The Carroll Difference

Educators

Carroll educators are expertly trained to meet the needs of our learners. Carroll provides intensive training in research-driven approaches and curriculum that equip and empower educators to tailor instruction to meet the needs of each and every Carroll student.

Small Classes

Small class sizes enable educators to build trusting relationships with students and to foster academic risk taking and openness. In the classroom, mistakes are celebrated, questions are encouraged, and learning is personalized.

Community

At Carroll, we create a learning environment where educators and students are seen fully and have a deep sense of community and belonging.
