frame straightening; spray painting; welding; glass installation; and safety practices. Students also learn how to estimate, prepare job orders, and general shop operations. The program uses demonstration automobiles to provide students with the opportunity to develop confidence by applying the theoretical concepts. Prospective students should have good hand-eye coordination, manual dexterity, multi-limb coordination, mechanical aptitude, skill with tools, physical strength, accuracy, and the ability to work with minimal supervision.

V21010 **AUTOMOTIVE TECHNOLOGIES (GRADE 10)**
V31010 **AUTOMOTIVE TECHNOLOGIES (GRADE 11)**
V41010 **AUTOMOTIVE TECHNOLOGIES (GRADE 12)**

CREDIT: **4.00 CREDIT**

PREREQUISITE: **APPLICATION PROCESS**

Changes in automotive technology have increased the importance of the automotive technician. This program provides the student with the theory and practical experience needed to diagnose and repair automotive systems and their components. Students meeting the requirements will be eligible to take the state inspection test for a Class One License. This course covers the repair and maintenance of the ignition system, tires, braking, steering and suspension, alignment, electrical and electronic systems, fuel injection, engine repair, engine performance, and cooling system. Major and minor tune-up and inspection procedures are also included. An appropriate share of the program is devoted to studying automotive theory. Students use repair manuals, textbooks, and computers for diagnosing problems. A major emphasis of this course is to promote safe, clean, and efficient work habits. Prospective students should have mechanical aptitude, manual dexterity, skills with tools, physical stamina, good hand-eye coordination, physical strength, willingness to work in an uncomfortable environment and the ability to think logically.

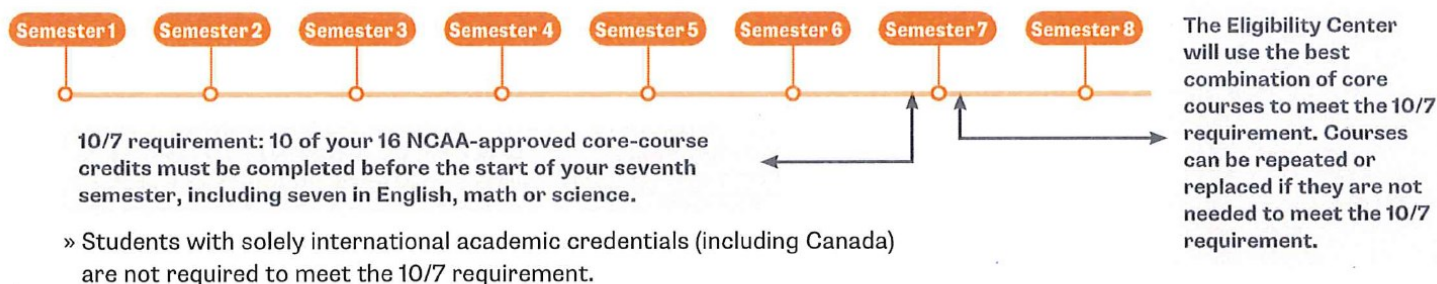

DIVISION I ACADEMIC STANDARDS

Division I schools require college-bound student-athletes to meet academic standards for NCAA-approved core courses, **core-course GPA** and test scores. To be eligible to practice, compete and receive an athletics scholarship in your first full-time year at a Division I school, you must meet all of the following requirements:

1. Earn 16 NCAA-approved core-course credits in the following areas:

2. Complete 10 of your 16 NCAA-approved core-course credits, including seven in English, math or science, before the start of the seventh semester. Once you begin your seventh semester, any course that is needed to meet the 10/7 requirement cannot be replaced or repeated.

3. Complete your 16 NCAA-approved core-course credits in eight academic semesters or four consecutive academic years from the start of ninth grade. If you graduate from high school early, you still must meet core-course requirements.
4. Earn a corresponding test score that matches your core-course GPA (minimum 2.3) on the Division I sliding scale ([see page 22](#)).^{*} More information regarding the impact of COVID-19 and test scores can be found at on.ncaa.com/COVID19_Spring2023.
5. Submit your final transcript with proof of graduation to the Eligibility Center.

How to plan your high school courses to meet the 16 core-course requirement:

$$4 \times 4 = 16$$

DIVISION II ACADEMIC STANDARDS

Division II schools require college-bound student-athletes to meet academic standards for NCAA-approved core courses, **core-course GPA** and test scores. To be eligible to practice, compete and receive an athletics scholarship in your first full-time year at a Division II school, you must meet *all* of the following requirements:

1. Earn 16 NCAA-approved core-course credits in the following areas:

ENGLISH	MATH (Algebra I or higher)	SCIENCE (Including one year of lab, if offered)	ADDITIONAL (English, math or science)	SOCIAL SCIENCE	ADDITIONAL COURSES (Any area listed to the left, world language or nondoctrinal religion/philosophy)
3 years	2 years	2 years	3 years	2 years	4 years

2. Earn a corresponding test score that matches your core-course GPA (minimum 2.2) on the Division II qualifier sliding scale (see page 26). More information regarding the impact of COVID-19 and test scores can be found at on.ncaa.com/COVID19_Spring2023.
3. Submit your final transcript with proof of graduation to the NCAA Eligibility Center.

Student-athletes enrolling at an NCAA member school Aug. 1, 2021, or later who do not meet Division II qualifier standards will be deemed partial qualifiers. All Division II partial qualifiers may practice and receive an athletics scholarship, but may NOT compete, during their first year of full-time enrollment at a Division II school.
