

Understanding Concepts in the Art Room

5TH GRADE

GENERAL

- Recognize differences in artworks from a variety of cultures
- Identify symbols, natural images, and objects used to create artworks
- Connect art to career opportunities for positions such as architects, animators, cartoonists, engineers, fashion designers, film makers, graphic artists, illustrators, interior designers, photographers and web designers etc.

PORTRAITS

- Maintain previously learned skills

LANDSCAPE

- Understand and use several different ways of showing depth (overlapping differences in color and size)
- Discriminate that light, distance, relative size, and motion affect the appearance of an object

ARCHITECTURE

- Introduce 1pt and/or 2pt perspective drawings

ELEMENTS & PRINCIPLES OF DESIGN

- Recognize the artist's intention in using ideas and using color to create mood
- Review concepts of realism, abstraction, positive and negative space, light and shadow and texture
- Create compositions using the elements of art and the principles of design

EVALUATION & RESPONSE

- Ability to point out strengths and weaknesses in their artwork and changes that might improve it
- Use methods such as written or oral response or artist statements to identify themes found in collections of artworks created by self, peers and major artists
