@ConnectionsC4

Students in Bartholomew County and the surrounding counties served by C⁴ had an opportunity to learn more about the program this week via the C⁴ Virtual Open House. The Virtual Open House experience allows visitors to watch videos of our amazing teachers and students. There was also an evening session to engage with C⁴ Student Ambassadors and teachers via live Zoom links. We are proud of our Student Ambassadors for being flexible with the change in format this year and representing each program area with passion!

The Virtual Open House remains accessible to all students and their families at www.bcscschools.org/C4

PLTW Biomedical Innovations teacher **Stacey Horn** tasked her students to work on COVID outreach projects. CEHS senior **Marin Wieneke** got to work using the social media platform Tik Tok to inform viewers about the COVID vaccine. Within 4 hours, Marin had over 400 followers! Now over 24 hours in, Marin’s Tik Tok page has over 21,000 views. When asked what sparked her to start this page, Marin stated, “The vaccine is such a new part of life for all of us, I was inspired to dig into it and present it in a way that anybody could understand. I’ve loved researching the topics and answering the questions that viewers ask.”

To learn more about Marin’s research regarding the COVID vaccine, access her account on Tik Tok: @vaccinesimplified
