

MACON COUNTY R-I SCHOOL DISTRICT
702 NORTH MISSOURI
MACON, MISSOURI 63552

Macon Tigers

Dear Parent/Guardian,

You have identified your child as having a food allergy. In order to devise a plan to meet your child's needs, as well as be in compliance with the United States Department of Agriculture and the Missouri Department of Elementary and Secondary Education requirements, it is required that your child have a Medical Statement form from a licensed provider on file.

It is important that your provider identifies:

- Your child's impairment and how it restricts their diet
- What the school should do to accommodate the child
- Foods that should be omitted from the diet
- Foods that should be substituted (if any)

Lastly, it is important that you and your provider sign the appropriate fields on the form and return it to school as soon as possible. Please direct it to the school nurse.

Thank you,

Jennifer Gordan, RN
District Nurse
