

Ready for School?

If you have a 3, 4 or 5-year-old, check in with us before kindergarten to make sure your child is on track.

What is early childhood screening?

Screening is an early look at a child's development and begins as early as age three. This can give parents peace of mind that their child is developing normally, and if needed, allows health and developmental concerns to be addressed at least one to two years before a child enters kindergarten.

The state of Minnesota requires health and developmental screening for every child before they start kindergarten. Burnsville-Eagan-Savage District 191 offers this service at no cost.

Early childhood screening checks:

Fine and gross motor skills

Height and weight

Vision and hearing

Cognitive and social development

Speech and language development

Immunizations
