Board of School Trustees Rockwall Independent School District 1050 Williams Street Rockwall, Texas 75087

Members of the Board of Trustees and Citizens of Rockwall Independent School District:

The Comprehensive Annual Financial Report (CAFR) of the Rockwall Independent School District (District) for the year ended June 30, 2019, is submitted herewith. This report was prepared by the District's Finance Department. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and the results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. This report includes all funds of the District discusses in greater detail its financial position in the narrative, introduction, overview and analysis sections of the Management's Discussion and Analysis (MD&A).

The CAFR for the year ended June 30, 2019 is presented in conformance with the reporting model adopted by the Governmental Accounting Standards Board ("GASB") in their Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, issued in June 1999.

GOVERNANCE

The governance of the District is overseen by a seven-member board of trustees (Board) that are elected by the citizens. Each member is elected to a three-year term. Terms are staggered, so that not all positions are voted on during the same year. See page xv for a listing of the present members of the Board along with the administrative officials who are appointed by the Board.

Regular action meetings are scheduled the third Monday of the month and are held in the District's Administration Building. Regular work sessions are scheduled the first Monday of the month and are also held at the District's Administration Building. Special meetings are scheduled as needed and announced in compliance with public notice requirements.

The Board has final control over local school matters limited only by the state legislature, by the courts and by the will of the people as expressed in School Board elections. Board decisions are based on a majority vote of a quorum of the Board.

In general, the Board adopts policies, sets direction for curriculum, employs the superintendent and oversees the operations of the District and its schools. Besides general Board business, trustees are charged with numerous statutory regulations, including appointing the tax assessor/collector, calling trustee and other school elections and canvassing the results, organizing the Board and electing its officers. The Board is also responsible for setting the tax rate, setting salary schedules, and acting as a board of appeals in personnel and student matters, confirming recommendations for textbook adoptions, and adopting and amending the annual budget. Since members of the Board are elected by the public and have the authority to make decisions, significantly influence operations, appoint administrators, and have primary accountability for fiscal matters, the District is not included in any other governmental "reporting entity" as defined in GASB Statement No. 14 and as amended by GASB Statements No. 39 and No. 61. Also there are no component units for which the District or the Board are financially accountable.

The Board solicits and evaluates community input and support concerning school policies.

MISSION AND BELIEFS

Rockwall ISD empowers learners to embody independence, value relationships and achieve excellence as thriving members of a dynamic global community.

To accomplish its mission, the District provides a full range of educational services appropriate to grade levels ranging from pre-kindergarten through grade 12. These include regular and enriched academic education, special education for the handicapped, career education and special programs for those with limited English proficiency. These programs are supplemented by a wide variety of co-curricular offerings, including those in fine arts and athletics. The District's curriculum is well-defined for the purpose of preparing students early for college readiness. The participation rate of RISD students in Advanced Placement programs ranks among the highest in the state and nation. RISD participates in the International Baccalaureate program which provides additional high quality educational program choices for RISD high school students. RISD students' performance on these exams gives them a competitive edge for college admission and college success.

As reflected in the District's mission and belief statements, activities of the District focus on learning opportunities for students. The District is providing educational services to more than 16,587 students in state of the art facilities that include an early childhood center for prekindergarten age students, 14 elementary schools, three middle schools, two high schools, a college and career academy, and two special program centers.

ECONOMIC CONDITIONS AND OUTLOOK

Rockwall Independent School District is a political subdivision of the State of Texas located in Rockwall County. The District, founded in 1841, is located in Rockwall and has experienced rapid growth since the 1970's. The City of Rockwall enjoys easy access to major transportation and shipping hubs in air, rail and trucking to any destination in the United States. The combined effects of increases in population, income, employment and residential growth have ensured continued growth in the District, especially during the past ten years.

The District's last multi-year bond program was successfully approved by the voters in November, 2015. The purpose of this \$257 million program is to provide funding for three new elementary schools for district growth, a College and Career Academy, renovations and upgrades to schools with an average age of 20 years, land and bus purchases, and technology upgrades. Included in the renovations are the replacement of Dobbs and Reinhardt Elementary Schools to ensure that these facilities meet new building standards as well as curriculum and technology requirements. The District has issued \$218.8 M through June 30, 2019.

During the current year proceeds were used for the following:

- Construction of Gene Burton College & Career Academy and Elementary School #15
- Replacement and rebuild of Dobbs and Reinhardt Elementaries, which had an average age of 40 years and for which renovations were less feasible than complete replacement
- Major renovations and addition to Amy Parks Heath Elementary to update and modernize this 25 year old campus
- Athletics improvements including the tennis court resurfacing at multiple locations as well as the construction of the Wilkerson Sanders Tennis Complex and replacement of indoor turf
- Renovations to Rockwall High School, JW Williams Middle School, and Cullins Lake Pointe Elementary School
- District wide technology upgrades including improved wireless access, network operations center upgrades and a new VOIP phone system
- Safety and security upgrades to the parent center
- Purchase of Land for a future elementary school site
- Purchase of buses
- Electrical upgrades including gym lighting, generators, and HVAC and Energy Management Controls

Much of the District's planning effort is focused on the District's Improvement Plan. The plan demonstrates the commitment to increase student achievement for all students. Campus Improvement Plans, which work in concert with the District's plan, address specific needs of students at individual campuses. The District and Campus Improvement Plans include annual goals for improving student achievement and objective evaluation criteria for measuring success. In addition, the District adopted a new Strategic Plan in 2018, which identifies the District's Beliefs, Learner Outcomes and Profiles as well as Eight Goals for the next 10 years. Rockwall ISD's Core Values are Relationships, Innovation, and Excellence.

2018-19 Budget and Tax Rate

The Board of Trustees is required to adopt a final budget by no later than the close of the fiscal year, June 30. Annual budgets for the General Operating Fund, Debt Service Fund and Food Service Fund were adopted by the Board of Trustees on June 17, 2019 and revised for House Bill 3 changes on June 24, 2019. The budget is prepared by fund and function. Site based decisions are made throughout the year as campuses and departments manage their budgets. Budget transfers between functions; however, require approval from the Board of Trustees. The District operates a tightly controlled budget in all areas of operation while maintaining a high quality educational program.

As part of the implementation of House Bill 3 from the 86th Legislative Session, for Texas ISDs the Tier 1 portion of the M&O tax rate is based on the first \$1.00 of tax effort in tax year 2018 and is being compressed by 93 percent. For Rockwall ISD, the new Tier 1 rate for 2019 is calculated at \$0.93. Remaining the same from previous law, Texas ISDs have the ability to increase their Tier 1 rate by four additional pennies providing for Tier 2 funding. That said, On August 19, 2019 the District adopted a maintenance and operations tax rate of \$0.97 (Tier 1 rate \$0.93 + Tier 2 pennies \$0.04 = \$.0.97) and a debt service tax rate of \$0.38. The decrease in the debt service tax rate is a result of rising property values. The \$0.38 I & S rate will generate enough revenue to cover the District's interest and debt obligations, even in light of increased debt outstanding.

For additional information about the financial status of the District, readers should refer to Management's Discussion and Analysis section of this report.

OTHER INFORMATION

Internal Controls

An internal control structure that has been designed, managed and maintained by the District is in place to ensure the District's assets are protected from loss, theft and misuse, and to ensure that accurate accounting data is compiled in the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP). The cost of a control should not exceed the benefits to be derived therefore internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met.

Independent Audit

State law and District policy require an annual audit of the accounts and financial records of the District by independent certified public accountants selected by the Board of Trustees. Weaver has issued an unmodified opinion on the financial statements of Rockwall Independent School District for the fiscal year ended June 30, 2019. The independent auditor's report has been included in this report at the front of the financial section.

Awards

In 1999, the 76th Texas Legislature, approved legislation requiring the commissioner of education in consultation with the comptroller of public accounts to develop a rating system for school district financial accountability. The 77th Texas Legislature in 2001 subsequently adopted rules for the implementation and administration of the financial accountability rating system known as School FIRST, Financial Integrity Rating System of Texas. The financial accountability rating system benefits the public by having in place a system to ensure that school districts will be held accountable for the quality of their financial management practices and achieve improved performance in the management of their financial resources. Rockwall Independent School District has received a Superior Achievement rating since the implementation of the rating system in the 2001-02 year.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting and the Association of School Business Officials (ASBO) awarded the Certificate of Excellence in Financial Reporting to Rockwall Independent School District for its Comprehensive Annual Financial Report for the fiscal period ended June 30, 2018.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements. We are submitting the current report for the fiscal year ended June 30, 2019 to GFOA and ASBO to determine its eligibility for another certificate.

<u>Acknowledgments</u>

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Finance Department. We would like to express our appreciation to all members of the department who assisted and contributed to its preparation.

We also wish to thank the members of the Board of Trustees for their continued leadership and support and for planning and conducting the financial operations of the District in a responsible and progressive manner.

Financial Section

Independent Auditor's Report

To the Board of Trustees Rockwall Independent School District Rockwall, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Rockwall Independent School District (the District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

3

The Board of Trustees
Rockwall Independent School District

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, other supplementary information, statistical section, and Schedule of Required Responses to Selected School FIRST Indicators are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by requirements of Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The other supplementary information and schedule of expenditures of federal are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section, statistical section, and Schedule of Required Responses to Selected School FIRST Indicators have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

The Board of Trustees
Rockwall Independent School District

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 16, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Our discussion and analysis of Rockwall Independent School District's (the District) financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2019. Please read it in conjunction with the District's financial statements, which follow this section.

Financial Highlights

- The general fund reported an ending fund balance of \$64,261,032. The net change in fund balance resulted in an increase in the general fund balance from the prior year in the amount of \$4,410,792. The increase in fund balance was the result of conservative spending which caused actual expenditures to be well under budgeted expenditures and revenues which were greater than budget. Property tax collections increased as a result of property values increasing for tax year 2018 from the prior tax year and other revenues increased due to the strong economy.
- The District's long-term debt (bonds) is to meet the facility needs associated with student population growth. Because the District's debt management practice is to utilize appropriate bond instruments depending upon the economic circumstances, capital appreciation bonds have been issued. As a result, the liabilities and deferred inflows of resources of the District exceeded its assets and deferred outflows of resources at year end by \$130.7 million (net deficit).
- Capital appreciation bonds outstanding necessitated the accreted interest accrual of \$63.1 million in the government-wide financial statements, which reduces the net position of the District.
- General revenues accounted for \$172.0 million (83%) of all fiscal year 2019 revenue. Programspecific revenues in the form of charges for services and operating grants and contributions accounted for \$36.7 million (17%) of total fiscal year revenues.
- The District had approximately \$210.1 million in expenses related to governmental activities, of which approximately \$34.6 million was offset by program-specific charges for services or operating grants and contributions.
- As of the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$170.5 million. The general fund represents approximately 38% of this total amount, \$64.1 million, which is available for spending at the government's discretion (unassigned fund balance). Total unassigned fund balances total \$64.0 million.

Overview of the Financial Statements

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position (Exhibit A-1) and the Statement of Activities (Exhibit B-1). These reports provide information about the activities of the District as a whole, long-term view of the District's property, debt obligations, and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Governmental fund financial statements (starting with Exhibit C-1) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental funds, these statements tell how services were financed in the short term as well as what resources remain for future spending. They also reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget.

Proprietary fund financial statements (starting with Exhibit D-1) offer short-term and long-term financial information about the activities the District operates like businesses. The District has two enterprise funds reflected in the proprietary fund financial statements.

Fiduciary fund financial statements (Exhibit E-1) provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District.

The notes to the financial statements (following Exhibit E-1) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The sections labeled required supplementary information and other supplementary information contain additional information about the District's budget, pension schedules, and individual funds. This information may be found in Exhibits G-1 through J-2.

The section labeled Overall Compliance and Internal Controls Section contains data used by monitoring or regulatory agencies for assurance that the District is using funds in compliance with the terms of the grants awarded.

Government-Wide Financial Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. The two government-wide statements report the District's net position and how they have changed. Net position is one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position is an indicator of whether its financial health is improving or deteriorating, respectively. To assess the overall health of the District, you need to consider additional nonfinancial factors such as changes in the District's tax base. The government-wide financial statements of the District are divided into two categories:

Governmental activities. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes and grants finance most of these activities.

Business-type activities. Account for funds where the District charges fees to customers to help it cover the costs of certain services it provides.

The government-wide financial statements can be found on pages 19-21 of this report.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds—not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the reconciliations that explain the relationship (or differences) between them.

The governmental fund financial statements can be found on pages 22-28 of this report.

Proprietary funds. Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information. There are two proprietary fund types: enterprise funds and an internal service fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. As mentioned above in the government-wide definition, the District has two business-type activities or enterprise funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among various functions. The District has one internal service fund that predominantly benefits governmental rather than business-type functions and has been included within governmental activities in the government-wide financial statements.

The proprietary fund financial statements can be found on pages 29-31 of this report.

Fiduciary funds. The District is the trustee, or fiduciary, for certain funds. It is also responsible for other assets that—because of a trust arrangement—can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. Fiduciary funds are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

The fiduciary fund financial statements can be found on page 32 of this report.

Notes to the Financial Statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 33-66 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the budgetary comparison of the general fund and child nutrition fund. The required supplementary information also provides information on the District's cost-sharing multiple employer pension and OPEB plan of which the District is a participant. The required supplementary information is referenced as Exhibits G-1 through G-5, and the associated notes immediately follow the exhibits in this report.

Required supplementary information can be found on pages 68-76 of this report.

Financial Analysis of the District as a Whole

Net position. The overall deficit in net position increased between fiscal years 2018 and 2019 – the deficit increased by \$2.7 million. (See Table A-1).

Unrestricted net position showed a \$57.7 million deficit at the end of this year. This deficit does not mean that the District does not have significant resources available to pay its bills next year. Rather, it is the result of having long-term commitments that are more than currently available resources.

Changes in net position. The District's total revenues increased 22% to \$208.7 million. (See Table A-2.) A significant portion, 63% of the District's revenue comes from taxes. (See Graph A-1.) 30% comes from state allocations and from operating grants and contributions. The remaining 7% relates to charges for services, investment earnings, and miscellaneous revenues. The total cost of all programs and services were \$211.4 million. The District's expenses cover a range of services.

Governmental Activities

Revenues for the District's governmental activities increased 22%. General revenues increased due to an increase in tax collections as a result of rising property values, and increased investment earnings from rising interest rates. Operating grants and contributions increased, due to the implementation of GASB 75 in the prior year. During the 2017-2018 fiscal year, changes to the District's proportionate share of the State's Net OPEB Liability resulted in a decrease of expenses of approximately \$38.4 million from the prior year and a decrease of revenues of \$23.4 million. During the 2018-2019 fiscal year, the second year of implementation, changes of the District's proportionate share allowed state revenue to increase \$30 million, causing the increase over prior year.

Business-Type Activities- Business type activities increased the District's net position by \$118,824. The increase in net position is a direct result of charges for services from the business-type activities.

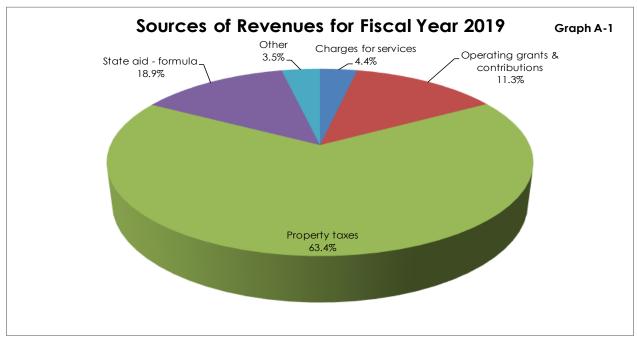

Table A-3 presents the cost of each of the District's largest functions as well as each function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

The cost of all activities this year was \$211.4 million. However, the amount that our taxpayers paid for these activities through property taxes was \$137.0 million.

Some of the cost was paid by those who directly benefited from the programs (\$9 million).

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$170.5 million. Approximately 38% of this total amount or \$64.0 million constitutes the unassigned fund balance. The remainder of fund balance is nonspendable, restricted, or committed to indicate that it is not available for new spending because it has already been: 1) restricted for retirement of long-term debt \$22.5 million, 2) restricted for capital projects \$79.2 million, and 3) restricted, or committed for other purposes, or nonspendable, totaling \$4.8 million.

The general fund is the primary operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$64.1 million, while the total fund balance of all governmental funds was \$170.5 million.

The general fund reported an ending fund balance of \$64,261,032. The net change in fund balance resulted in an increase in the general fund balance from the prior year in the amount of \$4,410,792. The increase in fund balance was the result of conservative spending which caused actual expenditures to be well under budgeted expenditures and revenues which were greater than budget. State funding decreased due to a decreased allocation, but property tax collections increased as a result of property values increasing for tax year 2018 from the prior tax year, and other revenues increased due to the strong economy.

The child nutrition fund has a total fund balance of \$2,409,959 which represents a decrease of \$403,738. This decrease is due to capital improvements to the serving lines at Williams and Cain Middle Schools. The child nutrition fund has more than 3 months' expenditures in fund balance and has submitted a plan to reduce the fund balance by constructing new serving lines at Rockwall High School, purchasing new kitchen equipment and replacing cafeteria tables at multiple locations.

The debt service fund has a total fund balance of \$22,454,985, all of which is restricted for the payment of debt service. The net increase in fund balance during the period in the debt service fund was \$1,139,540. The increase is due to increased property tax collections from rising property values as well as an increasing interest revenue on cash balances. The revenue increase was offset by increased debt payments resulting from issuance of Series 2018 Bonds.

The capital projects fund has a fund balance of \$79,244,742 at year end. The net increase in fund balance of \$1,024,065 is a result of issuance of 2018 Bonds offset by capital expenditures to build the College and Career Academy, Dobbs and Reinhardt Elementary replacements and other miscellaneous bond projects.

General Fund Budgetary Highlights

Over the course of the year, the District recommended and the Board approved several revisions to budgeted revenues and appropriations. The amendments fall into the following categories:

- Amendments approved throughout the year for increases in insurance premiums and miscellaneous contracts of \$327,600, one-time incentive payment to all employees of \$1.8M, hail expenditures \$4.1 million, facility improvements \$1.8M, and miscellaneous one-time expenditures of \$309,000.
- Revenue amendments throughout the year to revise estimates for local revenue based on certified property values, SHARS income, interest income, and transfers from other funds for an increase of \$5.0 million.
- Amendments throughout the year for employment of new personnel for \$475,000.

After appropriations were amended as described above, actual revenues for the general fund were \$3.1M above the final budget amounts. The District saw an increase in property tax collections, facility rentals, and investment earnings. Actual expenditures were \$4.7M below final budget amounts, primarily due to personnel vacancies in budgeted payroll positions and conservative spending practices.

Capital Assets and Debt Administration

Capital Assets

The District's investment in capital assets as of June 30, 2019, amounts to \$396.5 million (net of accumulated depreciation). This amount represents a net increase (including additions and deletions) of \$26.4 million or 7.1%. The investment in capital assets includes land, buildings and improvements, vehicles, equipment, and construction in progress.

Table A-4

Additional information on the District's capital assets can be found in Note 5.

Long-Term Debt

At year-end the District had \$623.5 million in long term debt – an increase of 4.8% over last year – as shown in Table A-5.

Table A-5
Rockwall Independent School District's Long Term Debt

	2019		2018
Bonds payable Accreted interest Bond premiums	\$ 515,570,826 63,105,377 44,830,253	\$	480,596,636 69,009,885 45,073,715
	\$ 623,506,456	\$	594,680,236

The "AAA" long term rating of the District's Texas bonds reflects the Texas Permanent School guarantee. The District has an underlying bond rating of "Aa2" and "AA" given to it by both Moody's and Standard & Poors, respectively. This rating reflects the District's (1) strong economic situation, (2) strong administrative management, and (3) excellent financial performance.

Additional information on the District's long-term debt can be found in Note 7.

Economic Factors and Next Year's Budgets and Tax Rates

The District's certified property values for 2019 reflect a 6.9% increase in property values, from the prior year. As part of the implementation of House Bill 3 from the 86th Legislative session, for Texas ISDs the Tier 1 portion of the M&O tax rate is based on the first \$1.00 of tax effort in tax year 2018 and is being compressed by 93 percent. For Rockwall ISD, the new Tier 1 rate for 2019 is calculated at \$0.93 (\$1.00 x 93% = \$0.93). Remaining the same from previous law, Texas ISDs have the ability to increase their Tier 1 rate by four additional pennies providing for Tier 2 funding. That said, Rockwall ISD's total M&O tax rate for 2019-2020 is \$0.97 (Tier 1 rate \$0.93 + Tier 2 pennies \$0.04 = \$0.97). Although the Maintenance & Operations (M&O) tax rate is decreasing, the 2019 tax levy will raise 1.9% percent more maintenance and operations tax than last year's tax levy, due to property value growth. The proposed Maintenance & Operations (M&O) tax rate is decreasing by \$0.07 pennies compared to the prior year's rate. This represents a 6.7% decrease from the prior year's M&O rate.

The Interest & Sinking (I&S) tax rate is decreasing by \$0.01 penny despite debt payments increasing slightly due to the structure of the District's debt portfolio. The District is able to decrease its I&S tax rate while managing the increasing debt payments due to property value growth. The proposed I&S tax rate represents a 2.5% tax rate decrease from the prior year's I&S rate.

Student enrollment has continued to increase, each year. With annual increases in student enrollment, the District continues to strategically plan and build for continued student growth. Voters approved a bond referendum of \$256,820,000 by a 65% margin on November 3, 2015. This bond allows for a new high school STEM academy, three new elementary campuses, major additions and renovations to three campuses, athletic facility upgrades, and other capital facility improvements at many other campuses. These projects are approximately 60 percent complete with final completion anticipated in 2022 with the opening of elementary #16. The District issued Series 2016 Bonds in February 2016 comprised of \$26.2 million of 2007 authorization bonds for construction of Linda Lyon Elementary School which opened in August of 2017, and \$98.8 million for 2015 authorization projects.

An additional \$75 million of 2015 authorization bonds were issued in April of 2017 and \$45 million in November 2018 due to favorable bond market conditions. All proceeds are invested at Texas CLASS and are available for continuing payments on construction projects in progress. The District expects to issue the final \$38 million by the end of 2021.

The Board of Trustees adopted a 2019-2020 general fund budget reflecting revenues and transfers from other funds of \$130,602,845 and expenditures of \$135,196,674. Shortly after adoption, the budget was revised for House Bill 3 funding changes which decreased district reliance on local property taxes while increasing state funding. House Bill 3 also set minimum salary requirements for teaching staff for which the district adjusted. The amended budget provides for a 3% raise for non-teaching staff and an average 4% raise for teaching staff including an additional raise for teachers with greater than 5 years of service. The amended budget reflects revenues of \$137,797,668 and expenditures of \$136,505,896.

The District will continue to review its priorities to maintain the level of service to its children and taxpayers for future budget years.

Requests for Information

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact David Carter, Senior Chief Financial Officer for the District.

Rockwall Independent School DistrictReconciliation of the Balance Sheet - Governmental Funds to the Government-Wide Statement of Net Position June 30, 2019

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS	\$ 170,542,413
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental fund financial statements.	637,932,517
2 Accumulated depreciation has not been included in the governmental fund financial statements.	(241,675,260)
3 Bonds payable and contractual obligations have not been included in the governmental fund financial statements.	(515,570,826)
4 Accreted interest for capital appreciation bonds have not been included in the governmental fund financial statements as a liability.	(63,105,377)
5 Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the governmental fund financial statements, interest expenditures are reported when due.	(8,668,549)
6 Revenue reported as a deferred inflow of resources in the governmental fund financial statements was recorded as revenue in the government-wide financial statements.	5,375,404
7 Premiums and discounts on the issuance of current interest bonds are reflected in the statement of net position in the government-wide financial statements, net of amortization.	(44,830,253)
8 Gains from partial refundings of hedges is reported as other resources in the governmental fund financial statements, however, they are recorded as a liability in the government-wide financial statements, net of amortization.	(705,424)
9 The loss on refunding amount is reflected in the statement of net position in the government-wide financial statements, net of amortization.	11,610,086
10 Included in the items related to debt is the recognition of the District's proportionate share of the TRS net pension liability (\$40,483,878) and a deferred inflow of resources (\$2,493,663), and a deferred outflow of resources (\$21,189,057). The result is a decrease in net position.	(21,788,484)
11 Included in the items related to debt is the recognition of the District's proportionate share of the TRS-Care net OPEB liability (\$51,028,243) and a deferred inflow of resources (\$16,136,360), and a deferred outflow of resources (\$6,232,330).	
The result is a decrease in net position.	(60,932,273)
19 NET POSITION (DEFICIT) OF GOVERNMENTAL ACTIVITIES	\$ (131,816,026)

Exhibit C-2R Rockwall Independent School District Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds to the Government-Wide Statement of Activities For the Fiscal Year Ended June 30, 2019 **TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS** 6,231,819 Current year capital outlays are expenditures in the fund financial statements, but they are shown as increases in capital assets in the government-wide financial statements. The effect of removing the 2019 capital outlays is to increase net position. 47,563,258 Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The effect of recording the current (21,124,095) year's depreciation is to decrease net position. Current year long-term debt principal payments on bonds payable are expenditures in the fund financial statements, but are shown as reductions in long-term debt in the government-wide financial statements. 7,630,810 Net decrease in current year accretion on capital appreciation bonds is not reflected in the fund financial statements, but is shown as a decrease in accreted interest on the government-wide financial statements. 5,904,508 Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements an interest expenditure is reported when due. This amount represents the current year increase in interest payable. (602,644)Proceeds from debt issued through bond proceeds are reflected as other financing sources on the governmental fund financial statements, but are shown as a long term liability in the government-wide financial statements. (42,605,000) Premiums are recognized in the fund financial statements as other financing sources, but they are shown as long term liabilities in the government-wide financial statements. (2,824,413)Revenues in the statement of activities that do not provide current financial resources 1,269,731 are not reported as revenues in the funds. The net change in net pension liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of an increase in deferred outflows (\$11,086,125); decrease in deferred inflows (\$1,146,740); and increase in net pension liability (\$16,682,569). (4,449,704)The net change in net OPEB liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of an increase in deferred outflows (\$6,232,330); decrease in deferred inflows (\$1,776,104); and increase in net OPEB liability (\$8,206,383). (789,998)Amortization of the deferred loss on refunding is not recognized on the governmental fund financial statements. (2,141,406)Amortization of the gain on swap agreement is not recognized on the governmental fund financial statements. 46,064 Amortization of the premium on issuance of current interest bonds is not recognized on the governmental fund financial statements. 3,067,875 \$ (2,823,195) CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES

Notes to the Financial Statements

Note 1. Summary of Significant Accounting Policies

Rockwall Independent School District (the District) is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of School Trustees (the Board) elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) and it complies with the requirements of the appropriate version of Texas Education Agency's Financial Accountability System Resource Guide (the Resource Guide) and the requirements of contracts and grants of agencies from which it receives funds.

A. Reporting Entity

The Board, a seven member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and as a body corporate has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency (Agency) or to the State Board of Education are reserved for the Board, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District is not included in any other governmental "reporting entity".

As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the District (primary government) and its component units. There are no component units of the District that are required to be presented in the financial statements.

The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities.

B. Government-Wide and Fund Financial Statements

The statement of net position and the statement of activities are government-wide financial statements. They report information on all of the District's non-fiduciary activities with most of the interfund activities removed except for interfund services provided and used which are not eliminated. Governmental activities include programs supported primarily by taxes, state foundation funds, grants and other intergovernmental revenues. Business-type activities, which are reported separately, rely to a significant extent, on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identified with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes are reported as general revenues.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The emphasis on fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are nonoperating.

Notes to the Financial Statements

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The effect of interfund activity has been eliminated from the government-wide financial statements. Agency funds also use the accrual basis of accounting, however, they have no measurement focus.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The proprietary fund types are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable.

D. Fund Accounting

The District reports the following major governmental funds:

- 1. **The General Fund** The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
- 2. Child Nutrition Fund This fund accounts for the child nutrition program's transactions. The child nutrition fund is considered a special revenue fund because it meets the following criteria: 1) user fees are charged to supplement the national school lunch program (NSLP), 2) the general fund subsidizes the child nutrition program for all expenditures in excess of NSLP, and 3) the District does not consider the child nutrition program completely self-supporting. Child nutrition fund balances are used exclusively for child nutrition program purposes.

Notes to the Financial Statements

- Debt Service Fund The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
- **4.** Capital Projects Funds The proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in the capital projects funds.

Additionally, the District reports the following fund types:

Governmental Funds:

1. **Special Revenue Funds** – The District accounts for resources restricted to, or designated for, a specific purpose by the District or a grantor in a special revenue fund. Most federal and some state financial assistance is accounted for in a special revenue fund and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Proprietary Funds:

1. **Enterprise Funds** – The two funds account for the operation of a self-supporting activity which provides services to outside parties in return for fees. The funds account for assets, liabilities, revenues and expenses of the sports marketing effort of the District and the ROCK after school program.

Fiduciary Funds:

 Agency Funds – The District accounts for resources held for others in a custodial capacity in agency funds. The District's agency fund is the student activity fund. Agency funds typically involve only the receipt, temporary investment, and remittance of resources to individuals, private organizations, or governments.

E. Financial Statement Amounts

Cash and Cash Equivalents

The District pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as a part of the District's cash and cash equivalents. For purposes of the statement of cash flows for proprietary and similar fund-types, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.

Inventories and Prepaid Items

Inventories of materials, supplies and food commodities are reported on the balance sheet at weighted average cost. Inventory items are recorded as expenditures when consumed. Supplies are used for almost all functions of activities, while food commodities are used only in the food service functional activity.

Notes to the Financial Statements

Prepaid balances are for payments made by the District for which benefits extend beyond June 30, 2019. The cost of governmental fund type prepaid balances are recorded as an expenditure when consumed rather than when purchased.

Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which they were imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the general and debt service funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas legislature.

The tax rates assessed for the fiscal year ended June 30, 2019 to finance general fund operations and the payment of principal and interest on general obligation debt were \$1.040 and \$0.390 per \$100 valuation, respectively, for a total of \$1.430 per \$100 valuation.

Capital Assets

Capital assets, which include land, construction in progress, buildings, furniture, and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement should be reported at acquisition value rather than fair value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Land improvements, buildings, furniture and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

	Estimated
Assets Class	Useful Lives
Buildings and improvements	15-50
Vehicles	5-10
Other equipment	3-15

Notes to the Financial Statements

Long-Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Gains or losses on refunding are deferred and amortized over the lesser of the remaining life of the old debt or the life of the new debt using the straight line method and are presented as deferred inflows/outflows in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Accretion

Accretion is an adjustment of the difference between the price of a bond issued at an original discount and the par value of the bond. For governmental activities debt, the accreted value is recognized as it accrues by fiscal year.

Fund Balances and Net Position

1. Government-Wide Financial Statements

Net position on the statement of net position includes the following:

Net investment in capital assets -- the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, net of premiums and discounts, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted for debt service -- the component of net position that reports the difference between assets and liabilities with constraints placed on their use by the bond covenants.

Restricted for federal and state grants -- the component of net position that reports the difference between assets and liabilities with constraints placed on their use by the U.S. Department of Agriculture or other federal and state agencies.

Unrestricted -- the difference between the assets and liabilities that is not reported in net position net investment in capital assets, net position restricted for federal and state grants, net position restricted for food service or net position restricted for debt service.

2. Governmental Fund Financial Statements

Fund balance classifications, under GASB Statement No. 54, Fund Balance Reporting and Government Fund Type Definitions (GASB 54) are: nonspendable, restricted, committed, assigned, and unassigned. These classifications reflect not only the nature of funds, but also provide clarity to the level of restriction placed upon fund balance. Fund balance can have different levels of constraint, such as external versus internal compliance requirements. Unassigned fund balance is a residual classification within the general fund. The general fund should be the only fund that reports a positive unassigned balance. In all other funds, unassigned is limited to negative residual fund balance. In accordance with GASB 54, the District classifies governmental fund balances as follows:

Notes to the Financial Statements

Nonspendable -- includes amounts that cannot be spent because they are either not in spendable form, or, for legal or contractual reasons, must be kept intact. This classification includes inventories and prepaid items.

Restricted -- includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts restricted due to constitutional provisions or enabling legislation. This classification includes the child nutrition program, retirement of long term debt, construction programs and other federal and state grants.

Committed -- includes fund balance amounts that are constrained for specific purposes that are internally imposed by the District through formal action of the highest level of decision making authority. Committed fund balance is reported pursuant to resolution passed by the District's Board of Trustees. This classification includes campus activity funds, local special revenue funds and potential litigation, claims and judgments.

Assigned -- includes fund balance amounts that are self-imposed by the District to be used for a particular purpose. Fund balance can be assigned by the District's Board, the Superintendent, or the Assistant Superintendent of Finance and Human Resources. This classification includes insurance deductibles, encumbrances, program start-up costs, projected budget deficit for subsequent years and other legal uses.

Unassigned -- includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

The order of spending is to first use committed fund balance, then assigned fund balance, and last of all, unassigned fund balance. Restricted fund balance will be used before the unrestricted portion.

3. Interfund Activities

Interfund activity results from loans, service provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses.

Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers in and transfers out are netted and presented as a single "transfer" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "internal balances" line of government-wide statement of net position.

4. Data Control Codes

Data control codes refer to the account code structure prescribed by the Agency in the Resource Guide. The Agency requires the District to display these codes in its financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

Notes to the Financial Statements

5. Account Code Reporting

In accordance with Texas Education Code, Chapter 44, Subchapter A, the District adopted and implemented an accounting system which at least meets the minimum requirements prescribed by the State Board of Education and approved by the state auditor. The District's accounting system uses codes and the code structure presented in the accounting code section of the Resource Guide. Mandatory codes are utilized in the form provided in that section.

6. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The amount of state foundation revenue a school district earns for a year can and does vary until the time when final values for each of the factors in the formula become available. Availability can be as late as midway into the next fiscal year. It is at least reasonably possible that the foundation revenue estimates as of June 30, 2019 will change.

7. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

8. Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

Note 2. Cash, Cash Equivalents and Investments

The funds of the District must be deposited and invested under the terms of a depository contract, contents of which are set out in the Depository Contract Law.

The Public Funds Investment Act (Government Code Chapter 2256) (the Act) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity, allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Notes to the Financial Statements

Statutes and the District's investment policy authorized the District to invest in the following investments as summarized in the table below:

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment In One Issuer
U.S. Treasury obligations	10 years	None	None
U.S. agencies securities	10 years	None	None
Certificates of deposits	n/a	None	None
Fully collateralized repurchase agreements	90 days	None	None
Securities lending program	1 year	None	None
Banker's acceptance	270 days	None	None
Commercial paper	270 days	None	None
No-load money market mutual funds	90 days	None	None
No-load mutual funds	2 years	None	None
Guaranteed investment contracts	5 years	None	None
Public funds investment pools	n/a	None	None

The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, Fair Value Measurement and Application provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs—other than quoted prices included within Level 1—that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Notes to the Financial Statements

District's investments are in investment pools and are not subject to fair value measurement as presented in the table below. The District's investment balances and weighted average maturity of such investments are as follows:

		Fair \	alue Measuremen	ts Using		
		Quoted Prices	Significant			
		in Active	Other	Significant		Weighted
		Markets for	Observ able	Unobserv able	Percent of	Average
		Identical	Inputs	Inputs	Total	Maturity
Investment Type	June 30, 2019	Assets (Level	(Level 2)	(Level 3)	Investments	(Days)
Investments measured at						
Amortized cost:						
Investment pools:						
TexPool	\$ 9,220,526	\$ -	\$ -	\$ -	5%	35 days
Investments measured at						
Net asset value:						
Investment pools:						
Texas CLASS	119,929,008	-	-	-	71%	51 days
Lone Star Corporate Overnight Plus Fund	48,227,501	-	-	-	29%	49 days
Investment derivative instrument						
Interest rate swap	(9,014,402)		(9,014,402)			
Total value	\$ 168,362,633	\$ -	\$ (9,014,402)	\$ -		

The investment in derivative instrument is classified as level 2 of the fair value hierarchy and is valued using the zero coupon method. This method calculates the future net settlement payments, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. For more information on this interest rate swap agreement, see Note 7.B.

Investment Pools are measured at amortized cost or net asset value and are exempt for fair value reporting.

The Lone Star Investment Pool is an investment pool available to governmental entities. The pool was established under the guidance of the Texas Public Funds Investment Act. A board of directors made up of members of the pool is responsible for the overall operation of the pool. The Board has employed various third party organizations to assist in the operations. These third parties are as follows: American Beacon Advisors- Investment Managers, CAPTRUST Financial Advisors- Investment Consultant, State Street Bank- Custodian, and First Public- Administration. In combination with these third party organizations, the pool has received an AAA rating from Standard & Poor's. This rating allows the pool to meet the standards required by the Texas Public Funds Investment Act.

The Texas Cooperative Liquid Assets Securities System Trust (Texas CLASS) was created as an investment pool for its participants pursuant to Section 2256.016 of the Public Funds Investment Act, Texas Government Code. The Texas CLASS Trust Agreement (Trust) is an agreement of indefinite term regarding the investment, reinvestment and withdrawal of local government funds. The parties to the Trust Agreement are Texas local government entities that choose to participate (the Participants), MBIA Municipal Investors Service Corporation as Program Administrator (the Program Administrator) and Wells Fargo Bank Texas, NA as Custodian (the Custodian).

Texas CLASS is supervised by a Board of Trustees who are elected by the Participants. The Board of Trustees supervises the Trust and its affairs and acts as the liaison between the Participants, the Custodian, and the Program Administrator. The Board administers the affairs of the Trust. It also selects the consultants for Texas CLASS, including the Program Administrator and the Custodian. Starting in August 2016, the District began to utilize UMB Public Trust Advisors as an investment advisor. At June 30, 2019, \$119.9 million of the Texas CLASS balance is invested with UMB Public Trust Advisors.

Notes to the Financial Statements

The Board of Trustees has appointed an Advisory Board composed of Participants and other persons who do not have a business relationship with the Trust and are qualified to advise the Trust. The Advisory Board provides advice to the Board of Trustees and the Program Administrator about the investment policy and investment strategy of the Trust and about other matters as requested by the Board of Trustees and the Program Administrator.

The Fund is rated AAA by Standard & Poor's rating agency. This rating is the highest principal stability fund rating assigned by Standard & Poor's.

The District is a voluntary participant in TexPool. The State Comptroller of Public Accounts exercises responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters.

Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than the market value to report net position to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares.

TexPool is rated AAAm by Standard & Poor's rating agency. This rating is the highest principal stability fund rating assigned by Standard & Poor's.

The following table categorizes the District's investments at June 30, 2019:

Investment Type	Amount	Minimum Legal Rating	Rating as of Year End
Lone Star Corporate Overnight Plus Fund Texas CLASS TexPool	\$ 48,227,501 119,929,008 9,220,526	AAA/AAAm AAA/AAAm AAA/AAAm	AAA AAAm AAAm
Total cash equivalents	\$ 177,377,035		

At June 30, 2019, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$3,073,504 and the bank balance was \$3,891,584. The District's cash deposits as of and during the year ended June 30, 2019 were covered by the FDIC and pledged securities.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a. Depository: American National Bank.
- b. The market value of securities pledged as of the date of the highest combined balance on deposit was \$11,216,250.
- c. The highest combined balances of cash, savings, and time deposit accounts amounted to \$10,583,747 and occurred on November 14, 2018.
- d. Total amount of FDIC coverage at the time of the highest combined balance was \$250,000.

Notes to the Financial Statements

Cash and investments as of June 30, 2019 are classified in the accompanying financial statements as follows:

Statement of net position:

Cash and cash equivalents \$ 180,181,740

Fiduciary funds:

Cash and cash equivalents 274,499

Total cash and cash equivalents \$ 180,456,239

Cash and investments as of June 30, 2019 consist of the following:

Cash on hand \$ 5,700
Deposits with financial institutions 3,073,504
Cash equivalents 177,377,035

Total cash and investments \$ 180,456,239

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The table on page 42 presents the minimum rating required by (where applicable) the Public Funds Investment Act, the District's investment policy, or debt agreements, and the actual rating as of the year-end for each investment type held by the District.

A. Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. Investments held by third parties were fully collateralized and held in the District's name.

B. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

C. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. As of June 30, 2019 the District did not invest in any securities which are highly sensitive to interest rate fluctuations.

D. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Notes to the Financial Statements

Note 3. Due from Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. The District also receives federal grants from the Region X Service Center. In addition, the District receives entitlements from the state through the school foundation and per capita programs. Amounts due from federal and state governments as of June 30, 2019 are summarized below. All federal grants shown below are passed through the Agency and are reported on the balance sheet as due from other governments. Furthermore, there are times whenever overpayment is received from a state agency and money may be due to other governments.

Purpose	General Child Nutrition Fund Fund		Child Nutrition Fund				ot Service Fund	 Ionmajor Funds	Total
State entitlement Federal grants State grants Other	\$ 9,561,612 3,688,002 - 545,983	\$	- 21,452 - -	\$	- - - 204,754	\$ - 852,010 387,919 -	\$ 9,561,612 4,561,464 387,919 750,737		
	\$ 13,795,597	\$	21,452	\$	204,754	\$ 1,239,929	\$ 15,261,732		

Note 4. Interfund Receivables, Payables, and Transfers

Interfund balances at June 30, 2019 consisted of the following individual fund receivables and payables:

Payable Fund	Receivable Fund	 Amount	Primary Purpose		
General Fund	Nonmajor Governmental Funds	\$ 676,784	To cover cash shortage		
Child Nutrition Fund	Nonmajor Governmental Funds	3	To cover cash shortage		
Child Nutrition Fund	General Fund	470	To cover cash shortage		
Enterprise Fund	Child Nutrition Fund	7,518	To cover cash shortage		
Enterprise Fund	General Fund	105,000	To cover cash shortage		
General Fund	Child Nutrition Fund	8,582	To cover cash shortage		
Nonmajor Governmental Funds	Child Nutrition Fund	1,540	To cover cash shortage		
Nonmajor Governmental Funds	General Fund	1,645,943	To cover cash shortage		
		\$ 2,445,840			

All amounts due are scheduled to be repaid within one year.

The detail transfer schedule for the fiscal year ended June 30, 2019 includes the following:

Transfer In:	Transfer Out:		Amount	Purpose
General Fund General Fund General Fund	Child Nutrition Fund Nonmajor Governmental Funds Enterprise Fund	\$	225,000 100,000 700,000	BOT Approved TRF BOT Approved TRF BOT Approved TRF
		\$	1,025,000

Notes to the Financial Statements

A. Construction Commitments

The District had several active construction projects as of June 30, 2019. Projects included land purchase, new school construction, additions to buildings and renovation or upgrades of existing facilities. Expenses through June 30, 2019 and estimated future expenditures for capital projects are funded from operating capital project funds, unexpended bond proceeds and additional general obligation bonds. The following summarizes the projects in process at year end:

Project	Estir	nated Total Cost		Expenditures Incurred to 6/30/19		Incurred to Estimate		nated Future penditures
2015 Bond Authorization:								
Fine Arts	\$	500,000	\$	532,177	Proje	ect Complete

Notes to the Financial Statements

Note 6. Unearned and Unavailable Revenue

Unearned and unavailable revenue reported in the governmental funds at year end consisted of the following:

	General Fund		 Child Iutrition Fund	 Debt Service Fund	Total		
Net tax unavailable revenue State aid unavailable revenue SHARS unavailable revenue	\$	2,111,723 531,122 2,036,184	\$ - - -	\$ 696,375 - -	\$	2,808,098 531,122 2,036,184	
Total deferred inflows	\$	4,679,029	\$ -	\$ 696,375	\$	5,375,404	
Other unearned revenues	\$	43,394	\$ 209,102	\$ -	\$	252,496	
Total unearned revenues	\$	43,394	\$ 209,102	\$ -	\$	252,496	

Revenue that is not considered available at year end is reported as a deferred inflow of resources in the governmental funds and is recorded as revenue in the government-wide financial statements. Accordingly, tax, state aid, and SHARS unavailable revenues are reported as revenue in the government-wide financial statements.

Note 7. Long-Term Liabilities

A. Unlimited Tax Bonds

Long-term obligation activities during the year ended June 30, 2019 were as follows:

	Beginning Balance Additions		Additions	Reductions/ Refunded		Ending Balance		Due Within One Year	
Governmental activities Bonds payable:									
General obligation bonds	\$	480,596,636	\$,,	\$	(7,630,810)	\$	515,570,826	\$ 7,159,306
Accreted interest		69,009,885		1,934,682		(7,839,190)		63,105,377	8,455,694
Bond premium (discount)		45,073,715		2,824,413		(3,067,875)		44,830,253	-
Total bonds payable	\$	594,680,236	\$	47,364,095	\$	(18,537,875)	\$	623,506,456	\$15,615,000
Net pension liability		23,801,309		19,412,954		(2,730,385)		40,483,878	-
Net OPEB liability		42,821,860		8,911,401		(705,018)		51,028,243	-
Total long-term liabilities	\$	661,303,405	\$	75,688,450	\$	(21,973,278)	\$	715,018,577	\$15,615,000

The District issues unlimited tax bonds for the governmental activities to provide funds for the acquisition and construction of major capital facilities. Unlimited tax bonds are direct obligations and pledge the full faith and credit of the District. Bonded indebtedness of the District is reflected in the statement of net position. The bonds issued require the District to levy an ad valorem tax annually to retire the current maturities.

Notes to the Financial Statements

On October 31, 2018, the District issued "Rockwall Independent School District Unlimited School Building Bonds, Series 2018," totaling \$42,605,000. These bonds incur an average cost over the life of the bonds at a rate of 4.00-5.00% and mature annually with semi-annual interest payments. The proceeds were used to construct and renovate school buildings and to purchase new school buses. The bonds will fully mature in 2048.

In prior years, the District issued refunding bonds for the purpose of generating resources and decreasing the total debt service payments. Placing the proceeds of the refunding bonds in an irrevocable trust has provided for all future debt service payments on the original bonds. As of June 30, 2019, the outstanding balance of defeased bonds is \$259,070,826.

Unlimited tax bonds outstanding as of June 30, 2019 are as follows:

Purpose and Lawful Authority	Interest Rate	Final Maturity	Amounts Outstanding Amount 07/01/18		Issued	Retired/ Refunded	Amounts Outstanding 06/30/19	Interest Accretion 6/30/19	
Variable Rate Unlimited Tax School Building Bonds, Series 2006	4.50% to 4.82%	2037	\$ 32,000,000	\$ 27,000,000	\$ -	\$ -	\$ 27,000,000	\$ -

				\$ 480,596,636	\$ 42,605,000	\$ 7,630,810	\$ 515,570,826	\$ 63,105,377	

Notes to the Financial Statements

Debt service requirements are as follows:

Year Ending	Principal	Interest	Total		
June 30,	Requirements	Requirements	Requirements		
·					
2020	\$ 7,159,306	\$ 31,427,285	\$ 38,586,591		
2021	6,333,819	32,896,922	39,230,741		
2022	8,194,912	32,095,230	40,290,142		
2023	9,949,827	31,578,264	41,528,091		
2024	10,253,761	31,463,293	41,717,054		
2025 - 2029	91,088,003	119,523,466	210,611,469		
2030 - 2034	92,656,198	84,348,856	177,005,054		
2035 - 2039	108,420,000	56,515,339	164,935,339		
2040 - 2044	107,370,000	32,310,250	139,680,250		
2045 - 2048	74,145,000	6,713,350	80,858,350		
	\$ 515,570,826	\$ 458,872,255	\$ 974,443,081		

There are a number of limitations and restrictions contained in the unlimited tax school building and refunding bond indentures. Management has indicated that the District is in compliance with all significant limitations and restrictions at June 30, 2019.

Voters have authorized the issuance of additional bonds for construction and improvements. The following represents these authorizations:

Date of	Amount	Amount	Remaining		
Authorization	Authorized	Issued		Unissued	
November 03, 2015	\$ 256,820,000	\$ 218,800,000	\$	38,020,000	

B. Interest Rate Swap Agreement

Objective

The objective of the swap is to hedge against the potential of rising rates associated with the District's Variable Rate Unlimited Tax School Building Bonds, Series 2006 (Series 2006 Bonds).

Terms

The notional amount totals \$27,000,000, the principal amount of the Series 2006 Bonds. The District's swap agreement contains scheduled reductions to outstanding notional amounts that follow anticipated payments of principal of the Series 2006 Bonds in varying amounts during the years 2031 through 2036.

Under the terms of the swap, the District is obligated to make payments to JP Morgan Chase Bank (JPMCB) at a fixed rate of 3.853% per annum, and JPMCB is obligated to make floating rate payments to the District calculated on a notional amount that is equal to the hedge portion of the Series 2006 Bonds at a rate equal to 62.5% of the 5-year constant maturity swap rate (a reported market fixed rate at which 5-year interest rate swaps for a one-month U.S. dollar LIBOR rate are entered into from time to time). The Series 2006 Bonds and the 2006 Swap Agreement have a stated final maturity date of June 1, 2037. On August 11, 2010 the terms were amended to the floating rate from 68% of 1 month LIBOR to 68% of LIBOR.

Notes to the Financial Statements

Interest in the maturity schedule was calculated at a rate, representing the sum of: (a) the actual fixed payment swap rate of 3.853% pursuant to the 2006 Swap Agreement; (b) the estimated cost of the liquidity facility for the Series 2006 Bonds (0.120%); (c) the estimated cost of remarketing the Series 2006 Bonds (0.125%); and (d) 0.72% per year to offset the potential differences between the floating rates payable to the District pursuant to the 2006 Swap Agreement and the actual interest rates payable by the District on the Series 2006 Bonds.

Arrangements made in respect of the 2006 Swap Agreement do not alter the District's obligation to pay principal of and interest on the Series 2006 Bonds. The 2006 Swap Agreement does not provide a source of security or other credit for the Series 2006 Bonds. The District's obligations under the 2006 Swap Agreement are secured by a levy of an annual ad valorem tax on parity with the District's obligation to pay principal and interest on the Series 2006 Bonds.

The District applies GASB Statement No. 53 – Accounting and Financial Reporting for Derivative Instruments, which addresses the recognition, measurement, and disclosures related to derivative instruments. The District evaluated all potential hedging derivative instruments for effectiveness utilizing the regression method as of June 30, 2019 and determined the derivatives to be effective in substantially offsetting the change in cash flows of the hedgeable items. These derivatives act as cash flow hedges.

Fair Value

Because long-term interest rates have changed since inception of the swaps, the swaps had a negative fair value of \$9,014,402 or a negative change of \$2,214,245. Fair market value is determined to be the amount the District would have paid, should the swap have terminated at June 30, 2019.

Credit Risk

As of June 30, 2019, the District was not exposed to credit risk with JPMCB on the 2006 Swap Agreement because the swap has a negative fair value. However, should interest rates change so that the fair value of the 2006 Swap Agreement became positive, the District would be exposed to credit risk in the amount of the fair value of the 2006 Swap Agreement.

As of June 30, 2019, JPMCB was rated Aa3 and A+ by Moody's Investors Service (Moody's) and Standard & Poor's (S&P), respectively.

Termination Risk

The 2006 Swap Agreement is subject to mandatory termination in the event of default or as follows:

If the ratings assigned to the District's unenhanced long-term debt obligations are withdrawn or reduced to Baa3 by Moody's or BBB- by S&P, or if the ratings assigned to JPMCB's unenhanced long-term debt obligations are withdrawn or reduced to Baa3 by Moody's or BBB- by S&P.

The 2006 Swap Agreement is also subject to optional termination by the District at any time over the term of the 2006 Swap Agreement at the then prevailing market value. JPMCB does not have the elective right to optionally terminate the 2006 Swap Agreement.

Swap Payments and Associated Debt

The debt service requirements of the hedged portion of the Series 2006 Bonds are included in the debt service maturity schedule on page 50. As interest rates change in the future, the differences between the floating rates payable to the District under the 2006 Swap Agreements and the actual interest rates payable by the District on the Series 2006 Bonds will vary.

Notes to the Financial Statements

Note 8. General Fund Federal Source Revenues

During the current year, general fund federal source revenues consisted of the following:

Program or Source	CFDA Number	_	Amount
Indirect cost reimbursement Medicare reimbursement (SHARS)	N/A N/A	\$	103,155 1,829,513
		\$	1,932,668

Note 9. Revenue from Local and Intermediate Sources

During the year ended June 30, 2019, the District received revenues from local and intermediate sources consisting of the following:

	General Fund	Child Nutrition Fund	Debt Service Fund	Capital Projects Fund	Other Governmental Funds	Total Governmental Funds
Property taxes-current	\$ 97,325,700	\$ -	\$ 36,502,731	\$ -	\$ -	\$ 133,828,431
Property taxes-delinquent	1,294,404	-	503,744	-	-	1,798,148

Notes to the Financial Statements

Note 11. Employees' Retirement Plan

A. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

B. Pension Plan Fiduciary Net Position

Detailed information about the TRS's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report (CAFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

C. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAS can be granted by the Texas Legislature as noted in the Plan Description above.

D. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Notes to the Financial Statements

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 85th Texas Legislature, General Appropriations Act (GAA) affirmed that the employer contribution rates for fiscal years 2018 and 2019 would remain the same.

	Contribution Rates			
	2019	2018		
Member	7.70	7.70		
Member	7.7%	7.7%		
Non-Employer Contributing Entity (State)	6.8%	6.8%		
Employers/District	6.8%	6.8%		
Contributions:				
2019 Employer contributions	\$	2,645,046		
2019 Member contributions		7,223,339		
2019 NECE on-behalf contributions		4,886,513		

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Notes to the Financial Statements

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

E. Actuarial Assumptions

The total pension liability in the August 31, 2017 actuarial valuation rolled forward to August 31, 2018 was determined using the following actuarial assumptions:

Valuation date	August 31, 2017 rolled forward to August 31, 2018
Actuarial cost method	Individual entry age normal
Asset valuation method	Market value
Single discount rate	6.907%
Long-term expected rate	7.25%
Municipal bond rate	3.69% *
Last year ending August 31 in	
Projection period (100 years)	2116
Inflation	2.30%
Salary increases	3.05% to 9.05% including inflation
Ad hoc post-employment benefit changes	None

*Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

The actuarial methods and assumptions are based primarily on a study of actual experience for the three year period ending August 31, 2017 and adopted in July 2018.

Notes to the Financial Statements

F. Discount Rate

The discount rate used to measure the total pension liability was 6.907%. The single discount rate was based on the expected rate of return on pension plan investments of 7.25 percent and a municipal bond rate of 3.69 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2069, and the municipal bond rate was applied to all benefit payments after that date. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2018 are summarized below:

		Long-Term Expected	Expected Contribution to Long-Term
	Target	Geometric Real	Portfolio
Asset Class	Allocation *	Rate of Return **	Returns
Global equity:			
U.S.	18.0%	5.7%	1.0%
Non-U.S. developed	13.0%	6.9%	0.9%
Emerging markets	9.0%	8.9%	0.8%
Directional hedge funds	4.0%	3.5%	0.1%
Private equity	13.0%	10.2%	1.3%
Stable value:			
U.S. treasuries	11.0%	1.1%	0.1%
Absolute return	0.0%	0.0%	0.0%
Stable value Hedge funds	4.0%	3.1%	0.1%
Cash	1.0%	-0.3%	0.0%
Real return:			
Global inflation linked bonds	3.0%	0.7%	0.0%
Real assets	14.0%	5.2%	0.7%
Energy and natural resources	5.0%	7.5%	0.4%
Commodities	0.0%	0.0%	0.0%
Risk parity:			
Risk parity	5.0%	3.7%	0.2%
Inflation expectation			2.3%
Volatility drag***		_	-0.8%
Totals	100.0%		7.1%
		1

^{**} Capital market assumptions come from Aon Hewitt (2017 Q4)

^{***} The volatility drag resulting from the conversion between arithmetic and geometric mean returns.

Notes to the Financial Statements

G. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the Net Pension Liability.

	1% Decrease in		1% Increase in
	Discount Rate Discount Rate (5.907%) (6.907%)		Discount Rate (7.907%)
District's proportionate share			
of the net pension liability:	\$ 61,099,879	\$ 40,483,878	\$ 23,794,002

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability of \$40,483,878 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$	40,483,878
State's proportionate share that is associated with District		75,253,136
Todal	Φ.	115 727 014
Total	4	115,737,014

The net pension liability was measured as of August 31, 2017 and rolled forward to August 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2017 rolled forward to August 31, 2018. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2017 thru August 31, 2018.

At August 31, 2018 the District's proportion of the collective net pension liability was 0.0735503% which was a decrease of 0.0008878% from its proportion measured as of August 31, 2017.

I. Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The Total Pension Liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 8.0 percent as of August 31, 2017 to 6.907 percent as of August 31, 2018.
- The long-term assumed rate of return changed from 8.0 percent to 7.25 percent.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the Net Pension Liability.

Notes to the Financial Statements

There were no changes of the benefit terms that affected measurement of the total pension liability during the measurement period.

For the fiscal year ended June 30, 2019, the District recognized pension expense of \$11,897,759 and revenue of \$7,448,055 for support provided by the State.

At June 30, 2019, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual		
economic experience	\$ 252,343	\$ (993,314)
Changes in actuarial assumptions	14,596,388	(456,137)
Difference between projected and actual		
investment earnings	-	(768,153)
Changes in proportion and difference		
between the employer's contributions and		
the proportionate share of contributions Contributions paid to TRS subsequent to the	4,114,898	(276,059)
measurement date	2,225,428	
Total	\$ 21,189,057	\$ (2,493,663)

\$2,225,428 reported as deferred outflows of resources resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

	Pension Expens		
Year ended June 30,	(Income)		
2020	\$	4,507,391	
2021		2,890,868	
2022		2,432,146	
2023		2,670,945	
2024		2,399,302	
Thereafter		1,569,314	
Total	\$	16,469,966	

Note 12. Defined Other Post-Employment Benefit Plan

A. Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

Notes to the Financial Statements

B. OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

C. Benefits Provided

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their dependents not enrolled in Medicare may pay premiums to participate in one of two optional insurance plans with more comprehensive benefits (TRS-Care 2 and TRS-Care 3). Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for a retiree with and without Medicare coverage.

TRS-Care Plan Premium Rates
Effective January 1, 2018 - December 31, 2018

	Medicare		Non-medicare		
			·-		
Retiree*	\$	135	\$	200	
Retiree and spouse		529		689	
Retiree* and children		468		408	
Retiree and family		1,020		999	

^{*} or surviving spouse

D. Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Notes to the Financial Statements

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is .75 percent of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

_	2019	2018
_		
Active employee	0.65%	0.65%
Non-employer contribution entity (state)	1.25%	1.25%
Employers/District	0.75%	0.75%
Federal/private funding remitted by employers	1.25%	1.25%

The contribution amounts for the District's fiscal year 2019 are as follows:

2019 District contributions	\$ 741,834
2019 Member contributions	609,762
2019 NECE on-behalf contributions (state)	1,134,358

In addition, the State of Texas contributed \$285,656 and \$272,989, in 2019 and 2018, respectively, for onbehalf payments for Medicare Part D.

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$182.6 million in fiscal year 2018. The 85th Texas Legislature, House Bill 30 provided an additional \$212 million in one-time, supplemental funding for the FY2018-19 biennium to continue to support the program. This was also received in FY2018 bringing the total appropriations received in fiscal year 2018 to \$394.6 million.

E. Actuarial Assumptions

The total OPEB liability in the August 31, 2017 was rolled forward to August 31, 2018. The actuarial valuation was determined using the following actuarial assumptions:

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2017 TRS pension actuarial valuation that was rolled forward to August 31, 2018:

Rates of mortality

Rates of retirement

Rates of termination

General inflation

Wage inflation

Expected payroll growth

Rates of disability incidence

Additional Actuarial Methods and Assumptions:

Valuation date August 31, 2017 rolled forward

to August 31, 2018

Actuarial cost method Individual entry age normal Inflation 2.30%

Single discount rate* 2.30% 3.69%*

Notes to the Financial Statements

Aging factors

Based on plan specific experience

Third-party administrative expenses

related to the delivery of health care

related to the delivery of health care benefits are included in the age-

adjusted claims costs.

Projected salary increases** 3.05% to 9.05%**

Election Rates Normal retirement: 70% participation

prior to age 65 and 75% participation

after age 65

Ad hoc post-employment benefit changes None

Other information - In this valuation, the impact of the Cadillac Tax has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.50 percent.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55. Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long-term trend rate assumption.

F. Discount Rate

A single discount rate of 3.69% was used to measure the total OPEB liability. There was an increase of .27 percent in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to *not* be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

G. Sensitivity of the Net OPEB Liability

Discount Rate

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.69%) in measuring the Net OPEB Liability.

Sensitivity of the Net OPEB Liability to the Single Discount Rate Assumptions

1% Decrease (2.69%)	Current Single Discount Rate (3.69%)	1% Increase (4.69%)
\$ 60,741,141	\$ 51,028,243	\$ 43,344,714

^{*}Source: Sourced from fixed Income municipal bonds with 20 years to maturity that include only federal tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of August 31, 2018.

^{**}Includes inflation at 2.30%

Notes to the Financial Statements

Healthcare Cost Trend Rates

The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed health-care cost trend rate:

Sensitivity of the Net OPEB Liability to the Healthcare Cost Trend Rate Assumptions

	Current						
Healthcare Cost							
1% Decrease (7.5%)							
\$ 42.379.787	\$ 51.028.243	\$ 62.418.447					

H. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At June 30, 2019, the District reported a liability of \$51,028,243 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$	51,028,243
State's proportionate share of the net OPEB liability associated with the District		78,169,183
Total	•	129,197,426
rola	Ψ	127,177,420

The Net OPEB Liability was measured as of August 31, 2017 and rolled forward to August 31, 2018 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2017 thru August 31, 2018.

At August 31, 2018 the employer's proportion of the collective Net OPEB Liability was 0.1021977% which was an increase of 0.0037255% from its proportion measured as of August 31, 2017.

Notes to the Financial Statements

Changes Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the Total OPEB Liability.
- The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the Total OPEB Liability.
- Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This changed increased the Total OPEB Liability.
- The discount rate was changed from 3.42 percent as of August 31, 2017 to 3.69 percent as of August 31, 2018. This change lowered the Total OPEB Liability \$2.3 billion.
- Change of Benefit Terms Since the Prior Measurement Date Please see the 2018 TRS CAFR, page 68, section B. for a list of changes made effective September 1. 2017 by the 85th Texas Legislature.

For the fiscal year ended June 30, 2019, the District recognized OPEB expense of \$4,375,158 and revenue of \$2,843,326 for support provided by the State.

At June 30, 2019, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	O	Deferred outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$	2,707,879	\$ (805,301)
Changes of assumptions		851,523	(15,331,059)
Net difference between projected and actual earnings on			
pension plan investments		8,924	-
Changes in proportion and differences between District contribution	IS		
and proportionate share of contributions (cost-sharing plan)		2,041,839	-
District contributions after measurement date		622,165	-
Totals	\$	6,232,330	\$ (16,136,360)

Notes to the Financial Statements

\$622,165 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020. The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,	
2020 2021 2022 2023 2024 Thereafter	\$ (1,754,347) (1,754,345) (1,754,345) (1,756,033) (1,756,998) (1,750,127)
Total	\$ (10,526,195)

Note 13. Risk Management

A. Health Care

The District terminated the previously established health self insurance plan (Plan) beginning September 10, 2010. The plan will continue to pay claims until all are settled.

The District had a contract and inter-local agreement with United Healthcare, Inc. which limited the District's exposure on individual health claims incurred prior to October 1, 2008.

Claims incurred after October 1, 2008 were subject to an individual stop-loss of \$170,000 per participant annually and \$2,000,000 lifetime maximum benefits. Individual employee health claims were self insured up to \$170,000 annually and stop-loss benefits above \$170,000 were provided up to an aggregate district wide attachment point of \$9,181,607.

The latest financial statements available for United Healthcare, Inc. are filed with the Texas State Board of Insurance, Austin, Texas, and are public record. The District does not provide any post-retirement health benefits to its employees.

B. Unemployment Compensation Pool

During the year ended June 30, 2019, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Local Government Code. The Fund's Unemployment Compensation program is authorized by Section 22.005 of Government Code. All members participating in the Fund execute interlocal agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued each month until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for Unemployment Compensation pool members.

Notes to the Financial Statements

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2018 are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

C. Other Risk Management

The District is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2019, the District purchased commercial insurance to cover these liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

Note 14. Commitments and Contingencies

The District is a party to various legal actions, none of which are believed by administration to have a material effect on the financial condition of the District. Accordingly, no provision for losses has been recorded in the accompanying basic financial statements for such contingencies. The District participates in numerous state and federal grant programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2019 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

The Tax Reform Act of 1986 imposed regulations on tax-exempt bond issues. Governmental bonds issued after August 31, 1986 are subject to the rebate provisions of the Tax Reform Act of 1986. The rebate applies to earnings from bond issue proceeds investments that exceed bond issue stated interest rates. There is a complicated formula based on a five year history, therefore the exact amount of liability, if any, is not known until five years from the bond issuance date. Total rebate liability as of June 30, 2019 was \$58,261.

Note 15. New Accounting Pronouncements

GASB Statement No. 83: Certain Asset Retirement Obligations. Statement 83 was issued in November 2016. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for asset retirement obligations. This standard becomes effective for the District in fiscal year 2019. The implementation had no effect on the District's financial statements.

GASB Statement No. 84: Fiduciary Activities. Statement 84 was issued in January 2017. This Statement establishes standards of accounting and financial reporting for fiduciary activities. This standard becomes effective for the District in fiscal year 2020. The District has not yet determined the impact of this statement.

GASB Statement No. 87: Leases. Statement 87 was issued in June 2017. This Statement establishes standards of accounting and financial reporting for lease by lessees and lessors. This standard becomes effective for the District in fiscal year 2021. The District has not yet determined the impact of this statement.

Notes to the Financial Statements

GASB Statement No. 88: Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. Statement 88 was issued in April 2018. This Statement defines debt for purposes of disclosure in notes to financial statements and establishes additional financial statement note disclosure requirements related to debt obligations of governments. This Standard becomes effective for the District in fiscal year 2019. The implementation had no effect on the District's financial statements.

GASB Statement No. 89: Accounting for Interest Cost Incurred before the End of a Construction Period. Statement 89 was issued in June 2018. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. This Standard becomes effective for the District in fiscal year 2021. The District has not yet determined the impact of this statement.

GASB Statement No. 90: Majority Equity Interests – an Amendment of GASB Statements No. 14 and No. 61. Statement 90 was issued in August 2018. This Statement modifies previous guidance for reporting a government's majority equity interest in a legally separate organization. This Statement also provides guidance for reporting a component unit if a government acquires a 100 percent equity interest in that component unit. This Standard becomes effective for the District in fiscal year in fiscal year 2020. The District has not yet determined the impact of this statement.

Note 16. Nonmonetary Transactions

During 2019, the District received textbooks purchased by the State of Texas for the benefit of the District for a purchase price of \$1,256,915. The District receives the textbooks as part of state funding for textbook allotment. The textbooks have been recorded in the amount of \$1,256,915 in a special revenue fund as both state revenues and expenditures, which represents the amount of consideration given by the State of Texas.

Notes to Required Supplementary Information For the Fiscal Year Ended June 30, 2019

Note 1. Budgetary Data

A. Budgetary Information

The official budget was prepared for adoption for the general, child nutrition, and debt service funds. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- 1. Prior to June 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning July 1.
- 2. A meeting of the Board is called for the purpose of adopting the proposed budget with public notice given at least 10 days prior to the meeting.
- 3. Prior to the expenditures of funds, the budget is adopted by the Board.

After adoption, the budget may be amended through action by the Board. Budget amendments are approved at the functional expenditure level. All amendments are before the fact and reflected in the official minutes of the Board. Budgets are controlled at the functional level by personnel responsible for the organizational financial reporting. All budget appropriations lapse at the year end. Budget amendments throughout the year were not significant.

Statistical Section

Index for Statistical Section

This section presents detailed information as a context for understanding what the information in the financial statements, note disclosures, required supplementary information, and supplementary information says about Rockwall Independent School District's overall financial health.

Contents	Exhibits
Financial Trends Information	
These schedules contain trend information intended to help the reader	
understand how the district's financial position has changed over time.	S1 – S6
Revenue Capacity Information	
These schedules contain information intended to help the reader assess	
the district's most significant revenue source, state tax collections.	S7 – S10
Debt Capacity information	
These schedules contain information intended to assist users in understanding	
and assessing the district's current levels of outstanding debt and the ability to	
issue additional debt.	S11 – S13
Demographic and Economic information	
These schedules provide demographic and economic indicators intended to	
help the reader understand the socioeconomic environment within which the	
district's financial activities take place.	S14 – S15
Operating Information	
These schedules provide contextual information about the district's operations	
and resources intended to assist readers in using financial statement information	
to understand and assess the district's economic condition.	S16 - S19

¹ Fiscal year 2010 represents a 10-month transitional year for the period of September 1 through June 30. Years preceding 2010 are September 1 through August 31 and years following 2010 are July 1 through June 30.

 $^{^{2}}$ The tax levy reflects the original levy, net of any supplements occurring during the year.

³ Total collections, net of penalties and interest and other judgements, may result in collections that exceed 100% of original levy.

Notes:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the district's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

Overall Compliance and Internal Controls Section

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Trustees Rockwall Independent School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Rockwall Independent School District (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 16, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

To the Board of Trustees Rockwall Independent School District

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance in Accordance with the Uniform Guidance

To the Board of Trustees Rockwall Independent School District

Report on Compliance for Each Major Federal Program

We have audited Rockwall Independent School District's (the District) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and terms and conditions of federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Award (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However our audit does not provide a legal determination of the District's compliance.

Opinion on Compliance for Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

To the Board of Trustees Rockwall Independent School District

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Rockwall Independent School District

Notes to Schedule of Expenditures of Federal Awards For the Fiscal Year Ended June 30, 2019

1. The District utilizes the funds specified in the Texas Education Agency Resource Guide.

Special Revenue Funds – are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes by a grantor. Federal and state awards generally are accounted for in the general fund and in special revenue funds. Generally, unused balances are returned to the grantor at the close of specified project periods.

2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental funds are accounted for using a current financial resources measurement focus. All federal grant funds were accounted for in the general fund and special revenue funds, which are governmental funds. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases or decreases in net current assets.

The modified accrual basis of accounting is used for the governmental funds. Accordingly, the schedule of expenditures of federal awards was prepared under this basis of accounting, which requires that revenues are recognized in the accounting period in which they become susceptible to accrual, i.e., both measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for interest on long-term debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as unearned revenues until earned.

- 3. The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Performance of Federal Funds, 2 CFR 200 Uniform Guidance.
- 4. The following table reconciles total expenditures per the schedule of expenditures of federal awards (Exhibit K-1) to the federal program revenues per Exhibit C-2:

Total expenditures of federal awards per Exhibit K-1 SHARS revenue	\$ 6,526,453 1,829,513
Total federal programs revenue per Exhibit C-2	\$ 8,355,966

5. The District has elected not to use the 10% de minimis indirect cost rate.

Rockwall Independent School District Schedule of Required Responses to Selected School FIRST Indicators (Unaudited) For the Fiscal Year Ended June 30, 2019

Data
Control
~

Codes		Response
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year end?	No
SF4	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7	Did the school district make timely payments to the Teachers Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?	Yes
SF8	Did the school district not receive an adjusted repayment schedule for more than one fiscal year for an over allocation of Foundation School Program (FSP) funds as a result of a financial hardship?	Yes
SF10	Total accumulated accretion on capital appreciation bonds included in government-wide financial statements at fiscal year-end:	\$ 63,105,377
SF11	Net Pension Assets (1920) at fiscal year-end.	\$ -
SF12	Net Pension Liabilities (2540) at fiscal year-end.	\$ 40,483,878
