Volume 19 Issue 1

C⁴ will connect community resources to provide career education for all students while laying the foundation for life-long learning.

@ConnectionsC4

Jill Halterman joined the C⁴ team of Family and Consumer Science teachers this year and enjoys practicing what she teaches outside the classroom by sewing and cooking for her family. She resides in Seymour with her husband, young son, and nine-week old daughter. Educational background includes a bachelor's degree from Western Kentucky University and her master's awarded by American College of Education. The family's camper is their second home and they love to spend time exploring the great outdoors. Welcome aboard, Jill!

Andrew Ortman's Indiana residency began in 1998, from his birthplace in Saginaw, Michigan. A Ball State graduate, he most recently taught at Charlestown High School and now teaches Project Lead the Way at both Columbus East and Columbus North. Away from the classroom, Andy and his wife enjoy spending time with their three children and twelve grandchildren. He had one year away from the Midwest in Rock Springs, Wyoming in his younger days and describes it briefly as "very cold, lots of rocks." Thanks for joining the C⁴ crew!

Michael Paprocki brings his technology expertise to C⁴ as the Networking instructor. Aside from his training with the National Guard at Fort Huachuca in southeast Arizona (near the border of Mexico), Mike says he has lived in Indiana all his life. Currently he resides in Nineveh with his wife and teenage daughter. He earned his post-secondary degrees at IUPUI and completed his master's in Education at Purdue. Michael and his family enjoy traveling and outdoor activities. Looks like smooth sailing ahead for Mr. Paprocki and his students!

Quote for the week -

"The will to win is not worth much unless you have the will to prepare to win."

- Fielding Yost
