Brockton Public Schools
1:1 Device Loan Agreement

Students in the Brockton Public Schools (“BPS”) are eligible to be issued a laptop and charger, as well as other related technology (“1:1 Devices”). Before being issued any 1:1 Device, the Student and their parent/guardian must read and agree to this 1:1 Device Loan Agreement.

1:1 Devices are loaned to the Student to be used for educational purposes only during the academic school year, and these devices and any data contained thereon remain the property of BPS. Students must not let any other person use their 1:1 Devices. 1:1 Devices are subject to inspection at any time without notice, and inappropriate use may result in the Student losing their eligibility to use these devices. 1:1 Devices must be turned in to BPS immediately upon request, and in any event no later than a Student’s last day of school at BPS.

Students must make every effort to have their 1:1 Devices charged and ready for each school day. Students must protect their 1:1 Devices from extreme hot and cold temperatures, keep food and beverages away from them, and safely transport them to and from school. Students must not deface or destroy any 1:1 Device, or place unauthorized decorations or markings (such as stickers, drawings, etc.) on any 1:1 Device, or leave any 1:1 Device unattended in an unsecure location.

If a 1:1 Device is damaged not working properly, the Student should bring it to the designated help desk at BPS. Students and/or their parents/guardians must not attempt any repairs on their own or through someone other than a BPS employee. If a laptop is damaged beyond repair and needs to be replaced, BPS will evaluate the damage or loss and/or replacement options on a case by case basis. In cases of fire or criminal acts such as theft or vandalism, parents/guardians should immediately report to the building principal or dean. The principal or dean will assist with filing a police or fire report, which must be filed by the parent/guardian before requesting a replacement 1:1 Device. Students and/or their parents/guardians may be held partially or fully responsible for any damages/loss.

Students must comply with all applicable BPS rules and regulations at all times while using 1:1 Devices, including without limitation the requirements of the student handbook and BPS’s Internet Acceptable Use Policy IJNDB. No Student may install, use, or permit the installation or use of any unauthorized software on any 1:1 Device. BPS is not responsible for any controversial materials acquired on these devices. Any violation of BPS rules and regulations and/or the terms and conditions of this 1:1 Device Loan Agreement may result in disciplinary or legal action.

By signing below, I acknowledge that I have read and understand this 1:1 Device Loan Agreement, that I agree to abide by its terms and conditions, and that BPS has my permission to loan 1:1 Devices to the Student

Media Release for Students

(Parent/Guardian Release --- For School Use)

On occasion, the Brockton Public School District ("District") is asked by the media to interview and/or photograph students as part of their coverage of positive school events. To allow this to happen, the District requires permission from a student's parents or guardians. The District also uses media materials such as student images, digital media, student work samples, etc. for District media purposes, such as the District website. By checking the "grant" box and signing your permission on this form, you are stating that you consent to the use of such materials. Please sign and return this form to your child's teacher.

I hereby (please check one box)

DO NOT GRANT Permission

for the Brockton Public Schools and approved media affiliates to publish, copyright, or use all film, photographs, computer-generated imagery and printed and spoken words in which my child is included, whether taken by staff, students, or others and agree that the school can use these images, digital media, words, and student-generated work for any exhibitions, displays, web pages and publications, without reservation or compensation, and I release the Brockton Public Schools from any and all claims, damages, liabilities, costs and expenses related to the use of such materials. Additionally, I understand that an expectation of privacy is not automatic at public school events and activities, including but not limited to parades, concerts, field trips, and athletic activities, and that the District cannot guarantee that my child will not be photographed should they participate in such programs. I agree to notify school administrators if I have a legitimate safety concern for my child being photographed at public events, so that we can work together to determine how to best address those concerns.

Youth Risk Survey

Periodically, the Massachusetts Department of Elementary and Secondary Education requests our school department to perform random surveys that monitor youth risk behaviors related to the leading causes of morbidity and mortality among adolescents as well as other health indicators. Public High School students are often surveyed from a scientifically selected random sample of schools across the Commonwealth. The data collected is used to identify critical areas of need for our school. This information assists the district with adjusting learning opportunities for our students as well as implement critical programs that focus on these health issues. Students do have the right to “opt out” and if you do not want your son/daughter to participate in these surveys, you should notify school administration of your wishes, and they will be honored.

Brockton Public Schools Responsible Use Policy

Students

The Brockton Public Schools provides access to technology in order to enhance digital literacy for all students and staff. As educators we must: expose students to available technologies, encourage exploration, promote digital citizenship and ensure students have opportunities to demonstrate technological skill in preparation for life after school.

The Brockton Public Schools will work with families to convey expectations children should follow when using media and information sources. To that end, families should be aware that Brockton Public Schools intends to incorporate network use, internet access and email in the grade levels identified below. The Brockton Public Schools utilizes CIPA (Children’s Internet Protection Act) compliant blocking and/or filtering safeguards required by law and will make every reasonable effort to minimize the chance or exposure to objectionable material on the Internet. These measures, coupled with user education, implementation of this policy and grade-appropriate supervision, the Brockton Public Schools believes that the Internet can be safely used to enhance the delivery of educational services.

- a. *Grades Kindergarten through Three:* Students at these grade levels will not have individual computer network passwords or e-mail accounts. During school time, teachers of students in Grades Kindergarten through Three will guide them toward appropriate materials. Web access at these grade levels will be limited to teacher-directed and teacher-demonstrated use. Students will not be conducting independent research on the Internet, nor will they be sending or receiving electronic mail independently.
- b. *Grades Four and Five.* Students in grades four and five will be given individual network access and passwords. Students at these grade levels will not be issued individual e-mail accounts. Students at these grade levels may have the opportunity to conduct research via the Web in the classroom, and to access electronic mail for a group account, during directly supervised instruction.
- c. *Grades six through twelve.* Students in grades six through twelve will be given individual network access passwords and receive individual e-mail accounts. Students at these grade levels will have the opportunity to access the internet and conduct independent, self-directed research, both during classroom instruction and outside of classroom. This will be under the direct or indirect supervision of a teacher or staff member.

In order for students to be granted independent access to the internet or individual e-mail accounts, they must agree to and abide by the *Guidelines for Student Use*. For students under 18, parents must sign the Brockton Public Schools *Responsible Use Agreement* form before students will be permitted to gain independent access to the internet or individual email accounts. If the Brockton Public Schools does not receive a signed user agreement student will continue to have the opportunity to access the internet during supervised classroom instruction.

Guidelines for Student Use

Access to BPS’ computer network, including the Internet, is a privilege, not a right. The use of the network must be consistent with, and directly related to, the educational objectives of the Brockton Public Schools. A violation of the terms of this Responsible Use Policy may result in suspension or termination of network access privileges and may also result in other disciplinary action consistent with the code of conduct policies of the Brockton Public Schools. Further action may include criminal prosecution where applicable. The Brockton Public Schools will cooperate fully with law enforcement officials in any investigation relating to misuse of the Brockton Public Schools computer network. **This Policy and Guidelines apply to all District Remote Learning Platforms.**

The Brockton Public Schools is committed to providing ongoing educational support to students around responsible digital citizenship. Before being permitted to access the Brockton Public Schools email system, all students are required to complete the Brockton Student

Responsible Use Policy and Guideline Tutorial. Once completed, the student will be given grade- appropriate access to technologies. With this access, students are expected to adhere to the guidelines outlined in the BPS Responsible Use Policy and Guidelines.

1. Violations of this Responsible Use Policy include, but are not limited to, the following conduct:
 - Cyberbullying, using profane, vulgar, threatening, defamatory, abusive, discriminatory, harassing or otherwise objectionable or criminal language in a public or private message.
 - Sending messages or posting information that would likely result in the loss of a recipient's work or system (e.g., viruses, malicious scripts).
 - Participating in unauthorized activities which would cause congestion of the network or interfere with the work of others such as the use of prohibited file sharing sites.
 - Using the network in a manner that would violate any U.S. or state law. This includes, but is not limited to, copyrighted material, threatening material and spreading of computer viruses.
 - Accessing or transmitting materials that are obscene, sexually explicit, or without redeeming educational value.
 - Attempting to harm, modify, or disseminate another user's personal information including passwords.
 - Attempting to gain unauthorized access to system programs or computer equipment, including attempts to override, or to encourage others to override, any security established on the network.
 - Using social networking sites, discussion groups, chat rooms, instant messaging, or other forms of online conversation except with prior staff approval and for educational purposes only.
2. The Brockton Public Schools assumes no responsibility for:
 - Any unauthorized charges or fees, including telephone charges, long distance charges, per minute surcharges and/or equipment or line costs.
 - Any financial obligations arising out of unauthorized use of the system for the purchase of products or services.
 - Any cost, liability or damages caused by a user's violation of these guidelines.
3. The Brockton Public Schools makes no guarantee, implied or otherwise, regarding the reliability of the data connection. The Brockton Public Schools shall not be liable for any loss or corruption of data resulting while using the network.
4. All messages and information created, sent or retrieved on the network are the property of Brockton Public Schools. The Brockton Public Schools reserves the right to access and monitor all messages and files on the computer system, including web pages accessed, as it deems necessary and appropriate in the ordinary course of its business for purposes including, but not limited to, ensuring proper use of resources, investigating allegations of improper use and conducting routine network maintenance. By participating in the school district's computer network, users are indicating their consent to such monitoring and access. Where appropriate, communications including text and images may be disclosed to law enforcement or other third parties without prior consent of the sender or receiver.
5. Any users caught illegally obtaining software or transferring such software through the network may have their accounts revoked. In such an event, the user's network access will be limited to directly supervised use during classroom instruction. In addition, all users should be aware that software piracy is a federal offense and is punishable by a fine or imprisonment.
6. Should a user, while using the Brockton Public Schools Technology Network, encounter any material that s/he feels may constitute a threat against the safety of fellow students, staff members or the property of the Brockton Public Schools, that user is obligated to report his/her discovery of such material to a teacher or to his/her principal.
7. Any user who is issued a username and password must ensure that they protect that username and password and refrain from sharing it with anyone. If a user believes their username and password has been compromised or knowingly or unknowingly shared, that user is obligated to share this information with a teacher or his/her principal so that the password and/or username shall be changed.
8. The Brockton Public Schools reserves the right to seek restitution from any user for costs incurred by the district including legal fees, due to such user's inappropriate use of electronic resources considered confidential.
9. Any user who chooses to bring their own device (BYOD) and accesses the BPS network through that personal device is expected to adhere to the BPS Responsible Use Policy and Guidelines.

The Brockton Public Schools administration reserves the right to amend this policy at any time without prior notice.

Media Release Policy

From time to time Edison Evening Academy receives requests from media outlets to interview, audio tape and videotape students as part of their reporting of programs and events at the school. Additionally, Brockton Public Schools has a web page, and occasionally digitized images of students are displayed, again, as part of the reporting of positive events at the school. **Should you as parent/guardian (or adult student) object to the inclusion of your child (or yourself as an adult student) in such media events, you should notify school administration of your wishes, and they will be honored.**

Because of the size of the Internet, many kinds of materials eventually find their way onto the system. Should a user happen to find materials that may be deemed inappropriate while using the Brockton Public Schools Internet account, the user shall refrain from downloading this material, and shall not identify or share the location of this material. Be aware that the transfer of certain kinds of materials is illegal and punishable by fine or jail sentence. In addition, the Brockton Public Schools take no responsibility for any information or materials that are transferred through the Internet.

School Cancellations, Delayed Openings and Early Dismissals

School Cancellations

In the event of inclement weather, local and Boston media makes announcements regarding school cancellations. The **NO SCHOOL** announcements for the Brockton Public Schools are made locally by radio station **WXBR (1460 AM)**, by Boston radio station **WBZ (1030 AM)** and by **Boston Television Channels 4, 5 and 7**. **Cancellations are also posted on our website: www.bpsma.org** and are reported to parents via phone notifications.

If the Brockton Public Schools are canceled due to inclement weather, all school facilities will be closed on that day including Edison Evening Academy. All Community Schools, neighborhood schools and adult evening classes will also be cancelled. There may be occasions when the Superintendent may decide to close pre-kindergarten only.

Internet Acceptable Use Policy

The purpose of these guidelines regarding network access, email and Internet usage is to make certain that all who use these resources, both students and faculty, do so in an appropriate manner. The use of the network is a privilege, not a right, which may be revoked at any time for abuse of this privilege. Violations of this policy may result in a loss of access as well as other disciplinary or legal action.

The primary purpose of the Internet connection is educational. Network administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. All data stored or transmitted on any district electronic device or transmitted from any device on the district network may be monitored, retrieved, downloaded, printed, copied at any time and without notice, as staff and students have no right to privacy with regard to such data. This information may be disclosed to others, including law enforcement agencies.

Users **are not** permitted to:

- harass, insult, threaten, bully or attack others from home or school computers or electronic devices
- send or display offensive or false materials, messages, and pictures
- use of obscene language
- use the network to perform any illegal or unethical act
- violate copyright laws or plagiarize
- use another's password or access another's folders, files, or documents
- employ the network for commercial purposes
- damage computers, computer systems or computer networks

Please note that this is not an exhaustive list.

The Brockton Public Schools complies with FCC regulations as specified in the Children's Internet Protection Act (CIPA-106-554) by providing filtering on all computers that students use.

Edison Evening Academy reserves the right to suspend computer use for any student. Violations may also result in other disciplinary or legal action as appropriate.

This Acceptable Use Policy applies to all Remote Learning Platforms.

Hazing

It is the policy of the Brockton Public Schools to promote and maintain an educational environment that is free from any form of hazing practices. Hazing is against the law and will not be tolerated by the Brockton Public Schools.

Chapter 269 of the General Laws of Massachusetts includes the following three sections relative to the prohibition on hazing:

SECTION 17. Whoever is a principal organizer or participant in the crime of hazing as defined herein shall be punished by a fine of not more than three thousand dollars or by imprisonment in a house of correction for not more than one year, or by both such fine and imprisonment.

The term "hazing" as used in this section and in sections eighteen and nineteen, shall mean any conduct or method of initiation into any student organization, whether on public or private property, which willfully or recklessly endangers the physical or mental health of any student or other person. Such conduct shall include whipping, beating, branding, forced calisthenics, exposure to the weather, forced consumption of any food, liquor, beverage, drug or other substance, or any other brutal treatment or forced physical activity which is

likely to adversely affect the physical health or safety of any such person or other person, or which subjects such student or other person to extreme mental stress, including extended deprivation of sleep or rest or extended isolation.

Notwithstanding any other provisions of this section to the contrary, consent shall not be available as a defense to any prosecution under this action.

SECTION 18. Whoever knows that another person is the victim of hazing as defined in section seventeen and is at the scene of such crime shall, to the extent that such person can do so without danger or peril to oneself or others, report such crime to an appropriate law enforcement official as soon as reasonably practicable. Whoever fails to report such crime shall be punished by a fine of not more than one thousand dollars.

SECTION 19. Each institution of secondary education and each public and private institution of post-secondary education shall issue to every student group, student team or student organization which is part of such institution or is recognized by the institution or permitted by the institution to use its name or facilities or is known by the institution to exist as an unaffiliated student group, student team or student organization, a copy of this section and sections seventeen and eighteen; provided, however, that an institution's compliance with this section's requirements that an institution issue copies of this section and sections seventeen and eighteen to unaffiliated student groups, teams or organizations shall not constitute evidence of the institution's recognition or endorsement of said unaffiliated student groups, teams or organizations.

Each such group, team or organization shall distribute a copy of this section and sections seventeen and eighteen to each of its members, plebes, pledges, or applicants for membership. It shall be the duty of each such group, team or organization, acting through its designated officer, to deliver annually, to the institution an attested acknowledgement stating that such group, team or organization has received a copy of this section and said sections seventeen and eighteen, that each of its members, plebes, pledges, or applicants has received a copy of sections seventeen and eighteen, and that such group, team or organization understands and agrees to comply with the provisions of this section and sections seventeen and eighteen.

Each institution of secondary education and each public or private institution of post-secondary education shall, at least annually, before or at the start of enrollment, deliver to each person who enrolls as a full-time student in such institution a copy of this section and sections seventeen and eighteen.

Each institution of secondary education and each public or private institution of post-secondary education shall file, at least annually, a report with the board of higher education and in the case of secondary institutions, the board of education, certifying that such institution has complied with its responsibility to inform student groups, teams or organizations and to notify each full time student enrolled by it of the provisions of this section and sections seventeen and eighteen and also certifying that said institution has adopted a disciplinary policy with regard to the organizers and participants of hazing, and that such policy has been set forth with appropriate emphasis in the student handbook or similar means of communicating the institution's policies to its students. The board of higher education and, in the case of secondary institutions, the board of education shall promulgate regulations governing the content and frequency of such reports, and shall forthwith report to the attorney general any such institution which fails to make such report.

Sexual Harassment

It is the policy of the Brockton Public Schools to promote and maintain an educational environment, which is free from harassment, including sexual harassment. Sexual harassment, whether by another student or by staff, is against the law and will not be tolerated by the Brockton Public Schools.

Sexual harassment is defined as unwanted, or unwelcome verbalisms or behaviors of a sexist nature related to a person's sex or sexual orientation. In addition, sexual harassment includes unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when (1) submission to such conduct is made, either explicitly or implicitly, a term or condition of an individual's success as a student, (2) submission to or rejection of such conduct by an individual is used as the basis for educational decisions affecting such individual, or (3) such conduct has the purpose or effect of substantially interfering with an individual's educational performance or creating an intimidating, hostile or offensive educational environment.

While it is not possible to list all circumstances that may constitute sexual harassment, the following are some examples of conduct which if unwelcome, may constitute sexual harassment depending upon the totality of the circumstances and including the severity of the conduct.

Examples of sexual harassment include, but are not limited to the following:

- Offensive sexual flirtations, unwelcome sexual advances, or propositions
- Continued verbal abuse or innuendo of a sexual nature

- Uninvited physical contact such as touching, hugging, patting, or pinching
- Verbal comments of a sexual nature in front of people who find them offensive
- Making obscene gestures or suggestive or insulting sounds
- The demand of sexual favors accompanied by an implied or overt threat concerning an individual's scholastic status or promise of preferential treatment
- Leering or stalking
- Indecent exposure
- Assault or coerced sexual acts
- Requests for sexual favors in exchange for actual or promised scholastic benefits.

Please note: Because sexual harassment is a violation of Massachusetts General Law, building principals have been instructed to refer certain cases to the School Police and to the District Attorney's office for possible prosecution.

Process

1. Students who believe that they have been subjected to sexual harassment should report the incidents to any teacher, counselor, or administrator as soon as possible. The student will be offered interim measures, as appropriate, to support the student during the investigation. The incidents will be investigated, and appropriate action will be taken.
2. If a student is not satisfied with the results of the investigation and the action taken, the student may file a formal complaint with the Office for Civil Rights of the Department of Education, 5 Post Office Square, Boston, MA 02109, (617) 289-0111.
3. The Brockton Public Schools announces that any retaliatory action of any kind taken by a student or an employee against any student as a result of that person's seeking redress under these procedures is prohibited and illegal and shall be regarded as a separate and distinct grievable matter under this procedure.

Complaint Officer

James M. LaBillois, Ed. D., Assistant Superintendent for Unified Student Services, is the designated complaint officer for students. Dr. LaBillois is vested with the authority and responsibility of processing all harassment complaints. Dr. LaBillois' s office is located in the Crosby Administration Building at 43 Crescent Street, Brockton, MA 02301-4376, (508) 894-4341.

EPA Warnings & Notification

Brockton Public Schools Public Notice

ATTENTION: Principals, Parents, Teachers, Students and Building Occupants

REFERENCE: Asbestos Inspections and Management Plans Compliance with The Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA)

EPA Warnings & Notification

AHERA 40 CFR 763.1 11

The Brockton School Department as a local education agency (LEA) has posted in the primary administrative and custodial offices and in the faculty common rooms of each School under its authority a completed copy of a Notice to School Employees which indicates that the school has been inspected and has friable asbestos containing material in it. This posted notice shall remain in place indefinitely in all schools that have friable asbestos containing material.

AHERA regulations, to wit, 40 CFR Part 763, "to protect users of school buildings from unwitting exposure to concentrations of airborne asbestos which occurs when friable asbestos containing materials are damaged or disturbed. Compliance with this rule will both ensure that these materials are identified and that the school users are notified of their presence so that they can prevent or reduce release of asbestos."

All Brockton Public Schools were inspected for friable and non-friable asbestos containing materials in late 1988, in response to the EPA Asbestos Hazard Emergency Response Act (40 CFR 763, AHERA, 1987). As a result of information obtained from the inspections of each school, a Management Plan was developed in February of 1989 to manage the asbestos in the schools in a manner that protects human health and the environment. This plan contains the locations, by room or building area of all friable and non-friable asbestos containing material, sample results and an estimate of the percent of asbestos content.

In each school a Management Plan is available for public inspection in the Principal's Office and at the Office of the Director of Facilities for the Brockton Public Schools. Copies of the Management Plan are available upon written request, with a nominal fee for costs of reproduction of the document(s).

Student Information to Military Recruiters

Federal legislation requires, upon request by military recruiters, that each school district release to such recruiters the names, addresses and phone numbers of current students, **unless the student or parent has submitted a request indicating that such information is not to be released.** If a student or that student's parent does not want such information to be released, s/he must complete a Military Opt Out form which can be found on page 4. This signed form will prevent the military from obtaining a student's information from Edison Evening Academy. Please note that military recruiters have several other avenues from which they may obtain information for recruiting purposes. **The form must be signed and delivered to the school principal no later than October 1.**

Academic Policies

Progress and Grade Reporting

Progress Reports will be issued to Edison Evening Academy students approximately halfway through each term. However, an instructor may issue a "hand-written" progress report, to be signed by the student, at any time during the term if the student is in danger of failing the class. Edison Evening Academy will make every effort to keep parents apprised of a student's progress, but it is the student's responsibility to share his/her progress report information with his/her parent/guardian. Report cards will be issued at the end of each term. Each enrolled student will be given his/her report card at the end of the term.

District Curriculum Accommodation Plan

The adoption of a District Curriculum Accommodation Plan (DCAP) is a requirement of the Commonwealth of Massachusetts ([Massachusetts General Laws Chapter 71 Section 38Q 1/2](#)).

The law states:

A school district shall adopt and implement a curriculum accommodation plan to assist principals in ensuring that all efforts have been made to meet students' needs in regular education. The plan shall be designed to assist the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education program including, but not limited to, direct and systematic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning, or who do not qualify for special education services under chapter 71B. The curriculum accommodation plan shall include provisions encouraging teacher mentoring and collaboration and parental involvement.

The DCAP is intended to guide principals and teachers to ensure that all efforts are made to meet student needs in the general education program and to support teachers in analyzing and accommodating students' diverse learning needs in Brockton Public Schools. The DCAP describes both formal and informal routes for problem solving. Communication between parents and teachers will be effective in identifying issues and agreeing upon strategies to be implemented. Teachers in Brockton are continuously monitoring student progress, differentiating instruction and accommodations to facilitate learning, and fostering understanding. The district is committed to early intervention and addresses learning issues in a timely fashion based on a team approach. The district's goal in this regard is to meet the needs of every child. The DCAP is to be used by all general education teachers, specialists, Instructional Support Teams with teachers before and instead of students being evaluated to determine special education eligibility.

Brockton Public Schools targeted areas for the DCAP:

- Strategies to assist regular education classroom teachers to help them analyze and accommodate various students' learning needs, including students who are English Language Learners, and to manage students' behavior effectively.
- Support services that are available to students through the regular education program
- Direct and systematic instruction in reading and mathematics for all students
- Teacher mentoring and collaboration.

- Parental involvement in their children’s education

Moreover, the DCAP reflects our core values and strategic objectives outlined in the [Brockton Public Schools Strategic Plan](#).

Our core values are to...

- Establish an equitable, diverse, inclusive, and unified district.
- Foster safe environments that facilitate growth, positive outcomes, and active learning opportunities.
- Create student-centered, accelerated learning experiences that are culturally responsive, inclusive of all learners, and support social, emotional, and physical well-being.
- Sustain partnerships with families, community, and businesses to ensure that students have equitable access to high-quality resources.

Objective 1: High-Quality Learning Experiences: Provide student-centered learning founded on lived experience through effective instruction that elicits excitement and engagement from students, families, and staff so ALL are prepared to thrive as members of the BPS community and beyond.

Objective 2: Access to Learning Opportunities: Enhance **all** students’ access to learning opportunities that meet their educational, cultural, recreational, and social needs.

Objective 3: Welcoming and Inclusive Environment: Design, create, and maintain a safe, supportive, welcoming, and inclusive environment of positive relationships, where the academic, social, and emotional well-being of the entire school community is supported.

Objective 4: Family and Community Partnerships: Strengthen family, community, business, and higher education partnerships to expand opportunities for students to pursue goals and interests, develop 21st century skills, and prepare for postgraduation success.

Objective 5: Equitable Resources: Ensure equitable access to resources that foster academic and personal growth in safe educational environments.

BPS Approach to Curriculum and Instruction for All Learners

Curriculum Accommodations Supports for General Education Classroom Teachers

Accommodations are ways to assist students in accessing the curriculum more effectively. Accommodations are provided within the general education classroom and may be available to any/all students, depending on student need. Such changes are made to provide a student with equal access to learning along with an equal opportunity to be able to show what he/she knows or can do. For many, the suggested list of accommodations found in the accommodation plan would simply be thought of as best educational practices. Accommodations typically fall under four key categories:

1. **Setting** (location): Examples include small group, preferential seating, quiet location, etc.
2. **Presentation** (how the teacher shares information): Examples include visuals provided for verbal information, preview/repeat, provide models, etc.
3. **Timing** (any consideration of time within the learning): Examples include time of day, length of time, extended time for assignments, “chunking” into smaller parts, planning for time with student, etc.
4. **Response** (How the student responds back to show understanding): Examples include use of graphic organizers, alternative writing utensils, access to keyboarding, limit number of repeat question types, etc.

Accommodations do NOT change the instructional level or content, delivery of instruction, or performance criteria. These latter changes are called modifications or “specially designed instruction” and those are only appropriate for students on an Individualized Education Program (IEP).

Accommodations are changes to the delivery of classroom instruction or the materials needed to support access to the curriculum. Accommodations change **how** students learn but do not change **what** they learn. They do not change the complexity of knowledge or the grade-level content standards students are expected to learn.

Multi-Tiered Systems of Support

MTSS is a system designed to meet the needs of all students by ensuring that schools optimize data-driven decision-making, progress monitoring, and evidence-based supports and strategies with increasing intensity to sustain student growth academically, behaviorally, and social-emotionally. To realize this success, multi-tiered systems must be supported by leadership, implementation, and competency drivers to ensure that all district resources are focused on supporting our students, who can and will learn and succeed with our support.

Tier 1: Universal Support

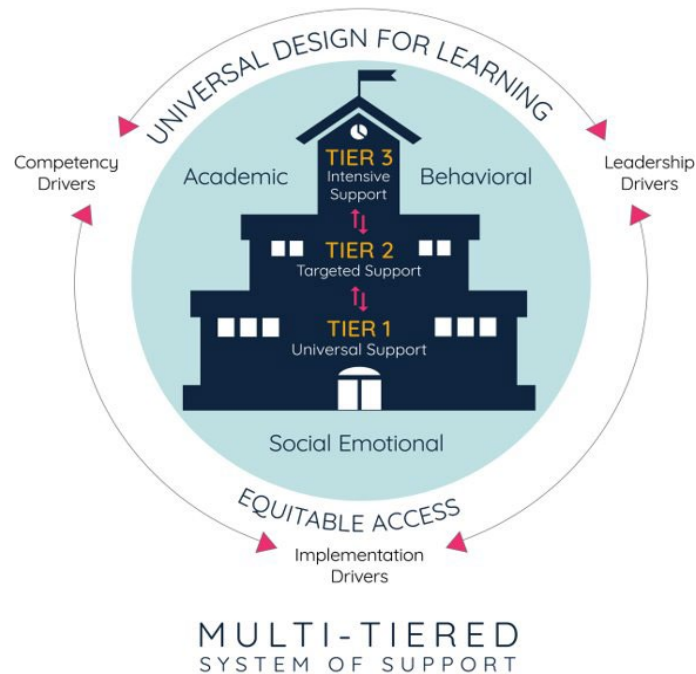

These are supports available to all students. Inclusive practice is a cornerstone of Tier 1. Inclusive practice is defined as “instructional and behavioral strategies that improve academic and social emotional outcomes for all students, with and without disabilities, in general education settings.” (Educator Effectiveness Guidebook for Inclusive Practice, 2017)

Tier 2: Targeted Support

Tier 2 supports occur in addition to the supports that happen in Tier 1 settings. These supports are generally done in small groups and include additional opportunities to practice skills necessary for core instruction. Tier 2 supports are provided for all students who need them. Tier 2 services may or may not supplement special education services for students with an IEP, depending on the individual student needs.

Tier 3: Intensive Support

Tier 3 provides more intensive support. These are often explicit, skills-based, focused interventions that occur individually or in very small groups. Again, Tier 3 supports are provided for all students who need them. Tier 3 is not synonymous with special education.

Instructional Support Teams (IST)

All Brockton Public Schools have established a school-based Instructional Support Team (IST). The goal of the IST is to maximize individual student success in the general education classroom through a process of collaborative problem-solving focused on student access to the social and academic facets of school. IST is a positive, success-oriented program which uses specific assessment and intervention techniques to help remove educational, behavioral, or affective barriers for all students. The IST asks the essential question of:

What resources can we use to increase the student's chances for success?

IST answers this question through a team approach that provides for greater cohesiveness, coordination, and instructional continuity, and complements existing curriculum and instructional programs.

Any student experiencing academic, social, or behavioral challenges in school may be a candidate for IST. This includes students beginning to display problems in general education, as well as students with disabilities who are included in general education programs. Students are identified for IST services by the classroom teacher, other educators, or parents.

Members of the IST

Although specific members of the IST may vary from student to student, based on student need, the IST generally consists of a building administrator, the team chairperson, the adjustment and/or guidance counselor, the student's classroom teacher/s. The students' parents/caregivers are also encouraged to participate as active partners in the process.

Pre-IST Referral

When a student experiences difficulty in school the classroom teacher should begin a problem-solving process that involves:

1. Identify the area/s of concern (see Appendix I for the document "Brief Assessment of Student Strengths and Challenges" that may be helpful in establishing area/s of concern).
2. Review all existing student academic and behavioral data (including, but not limited to):
 - a. STAR Assessment Results
 - b. Report Cards
 - c. Classroom Assessments
 - d. Disciplinary Information
3. Consult/Brainstorm with:
 - a. Previous teachers
 - b. Grade Level Colleagues
 - c. Academic Coaches/Support Staff
 - d. Parent/Guardian
4. Maintain documentation on DCAP accommodations attempted and student response.

IST Referral

Once pre-referral steps have been completed, the classroom teacher is encouraged to make a formal referral to the IST. The IST determines what strategies should be implemented to help the student achieve success in the general education classroom. Collaboration and joint planning occur throughout the entire process. Each member of the team has equal input and decision-making power to determine what methods, learning strategies, special techniques, or programs best address the student's area(s) of weakness.

IST Process & Procedure

The IST is grounded in the understanding that development is the result of the relationships between students and their environments. To effectively plan for supportive interventions, it is understood that the IST cannot evaluate a child's development only in the immediate environment and they must also examine the interactions among the larger environments that a student develops within. The IST will begin by examining the multiple facets of the student during the intake process:

- **Student as an Individual**
 - Academic and/or SEL screening data
 - Review of available medical screenings/information
 - Developmental course/milestones
 - Internalizing/Internalizing challenges
- **Student as Member of Family**
 - Familial structure, culture, language
 - Military Connections
- **Student a Member of School**
 - Relationship between staff and student
 - Relationship between school and family
 - Review of Academic and SEL screening data
- **Student as Member of Peer Group/s**
 - Peer relationships
 - Bullying (target or aggressor)
- **Student as Member of Community**
 - Access/participation in community groups/support
 - Assess to transportation, health care, food/nutrition.
 - Involvement in social service supports.

The IST process involves identifying a student's need for academic or behavioral support, determining the strategies needed to assist the student, and implementing and monitoring intervention strategies through a continuum of services. After an initial intake assessment of the multiple facets of a student the IST recommends strategies across all domains of student functioning to be implemented to help the student achieve success in school. The team determines what support is needed for the student to maintain a level of success in the classroom. These strategies are evaluated by the team after a set period of time, based on the goals set for the student. If the student's teacher reports a positive change, the strategies are continued. If there is no progress, other strategies are tried and/or the student may be referred for a comprehensive evaluation to determine eligibility for special education and/or related services.

The IST process represents a system of problem-solving driven by students' needs. At the core of the process is the belief that all students can learn and that all students matter. IST maximizes the teaching resources within schools in a systematic search for what works for the individual student.

Scheduling

All students who enroll in Edison Evening Academy are assessed to determine the number of courses they will need to complete in order to graduate. If a student has passed and received credits for certain previous high school courses, these courses may be accepted and become part of the student's required courses towards graduation from Edison Evening Academy. Each student will be scheduled individually, and an effort will be made to tailor each schedule to accommodate the student's needs i.e., work, family, etc. In addition, a course plan will be developed to provide the student with a projected graduation date.

Online Class Enrollment Policy

Edison Evening Academy is pleased to offer all students the opportunity to use available technology to advance their academic progress by taking classes online. Virtually all our academic subjects are available online and can be accessed any time of day or night from any computer or electronic device that is connected to the internet. Online courses will only be offered during the fall and spring semesters. Students enrolled in online courses will be required to complete each course by the end of the semester in which they are enrolled. Students will only be allowed to enroll in a maximum of two on-line courses per semester. Students who complete online courses before the mid-point of the semester may be allowed to enroll into more online courses, but they must finish the course before the end of the semester. Students may be limited to one on-line course at the discretion of school administration.

Students who enroll into Edison Evening Academy halfway through a semester must enroll into online courses until the end of that semester unless they are transferring passing grades for the first term of that semester. Exceptions will be made for English learners who will be allowed to audit in-person language classes to promote their language development.

State-Mandated Assessment Requirement

As well as meeting all local graduation requirements, the Commonwealth of Massachusetts requires all students to pass the English/Language Arts, Math, and Science/Technology and Engineering MCAS exams in order to receive a high school diploma. High School students take these exams for the first time at the end of the sophomore year. Students will have five opportunities to pass the ELA and Math MCAS and three in Science/Technology and Engineering. To assist students in preparing for these exams, Edison Evening Academy will enroll students into MCAS test preparation classes.

If a student does not receive a score of proficient or advanced on the MCAS exams in Math, English Language Arts (ELA) and Science and Technology/Engineering, school districts are required to develop an Educational Proficiency Plan (EPP) to ensure a student's progress towards proficiency.

Students Graduating in 2024-2025 must:

- either meet or exceed a scaled score of 472 on the grade 10 MCAS English Language Arts **OR** meet or exceed a scaled score of 455 **AND** fulfill the requirements of an Educational Proficiency Plan (EPP)
- either meet or exceed a scaled score of 486 in the grade 10 MCAS Math **OR** meet or exceed a scaled score of 469 **AND** fulfill the requirements of an Educational Proficiency Plan (EPP)
- additionally, meet or exceed a scaled score of 220 of the Science and Technology/Engineering MCAS Test

Please note that the passing standards for the classes of 2021-2025 are set at a level of achievement that has been established as equivalent to the standard on the legacy MCAS tests.

Homework Policy

Purposes of Homework

Homework is defined as written or non-written tasks assigned by a teacher to be completed outside the classroom. These assignments should complement class work and be relevant to the curriculum. Homework is a natural extension of the school day and an important part of a student's educational experience. Homework encourages self-discipline, pride in one's work, positive self-esteem, and an interest in learning. Homework also reinforces the connection between home and school.

Kinds of Homework

Homework may be assigned as preparation for upcoming lessons or as an extension of class work.

- Preparation homework – given to prepare a student for upcoming lessons.
- Practice homework – designed to reinforce lessons already taught in class.
- Extension/creative homework – intended to provide challenging learning opportunities for enrichment and extension of the lesson.

These assignments reinforce the Massachusetts Curriculum Frameworks and promote inquiry, problem solving, discovery, analysis, and application of essential concepts.

Parents'/Guardians' Responsibilities

- Respond to the school's request for support of stated expectations for homework for a given year.
- Expect daily assignments and insist that students complete them regularly.
- Review progress on long-term assignments periodically.
- Provide a suitable study atmosphere that is quiet, well-lighted and supervised periodically.
- Maintain the home/school connection through calls and conference.
- Show interest in the homework being done and assist when needed.
- Ensure that the product is the student's own work.
- Take part in the student's learning by providing enriching experiences outside the school day.
- Encourage pleasure reading above and beyond specific homework assignments.

Students' Responsibilities

- Develop the habit of recording directions for homework and asking questions for clarification.
- Complete homework assignments accurately, neatly, and on time.
- Complete assignments missed because of absence within a reasonable time, according to established policy in the Student-Parent Handbook.

Student Rights

Student Rights

All members of the school community have the right and responsibility to know the rules and regulations of the school. Emergencies and unforeseen circumstances may require the principal to revoke student privileges. All students and staff are guaranteed the right of due process, and the student accused of a violation will be notified of the violation and be afforded the opportunity to present his/her version of the alleged violation. All students have a right to an education and to the equality of educational opportunity.

Freedom of Speech is guaranteed to all citizens, and students are allowed to exercise their constitutionally protected rights of free speech, petition, and assembly as long as they do not substantially disrupt the educational process at Edison Evening Academy, or create a hostile environment for other students or members of the school community.

- a. Students have a right to wear political buttons, armbands, and other badges of symbolic expression, provided the material is not obscene, libelous, espousing prejudicial views or creating a hostile environment for other students or members of the school community.
- b. Students may form political and social organizations. These organizations, however, must be open to all students and must abide by Board of Education policies as developed in guidelines established by the student government acting in concert with the principal. These organizations shall have reasonable access to school facilities.
- c. School newspapers, yearbooks, literary magazines, and other publications are guaranteed the right of freedom of the press, subject to the existing laws of libel and obscenity. The staffs will have qualified advisers and seek the highest publication standards. Other non-school sponsored student publications should be subjected to locally determined procedures for distribution on school premises.

Student Record

The Family Educational Rights and Privacy Act (FERPA) is a federal law that provides two basic rights to parents with regard to student records.

1. The right to inspect and review their child's education records
2. The right to prevent unauthorized persons from seeing the same records

The Commonwealth's student record regulations are designed to ensure parents and students the right to confidentiality, inspection, amendment, and destruction of student records, and to assist school authorities in carrying out their responsibilities under state and federal law. To request records, please send a written request to your child's school and/or to the Student Support Services department.

A student's record is any information that is kept about the student in school (examples: grades, test scores, attendance). It is made up of the "transcript" (name, address, courses taken, credits, and grades) and the "temporary record" (progress reports, test scores, class rank, extracurricular activities, and any other relevant education information). Massachusetts Law (M.G.L. ch. 71, § 34H) specifies detailed procedures that govern access to student records by parents who do not have physical custody of their children. For more information, please contact the school principal. Please be advised that the temporary student record shall be reviewed by the principal or designee at the end of each academic school year, at which time misleading, outdated, or irrelevant information contained therein shall be destroyed. Parents and/or eligible students who wish to obtain a copy of their temporary student record prior to such destruction shall make such request to the school principal in writing prior to the end of the academic school year at issue. Note: this policy applies to student records generated during remote learning. For students in the ninth grade or higher or 14 years old or older, the rights below belong to the students and their parents or guardian. For students 18 years old or older, the rights below belong to the students alone if they request in writing that only they, and not their parents or guardians, should have these rights.

For students under 14 or not yet in the ninth grade, the rights below belong only to their parents or guardians.

- a. Seeing a student's records - Parents or guardians have the right to see and have copies made of all materials in the record within ten days of the request. The school may not charge more than the cost of the copies.
- b. Privacy of a student's records – Authorized school personnel who work directly with a student may have access to a student's records when it is necessary to perform their duties. With very few exceptions, no one else may see these records without the written permission of a student/parent or guardian.
- c. Destroying a student's records - The school system must keep a student's transcript for at least 60 years after the student leaves the school system. Temporary records must be destroyed within seven years after the student leaves the system. Before any records are destroyed, the student/parent or guardian must be given notice and an opportunity to get a copy.
- d. Amending a student's record and appealing it - A student, parent or guardian may add any relevant written material to the student's record. If there is information in the record that the student, parent, or guardian feels is inaccurate, misleading, or irrelevant and the student wants it removed, the student may ask the Principal to remove it. If the request is denied, or if the student has any other objections to the school records policy, there is an appeals process. Information about the appeals process will be supplied by the guidance office.
- e. Notice is given that, under Massachusetts law, Brockton schools will allow access to student records to authorized school personnel of the school to which a student seeks to transfer (603 CMR 23.00)

- f. National Student Clearinghouse Data – Edison Evening Academy provides information to the National Student Clearinghouse for the purposes of tracking college enrollment verification. The information provided is in compliance with FERPA laws. However, parents/students may opt-out of providing information to this organization. Opt-out requests must be submitted to the principal in writing.

Age of Majority

The student, upon reaching the age of majority and in the absence of any court actions to the contrary, may choose to make his/her own decisions. Such a choice is made in the presence of at least one representative of the school and one other witness and is documented in written form and maintained in the student record.

If the parent has sought and received guardianship from a court of competent jurisdiction, then the parent retains full decision-making authority. The parent does not have authority to override any decision made by the student who has reached the age of maturity unless the parent has sought and received guardianship or other legal authority from a court of competent jurisdiction.

Students with IEPs, upon reaching the age of maturity and in the absence of any court actions to the contrary, may choose to share decision-making with his or her parent (or other willing adult), including allowing the parent to co-sign the IEP. Such a choice is made in the presence of the Special Education team and is documented in written form. The student's choice prevails at any time that a disagreement occurs between the adult student and the parent or other adult with whom the student has shared decision-making.

Special Education Student Records Policy

State regulations have been adopted regarding the retention and destruction of student records, including special education records. It is the policy of the Brockton Public Schools to comply with all state and federal statutes and regulations regarding student records. Special education records are considered by state regulation to be part of a student's temporary record. The temporary record contains the majority of the information maintained by the school about the student. The information may include such things as standardized test results, class rank, Individualized Educational Programs (IEPs), student progress reports, assessment/evaluation reports, extracurricular activities, and comments by teachers, counselors, and other school staff. By state regulation, the temporary record must be kept by the school district for a period not exceeding seven (7) years after the student graduates, transfers or withdraws from the district. Before the records are destroyed, the parent and student will be notified and have an opportunity to receive a copy of any information before its destruction.

Attendance Buy-Back Policy

- Have a guidance counselor in the Edison Guidance Office fill out and sign a buyback form for you.
- Show the buy-back form to each of your teachers for initialing on the first day.
- Attend that class for three consecutive times without incurring any tardiness, behavioral referrals, or early release.
- On the third consecutive class, have the teacher re-sign the form, verifying your attendance and class work.
- Return the form at the end of the third class to the guidance office.
- If the student successfully fulfills the above guidelines, a one-day waiver for that class will be granted (please note that absence will still be recorded as such in formal attendance record).
- Students may receive up to 3 buy backs per class term.
- Buy-back waivers will not 'cross terms' it is only valid for the term in which the absence occurred.
- A buy-back must be completed within the term in which the absence occurred; it cannot be retroactive.

Waiver Policy

A student may apply directly to the Principal and/or designee for a waiver for any of the following reasons by submitting appropriate documentation for:

- Death in family
- Religious holidays
- Illness – Parents/adult students must call the school on the day of the absence and provide a note upon the student's return. If the student saw a doctor, a doctor's note must be provided. In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician's statement certifying such absences to be justified.
- Court appearances/legal obligations
- Military obligations
- Other reasons deemed appropriate by the Principal and/or designee

Tardiness Policy

In addition to good attendance, a student must attend all classes on time. If a student arrives late to the same class a total of three times within the same term, it will be counted as one absence. "Tardy" is considered between 10 and 20 minutes after the start of the class. If a student arrives to class more than 20 minutes after the class begins, it will be considered an absence and the student will have to "buy back" the absence.

Instructor Absence/Tardiness

If a student arrives to class and the instructor is not present, the student must wait a minimum of 15 minutes for the instructor to arrive. If after that time period, the instructor does not arrive, the student should go to the guidance office.

Eligibility to Participate in School Activities and Events

Extra-curricular activities and events are an important part of the educational experience for our students, but participation in these activities is a privilege, not a right. The variety of clubs, activities and events is extensive, and students are encouraged to become involved in one or more of these opportunities.

Participation in clubs and activities at Brockton Public Schools and attending school-sponsored, school-related events is a privilege afforded to students who remain in good standing. To participate in school activities, events and clubs, students are expected to maintain good attendance and demonstrate good behavior and citizenship during school and at school-sponsored events. Eligibility for participation in activities, events, clubs, awards, scholarships, and honorary positions at Brockton Public Schools is limited to students who are currently enrolled in and attending Brockton Public Schools in good standing. Students not meeting these expectations may be excluded at the discretion of the Principal or his/her designee. A student's removal from extracurricular activities and attendance at school sponsored events is not subject to the procedural requirements of M.G.L. ch. 71, § 37H¾ (Principal's Hearing). The removal is not a suspension for the purpose of counting the school days that a student is suspended. Parents will be notified when a student is removed or excluded from extracurricular activities.

Restorative Practices and Discipline Philosophy

Brockton Public Schools is committed to social and emotional wellness of all students and recognizes the rights and dignity of others. As a school community we believe that building and maintain positive relationships with students is paramount to their success. This includes building collaborative relationships with students and their families, so together we can partner to ensure student success. The goal of restorative practices and school discipline is to build inclusive school communities that allow students to remain actively engaged in learning and minimize time taken from instruction. We need the support of all stakeholders, especially our families, to make this goal a reality.

Our intentions for restorative practices and discipline are aligned with the following objectives:

- Provide students with ample opportunities to change behavior and nurture/restore relationships.
- Provide a program that is progressive and restorative by design.
- Provide understanding of appropriate behavioral expectations through varied administrative responses to discipline referrals and/or concerns.
- Provide students, parents/guardians, and school personnel with clearly stated advanced knowledge of the courses of action to be followed in handling discipline matters.
- Provide professional learning and support to employ strategies and actions that align with the principles of a democratic society.

Each day we will strive to influence our students' social and emotional development through the implementation of restorative practices to strengthen our learning community. We are focused on building healthy and positive relationships, preventing harmful behavior, productively resolving conflict with individuals and groups through the restoration of harm, and fostering a positive and inclusive learning environment. We value open dialogue to repair relationships, and we remain unequivocally committed to the principle that disorderly and disruptive behavior shall not be permitted to interfere with any students' access to learning. To maintain a safe and respectful learning environment, district faculty and staff will work to address and support behavioral concerns and address behaviors at the teacher/classroom level. These conversations may also include peers, parents/guardians, and the administration who all share responsibility to support and maintain a safe and inclusive learning environment and school community.

Every reasonable effort will be made to keep students in their learning environment, using suspension and/or expulsion only as a last resort. Our goal is to keep students in school and actively engaged in learning.

All staff and students partner to create a positive learning culture across all settings in the school community. While we encourage and value the building, and when necessary, the restoration of positive relationships students are reminded that:

1. The exercise of any of a student's rights ceases when it impacts the rights of another individual or group.
2. No student has the right to disrupt the educational process within a school or designated learning environment.
3. All students have the right to due process in matters that affect their ability to actively engage in their learning. This includes suspension and expulsion.

4. The School Committee stresses that any form of physical punishment of students is against the law and strictly prohibited. Any permissible use of physical contact is covered through the district's Physical Restraint Policy and district provided training.
5. A search of a student or their personal property in the presence of a second adult may be performed if a school administrator considers that there is a reasonable suspicion concerning violation of school rules or policies.
6. The carrying or wearing of any object which may be considered or used as a weapon, including but not limited to firearms and knives of any size, is forbidden on school property.

Suspensions

The Brockton Public Schools adheres to the Student Discipline Laws and Regulations as set forth in M.G.L. ch. 71, § 37H, 37H½ and 37H¾ and 603 CMR 53.00 et seq.

In-School Suspension Procedures

A student may be removed from regular classroom activities, but not from the school premises, for up to ten (10) consecutive school days or up to ten (10) school days cumulatively for multiple infractions during the school year. Students who are placed in in-school suspension shall have the opportunity to earn credits, make up assignments, tests, papers, and other schoolwork as needed to make academic progress during the in-school suspension.

A student who is unable to consistently adhere to acceptable classroom standards in a particular class may be removed from the class permanently and assigned to a different class at the discretion of the principal and/or his/her designee.

Notice of In-School Suspension

The principal or his/her designee shall inform the student of the disciplinary offense charged and the basis for the charge and provide the student with an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident. If the principal or his/her designee determines that the student committed the disciplinary offense, the principal or his/her designee shall inform the student of the length of the student's in-school suspension. If the in-school suspension exceeds ten (10) days, cumulatively or consecutively, in a school year, the student shall have the right to appeal the suspension to the Superintendent or Superintendent's designee.

On the same day as the in-school suspension decision, the principal or his/her designee shall make reasonable efforts to notify the parent orally of the disciplinary offense, the reasons for concluding that the student committed the infraction, and the length of the in-school suspension.

On the day of the suspension, the principal or his/her designee shall send written notice (by hand-delivery, certified mail, first class mail or email) to the student and parent including the reason and the length of the in-school suspension and inviting the parent to a meeting if the meeting has not already occurred. The notice shall be in English and the primary language of the home if another language is identified in the home language survey, or by other means, as appropriate.

Parent Meeting

The principal or his/her designee shall also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting shall be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the principal or his/her designee is unable to reach the parent after making and documenting at least (2) attempts to do so, such attempts shall constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.

No Right to Appeal

The decision of the principal or his/her designee is the final decision for in-school suspensions not exceeding ten (10) days, consecutively or cumulatively during a school year.

Out-Of-School Suspension Procedures Under M.G.L. ch. 71, § 37H¾

Due Process Procedures for Out-of-School Suspensions

There are two types of out-of-school suspensions, Short-Term Suspensions and Long-Term Suspensions under M.G.L. ch. 71, § 37H¾. The principal or his/her designee shall determine the extent of the rights to be afforded the student at a disciplinary hearing based on the anticipated consequences for the disciplinary offense. If the consequence may be long-term suspension from school, the principal or his/her designee shall afford the student, additional rights as described below, in addition to those rights afforded to students who may

face a short-term suspension from school. All students facing out-of-school suspension shall have the right to oral and written notice, as described below.

Notice for Any Out-of-School Suspension

Prior to suspending a student, the principal or his/her designee will provide the student and the parent oral and written notice of the possible suspension, an opportunity for the student to have a hearing and the opportunity of the parent(s) to participate in the hearing. The notice will be in English and in the primary language of the home if other than English as identified in the home language survey, or by other means of communication where appropriate. The notice will set forth in plain language:

- (a) the disciplinary offense;
- (b) the basis for the charge;
- (c) the potential consequences, including the potential length of the student's suspension;
- (d) the opportunity for the student to have a hearing with the principal or his/her designee concerning the proposed suspension, including the opportunity to dispute the charges and to present the student's explanation of the alleged incident, and for the parent to attend the hearing;
- (e) the date, time, and location of the hearing;
- (f) the right of the student and the student's parent to interpreter services at the hearing if needed to participate;
- (g) if the student may be placed on long-term suspension following the hearing with the principal or his/her designee:
 1. the rights set forth in 603 CMR 53.08(3)(b); and
 2. the right to appeal the decision to the superintendent.

The principal or his/her designee shall make reasonable efforts to notify the parent orally of the opportunity to attend the hearing. Prior to conducting a hearing without the parent present, the principal or his/her designee will document reasonable efforts to include the parent. The principal or his/her designee is presumed to have made reasonable efforts if the principal or his/her designee has sent written notice and has documented at least two (2) attempts to contact the parent in the manner specified by the parent for emergency notification.

Written notice to the parent may be made by hand delivery, first-class mail, certified mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the principal and parent.

Emergency Removal of Student

Under certain emergency circumstances, it may not be practical for the principal or his/her designee to provide prior oral and written notice before removing a student from school. The principal or his/her designee may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the principal's (or his/her designee's) judgment, there is no alternative available to alleviate the danger or disruption. The principal or his/her designee will immediately notify the superintendent in writing of the removal and the reason for it, and describe the danger presented by the student. The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the principal shall:

- (a) Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, the disciplinary offense, the basis for the charge, the potential consequences, including potential length of suspension, the opportunity for a hearing including the date/time/location of the hearing, the right to interpreter services, and other rights permitted for students who may be placed on long-term suspension as set forth in 603 CMR 53.08(3)(b);
- (b) Provide written notice to the student and parent, including the information described in 603 CMR 53.06(2);
- (c) Provide the student an opportunity for a hearing with the principal or his/her designee that complies with 603 CMR 53.08(2) or 53.08(3), as applicable, and the parent an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the principal, student, and parent;
- (d) Render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of 603 CMR 53.08(2)(c) and 53.08(2)(d) or 603 CMR 53.08(3)(c) and 53.08(3)(d), as applicable.

A principal will not remove a student from school on an emergency basis for a disciplinary offense until adequate provisions have been made for the student's safety and transportation.

Short-Term Suspension Procedures Under M.G.L. ch. 71, § 37H¾:

A Short-Term Suspension is the removal of a student from the school premises and regular classroom activities for ten (10) consecutive school days or less. The principal, or his/her designee, may, in his or her discretion, allow a student to serve a short-term suspension in school. Any student facing a potential short-term suspension is entitled to a hearing with the principal or his/her designee with the following process:

Principal Hearing - Short-term Suspension

- (a) The purpose of the hearing with the principal or his/her designee is to hear and consider information regarding the alleged

incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction. At a minimum, the principal or his/her designee shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information. The student also shall have an opportunity to present information, including mitigating facts that the principal or his/her designee should consider in determining whether other remedies and consequences may be appropriate as alternatives to suspension. The principal or his/her designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.

- (b) Based on the available information, including mitigating circumstances, the principal or his/her designee shall determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.
- (c) The principal or his/her designee shall notify the student and parent of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as provided in 603 CMR 53.13(1). The determination shall be in writing and may be in the form of an update to the original written notice.
- (d) If the student is in a public preschool program or in grades K through 3, the principal shall send a copy of the written determination to the superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

No Right to Appeal

The decision of the principal or his/her designee is the final decision for short-term out-of-school suspensions not exceeding ten (10) days, consecutively or cumulatively during a school year.

Long-Term Suspension Procedures Under M.G.L. ch. 71, § 37H³/₄

A Long-Term Suspension is the removal of a student from the school premises and regular classroom activities for more than ten (10) consecutive school days, or for more than ten (10) school days cumulatively for multiple disciplinary offenses in any school year. The principal or his/her designee, may, in his or her discretion, may allow a student to serve a long-term suspension in school. Except for students who are charged with a disciplinary offense set forth in M.G.L. ch. 71, § 37H, or in M.G.L. ch. 71, § 37H¹/₂, no student may be placed on long-term suspension for one or more disciplinary offenses for more than ninety (90) school days in a school year beginning with the first day that the student is removed from school. No long-term suspension under M.G.L. ch. 71, § 37H ³/₄ shall extend beyond the end of the school year in which such suspension is imposed. Any student facing a potential long-term suspension is entitled to a hearing with the principal or his/her designee with the following process:

Principal Hearing - Long-term Suspension

- (a) The purpose of the hearing with the principal or his/her designee is to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction. At a minimum, the principal or his/her designee shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information. The student also shall have an opportunity to present information, including mitigating facts, that the principal should consider in determining whether other remedies and consequences may be appropriate as alternatives to suspension. The principal or his/her designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.
- (b) In addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following additional rights:
 - 1. In advance of the hearing, the opportunity to review the student's record and the documents upon which the principal may rely in making a determination to suspend the student or not;
 - 2. The right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense;

If the student or parent requests an audio recording, the principal shall inform all participants before the hearing that an audio record will be made, and a copy will be provided to the student and parent upon request.
- (c) The principal or his/her designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.
- (d) Based on the evidence, the principal or his/her designee shall determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The principal or his/her designee shall send the written determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the

parent for school communications, or any other method of delivery agreed to by the principal and the parent. If the principal or his/her designee decides to suspend the student, the written determination shall:

1. Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing;
 2. Set out the key facts and conclusions reached by the principal;
 3. Identify the length and effective date of the suspension, as well as a date of return to school;
 4. Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school;
 5. Inform the student of the right to appeal the principal's decision to the superintendent or designee, but only if the principal has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English as determined by the home language survey, or other means of communication where appropriate, and shall include the following information stated in plain language:
 - a) the process for appealing the decision, including that the student or parent must file a written notice of appeal with the superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that the long-term suspension will remain in effect unless and until the superintendent decides to reverse the principal's determination on appeal.
- (e) If the student is in a public preschool program or in grades K through 3, the principal shall send a copy of the written determination to the superintendent and explain the reasons for imposing an out-of-school suspension, before the suspension takes effect.

2. The student or parent shall file a notice of appeal with the superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days. If the appeal is not timely filed, the superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.
3. The superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent requests an extension of up to seven (7) additional calendar days, in which case the superintendent shall grant the extension.
4. The superintendent shall make a good faith effort to include the parent in the hearing. The superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent and superintendent to participate. The superintendent shall send written notice to the parent of the date, time, and location of the hearing.
5. The superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent upon request. The superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request.
6. The student shall have all the rights afforded the student at the principal's hearing for long-term suspension.
7. The superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of 603 CMR 53.08(3)(c)1 through 5. If the superintendent determines that the student committed the disciplinary offense, the superintendent may impose the same or a lesser consequence than the principal, but shall not impose a suspension greater than that imposed by the principal's decision.
8. The decision of the superintendent shall be the final decision of the school district, with regard to the suspension.

A parent conference (re-entry meeting) with the principal or his/her designee is strongly encouraged before students who are suspended return to school. This conference will be used to promote the engagement of the parents or guardians in discussions of the student's misconduct and to assist the student in re-engaging with the school community.

Please note: in some cases, the principal has the prerogative, with the approval of the Superintendent or his/her designee, to assign students to an alternative school setting.

Discipline Provisions for Students with Disabilities

Procedures for Suspension(s) Not Exceeding 10 School Days

- Any student with a disability may be suspended for up to ten (10) school days during a school year. Disciplinary decisions are the same as for students without disabilities and in accordance with the due process procedures in this handbook.
- The school provides additional procedural safeguards for students with disabilities prior to any suspension beyond 10 consecutive days or more than 10 cumulative days (if there is a pattern of suspension) in any school year.

Procedures for Suspension(s) Exceeding 10 School Days

- If your child is suspended for more than 10 school days in a school year, this removal may be considered a “change of placement”. A change of placement invokes certain procedural protections under federal special education law and Section 504.
- Federal law defines a “change of placement” as:
 - Removal for more than 10 consecutive school days; OR
 - A series of removals that constitute a pattern 1) because the series of removals total more than 10 cumulative days in a school year; 2) because the student’s behavior is substantially similar to that in previous incidents that resulted in the series of removals; and 3) because of such additional factors as the length of each removal, the total amount of time the student has been removed, and the proximity of the removals to one another. Please note that determination of whether a pattern of removals is a “change of placement” is made by the District.
- Prior to any removal that constitutes a change in placement, the school must convene a meeting to determine whether or not the behavior that forms the basis of the disciplinary action is manifestation of your child’s disability. Parents have a right to participate in this meeting. At the meeting, all relevant information will be considered including the IEP or Section 504 Plan, teacher observations, and evaluations reports.
- At a manifestation determination meeting, the team will consider two questions:
 - Did the student’s disability cause or have a direct and substantial relationship to the conduct in question?
 - Was the conduct a direct result of the district’s failure to implement the IEP/Section 504 Plan?
- If the manifestation determination decision is that the conduct in question was caused by or had a direct and substantial relationship to your child’s disability OR a direct result of the district’s failure to implement the IEP/Section 504 Plan, then your child may not be removed from the current educational placement (unless under the special circumstances or parents agree). The Team will review the IEP or Section 504 Plan and any behavioral intervention plans and may amend those plans as appropriate. The Team will complete a functional behavior assessment and behavior intervention plan if it has not already done so.
- If the manifestation determination decision is that the conduct in question was NOT caused by or had a direct and substantial relationship to your child’s disability OR was NOT the direct result of the district’s failure to implement the IEP/Section 504 Plan, then the school may suspend or otherwise discipline your child according the school’s code of conduct. The Team may, as appropriate, complete a functional behavioral assessment and behavioral intervention plan and modification, to address the behavior so that it does not recur. For students with IEPs, during the period of time of removal from school that exceeds 10 school days, the school district must provide educational services that allow your child to continue to make educational progress. For students with Section 504 Plans, there is no automatic right to receive educational services beyond the 10th school day of suspension under federal law, however, state law does provide all students with the rights to receive educational services during periods of suspensions lasting longer than ten days.

Special Circumstances for Exclusion

Special circumstances exist if your child: 1) possesses, uses, sells or solicits illegal drugs on school grounds or at a school-sponsored event; 2) carries a weapon to school or a school-sponsored event; or, 3) inflicts serious bodily harm upon another person at school or a school-sponsored event. Under these circumstances, the principal may place your child in an interim alternate educational setting (IAES) for up to 45 school days. Your child may remain in this IAES for a period of time not to exceed 45 school days. Thereafter, your child

will return to the previously agreed-upon placement unless a hearing officer has ordered another placement, or you and the school agree to another placement. For students with Section 504 Plans, there is no automatic right to receive educational services beyond the 10th school day of suspension under federal law, however, state law does provide all students with the rights to receive educational services during periods of suspensions lasting longer than ten days.

School personnel will provide Parent's Notice of Procedural Safeguards (Special Education) or Notice of Parent and Student Rights Under Section 504 for students with disabilities prior to any suspension constituting a change in placement. These notices will provide an explanation of the process should there be disagreement regarding the manifestation determination or any placement decision. Parent, guardian and/or student may petition Bureau of Special Education Appeals for a hearing or the Office for Civil Rights (Section 504).

Procedural requirements applied to students not yet determined to be eligible for Special Education or a 504 Plan

1. If, prior to the disciplinary action, a district had knowledge that the student may be a student with a disability, then the district makes all protections available to the student until and unless the student is subsequently determined not to be eligible. The district may be considered to have prior knowledge if:
 - a. The parent had expressed concern in writing; or
 - b. The parent had requested an evaluation; or
 - c. District staff had expressed directly to the special education director or other supervisory personnel specific concerns about a pattern of behavior demonstrated by the student.
 - d. The district may not be considered to have had prior knowledge if the parent has not consented to evaluation of the student or has refused special education services, or if an evaluation of the student has resulted in a determination of ineligibility.
2. If the district had no reason to consider the student disabled, and the parent requests an evaluation subsequent to the disciplinary action, the district must have procedures consistent with federal requirements to conduct an expedited evaluation to determine eligibility.
3. If the student is found eligible for an IEP or 504 Plan, then he/she receives all procedural protections subsequent to the finding of eligibility.

Absence/Dismissal

Any planned absence or dismissal, known in advance, and prior to its occurrence must be reported in writing to the office. When a student returns to school after any absence, in compliance with State Law, the student must bring, on the day of return, a note written in ink and signed by the parent or guardian stating the reasons and dates for the absence(s). Excused absences will be given for specified illnesses or any other reason deemed acceptable by the administration. Absence notes are to be given to Administrative Staff.

If the absence is of five or more consecutive days for medical reasons, the student must report to the nurse, on the day of return, with a doctor's certificate in addition to the parent's or guardian's note. In the unlikely event of no doctor's note, the school nurse will make the appropriate medical recommendation as to whether a student will remain in school or not. Final approval will be the decision of the School Administration. Students returning to school after having a communicable disease may not be readmitted unless they have a Board of Health Permit obtained from City Hall or a certificate from a physician.

Substance Abuse Policy

The School's Substance Abuse Policy established for Brockton is based upon the concept that the role of the school is basically educational and rehabilitative; consequently, the major concerns of the school with regard to drug and alcohol use and abuse are the welfare of the individual student and the general welfare of the school population. However, in order to safeguard the individual and general welfare and safety, the school must at times initiate medical, psychological, social, and legal safeguards in the case of drug and alcohol abuse.

Screening Brief Intervention and Referral to Treatment (SBIRT)

Brockton Public Schools will participate in SBIRT, which is a public health approach to delivering early intervention to anyone who uses alcohol and/or drugs in unhealthy ways. Because school nurses and counselors are uniquely positioned to discuss substance use among young people, it is recommended that schools allow for opportunities for appropriately trained staff to reinforce prevention, screen for substance use, provide counseling and make referrals as necessary to all adolescents, including students in upper elementary and middle school grades. Adolescent Screening, Brief Intervention, and Referral to Treatment (SBIRT) focuses on prevention, early detection, risk assessment, brief counseling and referral intervention that can be utilized in the school setting. School nurses will use a validated screening tool to detect risk for substance use-related problems and to address them at an early stage in adolescents. If a student's parent/guardian does not want their child to be screened, the parent/guardian should contact the school in writing by October 1 of the academic year to opt-out of the screening.

Violent Behavior

The safety and security of the Edison Evening Academy students and staff is the administration's priority, and violent behavior will not be tolerated. Guidelines Related to Legal Aspects of Drug Use and Abuse

A. Search for Contraband Materials

- 1) Search of Lockers - According to an opinion by the Attorney General, under the circumstances of a clear and present danger to individual and general well-being and/or to the maintenance of discipline and order in the school, the principal and designee shall have the right and duty to inspect students' lockers and the contents therein without prior judicial authorization or police participation. Courts have generally held that the school principal has a reasonable right of inspection of school property and

premises including student lockers and desks. (Please be aware that in an ongoing effort to keep drug-free, police dogs may be used to search for drugs, paraphernalia, and other contraband in lockers, parking lots, storage areas, and selected locations.)

- 2) Search of Students – School administrative staff members who have reasonable suspicion to believe that a student is in possession of contraband materials may search that student's individual person or any belongings on his/her person in the presence of a witness. The administrator may search clothing, pockets, wallets, purses, etc. The police shall make such search only where this is proper legal justification.
- 3) Rights of Questioned Students – Parents will be notified in any interview/interrogation situation by a police officer which carries an implication of possible allegation of guilt or the furnishing of information leading to an indictment. The designated official of the school will maintain an informal record of the interview showing the time, place, persons, and summary of discussion and findings.

B. Confidentiality

- 1) It should be recognized that the Massachusetts laws do not accord any privilege to the confidential communications that are made between pupils and members of the faculty or the school administration. All school personnel (other than medical doctors conducting psychotherapy) can be subpoenaed into court and required to reveal the information which has been confided to them.
- 2) Teachers must make it clear to pupils who confide in them information about their personal drug or alcohol problems that it is the duty of the teacher to report this information to the school principal or designee, but only in order to further the goal of promoting the pupils' personal welfare and the security of the school.
- 3) In all instances where the principal or designee has received information of drug/alcohol involvement on the part of pupils, steps should be taken to advise the pupil that his parents must be notified and consulted about further actions that are appropriate in the particular situation.
