Volume 23 Issue 5

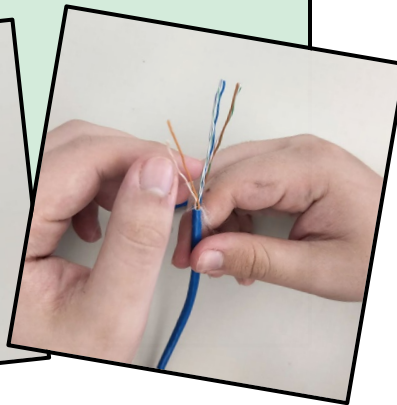

C⁴ will connect community resources to provide career education for all students while laying the foundation for life-long learning.

Michael Paprocki's Networking I & II students learned the skill of making Cat5e cables in class. The students used an old style RJ45 connector, then the new EZ style, to gain proficiency in both techniques.

Two of **Derik Gratz'** Welding II students are pictured in action below: **Kyler Hashman** on arc, with **Layton Croslow** watching. Mr. Gratz found them going above and beyond with a 4F (Overhead Fillet) weld using E6010 stick electrodes. Both students are seniors at Columbus North.

Darin Johnson's Architecture Class toured Columbus, Indiana's famous J. Irwin Miller home. The students enjoyed their first-hand look at the work of architect Eero Saarinen, interior designer Alexander Girard, and landscape architect Dan Kiley.
