

# ESCEO TECHNOLOGY PRESENTS

## CYBER & CYBER+

FOR K-12 SCHOOL DISTRICTS

ESCEO Technology is on a mission to make the technology infrastructure of school districts more secure through cybersecurity education, support, and service.

### OUR SERVICES INCLUDE

- Incident Response Management
- Multifactor Authentication Implementation
- Account Audits
- Risk Management
- Vulnerability Management
- Cybersecurity Action Item Management

We invite your district to join us in our campaign against the bad guys.
