Angelique H. – asked for clarification about emergency doors. 30 doors will be equipped with alarms: for emergency exit only. Already coming from a different budget. Michelle G. – suggested training for first aid, stop the bleed, CPR

Liz C. – asked about a perimeter fence for school grounds to deter/prevent intruders.

Christine D. – suggested permanent barriers (heavy cement planters, décor) for center walkway in the front of building to prevent cars from driving over the walkway to get to the other parking lot. We need to check the distance we can place from building to ensure safety vehicles can get close to the building in the event of an emergency.

Tour should begin at 9:00am to include: performances in the lobby from the band and orchestra, student speakers in the amphitheater from AVID and WEB. Suggested that presentations should be shorter than last year to allow more time for the tour(s). Suggestions on who should be invited: Leaders from the community, including the mayor, city council members, businesses, non-profits. These should be

individuals/companies that we want to build relationships with for financial, academic, and mentoring abilities to serve our students, staff, and community. We want to show/share the pride we have in our school with our community. We should also invite individuals from our feeder schools and RHS. Lauren P. will create a FORMS document of who to invite and planned stops on the tour. Stops should be flexible to accommodate the tour participants. Greg B. suggests inviting about 20 people in hopes that 10-15 will attend.
