

# E-nnouncements

Friday, December 2, 2022 Volume 23 Issue 15

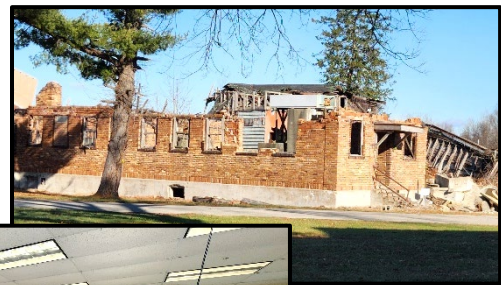

C<sup>4</sup> will connect community resources to provide career education for all students while laying the foundation for life-long learning.

## Collaboration for a Cause

Networking and Intro to Construction classes partnered up to assemble the Holiday Lights display outside of Columbus North High School. While Networking students test light strands, run extension cables, and connect the radio and lights to the control panel, Construction class members dig holes, set posts, and help assemble structures. Come see the light and music display every night between now and early January. (Tune in to 91.9 to hear the tunes from the warmth of your vehicle.) A Love Chapel donation box is available for your holiday generosity.

**Mike Paprocki's** Cyber Security students recently visited Ivy Tech's Cyber Academy at the Muscatatuck Urban Training Center. Students learned about an 11 month program being offered there which can result in an Associate degree and three certifications. 80% of the academy's graduates have been placed in a cyber-related job. C<sup>4</sup> students met with current academy enrollees to discuss the program and their expectations.
