

ICSMILAN

INTERNATIONAL SCHOOL

From 6 to 12 years old

Summer School

During the Summer School, students will engage in many STEAM activities and laboratories (Science, Technology, Engineering, Art, Maths), each week following a different theme of the UN Sustainable Development Goals. In addition to improving their English, students will express their creativity and discover science, technology and math while having fun. Every day there will be outdoor games and sports, while once per week children will take part in a field trip.

1-5 July	Life Below Water
8-12 July	Life on Land
15-19 July	Quality Education
22-26 July	Partnerships for the Goals

One field trip per week

A typical day
