When to Keep Your Student Home

The flu season (and other nasty viruses) is upon us. Here is a quick refresher for when to keep your student home. Remember, the Colorado Department of Health is still recommending for confirmed Covid cases the student remain home for 5 days of isolation and then wear a mask for 5 days after returning to school. BVSD is not enforcing this or following up on any reports of cases, this is just best practice. For any other illness, the policy is the same as it has always been. [Click here](#) for information on when to keep your student home.

Updated COVID-19 Guidance

In alignment with the March 2024 updates from the CDC and the Colorado Department of Public Health and Environment (CDPHE), we have updated our guidance for students and staff who test positive for COVID-19. The updated guidance aligns recommendations for a range of viral respiratory illnesses such

as Flu and RSV.

If someone tests positive for COVID, Flu, RSV, or is experiencing any respiratory illness

- They should stay home until symptoms are improving and for at least 24 hours after fever has resolved without the use of fever-reducing medications
- When going back to normal activities, [take added precautions](#) over the next five days, such as hand and respiratory hygiene, masks, physical distancing, and/or testing when you will be around other people indoors.

Please remember, regardless of COVID status - stay home when sick

You can find more information on COVID-related illness and other common illnesses and guidelines for school attendance in CDPHE's [How Sick is Too Sick](#) and through your school's health team.

Guía actualizada sobre COVID-19

En concordancia con las actualizaciones de marzo de 2024 de los CDC y el Departamento de Salud Pública y Medio Ambiente de Colorado (CDPHE), hemos actualizado nuestra orientación para los estudiantes y el personal que dan positivo para COVID-19. La guía actualizada alinea las recomendaciones para una variedad de enfermedades respiratorias virales como la gripe y el VSR.

Si alguien da positivo en las pruebas de COVID, gripe, VSR, o está experimentando cualquier enfermedad respiratoria

- Debe permanecer en casa hasta que los síntomas mejoren y durante al menos 24 horas después de que la fiebre se haya resuelto sin el uso de medicamentos antifebriles.
- Cuando vuelva a sus actividades normales, [tome precauciones adicionales](#) durante los próximos cinco días, como higiene de manos y respiratoria, uso de tapabocas, distanciamiento físico y/o pruebas cuando vaya a estar cerca de otras personas en espacios cerrados.

Por favor, recuerde, independientemente de su estado de COVID, permanezca en casa cuando esté enfermo.
