Friday, November 13, 2020 Volume 21 Issue 11

C⁴ will connect community resources to provide career education for all students while laying the foundation for life-long learning.
www.bcscschools.org/C4 @ConnectionsC4

During a typical school year, students in C⁴ Construction Technology and Architecture feel a huge sense of tangible accomplishment when they build a home from the ground up. Last fall, a home building project began, and by the COVID outbreak in March almost all of the exterior of the home was complete, but the inside was another story. This fall, C⁴ students are tasked with finishing the interior of the home by the end of the month. Above, CEHS senior **Alex Thomas** shows off the new cabinets recently installed by peers in Mr. Johnson's class. Right, CEHS junior **Harley Gant** finishes trim in the bathroom.

Virtual Preschool Opportunity

Ask anyone in the C⁴ Early Childhood Education program what they look forward to the most and they give the same response: Preschool. The students love the opportunity to work with preschool-aged children in the community. This week, Mrs. Halterman's first- and second-year students are developing themes and lessons which will be available in a virtual format for preschool children. If you are interested in gaining access to these activities for a 3-5 year old child, please contact Mrs. Halterman via email: haltermanj@bcsc.k12.in.us. It is free and available to all.
