#### INDEPENDENT AUDITOR'S REPORT

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the West Plains R-VII School District, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents of the District's financial statement report.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accrual basis and modified accrual basis of accounting described in Note 1 to the financial statements; this includes determining that these bases of accounting are acceptable bases for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud. Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the West Plains R-VII School District, as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with the accrual basis and modified accrual basis of accounting as described in Note 1 to the financial statements.

# INDEPENDENT AUDITOR'S REPORT

December 1, 2013

Board of Education West Plains R-VII School District West Plains, Missouri 65775

Dear Members of the Board:

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the West Plains R-VII School District, as of and for the years ended June 30, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accrual basis and modified accrual basis of accounting described in Note 1 to the financial statements; this includes determining that these bases of accounting are acceptable bases for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the West Plains R-VII School District, as of June 30, 2013 and 2012, and the respective changes in financial position for the years then ended in accordance with the accrual basis and modified accrual basis of accounting as described in Note 1 to the financial statements.

#### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3–9 and 31–34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the West Plains R-VII School District's basic financial statements. The accompanying financial information listed as other supplementary information in the table of contents and the Summary of Selected Information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget *Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards, the Schedules of Revenues Collected by Source, the Schedules of Expenditures Paid by Object and the Summary of Selected Information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, these schedules are fairly stated, in all material respects, in relation to the financial statements as a whole.

# Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 1, 2013, on our consideration of the West Plains R-VII School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the West Plains R-VII School District's internal control over financial reporting and compliance.

Schultz, Wood & Rapp, P.C.

Management's Discussion and Analysis June 30, 2013 and 2012

The Management's Discussion and Analysis (MD&A) of the West Plains R-VII School District (the District) provides an overview and analysis of the District's financial activities for the fiscal years ended June 30, 2013 and 2012. The intent of the MD&A is to look at the District's financial performance as a whole. Readers should also review the financial statements found in the Financial Section starting on page 10, and the notes thereto to enhance their understanding of the District's financial performance.

The MD&A is an element of Required Supplementary Information specified in Governmental Accounting Standards Board (GASB) Statement No. 34 - Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments issued in 1999. Certain comparative information between the current year (2012-2013) (FY2013) and the prior (2011-2012) (FY2012) is required to be presented in the MD&A.

# Financial Highlights

Key financial highlights for the fiscal years ended June 30, 2013 and 2012 include the following:

The government-wide net position decreased by \$221,377 at June 30, 2013 as compared to an increase of \$94,725 at June 30, 2012. The governmental funds ending fund balances decreased by \$625,375 at June 30, 2013 as compared to an increase of \$484,338 at June 30, 2012. The difference between the government-wide net position changes and the governmental funds changes reflects the differences in the accrual basis of accounting and the modified accrual basis and is reconciled on page 18. Some of the significant differences are capitalization and depreciation of fixed assets and the method of reporting payments of bond principal.

Program revenues made up 39.8% and 40.7% of the total revenues for the years ended June 30, 2013 and 2012, respectively, with general revenues making up the balance. These program revenues covered 39.4% and 40.9%, respectively of the program expenditures leaving 60.6% and 59.1%, respectively, to be covered by general revenues or the use of existing fund balances.

# Using the Basic Financial Statements

The District's basic financial statements consist of a series of financial statements and the associated notes to those statements. The statements are organized so the reader can understand the operations of the District as a whole, i.e., an entire operating entity. The "Basic Financial Statements" section, includes government-wide financial statements, fund financial statements and notes to financial statements.

The government-wide financial statements, consisting of the Government-Wide Statements of Net Position and the Government-Wide Statements of Activities, provide highly consolidated financial information and render a government-wide perspective of the District's financial condition. They present an aggregate view of the District's finances. These statements seek to answer the question, "How did the District do financially during the 2012-2013 fiscal year?" In short, is the District better or worse financially this year than the prior year? These statements include all assets and liabilities using the accrual basis of accounting used by most private-sector enterprises. The accrual basis takes into account all of the District's current year revenues and expenses regardless of when paid or received.

By showing the change in net position for the years, the reader may ascertain whether the District's financial condition has improved or deteriorated. The changes discussed in the MD&A may be financial or non-financial in nature. Non-financial factors which may have an impact on the District's financial condition include increases in or erosion of the property or sales tax base within the District, facilities maintenance and condition, mandated educational programs for which little or no funding is provided, or other external factors.

To provide more in-depth reporting of the District's financial position and changes in financial position, fund basis financial information is presented in the "Fund Financial Statements" section beginning on page 13. These funds are required to be established by state law and by bond covenants. These fund financial statements help the reader to determine whether there are more or fewer financial resources that can be spent in the near future for District programs.

Fund financial statements also provide more in-depth data on the District's most significant funds, its General Fund, Special Revenue Fund, Debt Service Fund and Capital Projects Fund. These funds are considered "major funds" under GASB Statement No. 34. The relationship between governmental activities reported in the government-wide financial statements and the governmental funds reported in the fund financial statements is reconciled in the financial statements on pages 15 and 18.

The remaining financial statements of the fiduciary funds present financial information relative to the fiduciary fund position held by the District on behalf of employees, private organizations or other governments in a position of trust. Fiduciary funds are excluded from the government-wide financial statements because the assets are not available for District operations.

# Government-Wide Financial Analysis

Net position of the District reflects the excess of assets and deferred outflows of resources over liabilities and deferred inflows of resources. Net position of the District at June 30 consist of the following:

	2013	2012
Current assets	\$ 10,079,063	9,132,250
Capital assets	18,698,551	18,179,596
Total assets	28,777,614	27,311,846
Deferred outflows of resources		
Long-term liabilities	7,150,000	4,440,000
Other liabilities	1,140,437	1,905,437
Total liabilities	8,290,437	6,345,437
Deferred inflows of resources	-	_
Net position		
Invested in capital assets, net of related debt	11,548,551	13,244,596
Restricted	2,565,735	2,744,424
Unrestricted	6,372,891	4,719,534
Total net position	\$ 20,487,177	20,708,554

Net position at June 30, 2013 reflected a decrease of \$221,377 and net position at June 30, 2012 reflected an increase of \$94,725 from the prior year balances. Key elements of these changes consists of the following:

	2013	2012
Revenues:		
Program revenues:		
Charges for services	\$ 5,406,052	5,709,744
Operating grants and contributions	3,745,970	3,970,599

Interest/fees on long-term debt	279,278	159,058
Depreciation	1,306,029	1,207,685
Total expenses	25,268,680	25,479,845
Change in net position	(221,377)	94,725
•	, , , , ,	,
Net position, beginning of year	20,708,554	20,613,829
Net position, end of year	\$ 20,487,177	20,708,554

As reflected above, certain expenses of the District's government-wide activities for the years ended June 30, 2013 and 2012 are not all borne by the taxpayers of West Plains. Of these amounts \$5,406,052 and \$5,709,744, respectively, was paid by those who used or benefited from the services rendered (e.g., charges for school lunches, student activities, and school tuition) and \$4,560,104 and \$4,699,449, respectively, was paid through various federal and state grants. Consequently, the net costs of \$15,302,524 and \$15,070,652, respectively, after taking into consideration these fees and grants, were paid from other general revenues, which includes local property taxes paid by taxpayers of the District as well as other taxes and additional state and federal funding.

The table below shows the total cost of programs and the net cost of these programs (after deducting charges for services and grant revenue) of the various categories of expenses for the years ended June 30, 2013 and 2012. The "net cost" presentation allows District taxpayers to determine the remaining cost of the various categories which were borne by them or paid from other general revenues, and allows them the opportunity to assess the cost of each of these functions in comparison to the perceived benefits received.

	 201	13	20^	12
	tal Expense f Program	Net Expense (Revenue) of Program	Total Expense of Program	Net Expense (Revenue) of Program
Instruction	\$ 13,334,873	6,768,820	13,817,145	7,015,512

# Governmental Funds Financial Analysis

The District uses funds to control and manage money for particular purposes (e.g., dedicated taxes and bond proceeds). The fund basis financial statements allow the District to demonstrate its stewardship over and accountability for resources provided by taxpayers and other entities. These statements also allow the reader to obtain more insight into the financial workings of the District, and assess further the District's financial health.

The District completed the fiscal year ended June 30, 2013 with a combined fund balance for governmental funds (as presented in the balance sheet on page 13) of \$7,478,571 as compared to a combined fund balance of \$8,103,946 as of July 1, 2012, a decrease of \$625,375.

During 2013, the fund balance of the general fund decreased by \$316,254, primarily due to transfers to other funds.

The major source of local revenue for operations is local property taxes amounting to \$5,284,550 and \$5,134,848 in 2013 and 2012, respectively. This amount is derived from the District's adjusted operating levy of \$3.6408 and \$3.6536 per \$100 of assessed valuation for calendar years 2013 and 2012, respectively. Other significant local revenues for 2013 and 2012 consist of \$1,722,262 and \$1,760,980 from sales tax, \$292,966 and \$263,457 from intangible tax (commercial property), breakfast and lunch revenues of \$261,254 and \$275,449, post-secondary tuition of \$596,822 and \$542,490, and student activity revenue of \$662,210 and \$924,348, respectively.

County revenue of \$350,780 and \$289,248 for 2013 and 2012, respectively, was derived primarily from county fine receipts and state assessed utility taxes.

State funding makes up 33.7% and 33.5% of total revenues for 2013 and 2012, respectively. The Missouri state foundation basic formula increased in 2013 by \$286,424 to \$6,768,010 and in 2012 increased by by \$777,536 to \$6,481,586. Other significant state revenues are:

	 2013	2012	
Classroom trust fund	\$ 712,092	751,886	
High need fund	109,855	139,112	
State transportation aid	138,234	166,645	
Early childhood special education program	325,064	296,766	
Vocational/At risk program	508,063	478,253	

During 2012, the District received Federal stabilization funds for the state's Basic Formula of \$169,392. Title I funding amounted to \$561,863 and \$869,441 in 2013 and 2012, respectively. Federal food services reimbursements amounted to \$872,123 and \$743,294 for 2013 and 2012, respectively. All other federal revenues are designated for special programs, such as individuals with disabilities, drug-free education, instructional improvement, and various other direct grants.

Total governmental funds expenditures were \$26,727,678 and \$25,090,232 for 2013 and 2012, respectively. The General Fund accounts for 35.7% and 38.9% of the total expenditures for 2013 and 2012, respectively. The Special Revenue Fund accounts for 53.0% and 56.5% for 2013 and 2012, respectively, of the expenditures and primarily consists of certificated salaries and employee benefits. Debt Service Fund expenditures in 2013 and 2012 of \$1,055,000 and \$298,587, respectively, are for principal and interest payments on capital lease obligations. Capital Projects Fund expenditures for capital equipment and facility repairs and construction projects for 2013 and 2012 amounted to \$1,950,834 and \$866,413, respectively, none of which were for bond funded projects.

The following table summarizes the governmental fund revenues and expenditures for the years ended June 30.

		2013	2012
Revenue			
Local and other	\$	10,600,136	9,420,631
County		350,780	289,248
Tuition from other districts		3,808,811	3,951,800
State		8,801,999	8,554,691

Community service and other		1,199,662	1,437,291
Total expenditures	\$	26,727,678	25,243,308

# General Fund Budgetary Highlights

Over the course of each fiscal year, the School Board revises its budget to take into consideration expected changes in revenues or expenditures. Missouri Statutes for public school finance, Section 67.010, RSMo. requires a budget amendment if anticipated expenditures are in excess of budgetary goals. The original budget was adopted on June 19, 2012 and the final budget was approved on June 18, 2013.

A schedule showing the General Fund's original budget and the final budget compared with actual operating results is provided in this report on page 31.

The General Fund's actual revenues reflect a decrease of \$118,131 which is 0.7% under the original budgeted revenues. The majority of this decrease was attributable to decreases in federal revenues and tuition from other districts. The General Fund's actual expenditures reflect a decrease of \$203,010, which is 2.1% under the original budgeted expenditures.

For fiscal year 2013, total actual revenues exceeded the total original budgeted revenues by \$1,154,604, and total actual expenditures exceeded originally budgeted expenditures by \$1,484,370.

# Capital Assets and Debt Administration

# Capital Assets

At June 30, 2013, the District had \$18,698,551 (net of accumulated depreciation) invested in a broad range of capital assets, including land, buildings, furniture, buses and vehicles, computers, and other equipment. Increases during the year represent additions to those categories, while decreases represent retirements of assets during the year and depreciation for the year.

Assets which were capitalized as additions totaled \$1,824,984 and \$657,585 for 2013 and 2012, respectively. There were no asset disposals for 2013 and 2012. Depreciation amounted to \$1,306,029 and \$1,207,685 for 2013 and 2012, respectively.

Additional information on the District's capital assets can be found in Note 5 on page 27 of the financial statements.

# Long-Term Debt

At June 30, 2013, the District had outstanding capital lease obligations of \$7,150,000 compared to \$4,935,000 at June 30, 2012 and \$5,435,000 at June 30, 2011. Payment of principal of \$5,087,000 and new debt issuance of \$7,302,000 caused the 2013 change. Payment of principal of \$500,000 accounted for the 2012 change.

State statutes limit the amount of general obligation debt a school district may issue to 15% of the assessed valuation. The legal debt margin of \$22,170,353 at June 30, 2012 is an increase of \$844,656 over the June 30, 2012 debt margin of \$21,325,697, following an increase of \$1,411,436 from the limitation of \$19,914,261, as of June 30, 2011.

The District had obligations for compensated absences of \$415,448 and \$453,919 at June 30, 2013 and 2012, respectively.

Additional information on the District's long-term obligations can be found in Note 6 on pages 28-29 of the financial statements.

# Economic Factors and Next Year's Budget

The District's administration is carefully watching developments unfolding within the Missouri legislature, the executive branch, and the judicial system. In the past, the state has had many budget cuts and the supporters of public education are seeking to protect the public school sector from even deeper funding cuts. The final effects cannot be known until the situation unfolds for the remainder of 2013-2014.

# Contacting the District's Financial Management

While this Management's Discussion & Analysis is designed to provide a general overview of the financial condition and operations of the District, citizens groups, taxpayers, parents, students, investors or creditors may want further details. To obtain such details, please contact Superintendent Mulford at the District administration offices, 305 Valley View Dr., West Plains, Missouri 65775.

Reconciliations of the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds to the Government-Wide Statements of Activities June 30, 2013 and 2012

	2013	2012
Amounts reported for governmental activities in the statement of activities are different due to the following:		
Net change in fund balances - Total Governmental Funds	\$ (625,375)	484,338
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets are allocated over their estimated useful lives as depreciation expense.		
Depreciation expense Capital outlays	(1,306,029) 1,824,984	(1,207,685) 657,585
Capital items purchased with proceeds of debt refinancings are not included in the governmental funds expenditures, but are capitalized in government-wide financial statements.	(683,796)	(153,076)
Repayment of capital lease principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the statement of net position and does not affect the statement of activities.	1,702,000	500,000
New debt is recorded as revenue in the governmental fund statements, but is recorded as debt on the government-wide statement of net assets.	(1,055,000)	-
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds, when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.	(7,233)	1,432
Fees for the issuance of the 2013 and 2012 series lease certificates are not recorded as an expenditure in the governmental funds, but are expenses in the District's government-wide statement of activities.	(109,399)	-
Liabilities for compensated absences are recognized as expenditures in the governmental funds when the amounts are liquidated with expendable available financial resources. They are, however, reported as expenses in the statement of activities when the liability is incurred.	38,471	(187,869)
Change in net position - Government-Wide Statement of Activities	\$ (221,377)	94,725

Notes to Financial Statements June 30, 2013 and 2012

### Note 1: Summary of Significant Accounting Policies

## A. Principles Used to Determine Reporting Entity

The District's reporting entity includes the District's governing board and all related organizations for which the District exercises oversight responsibility.

The District has developed criteria to determine whether outside agencies with activities which benefit the citizens of the District, including joint agreements which serve pupils from numerous districts, should be included within its financial reporting entity. The criteria include, but are not limited to, whether the District exercises oversight responsibility (which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters), scope of public service, and special financing relationships. Based upon the application of these criteria, the following is a brief review of each potential component unit addressed in defining the District's reporting entity.

Included in the reporting entity:

The West Plains Education Foundation was incorporated as a not-for-profit organization whose stated purpose is to operate exclusively for the benefit of West Plains R-VII School District. Although the District is not legally responsible for the debt of this entity, its principal source of revenue is lease payments from the District. This entities' transactions are reported as the Debt Service Fund of the Governmental Fund Financial Statements.

#### B. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

**Government-wide Financial Statements** - The statement of net position and the statement of activities display information about the District as a whole. These statements include the nonfiduciary financial activities of the District. These statements report those activities of the District that are governmental (i.e. generally supported by taxes and intergovernmental revenues). Fiduciary funds are not included in the government-wide financial statements.

The statement of net position presents the financial position of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities and the remaining revenues that are not directly associated with specific programs. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods or services offered by the program and grants and contributions (including related investment earnings) that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues.

**Fund Financial Statements** - The District maintains fund accounting in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at a more detailed level. Separate financial statements are provided for governmental funds and fiduciary funds. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a single column. The fiduciary funds are reported in individual columns by type of activity.

Notes to Financial Statements (continued)
June 30, 2013 and 2012

### Note 1: Summary of Significant Accounting Policies (continued)

**Governmental Funds** - Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they are used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

General Fund - Accounts for general activities of the District not accounted for in other specific funds.

**Special Revenue Fund -** Accounts for expenditures for certificated employees involved in administration and instruction. It includes revenues restricted by the State and the local tax levy for the payment of salaries and certain benefits.

**Debt Service Fund -** Accounts for the accumulation of resources for, and the payment of, principal, interest and fiscal charges on long-term debt. This fund encompasses the assets and liabilities of the West Plains Education Foundation.

**Capital Projects Fund -** Accounts for the proceeds of long-term debt, taxes and other revenues designated for acquisition or construction of major capital assets and other capital outlay purchases required by law or the State of Missouri Department of Elementary and Secondary Education ("DESE") regulations to be reported in the Capital Projects Fund.

**Fiduciary Funds -** Fiduciary fund reporting focuses on net position and changes in net position. The District's fiduciary funds account for assets held by the District in a Trustee capacity.

# C. Basis of Accounting/Measurement Focus

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting principles.

The measurement focus establishes the basis of accounting. The basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, the presentation of expenses versus expenditures, the recording of capital assets, the recognition of depreciation and the recording of long-term liabilities. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide financial statements and the governmental fund financial statements.

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the related liability is incurred, regardless of the timing of related cash flows.

The governmental fund financial statements are prepared using a flow of current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District considers revenues to be available if they are collected within 60 days after the end of the current fiscal period. Property taxes, state and federal grants and interest associated with the current fiscal period are all considered to be susceptible to accrual. Fiduciary fund transactions are reported using the current financial resources measurement focus and the cash basis of accounting.

Notes to Financial Statements (continued)
June 30, 2013 and 2012

## Note 1: Summary of Significant Accounting Policies (continued)

Expenditures are recorded when the liability is incurred, except for compensated absences and interest on long-term debt which are recorded when normally expected to be liquidated with expendable available financial resources. Proceeds from issuance of long-term debt are recognized when received and payment of long-term debt principal is reported as an expenditure when paid. Capital asset purchases are recorded as expenditures and depreciation is not recognized.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenues from property taxes are recognized in the period for which the taxes are levied. Revenues from grants, entitlements and donations are recognized when all eligibility requirements imposed by the provider have been satisfied. Eligibility requirements include timing requirements (which specify the year the resources are required to be used or the year when use is first permitted), matching requirements and expenditure requirements when the resources are provided to the District on a reimbursement basis. Under the modified accrual basis of accounting, revenue from nonexchange transactions must also be available before it can be recognized.

### D. Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the budgetary

- 1) In accordance with Chapter 67, RSMo, the District adopts a budget for each fund.
- 2) The superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on July 1. The proposed budget includes estimated revenues and proposed expenditures for all district funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
- 3) A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4) The budget is legally enacted by a vote of the Board of Education.
- 5) Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the Board. Adjustments made during the year are reflected in the budgetary comparison schedules included in the financial statements. Budgeted amounts are presented both as originally adopted and as finally amended by the Board of Education. Expenditures of a particular fund may not legally exceed the budgeted expenditures for that fund.
- 6) Budgets for district funds are prepared and adopted on the modified accrual basis (budget basis), recognizing revenues when susceptible to accrual and expenditures when incurred. The actual results of operations presented in the budgetary comparison schedules are presented in accordance with the budget basis to provide a meaningful comparison of actual results with the budget.

#### E. Cash and Temporary Investments

Cash resources of the individual funds, except the debt service fund, are combined to form a pool of cash and temporary investments which is managed by the District treasurer. Investments of the pooled accounts may consist primarily of certificates of deposit and U.S. Government securities, carried at cost, which approximates market. Interest income is allocated to contributing funds based on cash and temporary investment balances. The debt service fund is statutorily required to maintain its cash and investments in separate accounts.

Notes to Financial Statements (continued)
June 30, 2013 and 2012

## Note 1: Summary of Significant Accounting Policies (continued)

## F. Property Taxes and Other Receivables

Property tax revenue is recognized in the fiscal year for which the taxes have been levied and become available. Property tax revenues are considered available when they become due or past due and receivable within the current period and collected within the current period or expected to be collected within sixty days after year end.

Federal and state grant aid is reported as revenue when the reimbursable expenditures are incurred. Unrestricted aid is reported as revenue in the fiscal year the entitlement is received.

# G. Inventories

Inventories are valued at cost and consist of carpentry program lots, houses, and food supplies. The cost is recorded as an expenditure at the time the inventory is purchased. Reported inventories are equally offset by a fund balance designation which indicates they are unavailable for appropriation.

# H. Capital Assets

In the Government-Wide financial statements capital assets are recorded at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated assets are recorded at their estimated fair value as of the date received. Land is not depreciated, and other capital assets are depreciated over their useful lives of 5 to 40 years, using the straight-line method.

# Vacation and Sick Leave

Certificated and non-certificated employees earn vacation days after completing a full year of service. Accumulated unpaid vacation, which was earned in the current and prior fiscal years but unused at the end of the current fiscal year is accrued and amounted to \$72,036 and \$75,519 at June 30, 2013 and 2012, respectively. Non-certificated employees who work less than 12 calendar months per year do not earn vacation days.

Certificated and non-certificated employees receive ten sick days annually and the unused portion is accumulated and carried forward. Sick leave is accrued at year end, and upon termination, employees receive any accumulated sick leave pay. Accrued sick leave amounted to \$343,412 and \$378,400 at June 30, 2013 and 2012, respectively. The increase in 2013 is attributable to the change in the amount to be paid for sick days.

#### Interfund Transfers

J.

K.

Annually, the District makes transfers between funds to cover disbursements and build fund balances as allowed by DESE and state law.

#### Subsequent Events

Subsequent events have been evaluated through December 1, 2013, which is the audit report date.

Notes to Financial Statements (continued)
June 30, 2013 and 2012

### Note 1: Summary of Significant Accounting Policies (continued)

### L. Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Non-spendable Fund Balance consists of funds that cannot be spent due to their form (e.g., inventories and prepaid) or that legally or contractually must be maintained intact.

<u>Restricted Fund Balance</u> consists of funds that are mandated for a specific purpose by external parties, constitutional provisions or enabling legislation.

<u>Committed Fund Balance</u> consists of funds that are set aside for a specific purpose by the District's highest level of decision making authority. Formal action by the Board to commit funds be taken prior to the end of the fiscal year. The same formal action must be taken to remove or change the limitations placed on the funds.

Assigned Fund Balance consists of funds that are set aside with the intent to be used for a specific purpose by the District's highest level of decision making authority or a body or official that has been given the authority to assign funds. Assigned funds cannot cause a deficit in unassigned fund balance.

<u>Unassigned Fund Balance</u> consists of excess funds that have not been classified in the previous four categories. All funds in the category are considered spendable resources. This category also provides the resources necessary to meet unexpected expenditures and revenue shortfalls.

# Note 2: Cash and Investments

The District complies with various restrictions on deposits and investments which are imposed by state statutes as follows:

<u>Deposits</u> - All deposits with financial institutions must be collateralized in an amount at least equal to uninsured deposits.

<u>Investments</u> - The District may purchase any investments allowed by the State Treasurer. These include (1) obligations of the United States government or any agency or instrumentality thereof maturing and becoming payable not more than five years from the date of purchase, (2) repurchase agreements maturing and becoming payable within ninety days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity, as provided by law, (3) bankers' acceptances, and (4) commercial paper. Investments are reported at fair market value, as determined by quoted market prices as of June 30, 2013 and 2012, respectively.

At June 30, 2013, the District had cash balances at banks of \$8,804,879 which were sufficiently covered by federal depository insurance and by collateral held at the District's safekeeping bank agents, in the District's name.

Notes to Financial Statements (continued) June 30, 2013 and 2012

### Note 2: Cash and Investments (continued)

The District had the following escrowed cash and investments held by fiscal agents at June 30, 2013 and 2012:

Type of Investment	Fair Value	Maturity Less than 1 Year	Maturity 1-5 Years
June 30, 2013:			
External investment pools:			
Federated Government Obligation Fund held at UMB Bank, N.A.	\$ 1,915,729	1,915,729	-
Community Foundation of the Ozarks investment pool	125,421	125,421	-
	\$ 2,041,150	2,041,150	
June 30, 2012:			
External investment pools:			
Federated Government Obligation Fund held at UMB Bank, N.A.	\$ 944,069	944,069	-
Community Foundation of the Ozarks investment pool	79,654	79,654	-
	\$ 1,023,723	1,023,723	-
	***************************************		

Interest Rate Risk: The Districts's investment policy structures its portfolio so that certificates of deposit and other investments mature to meet cash requirements for operations to avoid redeeming investments at a pre-maturity or open market loss. Consequently, the District invests its operating funds in short-term securities.

<u>Credit Risk</u>: The Distrit reduces its credit risk due to the failure of the security issuer or backer by pre-qualifying the financial institutions and intermediaries with which the District will do business and by diversifying the portfolio so that potential loss will be minimized. The District obtains adequate collateralization as to bank depositories and investing in external investment pools that comply with Missouri state law. At June 20, 2013, the Federated Government Obligation Fund #703 is rated AAAm by Standard and Poor's.

<u>Custodial Credit Risk</u>: To minimize custodial credit risk, the District requires investments be perfected in the name of or for the District and if necessary, held by third-party costodians with appropriate safekeeping receipts.

<u>Concentration of Credit Risk</u>: The District's investment policy mandates diversification of the investment porfolio to avoid concentration of assets in specific maturity, specific issuer or specific class of securities. To avoid concentration, the District restricts its investments to short-term band depositories and external investment pools which manage their investment portfolios in accordance with Missouri state law and state Treasurer guidelines for Missouri school districts.

## Note 3: Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and payable by December 31. The county collects the property tax and remits it to the District.

The assessed valuation of the taxable property for the calendar years 2013 and 2012 for purposes of local taxation was \$147,802,350 and \$142,171,310, respectively.

The tax levies per \$100 of assessed valuation of taxable property for the calendar years 2013 and 2012 for purposes of local taxation were:

	2013		2012	
Un	adjusted	Adjusted	Unadjusted	Adjusted
\$	3.6408	3.6408	3.6536	3.6536

The receipts of current and delinquent property taxes during the fiscal years ended June 30, 2013 and 2012, aggregated approximately 98.2% and 98.9%, respectively, of the current assessment computed on the basis of the levy as shown above.

Notes to Financial Statements (continued) June 30, 2013 and 2012

## Note 4: Contingencies

From time to time, the District is a defendant in various lawsuits and/or arbitration claims. Although the outcome of such cases of action are not presently determinable, in the opinion of the District's management and legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

## Note 5: Capital Assets and Accumulated Depreciation

A summary of changes in capital assets for the years ended June 30, 2012 and 2013 follows:

	Balances			Balances			Balances
	June 30, 2011	Additions	Disposals	June 30, 2012	Additions	Disposals	June 30, 2013
Land	\$ 672,383	_	-	672,383	-	_	672,383
Buildings	26,319,418	346,608	-	26,666,026	1,432,072	-	28,098,098
Furniture, Vehicles							
& Equipment	11,079,017	310,977		11,389,994	392,912		11,782,906
Total	\$38,070,818	657,585		38,728,403	1,824,984	_	40,553,387

A summary of changes in accumulated depreciation for the years ended June 30, 2012 and 2013 follows:

	Balances June 30, 2011	Depreciation Expense	Disposals	Balances June 30, 2012	Depreciation Expense	Disposals	Balances June 30, 2013
Buildings Furniture, Vehicles	\$10,357,472	701,670	-	11,059,142	785,825	-	11,844,967
& Equipment	8,983,650	506,015	-	9,489,665	520,204	-	10,009,869
Total	\$19,341,122	1,207,685	-	20,548,807	1,306,029	•	21,854,836

Notes to Financial Statements (continued)
June 30, 2013 and 2012

# Note 6: Long-term Debt

#### Capital Leases

During 2005, the District entered into a lease purchase guaranteed performance contract totaling \$5,120,000 with TRANE due over 15 years at varying rates of interest from 3.95% to 4.2%. These funds were used to upgrade school facilities with energy efficient equipment and improvements. These lease certificates were refinanced in 2011 with the issuance of the Series 2010A lease certificates. The Series 2010A lease certificates came due in 2020 and bore interest at 2.8% to 3.75%. In 2013 these lease certificates were redeemed with part of the proceeds of the series 2013 lease certificates.

During 2010, the District entered into a lease purchase agreement for the purchase of land and building to be used by the Career Center. These lease certificates (Series 2010B) totaled \$1,555,000, are due in varying annual installments through April 2017. These lease certificates bear interest at varying rates between 1.25% and 3.0% per annum. In 2013 these lease certificates were redeemed with part of the proceeds of the Series 2013 lease certificates.

During July 2012, the District used the Series 2012 lease certificates in the principal amount of \$1,522,000 to provide funds for the remodeling and improvement of the career center. These lease certificates are payable in varying amounts through 2022 and bear interest of varying rate from 1.07% to 3.07%.

During 2013, the District issued the Series 2013 lease refunding certificates in the principal amount of \$5,780,000. The proceeds of these certificates were used to retire the Series 2010A and Series 2010B lease certificates, fund additional capital improvements and pay \$109,399 of costs of issuing the refunding certificates. These lease certificates are payable in varying amounts through 2022 and bear interest varying from 0.57% to 2.6%.

These leases qualify as capital leases for accounting purposes and therefore have been recorded at the present value of the future minimum lease payments as of the date of their inception. The improvements associated with these projects have been capitalized as capital assets.

Transactions related to these leases for the years ended June 30, 2013 and 2012 are as follows:

	Series	Series	Series	Series	
	2010A	2010B	2013	2012	Total
Capital leases payable, July 1, 2011	\$3,880,000	1,555,000	-	-	5,435,000
Principal payments	(250,000)	(250,000)			(500,000)
Capital leases payable, June 30, 2012	3,630,000	1,305,000	-	-	4,935,000
New borrowings	-	-	5,780,000	1,522,000	7,302,000
Principal payments	(3,630,000)	(1,305,000)	_	(152,000)	(5,087,000)

2019-2022	3,445,522
Total Lease Payments	7,919,687
Less Amounts Representing Interest	(769,687)
Net Lease Payments	\$7,150,000

Notes to Financial Statements (continued)
June 30, 2013 and 2012

### Note 6: Long-term Debt (continued)

## **General Obligation Bonds**

Article VI, Section 26 (b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a District to 15 percent of the assessed valuation of the District (including state-assessed railroad and utilities). The legal debt margin (computed excluding state-assessed railroad and utility) of the District at June 30, 2013 was:

Constitutional debt limit	\$ 22,170,353
General obligation bonds payable	-
Amount in Debt Service Fund available for	
payment of bond principal - balance sheet	
Legal debt margin	\$ 22,170,353

### Note 7: Pension Plans

The School District contributes to The Public School Retirement System of Missouri (PSRS), a cost-sharing multiple-employer defined benefit pension plan. PSRS provides retirement and disability benefits to certificated employees and death benefits to members and beneficiaries. Positions covered by The Public School Retirement System of Missouri are not covered by Social Security. PSRS benefit provisions are set forth in Chapter 169.010-.141 of the Missouri Revised Statutes. The statutes assign responsibility for the administration of the system to a seven-member Board of Trustees. PSRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to The Public School Retirement System of Missouri, P.O. Box 268, Jefferson City, Missouri 65102 or by calling 1-800-392-6848.

PSRS members were required to contribute 14.5%, 14.5%, and 14.0% of their annual covered salary in 2013, 2012, and 2011, respectively, and the District was required to contribute a matching amount. The contribution requirements of members and the District are established and may be amended by the PSRS Board of Trustees. The School District's contributions to PSRS for the years ending June 30, 2013, 2012, and 2011 were \$1,730,997, \$1,728,903, and \$1,587,469 respectively, which were equal to the required contributions.

The District also contributes to The Public Education Employee Retirement System of Missouri (PEERS), a cost-sharing multiple-employer defined benefit pension plan. PEERS provides retirement and disability benefits to employees of the district who work 20 or more hours per week and who do not contribute to The Public School Retirement System of Missouri. Certain part-time certificated employees may be covered by this plan. Positions covered by The Public Education Employee Retirement System of Missouri are also covered by Social Security. Benefit provisions are set forth in Chapter 169.600-.715 of the Missouri Revised Statutes. The statutes assign responsibility for the administration of the system to the Board of Trustees of The Public School Retirement System of Missouri. PEERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to The Public Education Employee Retirement System of Missouri, P.O. Box 268, Jefferson City, Missouri 65102 or by calling 1-800-392-6848.

PEERS members were required to contribute 6.86%, 6.86%, and 6.63% of their annual covered salaries in 2013, 2012, and 2011, respectively, and the District was required to contribute a matching amount. The contribution requirements of members and the District are established and may be amended by the Board of Trustees. The School District's contributions to PEERS for the years ending June 30, 2013, 2012, and 2011 were \$270,468, \$272,036 and \$264,966, respectively, which were equal to the required contributions.

Notes to Financial Statements (continued)
June 30, 2013 and 2012

### Note 8: Risk Management

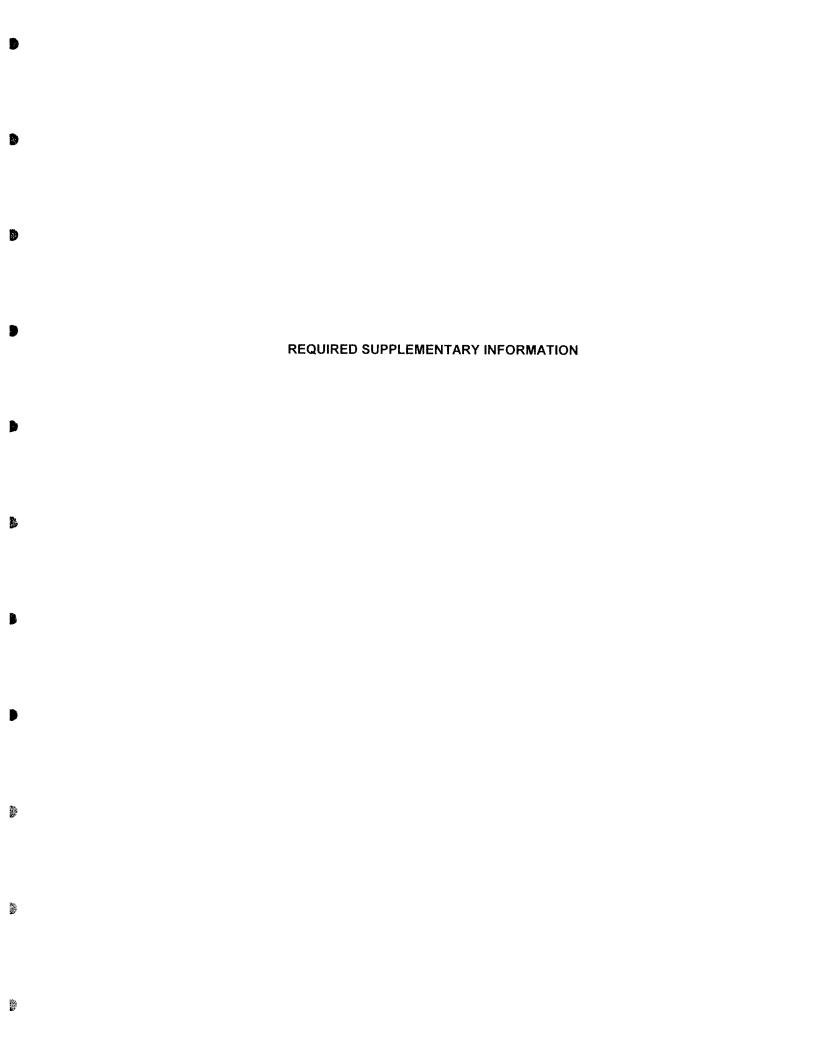

The District is exposed to various risks of loss from tort; theft of, damage to and destruction of assets; business interruption; error and omissions; natural disasters; employee injuries and illnesses; and employee health, dental and accident benefits. Insurance coverage is purchased for claims arising from such matters. There has been no significant reduction in insurance coverage from the prior year. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

## Note 9: Healthcare and Other Postemployment Benefits

**Plan Description.** West Plains R-VII School District provided its Healthcare Plan annually through its participation in a defined benefit health care plan, which included available health care coverage for the District's retired employees, if so elected. The Plan provides health care coverage for certain persons (and their dependents) who are currently employed or retired within the District. Current employee premiums are funded via a combination of payroll contributions from such employees and District contributions. Retiree premiums are funded solely via retiree contributions.

**Funding Policy.** Contribution requirements under the pay-as-you-go plans were actuarially determined each fiscal year ended June 30 by independent health care insurance providers chosen by the District during a formal bidding process. Monthly contribution rates vary depending upon coverage elected for employees, retirees and/or their dependents.

	2013		2012	2011	
Insurance provider	Coventry		Mercy HealthCare	Mercy HealthCare	
Employee coverage					
Monthly healthcare contribution rates ranged as follows:	\$39 to \$895		\$39 to \$895	\$39 to \$895

# **INDEPENDENT AUDITOR'S REPORT ON STATE SCHEDULES**

December 1, 2013

Board of Education
West Plains R-VII School District
West Plains, Missouri 65775

Dear Members of the Board:

We have audited the basic financial statements of the West Plains R-VII School District, as of and for the year ended June 30, 2013 and have issued our report thereon dated December 1, 2013. Those basic financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on those financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was made for the purpose of forming an opinion on the basic financial statements of the West Plains R-VII School District taken as a whole. The accompanying Schedules of Selected Statistics, Transportation Costs Eligible for State Aid and State Financial Grant Assistance are presented for purposes of additional analysis and are not a required part of the basic financial statements. The information in those schedules has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Schedule of Selected Statistics Year Ended June 30, 2013

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE REQUIREMENTS

December 1, 2013

Board of Education West Plains R-VII School District West Plains, Missouri 65775

Dear Members of the Board:

We have audited the basic financial statements of the West Plains R-VII School District, as of and for the year ended June 30, 2013, and have issued our report thereon dated December 1, 2013. As required by the Revised Statutes of the State of Missouri, we have performed auditing procedures to test compliance with the requirements governing budgets (Chapter 67 RSMo) and the methods of maintaining pupil attendance and pupil transportation records (Chapter 165.121.3(7) RSMo). The management of the District is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance with those requirements based on our audit.

We conducted our audit of compliance with those requirements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the District's budgetary and disbursement procedures were in compliance with the budgetary statute (Chapter 67 RSMo). It is further our opinion that the pupil attendance and pupil transportation records are so maintained as to accurately disclose, in all material respects, the average daily attendance, resident membership on the last Wednesday of September and January, average number of regular riders transported, and mileage and allowable cost for pupil transportation in compliance with state and administrative rules.

This report is intended solely for the information and use of the Board of Education, management, and the Missouri Department of Elementary and Secondary Education and is not intended to be, and should not be, used by anyone other than those specified parties.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

December 1, 2013

Board of Education West Plains R-VII School District West Plains, Missouri 65775

Dear Members of the Board:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of West Plains R-VII School District, which comprise the District's basic financial statements as listed in the table of contents as of and for the year ended June 30, 2013, and the related notes to the financial statements, and have issued our report thereon dated October 31, 2013. The District prepares its financial statements on the accrual basis and modified accrual basis of accounting, which are comprehensive bases of accounting other than accounting principles generally accepted in the United States of America.

# Internal Control Over Financial Reporting

In planning and performing our audit, we considered West Plains R-VII School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of West Plains R-VII School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined below.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the West Plains R-VII School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The pupose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

December 1, 2013

Board of Education West Plains R-VII School District West Plains, Missouri 65775

Dear Members of the Board:

#### Report on Compliance for Each Major Federal Program

We have audited West Plains R-VII School District's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2013. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB *Circular A-133*, *Audits of States*, *Local Governments*, and *Non-Profit Organizations*. Those standards and OMB *Circular A-133* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

#### Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB *Circular A-133*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB *Circular A-133*. Accordingly, this report is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

December 1, 2013

Board of Education West Plains R-VII School District West Plains, Missouri 65775

Dear Members of the Board:

We have audited the financial statements of the West Plains R-VII School District for the year ended June 30, 2013, and have issued our report thereon dated December 1, 2013. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to the District dated June 1, 2013. Professional standards also require that we provide you with the following information related to our audit.

# Our Responsibility Under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated June 1, 2013, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with the District's accrual basis and modified accrual basis of accounting as described in Note 1 to the financial statements. Our audit of the financial statements does not relieve you or management of your responsibilities.

As part of our audit, we considered the internal control of the West Plains R-VII School District. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

#### Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the West Plains R-VII School District are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2013. We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates, if any, are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates, including depreciation expense, are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

The disclosure of capital lease obligations, in Note 6 to the financial statements. Financial statement users need to be aware of debt obligations in future periods as this is not reflected in the Balance Sheets-Governmental Funds, since such statement is presented in accordance with the modified accrual basis of accounting.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. No significant known or likely misstatements were identified during the audit.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 1, 2013.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

This information is intended solely for the use of the Board of Education and management of the West Plains R-VII School District and is not intended to be and should not be used by anyone other than those specified parties.

4
