@ConnectionsC4

C<sup>4</sup> welcomes Rachel Huber as the Advanced Child Development teacher.

Rachel is a 2020 graduate of Ball State University and has spent a great deal of time working in daycares and preschools gaining skills to equip her for this role.

Rachel credits her high school FCS teacher for her interest in this career.

She is looking forward to building relationships with students this year!

In her free time, Rachel enjoys spending time with her husband of 3 months and going on walks.

Mrs. Huber is wasting no time introducing her students to the realities of infant care. Last week students began caring for “Baby Think It Over.” Advanced Child Development students will care for these babies who are programmed to cry when they are hungry, need a fresh diaper, or just want to be held.

Freshmen **Taylor Scott** (left) and **Josie Havenaar** (right) are pictured learning how to handle the babies before having the responsibility of caring for them over the weekend.

C<sup>4</sup> is excited to have students back in person for the 2020-2021 school year!

Teachers are following recommendations to keep students safe, including getting outside as much as possible, while covering necessary curriculum.

- Pictured left, Intro to Construction student **Emmitt Romine (10)** uses a transit to measure depth and distance.
- Criminal Justice I & II students practice formation and marching, above.
- At right, Principles of Biomedical Science students **Weston Romine (11)** and **Caitlyn Smith (10)** measure blood splatters.
