## Tunnel Vision

One stop in the Exhibit Columbus tour gives visitors a chance to not only marvel at teenage ingenuity, but also experience multiple architectural wonders within the great city of Columbus. The C<sup>4</sup> students created “Tunnel Vision” as an experience for Exhibit Columbus visitors to learn from as well as to enjoy. Visitors can scan over 50 QR codes to learn more about the buildings featured in the structure. Special thanks to Darin Johnson for being the fearless leader of the C<sup>4</sup> Exhibit Columbus High School Design Team. The students would not have the opportunity for this amazing experience if not for his willingness to share his time and talents.

Exhibit Columbus runs until November 28<sup>th</sup>. For more information, visit: [exhibitcolumbus.org/2021-exhibition/high-school-design-team](http://exhibitcolumbus.org/2021-exhibition/high-school-design-team).

C<sup>4</sup> Cybersecurity classes enjoyed a field trip this week to the Muscatatuck Urban Training Center. This innovative center provided opportunities for the students to experience cyberattack demonstrations.
