Agenda Notes

School Governance Council

MEETING MINUTES

August 24 6:00PM, via Microsoft TEAMS Live

SGC MEMBERS PRESENT: John D. Young (Chair), Briana Houston (Vice Chair), Nathalie Dames (Parliamentarian), Karissa Reid, Joshua Martinez, Yazmin Hicks, Samantha Alexander, Porcia Anthony, Fawn Bell-Palmer, A. Nicole Canty (Principal), Ms. Foster

THE FOLLOWING ITEMS WERE ON THE AGENDA: Meeting Call to Order, Adopt Agenda, Review Meeting Norms, Member Introductions, AY22-23 SGC Executive Board (Chair, Vice Chair, Parliamentarian – Ratification), Elect Standing Committees (Budget and Finance, Outreach and Communication, Principal Selection), Elect Representative for Superintendent's Parent/Community Advisory Council, Determine Meeting Schedule for SY22-23, Principal's Update, Back2School Bash & Welcome Back Breakfast/Lunch, 2023 FunRun, Website Audit, AY 22 SGC Self-Assessment, Finance Report, Set Next Meeting Agenda, Meeting Adjournment

CALL TO ORDER: Mr. Young made a motion to call the meeting to order at 6:11PM.

ADOPT AGENDA: Mr. Dow reviewed the agenda items. Ms. Alexander approved to adopt the agenda. Ms. Reid seconded.

REVIEW MEETING NORMS: The meeting norms were reviewed by Mr. Young.

Member Introductions: Ms. Foster (SGC liaison), Dr. Dames (Parent), Ms. Reid (Teacher), Ms. Houston, Mr. Martinez, Ms. Hicks, Ms. Alexander (Parent), Ms. Anthony (Parent), Ms. Bell Palmer (Community Member and Parent), Mr. Young (Parent), and Ms. Canty (Principal).

AY22-23 SGC Executive Board (Chair, Vice Chair, Parliamentarian – Ratification):

Ms. Foster assisted in the ratification of the elected officer. All were in favor.

Elect Standing Committees (Budget and Finance, Outreach and Communication, Principal Selection)

Mr. Young discussed the needs for each of the committees. Everyone is asked to serve on each committee with each group meeting at least once per semester. You can add three external members if needed for the work.

Mr. Young (Chair), Ms. Houston, Ms. Reid, Ms. Anthony would like to serve on Budget and Finance

Ms. Alexander (Chair), Dr. Dames, Ms. Bell-Palmer, Ms. Hicks, Mr. Martinez will serve on Outreach and Communication

Mr. Young, Dr. Dames, Ms. Bell Palmer, and Ms. Houston will serve on the Principal Selection Committee

Elect Representative for Superintendent's Parent/Community Advisory Council

This group meets monthly. The meetings are typically virtual. Dr. Dames can be a back up. Provides an opportunity for first hand information on district issues and to have an ability to speak directly to the Superintendent. And Mr. Young will be the back up.

Determine Meeting Schedule for SY22-23 Recommendation – 3rd Wednesday @ 6:00PM

All in agreement. Dates will be share out at a later date.

Principal's Update:

The mission statement was reviewed, it remains the same. Focus is student achievement.

The strategic plan expired and so we are focus on the same big rocks. 1. Relationships and Routines, 2. Tier I Instruction and 3. Intervention.

Focus area were reviewed.

1. 100% participation in PBIS

2. 50% of the students to be at or above grade level in reading and math.

3. For students that are receiving interventions 45% are expected to reach their stretch goals.

*Total student enrolled 635. Staffing decisions are based on enrollment. We are losing 1 kindergarten teacher and paraprofessional. Reduced 1 paraprofessional from special education. We earned a second-grade teacher. Students will be reassigned to other Kindergarten class. The second grade students will be randomly reassigned.

2 vacant positions in 4th grade and special needs PK teacher.

Superintendent's report. County will provide an additional \$25 per student with a minimum of \$15,000 for safety. Council will vote and approve the spending of the school safety budget.

Moving away from GSE. Teachers will be start training on the new math standards in January for implementation of AY23. The timeline for the adoption of the new math standards were also shared. Professional development will begin in January.

Car ridder lane and early arrival time for team were discussed.

Back2School Bash & Welcome Back Breakfast/Lunch: Amazing time at the back to school bash, Lessons learned were hardwire photo booth, Face painting were great but would need more face painters in the future and move the DJ to the Gym for more interaction with the students. Bookbags were given away and PTA had a table to recruit parents. Food was good.

\$650 on food, \$400 entertainment about \$1050 spent on back2school bash

Welcome back breakfast was a sponsored event from Chick Fil A. SGC and parent donations allowed for Lunch on Thursday. Lessons learned get the events catered. Thank you for snack bar donations was provided. Individuals are welcome to donate more snacks

2023 FunRun: \$2000 was paid. Date of the event is April 13-21. It will launch on that Thursday. Planning to do school wide pep rally and invite the Westlake drum line. Get with organizer to start early on raising money. We will need sponsors to pay for the shirt. Recommendation is to have a digital marquee for the

school. A motion was made for the The FunRun funds will go towards the marquee and PBIS by Mr. Young, Dr. Dames moved and the Reid seconded. All were in favor.

Website Audit: The Website has been updated. Reach out to Ms. Houston with updates.

AY 22 SGC Self-Assessment: The group has a successful last year and everyone was satisfied with our progress.

Finance Report: Finance update we have about \$9000. In the account. Subtract \$5000. For the STEAM initiative. We also moved 1500 to the principal discretionary fund. This allows Ms. Canty to make purchases for the staff.

\$46,390 in charter funds was received for this year and we need to vote on how the money is spent. Stay away from safety items and technology. The funds can also be used for the marquee and other items we should be. Ms. Houston will reach out to leads on campus to determine their needs.

Set Next Meeting Agenda: Charter dollars, Finance update, Three marquee proposals, Principal Update, Superintendent Update,

Meeting Adjournment: Motion to adjourn: Ms. Alexander. Ms. Reid second. Meeting adjourn at 7:06pm

Recorder: Nathalie Dames

OS Series — LED MESSAGE SIGN

Application

As a powerful outdoor digital media, the OS series have evolved over the years proving to be a solid enclosure in any environment. From the cold, dry winters in Russia to the hot, humid summers in Indonesia, it has been thoroughly tested over time to have excellent resilience and reliability.

OS Series – LED MESSAGE SIGN

REFERENCE PROJECTS

Customer: Carlton J. Kell High
Year Installed: 2016
Message Sign Pitch: 15mm
Display Size: 4ft x 8ft.

Testimonial:

"We purchased our sign in 2016 from Metro LED and have been able to engage the entire community with updated to our message sign. It is extremely easy to use and update our messaging. The best messages are the ones in which we recognize students or staff members for their achievements. We want to thank Metro LED for installing this sign. If we found Metro LED earlier, we would have installed the sign sooner."

Customer: McClure Middle School
Year Installed: 2018
Message Sign Pitch: 15mm
Display Size: 4ft x 8ft.

Testimonial:

"Frequent communication from the company helped us determine the look and style we wanted for our building. Not only was Metro LED staff helpful in training us to run the sign, but they also created wonderful graphics, which elevated the look of the sign; showing us all it had to offer. I deeply appreciate their care and concern to help answer any questions we had about making our sign look its best; even after the project was complete."

Customer: Barron's Jewelers
Year Installed: 2016
Message Sign Pitch: P6mm
Display Size: 6ft x 12ft.

Testimonial:

"I had our sign installed right before the Christmas holiday and I was extremely glad that we did. We saw an increase in store traffic which led to more sales. We are glad to have worked with Metro LED. We did have some issues throughout the entire process, but the team at Metro LED was extremely professional and ensured my 100% satisfaction. I would strongly recommend them to anyone looking for an LED message sign."

OS Series – LED MESSAGE SIGN

PERFORMANCE

The LED modules of the OS series are engineered by a stringent R&D process in design architecture, and material selection using state of the art assembling machinery. All combined with an effective quality control process to deliver peak performance with the utmost in reliability.

*Silicone Gel sealed on both sides: Prevents oxidation of components and solder joints etc.

OS Series — LED MESSAGE SIGN

RELIABLE

The Aluminum cabinet of the OS series is IP65 rated, ensuring the product is electrically functional and stable in all climates, including harsh weather conditions and extreme temperatures. The effective heat dissipation of the OS series design ensures long lasting, and dependable performance.

Sectional In-Row Cabinet Architecture

Receiving Card & Cooling Fans Section

Thermostatic control will enable and cycle fans at 100°F

3.8V DC Power Solution

Common cathode design, 3.8V input energy saving 40%, lower heating 60%; Fanless design, extended the power life-span.

Wiring Section

Power entry; Inner wiring between cabinets, antenna, and temperature sensor exit points (if applicable)

Sope Creek Elementary School

Cobb County School District

"Empowering Dreams for the Future"

Dr. Doug Daugherty, *Principal*

8.8.18

To whom it may concern,

It is my sincere pleasure to write a recommendation for MetroLED Light and Sign. I have worked closely with several different members of the MetroLED team for the past three years who have been professional, courteous and timely in all of our interactions.

Sope Creek Elementary began our relationship with MetroLED three years ago when they replaced our standard marquee with a digital marquee. Our request was to keep our same brick framing, however replace the inside portion with a digital marquee. MetroLED stated they could do this and they were successful. The pricing presented to us was competitive and reasonable with other bids. Once we decided on MetroLED as our company, we were immediately supported. A timeline was agreed upon and it was actually completed earlier than expected. Our entire administration was trained one on one on how to operate the marquee both through our desktops as well as at the physical marquee.

Throughout the years, if there have been any complications, MetroLED staff are very quick to respond and give support. Technicians were even available on Saturdays in order to make repairs so our marquee was working before Monday when school was back in session.

Just recently, our school received new desktop computers. MetroLED was flexible with their schedules in order to send a staff member to our school to install the software as well as provide any updates. He patiently worked with each of us to make sure we understood the program and how to operate any new features.

Sope Creek Elementary has been very impressed with the product as well as the customer service provided by MetroLED. We recommend MetroLED for all schools and would expect the same customer service and great quality of product for anyone receiving their services.

Sincerely,

Cheri Vaniman, Ed.S
Assistant Principal
770-916-7085
Cheri.vaniman@cobbk12.org

KELL HIGH SCHOOL

Cobb County School District

"A community with a passion for learning"

Trudie C. Donovan
Principal

To whom it may concern,

I am writing this letter to you as a recommendation for the services provided by Metro LED Light and Sign. For the past 3 years I have worked with the staff of Metro LED, (most recently Brian Newmes) who have assisted us in installation of our replacement LED screen in our marquee on Lee Waters Road, as well as troubleshooting minor issues due weather and human error (football boosters messing with power sources!). At no one time have they failed me, and they have always been on time, making them a reliable partner to us.

My first engagement with Metro LED Light and Sign was when Kell HS was forced to get a new LDC sign due to major problems with the previous vendor and his installation. After interviewing with over 10 sign vendors, Metro LED won the final bid with the best price. Once a few county issues were cleared up, Metro LED Light and Sign was on site and had our new LED sign installed within 2 days. The biggest reason I recommend Metro LED Light and Sign is because of the improved Team Viewer software they installed that gave me web access to our sign 24 hours a day, from anywhere via the internet. This was a HUGE improvement from the previous program we had to use, which was unreliable to say the least.

I would also highly recommend the services of Metro LED Light and Sign because they have gone the extra mile for us, to make sure our sign is safe from power surges/lightning strikes which is a common problem here in NW Cobb County. I therefore strongly recommend their services. Please let me know if you need any more information concerning our experiences with them.

Yours Sincerely,

John McLaughlin
Media Specialist/Learning Resources Administrator
Lacrosse Coach

Where Scholars are Prepared to be Leaders

August 7, 2018

Fayette County School District:

I am writing this letter on behalf of Metro LED, which recently completed a project for my school. I am a principal at Bryant Elementary School, within the Cobb County School District. With a local building population of over 1,000 scholars, there was a need for increased communication within the community.

The previous principal completed most of the paperwork required to meet the requirements for my District, so when it was time to begin the work of having an LED sign placed in our existing sign; choosing a vendor was easy.

Metro LED has done great work in our District and I found their timeline and budget to be within the scope and parameters of what we could afford. The project once approved by the District and after setting up the electricity that would feed the sign; it only took a few weeks to order the sign. Once the sign arrived, installation was complete in one day.

Frequent communication from the company, helped us determine the look and style we wanted for our building. Not only was Metro LED staff helpful in training us to run the sign, they also created wonderful graphics, which elevated the look of the sign; showing us all it had to offer. I truly appreciate their care and concern to help answer any questions we had in reference to making our sign look its best; even after the project was complete.

If actions speak louder than words, I do not think you will be disappointed in their work or professionalism. I currently have requests from several principals who have called about our sign and want the same look for their building. If you need additional information, please feel free to contact me at (770) 819-2402 or Timeka.Cline@cobbk12.org.

Dr. Timeka L. Cline

Timeka L. Cline

OS Series – LED MESSAGE SIGN

Quotation Validity:	60 days after the quotation date.
Payment Terms:	Net 30 after time of Installation
Lead Time:	12 to 16 weeks upon receipt of the deposit and all signed documents (expedited shipping available)
Parts Warranty:	5-year warranty on all parts. Warranty parts are held by Metro LED for a period of 5 years.
Permit:	Customer is responsible to obtain permit from the city. Once the permit has been received, production for the message sign will begin.
Technical Support:	We offer 5 years in-house technical support Monday through Friday from 9 am to 6 pm at no additional charge. We are here to support any issues you may experience with your sign during the warranty period.

WARRANTY INFO

System Warranty. When used properly under normal use and normal environmental conditions, and subject to the exclusions set forth herein, Metro LED warrants its manufactured goods, and the System against material defects in material and workmanship for five(5) years from the date of shipment from Metro LED's dock.

Buyer's exclusive remedy for Metro LED's breach of this Agreement as to any term hereof, and Metro LED's only liability for any such breach, shall be replacement or repair of the System and its parts actually delivered to Buyer in Metro LED's sole discretion. IN NO EVENT WILL METRO LED BE LIABLE TO BUYER FOR LOSS, DAMAGE, OR INJURY OF ANY KIND OR NATURE ARISING OUT OF THIS TRANSACTION IN EXCESS OF THE SYSTEM PRICE. The Buyer agrees that these limitations on liability and remedies are independent of the agreed remedies under this Agreement. Significant surge protection is included in the signs. However, very high electrical surges can damage electronic LED sign systems and are not covered by warranty. Proper installation to allow for adequate ventilation is required to keep the warranty in force. Power must be applied at all times except for during service incidents. Power outages for more than three (3) days require notice to Metro LED to keep the warranty in force.

System Images. Buyer agrees that Metro LED, without compensation to Buyer, may use Buyer's name along with photographs and images of the System in Metro LED's advertising and promotional materials in any media worldwide without the prior written consent of Buyer. Metro LED agrees that such use shall not imply any endorsement of Metro LED by Buyer.

METRO LED'S LIABILITY TO BUYER UNDER THESE WARRANTIES FOR THE SYSTEM AND SOFTWARE IS LIMITED AS SET FORTH HEREIN, WHETHER IN CONTRACT, TORT, OR ANY OTHER THEORY OF LIABILITY, INCLUDING BUT NOT LIMITED TO FRAUD, MISREPRESENTATION, BREACH OF CONTRACT, PERSONAL INJURY, PRODUCTS LIABILITY OR ANY OTHER THEORY, AND METRO LED SHALL NOT BE LIABLE FOR ANY SPECIAL, DIRECT, COMMERCIAL, EXEMPLARY, DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES OR PUNITIVE DAMAGES, OR DAMAGES FOR LOSS OF USE, LOSS OF ANTICIPATED PROFITS, INCOME, OR ECONOMIC LOSSES OF ANY KIND. METRO LED'S LIABILITY UNDER ANY WARRANTY HEREUNDER, WHETHER EXPRESS OR IMPLIED, SHALL NOT EXCEED THE COST OF REPAIR OR REPLACEMENT OF DEFECTIVE PARTS OF THE SYSTEM AND SOFTWARE. BUYER MAY NOT BRING ANY ACTION UNDER THESE WARRANTIES MORE THAN ONE YEAR AFTER THE CAUSE OF ACTION HAS ACCRUED.

Miscellaneous. Should any part of this Terms of Sale be found invalid, the other parts shall remain unaffected and shall be enforceable. This Terms of Sale shall be governed by the laws of the State of Georgia.

Metro LED Terms of Sale - OP			REVISION:	1.2	REVISION DATE:	24-May-21
DOCUMENT OWNER:	Finance	PROCESS OWNER:	Finance			

Metro LED Sign & Light, LLC - TERMS OF SALE

Note. The following Terms of Sale are subject to change without notice. All transactions for all products sold by Metro LED Sign & Light, LLC ("MetroLED") are subject to the latest published Terms and Conditions and to any special Terms of Sale which may be contained in applicable MetroLED quotations and acknowledgements. Such Terms of Sale, the quotation from MetroLED to the applicable purchaser ("Buyer"), and Buyer's purchase order accepted by MetroLED collectively comprise the "Agreement." In the event of any conflict or inconsistency between any document forming part of the Agreement, the following order of priority shall apply: (i) first, any addendum or amendment to a quotation or purchase order which is executed by each of MetroLED and Buyer; (ii) second, MetroLED's quotation; (iii) third, these Terms of Sale; (iv) fourth, any other written agreement (including any "click through" agreement provided by MetroLED with respect to the Software (as defined below)); and (v) lastly, Buyer's purchase order accepted by MetroLED. For purposes of clarity, MetroLED rejects any and all modified or additional terms within Buyer's purchaser order.

Quotations. Quotations shall be valid for no more than forty-five (45) days from their date, unless otherwise stated in the quotations. All quotations are subject to change by MetroLED at any time upon notice to Buyer. Buyer is obligated to review the quotation carefully and to immediately advise MetroLED of any discrepancies or errors. Changes to the products or services supplied by MetroLED (the "System") after acceptance of a quotation are valid only when accepted in writing and signed by both MetroLED and Buyer.

Terms of Payment. Upon Buyer's acceptance of a System quotation, Buyer shall make a non-refundable minimum deposit of one-half of the aggregate purchase price (collectively, the "System Price"). The System Price shall include applicable taxes, crating, transportation, delivery charges, and any other related expenses. The remaining balance of the System Price must be paid by Buyer no later than three (3) days prior to MetroLED's shipment of the System. The System Price does not include costs of any construction or installation of the System, which are solely the responsibility of Buyer. Any System delayed in shipment at the request of Buyer are subject to annual interest charges of 18% on the remaining balance, which must be paid by Buyer no later than three (3) days prior to MetroLED's shipment of the System. MetroLED shall have the right to terminate the contract with respect to Buyer's order for the System and retain the non-refundable deposit in the event Buyer does not pay in full the remaining balance of the System Price and associated expenses and confirm readiness to accept delivery within six (6) months after completion of the System. Buyer's failure to comply with all Terms of Payment may result in suspension of System access, which may not be restored until Terms of Payment are fulfilled.

Title; Risk of Loss; Delivery. MetroLED shall, at Buyer's sole cost, arrange for delivery of the System to Buyer. Without limiting the foregoing, MetroLED may estimate but Buyer shall be solely responsible for shipping and delivery costs. Shipping and delivery of the System is performed by third parties and MetroLED is not responsible for any delays in shipment that are beyond MetroLED's control. Title to, and risk of loss of, the System shall pass to Buyer upon MetroLED's placement of the System with the shipping carrier unless the System has been in MetroLED's warehouse for more than sixty (60) days from the date of completion. Title and risk of loss of the System shall automatically pass to Buyer if the System is in MetroLED's warehouse for more than sixty (60) days and a storage fee of \$500 per month thereafter will be assessed to Buyer. Buyer shall inspect the System within fourteen (14) calendar days after receipt of delivery of the System (the "Inspection Period"). Buyer will be deemed to have accepted the System unless it notifies MetroLED in writing of any Nonconforming System during the Inspection Period and furnishes such written evidence or other documentation as reasonably required by MetroLED. "Nonconforming System" means only the following: (i) product shipped is different than identified in Buyer's purchase order; or (ii) product's label or packaging incorrectly identifies its contents. If Buyer timely notifies MetroLED of any Nonconforming System, MetroLED shall, in its sole discretion, (i) replace such Nonconforming System with a conforming System or (ii) credit or refund the price for such Nonconforming System. If MetroLED exercises its option to replace the Nonconforming System, MetroLED shall deliver a conforming System to Buyer according to the delivery terms applicable to the original System. Buyer acknowledges and agrees that the remedies set forth in this paragraph are Buyer's exclusive remedies for the delivery of a Nonconforming System.

Driver Detention. Fees for up to two (2) hours of detention time, per load, are included in the System Price. In the unlikely event that the driver is delayed or detained beyond two (2) hours following arrival at the shipping destination, detention fees will be accrued by the hour. These fees will be invoiced to Buyer in a timely manner and will not exceed \$75.00/hour.

Force Majeure. MetroLED shall not be liable for any damages as a result of any delays due to any causes beyond MetroLED's control, including, without limitation, telecommunications failures, technology attacks, epidemic, pandemic, embargos, quarantines, viruses, strikes, labor problems of any type, accidents, fires, war, acts of terrorism, material unavailability, natural disaster, transportation failures, instability and unavailability of the Internet, and acts of God, etc. In the event of any such delay, the date of delivery shall be extended for a period of time reasonably necessary to cover the effect of such delay.

Intellectual Property. MetroLED shall defend any suit or proceeding brought against Buyer to the extent such suit or proceeding is based on a claim that equipment furnished by MetroLED as part of the System constitutes an infringement of any copyright, trademark or patent of the United States as of the time of shipment by MetroLED. MetroLED retains ownership of intellectual property in any materials, goods, software and production process which may be developed under this Agreement.

Use of System Image. Buyer agrees that MetroLED, without compensation to Buyer, may use Buyer's name along with photographs and images of the System in MetroLED's advertising and promotional materials in any media worldwide without the prior written consent of Buyer.

MetroLED Terms of Sale - OP			REVISION:	1.2	REVISION DATE:	24-May-21
DOCUMENT OWNER:	Finance	PROCESS OWNER:	Finance			

License for Software Use and Warranty. MetroLED hereby grants the Original End User a limited, non-exclusive personal, non-transferable and non-assignable license to use the Software (the "License"). "Software" as used herein includes software distributed on a media (like a CD, DVD or flash drive), software hosted on a server and accessed through a web browser, and software running on the System controllers. Media does not apply to PlayerMaster. The License covers end-user applications such as LED VISION, PlayerMaster and Colorlight Cloud. The License terminates upon any breach by Buyer or its permitted assignee of these Terms of Sale or the Agreement, and MetroLED reserves the right to electronically disable the Software upon such violation. Excluding third party software, MetroLED warrants that, for a period of sixty (60) days after shipment by MetroLED: (i) the media (if any) on which Software is provided shall be free from material defects; and (ii) Software substantially conforms to the documentation that accompanies it. The foregoing warranties are the sole and exclusive warranties provided by MetroLED with respect to the Software. The Software is copyrighted by MetroLED and Buyer shall not permit the Software to be copied (except for backup purposes), transferred, distributed, disassembled, reverse engineered, decompiled or tampered with. MetroLED does not warrant that the media and Software are completely error-free, will operate without interruption or are compatible with all equipment or software configurations. MetroLED may charge additional fees for any upgrades or modifications to the Software.

Third Party Software. Operation of the sign equipment included in the System is supported only with MetroLED software and MetroLED qualified versions of approved third party software. Installing un-supported software on sign controllers could lead to non-operational signs for which no warranty applies. Service charges for troubleshooting and returning to operation will apply.

System Warranty. When used properly under normal use and normal environmental conditions, and subject to the exclusions set forth herein and exceptions set forth in an applicable quotation, MetroLED warrants the System (other than the Software, described above) against material defects in material and workmanship for the following durations: (i) five (5) years from the date of shipment from MetroLED's facility with respect to equipment manufactured by MetroLED, other than the Rugged product series; and (ii) three (3) years from the date of shipment from MetroLED's facility with respect to the Rugged product series. Notwithstanding anything to the contrary, the warranty with respect to equipment sold by MetroLED and manufactured by third parties shall be subject only to the terms of the applicable manufacturer's warranty and MetroLED disclaims any additional warranty with respect thereto. For equipment manufactured by MetroLED, MetroLED's only obligation and liability is to repair or provide replacement parts (at its option) for those part(s) of the System which prove to be defective and not merely worn out (e.g., aged LEDs). For purposes of clarity, MetroLED is not responsible for the labor to remove or install repaired or replaced parts. Repaired or replaced parts provided within the original warranty period shall have the same warranty for the balance of the original warranty period. Parts replaced or repaired outside of any warranty period shall have a warranty of replacement only for material defects in material or workmanship for one (1) year from date of shipment. Any parts not manufactured by MetroLED, but which are added to or incorporated in the System manufactured by MetroLED, are covered only by their original manufacturer's warranty, if any. MetroLED is not responsible for telecommunications or Internet services being unavailable, or for limitations caused by environmental conditions or incompatibilities with other systems.

Limitations. Buyer's exclusive remedy for MetroLED's breach of the Agreement as to any term thereof, and MetroLED's only liability for any such breach, shall be replacement or repair of the System and its parts actually delivered to Buyer in MetroLED's sole discretion. **METROLED'S LIABILITY TO BUYER UNDER THE AGREEMENT (INCLUDING THESE TERMS OF SALE) OR FOR THE SYSTEM OR SOFTWARE IS LIMITED AS SET FORTH HEREIN, WHETHER SUCH LIABILITY IS IN CONTRACT, TORT, OR ANY OTHER THEORY OF LIABILITY, INCLUDING BUT NOT LIMITED TO FRAUD, MISREPRESENTATION, BREACH OF CONTRACT, PERSONAL INJURY, PRODUCTS LIABILITY OR ANY OTHER THEORY. METROLED SHALL NOT BE LIABLE FOR ANY SPECIAL, INDIRECT, EXEMPLARY, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, OR DAMAGES FOR LOSS OF USE, LOSS OF ANTICIPATED PROFITS, INCOME, OR ECONOMIC LOSSES OF ANY KIND. BUYER MAY NOT BRING ANY ACTION UNDER THE AGREEMENT (INCLUDING IN CONNECTION WITH ANY BREACH OF WARRANTY) MORE THAN ONE YEAR AFTER THE CAUSE OF ACTION HAS ACCRUED. WITHOUT LIMITING ANY OTHER LIMITATION ON LIABILITY HEREUNDER, IN NO EVENT WILL METROLED BE LIABLE TO BUYER FOR LOSS, DAMAGE, OR INJURY OF ANY KIND OR NATURE ARISING OUT OF THE AGREEMENT IN EXCESS OF THE SYSTEM PRICE ACTUALLY PAID TO METROLED BY BUYER.** Buyer agrees that these limitations on liability and remedies are independent of the agreed remedies under this Agreement.

METROLED'S LIABILITY UNDER ANY WARRANTY HEREUNDER, WHETHER EXPRESS OR IMPLIED, SHALL NOT EXCEED THE COST OF REPAIR OR REPLACEMENT OF DEFECTIVE PARTS OF THE SYSTEM AND SOFTWARE. Significant surge protection is included in the sign equipment included in the System. However, very high electrical surges can damage electronic LED sign systems and are not covered by warranty. **Proper installation to allow for adequate ventilation is required to keep the warranty in force. Failure to comply with the requirements set forth in the applicable installation or operating manual will result in the warranties associated with the System being void. Power must be applied at all times except for during service incidents. Power outages for more than three (3) days require notice to MetroLED Service to keep the warranty in force.**

Warranty Service. Defective media or Software may be replaced during the warranty period unless damaged by accident or misuse. METROLED'S ENTIRE LIABILITY SHALL BE THE REPAIR OR REPLACEMENT OF THE DEFECTIVE MEDIA OR SOFTWARE WHEN TIMELY RETURNED TO METROLED. Any replacement media or Software has the remainder of the same sixty (60) day warranty applicable to the Software and the media (if any) on which Software is provided. Warranty service for the System and the Software are expressly conditioned on MetroLED's prior receipt of all payments due under the Agreement, including the System Price. Buyer shall contact the MetroLED's Helpdesk for warranty service. Items determined defective by MetroLED will be replaced at MetroLED's option with new or like-new parts. No credit is given for such items. MetroLED will pay for outbound shipping and return ground freight for items repaired or replaced for its manufactured goods. Buyer must pay all duties and taxes for items shipped to destinations outside of the continental United States. Buyer shall pay for the installation of repaired or replaced items and updates to the Software. In the event of any delay in Watchfire's performance

MetroLED Terms of Sale - OP			REVISION:	1.2	REVISION DATE:	24-May-21
DOCUMENT OWNER:	Finance	PROCESS OWNER:	Finance			

beyond MetroLED's reasonable control, MetroLED shall have additional reasonable time for performance. Buyer shall be responsible and pay for all maintenance services.

10-Year FCC Guarantee. This device complies with FCC Part 15 regulations for Class A devices. Operation is subject to the following two conditions: (i) the device may not cause harmful interference; and (ii) the device must accept any interference received, including interferences that may cause undesired operation. FCC regulations state that unauthorized changes or modifications to the device could void the user's authority to operate it.

In the event of a documented claim of electromagnetic interference during the System warranty period as the result of the operation of the System in accordance with MetroLED's operating instructions, MetroLED shall provide a remedy to the complaint pursuant to FCC Part 15 regulations for Class A devices in effect at the time of shipment or issue a prorated refund to Buyer. The prorated refund will be determined by dividing the original purchase price by the number of months of the System warranty period, then multiplying the result by the months remaining in the System warranty period. Partial months are rounded to the nearest whole month.

Indemnification. BUYER SHALL, AND SHALL CAUSE ITS END USER(S) TO, INDEMNIFY METROLED AND ITS AFFILIATES FOR, AND HOLD SUCH PERSONS AND ENTITIES HARMLESS FROM AND AGAINST, ANY CLAIM, LOSSES, DAMAGES, COSTS, AND EXPENSES (INCLUDING METROLED'S ATTORNEYS' FEES) WITH RESPECT TO THE USE OF THE SOFTWARE OR SYSTEM, INCLUDING WITH RESPECT TO THE SOFTWARE OR SYSTEM INFRINGING ANY INTELLECTUAL PROPERTY RIGHTS OF A THIRD PARTY DUE TO AN IMAGE DISPLAYED ON THE SYSTEM.

Exclusions. THE WARRANTIES EXPRESSLY WRITTEN IN THE AGREEMENT (INCLUDING THESE TERMS OF SALE) ARE THE SOLE AND EXCLUSIVE WARRANTIES GIVEN BY METROLED WITH RESPECT TO THE SYSTEM AND THE SOFTWARE AND ARE IN LIEU OF AND EXPRESSLY EXCLUDE ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, ARISING BY OPERATION OF LAW OR OTHERWISE, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR USE WHETHER OR NOT THE PURPOSE OR USE HAS BEEN DISCLOSED TO METROLED AND WHETHER OR NOT THE SYSTEM OR SOFTWARE IS SPECIFICALLY DESIGNED AND/OR MANUFACTURED BY WATCHFIRE FOR BUYER'S USE OR PURPOSE, AGAINST INTELLECTUAL PROPERTY INFRINGEMENT, OR OTHERWISE. The warranties in these Terms of Service or elsewhere in the Agreement do not apply if the System or Software is damaged due to improper or unreasonable use, modification, repair, service, installation, or environmental conditions or if they are reversed engineered, de-compiled or used to create derivative works. There are no express warranties for the System and the Software beyond those expressly stated herein and the entire agreement between the parties as to warranties is embodied in the Agreement (including these Terms of Sale). Neither oral statements or advice made by Watchfire's agents or employees in the selection of goods or parts used in or in conjunction with MetroLED's manufactured goods, or in the performance of warranty services, nor any verbal arrangement, nor any advertising material or statement in any brochure, catalogue, or other material furnished by MetroLED or on its behalf, nor any other oral or written term or statement not contained herein shall constitute a warranty, be relied upon by Buyer, or become a part of the agreement with respect to the System or the License. If any sample or model was shown to Buyer, such sample or model was used merely to illustrate the general type and quality of a System and Software and does not represent that the System and Software will necessarily conform to the sample or model.

Miscellaneous. Should any part of these Terms of Sale be found invalid, the other parts shall remain unaffected and shall be enforceable. These Terms of Sale shall be governed by the laws of the State of Georgia. Any litigation arising out of or relating in any way to the Agreement (including these Terms of Sale) shall be exclusively in the superior court of Fulton County, in the State of Georgia.

VANDAL COVER FOR THE **TEKSTAR LED** FROM STEWART SIGNS

UNMATCHED PROTECTION

Our TekStar LED sign offers a unique vandal cover in front of the LED display. Made from a single piece of solar-grade TUFFAK® SL polycarbonate, this vandal cover helps **protect against impact, graffiti and UV light** which can degrade LEDs over time.

Most vandalism such as egg and spray paint can be removed with approved cleaners. A matte finish reduces glare and reflection. All TekStar signs include active ventilation that prevents overheating and extends the life of internal components.

Protect your sign investment!

Create and send amazing messages from anywhere
with the **easiest** LED sign software in the cloud!

Sign owners have told us that they want sign software that's easy to use and can be accessed from any device. Software with powerful editing and scheduling capabilities, built from the ground-up with security in mind. Software that **just works** and requires no installation or complex network setup.

Introducing SignCommand, the next generation in LED sign control. From a built-in library of video clips to easy collaboration with other users, your sign message will become a **powerful voice** for your organization. Get more from your sign with the power of the cloud!

See videos and more at
stewartsigns.com/software

Access From Anywhere

From home or work, computer or phone, you can change your sign message with no software setup.

The Media You Need

Search, preview and add from our constantly expanding graphics library, right inside the application.

Your Message, On Your Time

Advanced scheduling options allow for highly customized messages based on date and time.

Eye-Catching Special Effects

Many built-in transition and text effects will increase interest and attention in your sign message.

Delivering Peace-of-Mind

Offering features like two-factor authentication, it's built from the ground-up with a focus on security.

A Network of Support

Remote diagnostics and monitoring allow us to fix existing problems and prevent future ones.

stewartsigns.com ■ 800-237-3928

SignCommandFlyer-SS220801

The leader in **secure and reliable** cloud application hosting.

Works across **all** operating systems.

Built-in Graphics Library for Your School

Generate attention and interest in your message!

With your investment in LED technology, the messages that you display will now have the power to be **more effective than any other communication**. But not just any content will have the impact you're after. Plain text messages can get lost in a crowded visual landscape, and many schools don't have the resources to create their own dynamic sign graphics.

SignCommand offers a **built-in and constantly expanding library** of graphics and video animations. These media files are created and optimized by artists that specialize in sign content creation, and will turn a sign that can be read into a sign that will be read.

Learn more and see graphics in action at stewartsigns.com/library

THERE'S A DIFFERENCE IN SIGNS... AND A

Difference in Sign Companies!

Commercial-grade Signs

These signs are built only with the **initial cost** in mind. Made for businesses or locations that change frequently over time, these signs degrade quickly and have a serviceable life of three to five years.

✗ The sign cabinet is made from thin steel may **rust and deform** under its own weight. Sides are joined with screws, bolts or adhesives that fail over time.

✗ Metal surfaces are unevenly wet-painted. The color **quickly fades** in direct sunlight and vandalism such as spray paint or egg is not easily removed.

✗ Sign faces are acrylic or plexiglass with low impact resistance. Material is not UV-resistant, and **yellows or cracks** as it degrades in the sun.

✗ The face artwork is printed or painted with non-solar-grade materials, and adhered to the outside of the sign face where it can be **scratched and peel**.

✗ The support structure or base plates are made of thin steel or aluminum that cannot support minimum wind-loads and may **fall over in high winds**.

✗ The sign is assembled out-in-the-field from individual components that **may not be UL Listed** or match each other in color or style.

✗ There is a limited or no warranty on the above components. Any warranty **does not include incidents of vandalism**.

Institutional-grade Signs

These signs are built with **total cost-of-ownership** in mind. Made for organizations that want to make a one-time investment in their sign project for many years, they have a serviceable life of well over a decade.

✓ The sign cabinet is made from extruded aluminum that **resists corrosion** and retains its shape. Sides are miter-cut and joined by wire-welding the corners.

✓ Metal surfaces are cleaned and uniformly powder-coated for **superior chip, impact and fade resistance**. Vandalism can be removed with approved cleaners.

✓ Sign faces are made from solar-grade polycarbonate with superior impact resistance. UV protection is integrated into the material to **keep it clear**.

✓ The face artwork is digitally printed on solar-grade material and adhered to the inside of the sign face for **maximum protection** against the elements.

✓ The support structure and base plates are made of thick, powder-coated steel to support a **minimum wind-load rating of 120mph**.

✓ The entire sign is manufactured in a controlled environment to ensure a seamless look, and the **complete sign is UL Listed**.

✓ There is a lifetime warranty from a single company on all of these components, **including damage caused by vandalism**.

THERE'S A DIFFERENCE IN SIGNS... AND A

Difference in Sign Companies!

Your sign company matters.

A true institutional-grade sign comes from a **single source** that builds all of the sign components including the identification cabinet, LED cabinet, and support structure. Any warranty or service issues should be handled by the same company.

A **sign broker** is a company that only purchases the sign or its major components on behalf of the customer, **adding their markup** in the process.

A **sign integrator** assembles a sign from components purchased elsewhere, usually in-the-field using bolts or screws where they **may not fit together** tightly.

A **sign manufacturer** builds their complete sign product in a controlled environment, and provides all support and warranty service with **no middle-men**.

Knowing where your sign will truly come from is **key to the success** of your project. The reputation and longevity of the company is also important to ensure that they will be around tomorrow to support the sign you invest in today.

At Stewart Signs, we have been providing complete signs for over half a century. As the trusted partner for sign projects of all sizes, we believe in:

One sign, one company.

Questions to Ask

- How long has your company been in business?
- How many signs have you built, and are there any in my area I can visit?
- Is your complete sign manufactured by you and UL Listed?
- Is your company highly rated by independent third parties?
- Who do I contact if I have questions about my sign or its software?
- Who do I contact for warranty claims or service issues?

Built-in graphics library	Over 1,500 pieces optimized for use on LED displays

*A healthy human eye can interpret about 10 million colors.

** Refer to the sign quote for specific warranty information for your product.

FCC Notice

All components have been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. The user is cautioned that any changes or modifications not expressly approved by the party responsible for FCC compliance could void the user's authority to operate the equipment.

SHIPPING INFORMATION

All items not specified here will be shipped to:
Clifftondale Elementary School
3340 W Stubbs Rd
College Park, GA 30349

Shipping terms: FOB Origin. Storage and other freight services may be added to your invoice should they be required. Unless managed installation services are included, customer is responsible for unloading of sign upon delivery. Signs greater than 6 feet wide are not eligible for lift gate services.

TERMS & CONDITIONS (*unless noted elsewhere in this quote)

TAX: Any applicable sales tax will be added to your invoice. Organizations exempt from sales tax must include exemption certificate with order.

PERMITS: Permits and zoning are the responsibilities of the buyer. Check with your city or county zoning office for proper permitting procedures in your area. Sealed engineer drawings available at additional cost.

INSTALLATION: Installation of footers, erection, electrical service to sign site, electrical hook-up, removal and/or disposal of any existing signage, and any decorative masonry are the responsibilities of the buyer. Managed installation services are available at additional cost.
[Learn about typical installation methods.](#)

CANCELLATION: Any cancellation may be subject to cancellation, return, and/or restocking fees. A late fee of 1.5% per month will be charged on any overdue balances. In the event of a payment default, customer will be responsible for all of Stewart Signs' costs of collection, including but not limited to court costs, filing fees and attorney fees.

SUPPORT: US-based phone and internet support are provided FREE for the lifetime of the product. A premier service warranty is available at additional cost.

SOFTWARE: By purchasing the SignCommand.com software product, you are agreeing with the Website Terms of Use (<https://www.signcommand.com/terms>) and Software End User License Agreement (<https://www.signcommand.com/eula>).

COMMUNICATION: Connectivity requires cell service at sign site. Must be within the United States (including Puerto Rico) with 4G LTE coverage shown on the Verizon Coverage Map (<https://www.stewartsigns.com/verizon-map>).

DATA PLAN: By purchasing the Cell Connect Data Plan, you are agreeing with the Data Plan Terms and Conditions (<https://www.signcommand.com/data-plan>).

Limited Product Warranty ("Limited Warranty")

Prepared for: Cliftondale Elementary School • College Park, GA

Prepared by: Brad Klomp • bklomp@stewartsigns.com • 1.888.237.3928 x2240

Definition of Warranty Coverage:

- 1) Stewart Signs (the "Company") expressly warrants to the original purchaser ("You" or "Buyer" or "Owner" or "Customer") that, for a period of five (5) years from the date of shipment (the "Warranty Period"), the electronic displays and the associated Company products (the "Product") will be reasonably free of material defects in materials and workmanship impacting Product fit, form and/or function. During the Warranty Period, the Company will, at its discretion, repair or replace any defective covered Product. The Owner will be responsible for removing and reinstalling any and all repaired or replacement parts. This Limited Warranty only applies to the Company's Product if installed, used, and maintained in the manner recommended by Company, and this Limited Warranty is conditioned upon compliance with all such instructions. Lifetime telephone support for the Product is provided, as needed.
- 2) In the event the Product is damaged during shipping, it is the responsibility of the Buyer to refuse delivery, causing the Product to be returned to the manufacturer for repair. Title to the Product passes to the Buyer upon the Company's delivery to the freight carrier. The Company assumes no liability for damage caused by careless handling or poor installation, except for work completed by employees of the Company. Loss or damage to the Product when in possession of the freight carrier is the responsibility of the Customer and is not covered by this Limited Warranty.
- 3) Any information or suggestion by the Company with respect to the Product concerning applications, specifications or compliance with zoning, codes and standards is provided solely for your convenience and without any representation as to accuracy or suitability. You must verify and test the suitability of any information with respect to the Product for your specific application.
- 4) Sign Structure and Sign Face: In the event the sign structure or identification/changeable copy portion of the sign malfunctions under normal use and service thereof DURING THE LIFE OF THE SIGN due to material defects in workmanship or materials, the Company will, at its option, repair or replace any defective materials.
- 5) Vandalism to Sign Faces: This Limited Warranty covers polycarbonate faces against breakage due to vandalism DURING THE LIFE OF THE SIGN. Warranty protection does not extend to these surfaces if damaged by gunshots, or when damaged coincident with damage to the sign cabinet in which the faces are installed.
- 6) Failed electronic parts or assemblies, with the exception of lamps, will be repaired or replaced, at the sole discretion of the Company. Owner bears the expense and responsibility of shipping Product to Company's Repair Center. Replacement or repaired parts are warranted to be free from material defects in material or workmanship for ninety (90) days, or for the remainder of the Warranty Period of the Product they are replacing or in which they are installed, whichever is longer.
- 7) The Company will repair failed LED pixels if greater than one half of one percent (0.5%) of the total number of pixels in the sign have failed in one (1) calendar year, provided the sign is installed with the recommended ventilation system for its location. The definition of pixel failure is when all LED's in the pixel will no longer emit light. Pixel repair is performed at the Company Repair Center. It is common knowledge within the sign industry that all LEDs degrade and produce less light as they age. Eventually the LEDs will require replacement even though the LEDs will still emit light. This Limited Warranty does not cover normal LED degradation.
- 8) Customer Obligations:
Failure by the Customer to properly maintain the Product, including but not limited to filters and the ventilation/air conditioning systems, will void coverage for affected components. The Customer shall notify the Company immediately of equipment failure and allow the Company full and free access to the Product when required. Waiver of liability or other restriction shall not be imposed as a site access requirement. The Customer is responsible for all costs and management oversight associated with providing the Company access to the Product, providing the necessary machines, communication facilities and other equipment, inclusive of but not limited to lifting equipment. Should on-site repair be required, Customer is required to have a responsible individual on-site to provide access to the Product as well as sign off on a completed work order.
- 9) Exclusions and Restrictions:
The Company reserves the right to restrict service, limit replacement parts, or invalidate this Limited Warranty to Customers whose account balance is past due.
This Limited Warranty specifically excludes any on-site labor required to service the covered Product, including diagnosis, removal, and installation of parts and/or products. Any on-site service required by the Customer of Company technicians or a local Company-authorized service provider is billable to the Customer based on an agreed-upon written quote.
This Limited Warranty does not apply to software. Software is covered by a separate agreement, which appears in the Company's software license agreement.
Ballasts are covered for three (3) years.
ID cabinet LED illumination and power supply are covered for two (2) years, when purchased as a system.
- 10) This Limited Warranty specifically does not cover the following:
 - a) Third-party communication devices such as wireless devices and modems, which are covered by a separate electronic communication warranty.
 - b) Damage to Product that has been moved from its original installation location or is mounted in a mobile structure.
 - c) Cosmetic damage to the Product (including but not limited to scratches and dents that do not otherwise affect the fit, form or functionality of the Product or materially impair its use).
 - d) Temperature sensor results: temperature sensors will register variable results, given local environmental factors such as direct sunlight, distance from concrete or asphalt, etc.; results are not guaranteed or covered under this Limited Warranty.
 - e) Recovery or transfer of any data or software stored on the Product not originally installed on the Product by the Company.
 - f) Light bulbs or lamps.
- 11) This Limited Warranty specifically does not cover conditions, defects or damage caused by or resulting from the following:
 - a) Defects caused by: unreasonable or unintended use of Product; improper or unauthorized handling; accident; omission; neglect; vandalism (unless otherwise noted in this Limited Warranty); misuse; physical abuse; installation, use and/or fabrication, and maintenance of the Product by

Prepared for: Clifftondale Elementary School • College Park, GA

Prepared by: Brad Klomp • bklomp@stewartsigns.com • 1.888.237.3928 x2240

any party other than the Company.

- b) Damage (not resulting from manufacturing defects) that occurs while the Product is in the Owner's control and/or possession, unless otherwise noted in this Limited Warranty.
 - c) Extreme physical or electrical stress or interference; environmental conditions beyond the Company's control, such as man-made or naturally occurring electrochemical oxidation or corrosion and/or metallic pollutants; normal wear and tear; inadequate, improper, or surges of electrical power; lightning, floods, fire, acts of God, war, terrorism, or other external causes, including Force Majeure.
 - d) Unauthorized modification, including installation of third-party software on the Product.
 - e) Product modification or service by anyone other than: (a) the Company, (b) a Company-authorized service provider, or (c) Customer's own installation of Company approved parts with instruction from the Company. Service to damaged or malfunctioning Product which has not been ordered or authorized by the Company's Customer Satisfaction Department is not covered under this Limited Warranty and will automatically invalidate this Limited Warranty.
 - f) Computer viruses, Trojan horses, worms, self-replicating code or like destructive code which was not included in the Product by the Company.
 - g) Products installed with known or visible manufacturing defects at the time of installation.
- 12) All items returned to the Company must have a Return Materials Authorization ("RMA") number, available by using the contact information below. Items received without an RMA number will not be processed and will be returned to the Customer at their expense. The Customer is responsible for sending a defective part to the Company, after which the Company will send a repaired or replacement part to the Customer.
- 13) The Company will provide and be responsible for the cost of shipping parts from the Company to the Customer, with the exception of sign faces replaced due to vandalism. Standard shipping via the United States Postal Service or other commercial parcel delivery company is the default method of delivery. Expedited delivery is available to the Customer at his or her expense. The Customer will provide and be responsible for the cost of shipping parts to the Company.
- 14) Warranty claims must be registered with the Company within thirty (30) days of damage or malfunction. To register a claim, the Customer must contact the Company at the location specified below and provide (a) his or her name and any other required contact information, (b) Product and purchase descriptions, and (c) the nature of the defect. The Company reserves the right (at its sole discretion) to require proof of original purchase (e.g. paid invoice, receipt) and to visit the site of the installation or to require documentation of the claim before assuming any responsibility under the provisions of this Limited Warranty.
- 15) THE LIMITED WARRANTIES SET FORTH HEREIN ARE THE ONLY WARRANTIES MADE BY THE COMPANY IN CONNECTION WITH THE PRODUCT. THE COMPANY CANNOT AND DOES NOT MAKE ANY IMPLIED OR EXPRESS WARRANTIES WITH RESPECT TO THE PRODUCT, AND DISCLAIMS ALL OTHER WARRANTIES, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE COMPANY'S SOLE OBLIGATION UNDER THIS LIMITED WARRANTY SHALL BE TO REPAIR OR REPLACE MALFUNCTIONING OR DEFECTIVE PARTS OF THE PRODUCT. BUYER ASSUMES ALL RISK WHATSOEVER AS TO THE RESULT OF THE USE OF THE PRODUCT PURCHASED, WHETHER USED SINGULARLY OR IN COMBINATION WITH ANY OTHER PRODUCTS OR SUBSTANCES.
- 16) NO CLAIM BY BUYER OF ANY KIND, INCLUDING CLAIMS FOR INDEMNIFICATION, SHALL BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT WITH RESPECT TO WHICH DAMAGES ARE CLAIMED. IN NO EVENT SHALL COMPANY BE LIABLE TO BUYER IN TORT, CONTRACT OR OTHERWISE, FOR ANY SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL, RELIANCE, PUNITIVE OR EXEMPLARY DAMAGES, OR FOR LOSS OF PROFIT, REVENUE OR USE, IN CONNECTION WITH, ARISING OUT OF, OR AS A RESULT OF, THE SALE, DELIVERY, SERVICING, USE OR LOSS OF USE OF THE PRODUCT SOLD HEREUNDER, OR FOR ANY LIABILITY THAT BUYER HAS TO ANY THIRD PARTY WITH RESPECT THERETO.
