Volume 19 Issue 5

C⁴ will connect community resources to provide career education for all students while laying the foundation for life-long learning.

@ConnectionsC4

Precision Machining II students in **Mr. Foley's** classes created all the parts for an air engine and assembled a working machine in class. From left, in the morning class: **Max Henderson** (junior at Cols. North), **Gabe Kleffman**, **Malaki Colwell**, and **Justin Streeval** (all juniors at Cols. East).

← Afternoon class, L-R: **Brandon Newby**, **Beau McKinney** (both Hauser seniors), **Tyler Michaels**, and **Dylan Blackwood** (both Cols. North juniors) →

Check out the C⁴ Student and Teacher of the Week on Facebook, Instagram, and Twitter! Look for ConnectionsC4.

Joseph Walker (seated) and **Andrew Tarkett** (standing) are constructing a robot in **Mrs. Davis'** second year Industrial Automation and Robotics class. It is the future base for a t-shirt launcher, which they will also design and build. Fridays are dedicated to these "passion projects" for the class – time for them to pursue an idea they would like to learn more about, researching, planning, and executing from the ground up. Both students are seniors – Joseph attends Edinburgh High School and Andrew is enrolled at Hauser Jr/Sr High School.

Third year Welding student **Carina Janic** is focused on earning her certifications this year. In addition to working on welds in the lab as shown at right, she spends much of her resource time studying for the numerous tests involved. Her instructor is **Mr. Gratz** and she is a senior at Columbus East.

Food for thought -

"You must learn from the mistakes of others.
You will never live long enough to make them all yourself."
