

About us.

My name is Jason Crippen and I taught public school for 22 years (16 of those in Special Education). I am a married father of three.

Throughout my career I have coached soccer and basketball for my students with special needs, led art shows to showcase their talents, and gained many community contacts for jobs and collaborative projects.

I have a passion for helping people in the disability community connect with their dream job.

I started this company because our community is in need of an advocate for those in our area who have the most needs.

Creativity and communication skills are paramount to my success.

Disability Employment
Services, LLC.

Everyone Deserves a Chance!

Mission

Our mission is to place individuals with disabilities in a job that is the best fit for them.

To accomplish our mission, we come up with an employment plan that fits the individual, the family and the employer.

We will take the time needed to appropriately secure and maintain employment.

Services

- Attendance at IEP meetings to create an appropriate employment plan.
- Consult with teachers, parents, and other stakeholders to make the right match.
- Skills assessments/ Observations
- Assisting in the application process
- Assisting with the interview process
- Contacting potential employers
- Employment Maintenance/ Job Coaching
- Connecting with volunteer opportunities
- Contract through the state of Kansas to assist with employment
- Consulting on other services needed for independence
