WE BELIEVE...

We believe the foundation of excellence is rooted in an academically rigorous curriculum, supportive instruction, and high expectations for each learner

Ms. Brittany Johnson reading out loud with her students in small groups during ELA.

We believe in ensuring that each student has equitable access to the appropriate resources and supports to thrive.

Milford School District maintains a one-to-one technology in our schools.

We believe in the mindset that improvement is always possible and mistakes are learning opportunities.

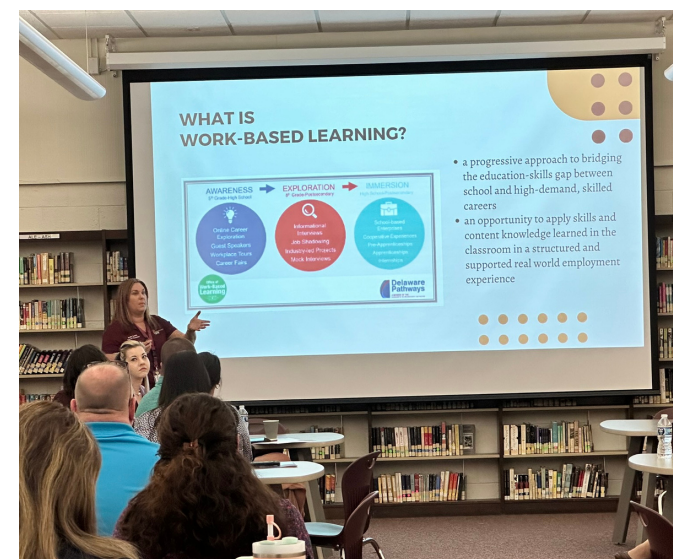

Center for Safe Schools, Joey Melvin, provided "Survival of an Active Assailant Event" training to staff during professional development.

We believe honoring each individual's identity, opinions, and dignity leads to a sense of belonging for each member of the school community.

Milford School District celebrates Respect Week

We believe the district's partnerships with families and community are integral to the success of our students and community at large.

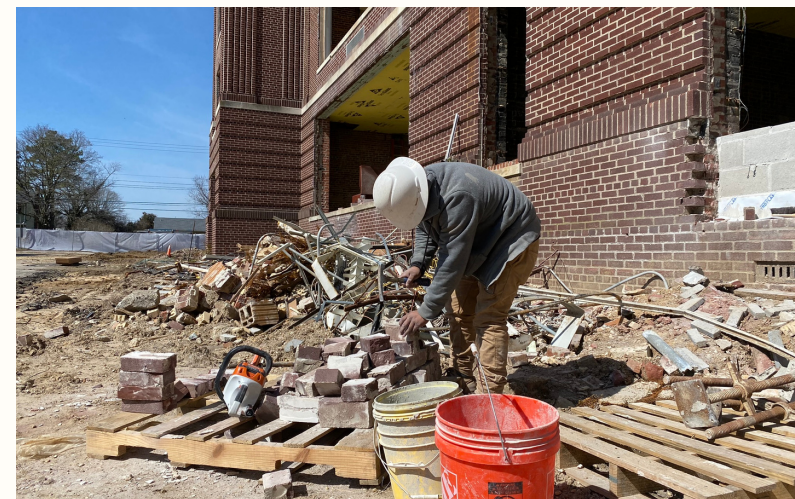

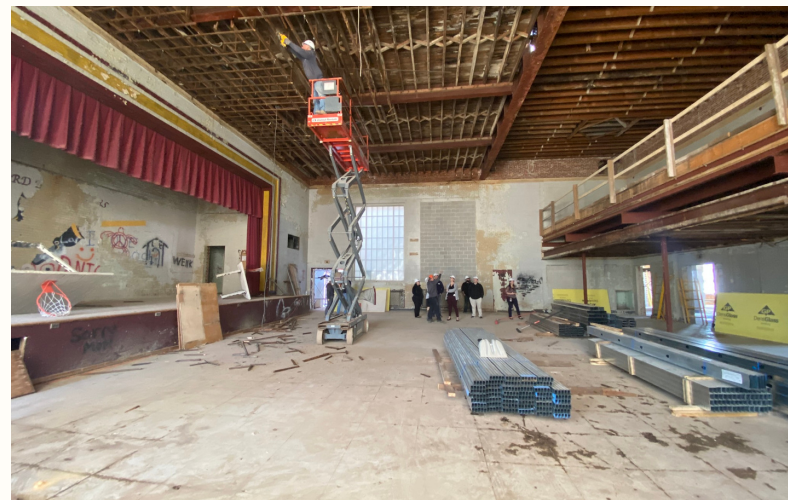

Career and School Counselor, Kate Lynch, showcases our Work-Based Learning program to local businesses during our Career and Technical Education (CTE) Annual Advisory Meeting.

We believe the arts, extra-curricular, and co-curricular activities are integral components of a well-rounded education, fostering much personal growth.
