WAUSAU SCHOOL DISTRICT

ANNUAL ASBESTOS NOTIFICATION

2024 - 2025

OFFICIAL NOTICE TO ALL EMPLOYEES, STUDENTS, PARENTS, AND PUBLIC

This notice has been written to comply with the Federal Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA) regulations requiring yearly notification of asbestos activities within the Wausau School District.

An Asbestos Management Plan was developed in 1988 and has been continually maintained and updated since that time. The required inspections and re-inspections are conducted as required, contributing to the Management Plan.

Abatement of asbestos containing building materials is performed when necessary by accredited persons prior to disturbance during scheduled renovation or construction projects. During 2023, asbestos abatement was performed prior to construction or maintenance activities at some schools.

Any future asbestos activities will again be published along with the annual written notice. If you would like to review the Management Plan or would like details surrounding any abatement procedures, feel free to contact Ryan Urmanski, Director of Building and Grounds.

It is the mission of the Wausau School District to advance student learning, achievement, and success.
