

GRADING AND PROGRESS REPORTS

The board believes that the cooperation of school and home is a vital ingredient in the growth and education of the student and recognizes the responsibility to keep parents informed of student welfare and progress in school.

The district will issue grades and written or electronic progress reports, and provide opportunities for parent conferences to serve as a basis for continuous evaluation of the student's performance to help in determining changes that should be made to effect improvement. These written and verbal reports shall be designed to provide information that will be helpful to the student, teacher, counselor and parent.

The district shall comply with the marking/grading system incorporated into the statewide standardized high school transcript. Secondary students grade points shall be reported for each term; individually and cumulatively.

The superintendent or designee will establish a system of reporting student progress and shall require all staff members to comply with such a system as part of their teaching responsibility.

At the beginning of each term, each teacher shall specify in writing the student learning goals or standards for his/her respective courses. If participation is used as the basis of mastery of a goal or standard, a student's grades may be adversely affected provided on that day there was a graded participation activity. If the teacher does not so advise students in writing, the teacher may not use attendance and participation in the grading process. Students who feel that attendance or tardiness factors have been unfairly applied, may appeal to the principal to determine a resolution.
