The mission of Cambridge-Isanti Community Education is to enrich the lives of everyone in our community by providing opportunities for lifelong learning.

**Christina Thayer Anderson**  
Director of Community Education

### Welcome Community Members,

It's hard to believe we are speeding toward summer when it feels like we have barely experienced winter! Of course for some, this has been the winter of their dreams - unseasonably warm temps, hardly any snow, and many mild days. For others, we are left longing for the beauty and adventure snow brings and still holding out hope for a springtime

snowstorm or two. Wherever you land on this spectrum, I believe we can all agree any new day is a chance for a new beginning, a new hope, a new opportunity. As we begin to look for blooming flowers and budding trees, I am reminded of the newness spring ushers in and the buzz of excitement that begins to grow as we steadily march toward summer.

Spring and summer in Community Education is a very busy time. For some of our programs, this is the busiest time of the year! As we kick off new sports seasons, camps and clinics, exciting hands-on learning and outdoor enrichment activities, and our all-day summer programming, we regularly talk about this as the best time of the year. As you explore our programs, classes, events, and opportunities in the coming pages, I hope you will find a new class that piques your interest or an old-favorite you can't wait to enjoy again. This is also a great time of year to get involved! Not looking for a new hobby, but rather to further your education, volunteer your time in our schools, or connect with a new network? We offer programs year-round, so you have not missed out on your chance! Adult Education, Volunteer Services, and Early Childhood Family Education may be just the place for you!

Know that we are here to serve you. If accessibility is a barrier for you, please reach out to us. If you are looking for an opportunity that is missing, please reach out to us. If you have questions about any of our programs and classes, please reach out. Building relationships and fostering a sense of belonging for all is at the heart of all we do. We want to know you. Serving and supporting our learners, families and caregivers, and community members in achieving their fullest potential is our mission, and we are honored to be a part of your journey.

Thank you for stopping by, and I hope to see you out and about soon!

In gratitude,

Christina E. Thayer Anderson  
Director of Community Education

## Early Childhood Family Education

### EARLY CHILDHOOD FAMILY EDUCATION

#### What is ECFE?

Early Childhood Family Education (ECFE) is a public school program for all Minnesota families with children between the ages of birth and kindergarten entrance.

ECFE is based on the idea that the family provides a child's first and most significant learning environment and parents/caregivers are the first and most important teachers.

**Together Time:** Our classrooms are filled with fun toys, activities and opportunities to explore. Play with your child, follow their lead and watch them learn with excitement!

**Family Education Time:** Parents/caregivers meet in a nearby room to learn from each other, talk about experiences in parenting and share ideas! Discussions are facilitated by licensed parent educators.

**Child Time:** While parents/caregivers meet, children remain in the early childhood classroom to play and learn together with a licensed early childhood teacher.

If you would like to learn more about ECFE, call our Early Childhood office at 763-691-6691 or join us for a class and see what ECFE is all about!

### Preschool Tuition Assistance

Cambridge-Isanti Preschool offers a variety of fee assistance options. Each scholarship has a short application process to complete and families must meet specific criteria. Scholarships are awarded based on family size, income and/or identified factors that may impact a child's learning. All information collected for fee assistance is confidential. The Early Childhood office can help you apply for a Pathway I, Pathway II or School Readiness scholarship.

Mark "Yes" if you would like a scholarship application emailed to you when registering. Scholarship applications are filled out electronically allowing a paperless system.

The scholarship application and income verification must be submitted before an award can be made. Forms of documentation can include most recent 1040 from your Federal tax return, W2's, pay stubs covering a month, statement or letter from another assistance program such as free & reduced lunch program from school or county assistance. Documentation is needed for each parent living with the preschooler.

### Cambridge-Isanti Preschool is a Pyramid Model site!

Pyramid Model is a framework for intentionally teaching children social, emotional, friendship, and problem solving skills to help them be successful at school. Families will receive a monthly newsletter about what children are learning!

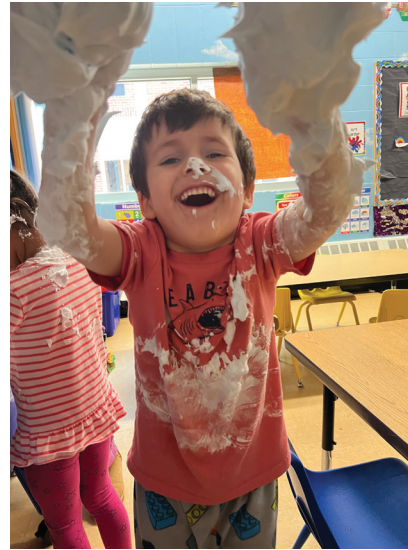

## Welcome To The Cambridge-Isanti Preschool Family!

Early Childhood Programs are a vital part of Cambridge-Isanti Schools. Our preschool team works closely with primary school teams to ensure our students transition smoothly into kindergarten with an eagerness and readiness to learn and a love of school.

C-1 Preschool provides children the opportunity of a fun and enriching school that emphasizes development as they prepare for kindergarten, social, emotional, and academic skills.

We use the Big Day for Pre-K curriculum that supports students' individual growth as they learn through play in a teacher-supported environment. Children are exposed to and learn age-appropriate math, writing, music, art, science, and language concepts while making friends and cultivating their growing independence.

**Seven Steps to Reverse or Prevent Diabetes *NEW***

Diabetes is a condition in which too much belly fat leads a person to symptoms ranging from mild blood sugar imbalance to full blown diabetes. Whether you have a little extra weight around the middle, insulin resistance, or type 2 diabetes, the root cause of ALL these conditions are the same – problems with our diet, lifestyle, and exposure to environmental toxins. Most treatments focus on the downstream symptoms (elevated levels of glucose, cholesterol, blood pressure, triglycerides) and never get to WHY your levels are too high and how to change it. The good news is all of this can be reversed. Learn how to work with your doctor to help restore your body to health.

# PARTNERS IN PLANNING

**Dr. Nate Rudolph**  
Superintendent

TAKE OUR SURVEY

As directed by our Strategic Plan, our school district is embarking on a comprehensive long-term master planning process for the future. We invite your input.

As an active member of our community and patron of our Community Education Programs, you have likely been in our buildings and formed an opinion about their condition. You may have visited other school districts through affiliations with youth sports or service organizations. How do our facilities compare?

Many of our schools were built in the 60s and 70s and require maintenance. In recent years, we have prioritized heating and air handling systems, old windows, and lighting efficiency to reduce annual utility costs. There are also equipment issues, simply stretched beyond their useful life. I'm speaking about the gym bleachers that broke and are almost beyond repair, original lighting and sound equipment in the Performing Arts Center, and outdoor stadium lighting that is sparking concern.

Now, just like homes built in the 60s and 70s (or earlier), our schools need updates to protect the long-term investment. As we plan for future generations of children, as learning changes, and as our community grows, how should our schools adapt? Effective planning requires partnership and community participation. We can't do it alone. We'd like your thoughts about our facilities and future.

Please visit: [www.c-ischools.org/survey](http://www.c-ischools.org/survey) to get started.

**As we plan for future generations of children, as learning evolves, and as our community grows, how do our school facilities need to adapt?**

It's easy to drive by new housing construction and wonder about its impact on our schools. Do we have the space needed? There is a well-known shortage of early childhood learning and childcare space in Isanti County. Are there any other community needs or services that you'd like the school district to explore?

**How would you rate our facilities compared to others in Minnesota?**

**Academic & Classroom Spaces**

**Early Education Spaces (birth-5 years old)**

**Career & Technical Education Areas (vocational)**

**Community Gathering Spaces**

**Athletic & Activities Areas (gyms, fields, fitness)**

**Fine Arts Areas (music, theatre & performance spaces)**
