

# C4 E-announcements

Friday, September 7, 2018

Volume 19 Issue 3

C<sup>4</sup> will connect community resources to provide career education for all students while laying the foundation for life-long learning.

@ConnectionsC4

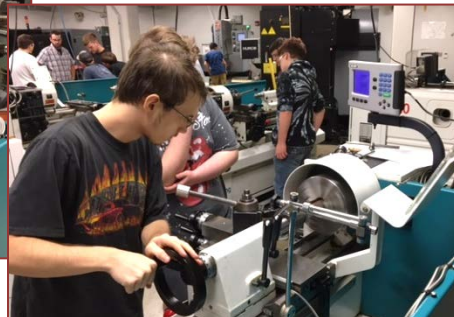

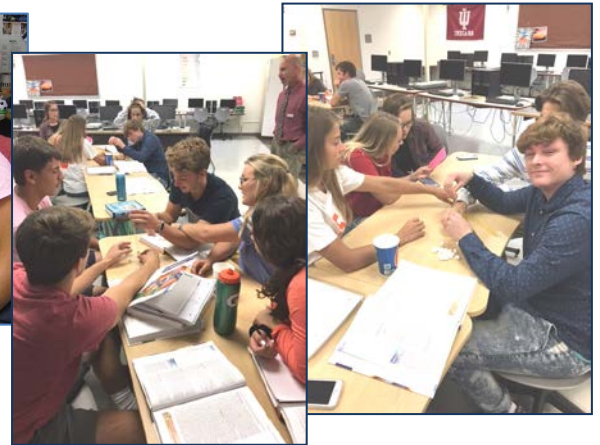

C<sup>4</sup> Construction Engineering classes are back at it – building a home, that is. In cooperation with Southern Indiana Housing Community Development Corp., students and their instructors Mr. Johnson and Mr. Metz are working on a two bedroom house on Pearl Street in Columbus. They're making progress since the start of school, from a basic slab (left) to putting down sill plates (below).

In Mr. Hartman's Business classes at Columbus East, construction with edible materials led his students into discussions of relationship, efficiency, and teamwork. Though the materials are much less permanent than the Pearl Street construction, the foundation for the class is likely to be as strong. The team with the winning structure is at far left.

A few afternoon openings remain for the C<sup>4</sup> Early Childhood Education Program at Columbus North. The preschool classes for children 3 – 5 years old start Tuesday, September 11. Contact Jenny Wallace at [wallacej@bcsc.k12.in.us](mailto:wallacej@bcsc.k12.in.us) or 812-376-4240 for more info and forms.

Across town at Columbus North, new and returning students in Mr. Foley's Precision Machining classes are honing their skills on the lathes.

## Quote for a rainy day -

"Great opportunities missed seldom come again. As someone has said:  
If Noah had only swatted those two flies!"

- Henry Powell Spring
