19

### Why is Authentic, Inquiry-Based Learning Effective?

- It engages the brain to make **connections** between what we know and what we are learning.
- We learn best when we **collaborate with others and look to one another for ideas, resources, and feedback** as opposed to one-way communication (creates oxytocin, a hormone the triggers brain architecture to develop).

**KAMM SOLUTIONS**

20

### Why is Authentic, Inquiry-Based Learning Effective?

- It provides an opportunity for students to **enter learning from different places and pathways**, from their own knowledge and experience. It enables a classroom of variation and takes positive advantage of diversity.
- It creates **real and genuine transferrable knowledge** that is used again into adulthood (Ninety per cent of knowledge that is encountered once and spit back disappears; it isn't retrievable).

### Learning For the Emerging Future

**KAMM SOLUTIONS**

22

### What are the primary components of future-ready learning?

**KAMM SOLUTIONS**

23

24

### Multi High School Qualitative Study

Emerging Themes: Describe Specific Changes/Improvements You Would Like to See

1. Know the students – build stronger student/teacher relationships
2. Provide more hands-on learning experiences
3. Make classrooms personal (more personalized assignments and emphasize the students over the agenda)
4. Provide more student agency (Choice)

25

## Multi High School Qualitative Study

Emerging Themes: Describe Specific Changes/Improvements You Would Like to See

- Plan more interesting, mentally enriching content; Limit busy work – worksheets
- Ensure teachers demonstrate passion and interest for the subject they are presenting
- Teach real-world skills/competencies
- Provide more variation in lessons and approaches to learning; present interesting/mentally enriching content

## Student Group Project: *THREADZ*

**DRIVING QUESTION:**

How can Team Threadz simultaneously implement an online inventory management system while promoting a social media presence, to manage product inventory, donations, outreach, and the ongoing needs of the three high school Threadz locations?

### Put Your Genius to Work

The challenge: Determine a problem faced in the world today and design an invention to address that problem. Include detailed notes to support your design. How does your invention work? What challenges could your invention face? What could be a solution?

- ❖ Clean water
- ❖ Air pollution
- ❖ Plastic pollution
- ❖ Climate change
- ❖ Homelessness

Create your own codex

Formative Evidence of Learning	
Pre-Assessment (Formal or Informal):	
Evidence of Student Learning – Products/Performances (Allow for Multiple Measures)	
Learning Progression Framework	
Progression Description Create a learning experience that embraces the development of transversal competencies through the following components:	Practices
1. Inquiry-Based Learning (Discovery):	
2. Collaboration:	
3. Research – Read, Write, Speak, Listen, Reflect (Individually or as a Group):	
4. Authentic Application (Real World Problem/Solution):	
5. Learning Showcase:
