Launchpad – Access to all your School Applications

Use Google Chrome as your Web Browser. If you are using a district device, Launchpad will automatically come up. If a Global Protect sign up appears, do not attempt to sign in. Click off and it will eventually go away. If on a home device, go to the Golden West Middle School website <https://www.travisusd.org/goldenwest>. From there, click on Launchpad, then enter the username and password.

Student Email

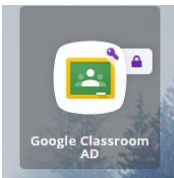

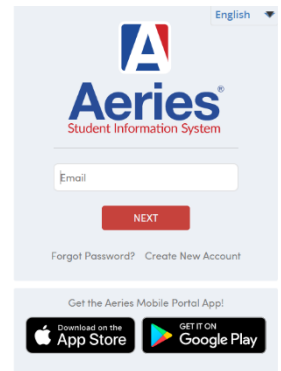

Your email is in Office365 which is located in Launchpad. Once you open it, click the **Outlook App** on the left side. Your email address is

Student#@student.travisusd.org.

Aeries Student Grades Portal

Access to your grades is also on your Launchpad. You will receive an email in your Office365 Outlook account about 48 hours after your first day of school that will instruct you on how to access your grades through Aeries. If you still need help, see the **Guidance** page on the Golden West website – **Aeries and Email Accounts for students**.

Google Classroom

Enter Google Classroom through Launchpad – Do not try to enter Google Classroom Outside of Launchpad. Always make sure that your Google browser is logged into the student school account (look at upper right corner).

Travis USD device policies:

We expect all students to be good digital citizens and to use equipment appropriately for educational purposes. Students must follow the TUSD Student Internet Acceptable Use Policy that was signed when you registered your student (see Digital Citizenship under the Library Tab on the Golden West Website). Files should be saved on the student's Office 365 OneDrive or Google Drive.

Textbooks

You will receive take home textbook(s) for the school year. Please write your name inside the textbook. Then, once you get home tonight, please take them out of your backpack and leave them at home. The last week of school you will be asked to return the textbooks. Lost textbooks can be very expensive, ranging from \$5 - \$102. Any damage beyond normal wear and tear to textbooks will be charged to your account.

The paper consumable items you will receive in your math and English classes do not need to be returned. English classes do check out novels to be read as a class to be returned once the section is over. Science is online only curriculum so you will not receive a textbook for Science.
