FY23 Budget Message

Brentwood District is to motivate and inspire success to build a foundation for life-long learning through achievement, character, and excellence. It is our responsibility as a District to establish and sustain staff with the necessary knowledge, skills and abilities to achieve our mission while balancing those costs with the necessary capital and technology improvements.

A school budget is a fluid document that is based upon the best available information at the time of its completion. There is the intent to continuously monitor the budget during the year and to notify the Board of Education as changes occur with respect to revenues and expenditures. Attached you will find the 2022-2023 (FY23) budget. This document was prepared by the administration to reflect the most current financial information available. Included in this message are the processes and procedures used to develop the district's budget. This information provides background material for relatively new members to the Board of Education and a review for veteran members.

Steps in the process

The process begins in during the fall with initial projections and needs assessments through the District Finance Committee in coordination with department leaders to determine the long term needs of the organization and how these needs will fit within the District's anticipated revenues and available fund balance. The District attempts to address long-term facility and technology needs with consideration useful life cycles of assets. During the spring, building principals and program supervisors prepare budget requests for the following year to support the planned educational activities under their level of responsibility. These requests are forwarded to the central office by mid-February for data entry and initial administrative review in early March. During March and April, central office personnel review the budget requests, seek clarification where necessary, and make adjustments as appropriate. The focus of this review is to provide students with the best educational programs and opportunities to meet the goals for the educational programs of the district.

The next phase of this process requires the development of revenue projections for the FY23 fiscal year. This study occurs during the March and April. In reassessment (odd numbered) years, preliminary assessed valuations are due from the assessor in March and a non-binding tax rate is reported by the district to the assessor in April. Revenue projections are based on estimated receipts for the period between July 1, 2022, and June 30, 2023. Funding sources through state and Federal sources are based upon memos through the Department of Elementary and Secondary Education.

Also during this time frame, the administration makes a projected estimate of the cash balance on June 30, 2022. While the Board-approved annual budget authorizes a level of expenditures, an administrative goal is to maintain expenditures below the authorized amounts. Projecting estimates of the current year's final expenditures is one factor required to determine the available revenues for the FY23 budget. The second factor is an analysis of revenue received in comparison to revenue budgeted. These two factors provide the basis for the estimated cash balances used in developing a projected budget.

A third activity receiving administrative review during the March/April period is a detailed analysis of proposed expenditures. Included in this analysis are requests for staffing. Such requests are carefully reviewed by the administrative team and become a part of the hiring recommendations the board acts on during a closed board session in the spring. Additionally, items for analysis include capital project needs and NTB issues.

Finally, all budget requests and revenue sources are reviewed (line-by-line) to ensure the best expenditure of district funds in keeping with the mission of preparing all students for the future. Revisions of specific line items may occur from the time the requests are made in December until the final approval of the board in June. Development of a budget is an inclusive process involving all the administrative team and input from other key personnel.

The first draft of the budget will be presented to Board of Education for their on May 17, 2022. The final proposed budget is anticipated to be presented at the regular June meeting of the Board of Education scheduled for June 21, 2022. At the conclusion of this presentation, the FY23 budget is recommended for adoption by the Board.

Revenue projections for the FY23 budget are based on a set of assumptions. These assumptions include:

- preliminary assessed valuation remains flat;
- the CPI for tax rate calculations is 5.0%;
- collection of local tax revenue at 95%;
- Increase in state funding based on current projections from DESE;
 - State adequacy target (SAT of \$6,375 prorated at 100%)
 - Prop C (\$1,159 per weighted average daily attendance)
 - Classroom Trust Fund (\$425 per average daily attendance)
 - Estimated weight average daily attendance of 672.8187 (Due to Pandemic Provision)
 - Estimated average daily attendance of 641.0929 (Due to Pandemic Provision)
- Increase federal funding based preliminary allocations through CARES III/ARP funding;
- Reduction of transfer tuition due to unaccredited student MOU expiration, dissolution of the collaborative program and phasing out of VICC Program.

With these assumptions in mind, we will review the revenue expectations for the coming school year.

Revenue Resources

Local monies represent approximately 94.0% of the district's revenue. This revenue is determined largely by the assessed valuation of real and personal property. The Incentive Aid revenue for the desegregation program (approximately 1.7% of the budget) is based on our per-pupil cost and the number of students enrolled. The per-pupil reimbursement is scheduled to remain at \$7,000 per student in 2022-23. The assessed valuation figure is reported by the St. Louis County Assessor's office and is final Assessed Valuation reported as of December 31, 2021 assuming a conservative 0.5% increase due to a non-reassessment year. This amount is \$370,558,434 after reduction for TIF projects, or a blended increase of 4.22%. State, federal and county revenues (which historically make up between 3% and 4% of the district's resources) have decreased slightly to 1.9 and 2.9%.

The District's finances are anticipated to continue to be impacted by national and state economic trends as a result the national pandemic. The District intends to continue providing supporting services for potential learning loss that may have occurred during the pandemic through Math and English interventionists.

The next step in the budget process is the calculation of the cash reserves expected at the close of this school year. Cash reserves are calculated both in real dollars and as a percentage which is based on the amount of cash on-hand in the Incidental and Teachers' funds (as of June 30th of the current budget year) against the current year's expenditures. The Department of Elementary and Secondary Education uses the percentage method to calculate a district's relative financial security. Below a 3% reserve is considered a danger signal.

The recent history of this barometer of the district's financial health reflects the following:

| | | Funds 1 & 2 | Funds 1, 2 &4 |
|---------|--------|----------------|---|
| 2021-22 | Est. | 51.96% | 73.66% |
| 2020-21 | Actual | 66.54% | 85.02% |
| 2019-20 | Actual | 69.05% | 91.52% |
| 2018-19 | Actual | 64.27% | 64.27% |
| 2017-18 | Actual | 69.26% | 95.30% |
| 2016-17 | Actual | 61.10% | 77.76% |
| 2015-16 | Actual | 55.14% | 63.81% |
| 2014-15 | Actual | 48.08% | 53.50% |
| 2013-14 | Actual | 37.37% | 41.79% |
| 2012-13 | Actual | 22.48% | 22.48% |
| 2011-12 | Actual | 9.52% | 9.79% |
| 2010-11 | Actual | 11.58% | 14.92% |
| 2009-10 | Actual | 22.12% | 18.47% |
| 2008-09 | Actual | 30.79% | 42.53% (Includes 13.87% of voter approved bond revenue) |
| 2007-08 | Actual | 30.40% | 28.92% |
| 2006-07 | Actual | 32.15% | 35.29% |
| 2005-06 | Actual | 29.97% | 36.06% |
| 2004-05 | Actual | 27.01% | 40.30% |

The revenue estimate represents a conservative expectation of revenue collections or a “worst-case” scenario based on currently known facts and careful projections.

Expenditures

Once revenues have been determined, attention is focused on projected expenditures required to maintain effective programs and implement new programs to ensure that our instruction prepares students well for the future. These expenditures are budgeted using the following funds: Incidental, Teachers, Debt Service and Capital Projects.

INCIDENTAL FUND

The Incidental Fund expenses cover a wide-range of needs. Supplies, curriculum materials, extra-curricular programs, staff development programs, support staff salaries and benefits, operation of the facilities, food service, school board and administrative expenses are the major categories covered in this segment of the budget.

TEACHERS FUND

The second major expenditure is the Teachers Fund. This budget is based on a teaching staff of 91 FTE teaching positions.

DEBT SERVICE

This fund is established to pay off the \$6 million bond issue authorized by the voters in April, 2000 and refunded in 2007, and in 2016, the \$49 million bond issue authorized by the voters in November 2008 and refunded in 2016, and the \$16 million bond issue authorized by the voters in April 2018, and the \$29 million bond issue authorized by the votes on June 2, 2020.

CAPITAL PROJECTS FUND

The final category under expenditures is the Capital Projects Fund. This fund supports building improvements and instructional equipment purchases. Instructional equipment expenditures are projected at \$17,125.

A portion of the Capital Projects fund includes expenditures for the district's Technology Plan for hardware and infrastructure improvements. There is also a portion of expenditures included in the Incidental Fund for training/software/supplies. The total budgeted for technology is \$847,600.

Budgeted expenditures related to the bond project at the High School and Middle School complex for FY23 are \$25,000. Included in this cost is the final payment to complete the project. Cost associated with the facilities replacement of obsolescence schedule are \$370,000.

Summary

The budget format presents a three-year history. This history illustrates 2019-20 and 2020-2021 *actual* revenue and expenditures, 2021-22 *authorized* revenue and expenditures and 2022-2023 *projected* revenue and expenditures.

In addition to the *Budget Message*, Section 1 contains the overall budget for the district. It follows the three-year format outlined above and includes the estimated revenues and recommended expenditures for all funds. The account numbers used in this section are organized by the specific fund (Incidental, Teachers, Debt Service and Capital Projects) and correspond to the numbers used by the Department of Elementary and Secondary Education to monitor the school districts' activities.

This budget reflects expenditures that will exceed revenues by \$21,297,291 overall. When bond issue related revenues and expenditures are excluded, the overall reduction of reserves is anticipated to be \$2,952,347. The operating funds show a reduction of \$2,173,594, the debt service fund shows a surplus of \$35,246 and the capital projects fund shows a reduction of \$813,999. The budget anticipates a beginning fund balance on June 30, 2022, of \$16,153,897, excluding debt service and bond proceeds.

The FY23 budget was developed to address the following goals:

- Meet the NTB agreements for salaries for certified and support staff
- Health insurance premiums anticipated to be stable
- Manage through a consumer price index for food sales of 7.2%
- Assure resources are available to achieve curriculum goals
- Continue building repairs and renovations throughout the district
- Continue the refresh cycle for technology
- Provide for a school resource officer
- Allocate funds for an athletic trainer
- Allocate funds for an independent construction consultant
- Assume the majority of McGrath Site Construction
- Assume the start of construction for Mark Twain renovation
- Maintain operating fund balances at a level that will avoid short-term borrowing in the fall

Pandemic

The pandemic has caused an erratic effect upon the local and state economy through assessed valuation and through state sales taxes. District Administration continue to work toward offsetting the financial hardships of the pandemic by investigating opportunities of federal and state performance grants. District resources continue to be aligned to provide for student achievement and to address learning loss that may have occurred during the Pandemic. Future federal emergency funding is anticipated to conclude during the following budget year and one year after.

Brentwood School District

Budget Summary
