

# ADVENTURE IN PANAMA

## Spring Break 2026

TOUR WEBSITE: [WWW.EFTOURS.COM/2702929XV](http://WWW.EFTOURS.COM/2702929XV)

### educational travel

Let the world become your classroom; step outside your comfort zone, and experience new cultures. Having this international experience in middle or high school will also make you a more competitive college applicant and broaden your horizons. Most importantly, this incredible opportunity will help you navigate new situations with a global perspective, build self confidence and give you a life-changing experience.

### adventure awaits

We love this itinerary because it's the perfect combination jungles, science, history, and fun! We will be ziplining, whitewater rafting, surfing, and more! The Spanish spoken here is easily understood by non-native speakers. Panama has a vital role in global trade and the Panama Canal is an engineering marvel! Immerse yourself in the vibrant cultures at this crossroads of the Americas. This is an active tour geared towards students who enjoy educational experiences outside the classroom.

### your travel leaders

Once again, we are partnering with EF Tours to offer this educational travel opportunity. You will be traveling with experienced teachers, who are experts in their field, have traveled extensively, and led many student tours. We will be ready to share our passion for our content areas with our travelers! We have room for up to 40 participants on our bus tour. While this is a student-focused tour, adventurous adults are welcome for an additional cost. Brownsburg & Avon students are invited!

### more info

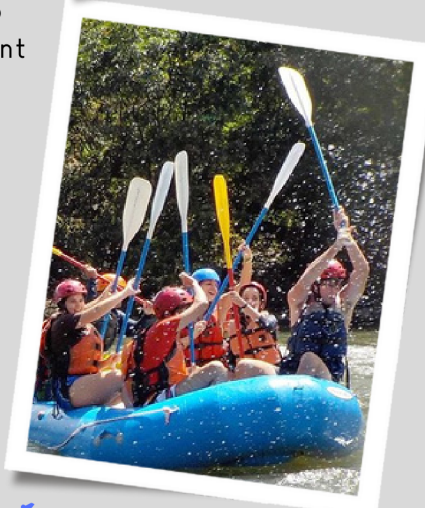

We can accept a few more travelers (Class of 2026 to Class of 2030). If you'd like more info, please reach out to us. We were able to record our informational meeting in March of 2024. The Zoom recording includes information such as the itinerary in detail, group travel, safety on tour, the payment plans, what Panama has to offer, and why we offer this educational experience for our students.
