

Local Counseling, Testing/Diagnostic, and Psychiatry Resources

This list just scratches the surface of resources available in Birmingham. If you do not find that any of these fit your needs, or if your needs are more individualized than these services, please feel free to ask Mrs. Garrett or Ms. Smith for more!

It can be challenging to find therapeutic support sometimes. By beginning to seek help, you have taken the first step to feeling better! We encourage you to reach out to 2-3 providers to ensure you find the right fit for yourself. If you begin treatment & it does not feel like the right fit, that is okay & normal! You can always look for a new provider.

Mrs. Garrett & Ms. Smith are available to help with your search & provide therapeutic support until you find the right provider for your needs.
