Volume 22 Issue 10

C<sup>4</sup> will connect community resources to provide career education for all students while laying the foundation for life-long learning.

[www.bcscschools.org/C4](http://www.bcscschools.org/C4) @ConnectionsC4

Career Week at the end of April was a great success! Forty-three workshops and 130 mock interviews were scheduled for students. THANK YOU to Autumnne Streeval, C<sup>4</sup> Business Partner Liaison, for putting this event together, and to the staff members who helped shepherd students to workshops and mock interviews. This was a team effort and will certainly be back in the future. Special thanks to the companies and community volunteers who gave their time to assist the students:

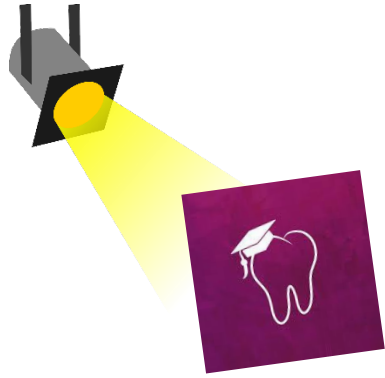

Columbus Regional Health, Cummins, Rightway Fasteners, Ivy Tech, Toyota, Lindal, Old National Bank, Columbus City Garage, Columbus Police Department, Columbus Fire Department, JRP Media, BCSC, IUPUC, Valeo, AgHires, Purdue Extension, MasterPower Transmission, and Argesta, Storms & O'Leary, CPA

Mrs. Huber's Advanced Child Development classes explored clothing and design considerations for preschoolers. Since preschoolers are usually beginning to self-dress, her students discussed how having lettering or logos on the front side of shirts helps preschoolers figure out which way a shirt goes on, and pants with elastic waistbands, as opposed to zippers and buttons, allow the child to dress themselves. The students designed their own outfits highlighting the features they thought were most important in clothing for children.

**Important date to remember: May 20<sup>th</sup> - Last day for students**

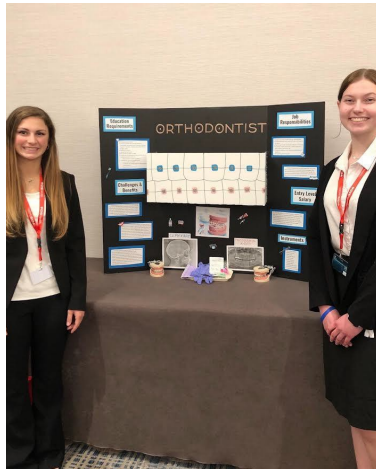

# Dental Careers

Ms. Selby's Dental Careers students have been very successful in their respective contests. **Delaney Felts** from South Decatur was honored as a Regional Indiana Academic All-Star. **Lauren Barker** and **Ella Fisher** (both Columbus North students) placed in the top 10 for their Health Career Display at the HOSA State Conference. Check out the C<sup>4</sup> Dental Careers Instagram page for more photos of student achievements and activities.

# Computer Science

To those of us of a certain age, say “Space Invaders” and we are transported to our childhoods playing what was, at the time, a cutting-edge computer game. (“Pong,” anyone?) For Mr. Paprocki’s final game project in Computer Science, students re-created the iconic game and then took the code they learned in class and modified it to fit for the game they wanted to create.
