

DIVERSITY TRANSFERS TO PAIRED SCHOOLS 2024-2025

Diversity Transfers permit students in grades K-12 to transfer from sending to receiving schools where the resulting impact on the receiving school is to increase its socio-economic and cultural diversity. **The school district will provide transportation to paired schools.** Parents must provide transportation to non-paired schools outside the transportation zone. The chart below lists the “Home Zone Schools” and “Paired Receiving Schools” according to transportation zones.

Once approved, a Diversity Transfer will continue until high school graduation. There is no need to re-apply online each year.

*Parents may withdraw their Diversity Transfer before each semester begins, in August and in December of each year.
