The District’s organizational hierarchy begins with the “Team of Eight” which consists of seven elected Board of Trustees and the Superintendent. The Superintendent is the chief executive officer and is responsible for the day-to-day management of the District. The Superintendent’s Leadership Team Consists of the Finance, Human Resource and Student Services, Curriculum and Instruction, Technology, Community Relations, Operations and Campus Principals. Each of these divisions specialize in providing leadership and services for their relevant functions.

The purpose of the entire organizational structure is to support student instruction taking place at each campus. Campus leadership reports directly to the superintendent and is comprised of a principal and at least one assistant principal.

Formal Transmittal of the Comprehensive Annual Financial Report (CAFR)

To the Board of Trustees and Citizens of the Wylie Independent School District:

The Comprehensive Annual Financial Report (CAFR) of the Wylie Independent School District ("WISD" or the "District") for fiscal year ended June 30, 2015, is hereby submitted. The report includes the unqualified opinion of our independent auditors, Edgin, Parkman, Fleming, and Fleming, PC. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of operations of the various funds of the WISD. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. The CAFR for the year ended June 30, 2015 is presented in conformance with the reporting model adopted by the Governmental Accounting Standards Board ("GASB") in their Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, issued in June, 1999. The CAFR also adheres to guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA) and the Association of School Business Officials International (ASBO).

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). MD&A is intended to give the reader an easy-to-understand overview of the school district's financial position and results of operations for the year. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found on page 33 of the Financial Section.

The CAFR is presented in four sections: Introductory, Financial, Statistical, and Federal Awards. The Introductory Section presents an overview of the District, its leadership hierarchy, this transmittal letter, an economic condition and outlook, and highlights major initiatives and accomplishments. The Financial Section includes the report from the independent auditors, management's discussion and analysis of the financial report, and all government-wide and basic financial statements. Also included in this section is other supplementary information and required TEA schedules.

The Statistical section presents selected financial, demographic, economic, and operating information. The Federal awards section provides a schedule of federal award expenditures, prior year and current year audit findings, and the auditor's report on compliance.

The remainder of this transmittal highlights the governance structure, the mission, the accomplishments and initiatives, the economic conditions and outlook, and the financial activities of the District.

This report includes all funds of the WISD. The District is a public school system that provides full-day kindergarten through twelfth grade educational opportunities for all school residents within its geographic boundaries. All activities over which the WISD Board of Trustees exercises authority and/or oversight responsibilities are included.

Governing Body

Each of the seven members of the Board of Trustees serves, without compensation, a four-year term of office. On a rotating basis, three or four places are filled during biennium elections held the second Tuesday in November. Vacancies may be filled by appointment until the next election.

Candidates must be qualified voters of the District. In general, the Board adopts policies, sets direction for curriculum, employs the Superintendent, and oversees the operations of the District and its schools.

Regular board meetings are generally scheduled the third Monday of the month and are held in the District's Educational Service Center. Special meetings and study sessions are scheduled, as needed, and announced in compliance with public notice requirements. The Board has final control over local school matters limited only by the state legislature, by the courts and by the will of the people as expressed in school board elections.

Besides general board business, Trustees are charged with numerous statutory functions including appointing the tax assessor/collector, calling trustee and other school elections and canvassing the results, organizing the board, and electing board officers. The Board solicits and evaluates community input and support concerning school policies and regularly meets with a variety of citizen groups to receive input on topics of public interest. Decisions of the board are based on a majority vote of the quorum present.

The Board is also responsible for setting the tax rate, setting salary schedules, acting as the board of appeals in personnel and student matters, confirming recommendations of textbook adoptions, and adopting and amending the annual budget.

General Information

In the 1890's, the town of Wylie was served by a small school with a limited budget primarily provided by the parents and students. Ovid Birmingham noticed the problem and prompted the establishment of Wylie Independent School District in 1901-02. Limits were set up that all citizens in that area would pay taxes to uphold the District. The Birmingham family provided money to build a proper high school. Since then, the Birmingham family has established various Land Trusts to fund areas of curriculum for the District as well as scholarships for sixteen students of each graduating class.

Much has changed since the creation of the Wylie Independent School District. During most of its existence, WISD was a rural farming community growing cotton, wheat, and corn. The student population doubled between 2000 to 2005 with an average annual growth of nearly 15% from 2002 thru 2007. The pace of enrollment growth is slowing with the decline in residential construction, and growing at a more moderate rate of 2.41% for fiscal year 2014-2015. A schedule listing the last ten years enrollment can be found on Page 112, Exhibit S-20 in the Statistical Section of this report. Growth in the number of students means growth in special sub-population groups such as bilingual or special education students. Enrollment provides the basis for staffing, however, the Average Daily Attendance (ADA) is the basis for computing state aid. The correlation between the two is very important. Meeting the many needs of the educational system with limited resources is a challenge that can never satisfy all needs. During the 2014-2015 fiscal year WISD has made every effort to demonstrate reasonable and prudent progress in an effort to satisfy the needs of students, families, and members of the community. It is our goal to provide all students a world-class academic education which will prepare them to lead successful and productive lives while still being good stewards of taxpayer money.

WISD is a fast growing public school system serving 14,039 students at the end of school year 2014-2015 in UIL Class 5A. The District is made up of nineteen (19) campuses that include two (2) high schools, three (3) junior high schools, three (3) intermediate schools, ten (10) elementary schools, and the Achieve Academy (grades K-12) for disciplinary and non-disciplinary student referrals. The ages of instructional buildings range from five to fifty-two years with George W. Bush elementary under construction and schedule to open August 2016. (Original dates of construction included within Exhibit S-21).

The District covers 41 square miles in southeastern Collin County and maintains additional administration, transportation, and operations facilities to serve families in the City of Wylie, as well as surrounding communities of Lavon, Lucas, Murphy, Sachse, and St. Paul.

District Goals

Strategic planning serves to assure the long range success of the District. As part of continuous improvement, the Board of Trustees and Administration have worked together to review the District's mission and goals, as per the Wylie Independent School District Board Policy BQ (LOCAL).

“The Board shall approve and periodically review the District's mission and goals to improve student performance. The mission, goals, and the approved District and campus objectives shall be mutually supportive and shall support the state goals and objectives under Education Code, Chapter 4.”

Goals are defined as broad based descriptions of desired future accomplishments. Objectives flow from goals and are measurable descriptions of what is to be accomplished. Annually, the District will revise and develop objectives which serve to accomplish District goals. WISD's strategic goals are listed below:

- Instill community and ethical values in our students
- Ensure academic achievement for every student through tight family partnerships, curriculum, and programs
- Attract, retain, and value quality staff
- Manage growth in a way that provides
 - Functional equity
 - Financial responsibility
 - Assurance for all student needs
- Prepare students for a successful life beyond high school

District Mission Statement

“The Mission of Wylie Independent School District is to sustain a culture of high expectations while valuing unity, relationships, and trust.”

The District believes that each student deserves our best efforts every day. Our mission emphasizes the importance of our work and partnerships with our parents and community. An important aspect of the financial structure is to ensure that the dollars spent translate into intended results. Results can be measured by objective student achievements and major student accomplishments. Throughout this document accomplishments exemplify WISD's steps toward excellence in attaining District goals. Opportunities exist for students to excel both academically and in extra-curricular activities. Staff members range from the superintendent to the bus driver.

District Beliefs

In WISD, our core beliefs drive our work with our students, our work with each other, and our work with our citizens and community. Through collaboration of board members and staff members WISD has defined District beliefs as stated below:

- Character and community values are essential to building responsible citizens
- High expectations and accountability should be expected from all students and staff
- Exemplary employees make an exemplary difference
- As WISD grows, we will sustain our level of excellence in all operations
- WISD graduates must be challenged and equipped to succeed in the 21st Century

Enrollment Growth

WISD continues to respond to the enrollment growth needs of the District. According to the District's demographer, School District Strategies, using the New Home Method (Moderate) Wylie ISD's enrollment should peak at 17,000 students. At that point the District will be built-out within its 41 square miles and will no longer be subject to the heavy growth of new houses which typically brings new students. It will depend on rates of development to determine when Wylie ISD will reach peak enrollment. Previous District demographic reports have also substantiated this predicted enrollment number.

Growth in the number of students means growth in special sub-population groups such as bilingual students or special education students. Classroom space is impacted by these groups and the addition of regular education students. Enrollment provides the basis for staffing, however, the ADA is the basis for computing state aid. The correlation between the two is very important.

Wylie ISD enrollment experienced significant increases in the early 2000's with the highest in 2004-05 with 18% growth from the previous year. Total PK-12 enrollments have risen over the past decade from 7,826 in 2004-2005 to over an estimated 14,500 in 2015-2016. The average increase of students has steadied over the past five years to approximately 400 students per year.

The WISD staff has become stabilized over the last several years. Any additional needed staff is essential to provide the necessary educational services ranging from teachers to bus drivers. The District expects to see a growth in staff over the next year with the continued growth of Wylie ISD.

2014-2015 Statistics

Staffing Ratios

Teaching Staff 15.7

Total Staff 7.7

Academic Assessment

WISD believes that assessment provides information necessary to improve student learning over time. Assessing student performance is an integral part of the instructional process because it allows educators to make informed decisions, set priorities, allocate resources, and be accountable to students, parents, and the community. It is also a method by which state and federal education authorities determine the District's progress and effectiveness.

2014-2015 Statistics

State of Texas Assessment of Academic Readiness

The STAAR test replaced the Texas Assessment of Knowledge and Skills for grades 3-9 starting in the 2011-2012 school year. In 2012-13, students in grade 10 took STAAR as well. The phase in of STAAR will be complete in 2013-14 when it is administered to students in the 11th grade for the first time. The state-mandated assessment includes assessments for students in grades 3-12, and will focus on readiness for success in subsequent grades and courses and, ultimately, for college and career. The STAAR will be more rigorous than previous state tests. STAAR graduation requirements apply to students entering ninth grade starting in the 2011-2012 school year.

As a result of legislation passed in the spring of 2013, the number of STAAR tests at high school was reduced from 15 to 5.

Spring 2015 STAAR End of Course Satisfactory Results	
Algebra 1	95%
Biology	99%
English 1	83%
English 2	84%
U.S. History	96%

State Assessment System

Wylie ISD students have performed well on standardized tests in the past and are expected to do well on the STAAR/TAKS exam this spring. For those students who do not meet the state standards on the STAAR, in school tutoring programs, and if necessary, summer school programs are already planned to help students pass the required STAAR EOC assessments.

Wylie Independent School District

Elementary campuses include grades Pre-K thru 4th grade. The academic programs include art, computer literacy, development/readiness activities, health, language arts, math, music, physical education, reading, science, social studies, and spelling. In addition to regular classroom offerings, the following programs are available at all campuses to meet the needs of every student: WINGS (Gifted/Talented), Alphabet Phonics, Content Mastery (CMC), special education resource and speech therapy.

Intermediate campuses include grades 5 and 6. Students are required to take courses in English, Math, History, and Science. In addition, students take music, physical education, health and art. Students in grade 6 may choose band or choir as a fine arts option. Students must demonstrate proficiency in keyboarding through a placement exam or one semester of keyboarding.

Junior High campuses include grades 7 and 8. Students are required to take courses in English, Math, History, and Science. Seventh grade electives include art, athletics, band, choir, computer applications, computer telecommunications, keyboarding, physical education, speech, theatre arts, and yearbook. Additional electives open to eighth graders include: career investigation, leadership, literary exploration, PALS (Peer Assistance and Leadership) peer helpers, and Spanish.

WISD has two traditional high schools and one alternative high school. Wylie High School and Wylie East High School serves grades 9-12. The Choice High School (an alternative school) currently serves students in grades 11 and 12 who desire a different high school experience. Students at the Choice School complete the same graduation requirements and the same curriculum as do students at the comprehensive traditional high schools. The structure of the school day and the instructional delivery is individualized for each student.

Students at the two traditional high schools utilize a seven period schedule. Advanced opportunities include the Humanities program for students in the Gifted/Talented program as well as Pre-Advanced Placement and Advanced Placement courses. Special Education programs are individualized and based on student needs and eligibility.

Historically high school students have continued to score well on the Scholastic Aptitude Test (SAT) and the American College Test (ACT). The SAT reasoning test is the nation's most widely used admissions test among colleges and universities. It tests student's knowledge of subjects necessary for college success: Reading, Writing, and Mathematics. It is typically taken by juniors and seniors. It tells how well they use the skills and knowledge they have attained in and outside of the classroom. The ACT test assesses a high school students' general educational development and their ability to complete college-level work. The multiple-choice test covers four skill areas: English, Mathematics, Reading, and Science. The Writing test is optional. Historical results are shown in the following tables:

Technology: Power Up for Learning

Technology is an essential learning tool in Wylie ISD. Using network and multimedia technologies, students at all grade levels use electronic resources for exploring their world.

Students have ample access to computers. Every classroom is directly wired to the Internet and all teachers have laptop or desktop computers for e-mail, Internet access and grade management.

Wylie ISD's approach is to first teach students how to use technology as a tool. Teachers then integrate the use of that technology into assignments and classroom projects. First grade students, for example, would first learn how to navigate the Internet and prepare information for sharing with others. These skills would then enable them to complete a simple research project. Students in junior high and high school may also enroll in specific technology classes to learn advanced skills.

The District is continually updating all of its teacher and student workstations. Wylie ISD continues to seek new and innovative technology resources for both students and teachers so "powering up" to learn is the norm.

The 2015-2016 school year will mark the fifth year in which all WISD students bring their own internet enabled devices to school. This includes laptops, netbooks, smartphones, iPod Touches and any device that meets minimum system requirements. Students who choose to bring their own device will have access to a guest wireless network; similar to the current hotel models you may experience when you travel or when you visit a Starbucks or McDonalds. The Internet will be filtered the same as if the student was using a District owned computer. The use of the technology in the classroom will be at the teacher's discretion and ultimately the student will be responsible for any applications and support needed for their device. To support the implementation of the **MyWyFi** program the District issues accounts in [Google Apps for Education](#) for students and staff.

The goals for the **MyWyFi** program are simple - to better engage and prepare our students for the 21st century. We also hope that through the program we are more equipped to support a true anytime, anywhere teaching and learning environment.

Parent Access is a web-based program that Wylie ISD provides to enhance parent and school communication at all campuses. The program, Parent Access, allows parents to access, via the web, pertinent information about their child's attendance, discipline, health records, documents, and grades. It allows parents to place funds in an electronic account for daily lunches as well as pay other fees. All that is needed to gain access is the Internet and an email address.

Parents can choose to receive alert messages via email when their child's attendance, grades or assignments need attention. Upon receiving the alert, they are able to refer to the web site to view the reason for the specific alert and then direct follow-up communication to their child's school.

Parents may report student absences via this system. Parent Access is available to parents of all students through a registration process and short tutorial. This service can be initiated at any campus.

Technology Immersion Committee

A Technology Immersion Committee was formed to develop a strategic technology plan that will:

- Establish a long-term technology vision
- Assess the current state of technology, budgets, curriculum integration, and professional development
- Identify current and future technology goals
- Include a professional development plan to support goals
- Outline and prioritize key technology initiatives and strategies
- Identify capital needs
- Investigate new and emerging technologies
- Provide ongoing refinement of plan

In the 2012-2013 fiscal year, the Technology Immersion Committee collaborated and developed six technology goals. Based upon a needs assessment and current existing conditions of the technology infrastructure, the following goals were established:

Technology Goals

- WISD will implement and monitor technology applications (TEKS) in K-8 social studies curriculum and high school technology applications syllabi.
- WISD will provide opportunities for increased student and parent access to technology.
- WISD will provide technology to enhance communication with community.
- Develop and support policies, plans, and procedures to standardize implementation of current technologies to promote equity across the District.
- WISD teachers and staff members will be proficient in technology applications.
- WISD will provide for continuous planning to meet the technology needs for new and existing schools.

Project Based Learning

The components of a 21st Century education are changing. Where a notebook and pen were the tools needed for generations before, today's student must be equipped with search engines, software and laptop computers. Where lectures and passive learning was the norm, today's student must be able to access and actively search the web for information and evaluate its usefulness and credibility. This 21st century education paradigm forces our delivery methods to change.

All three intermediate campuses have implemented a Project Based Learning (PBL) learning environment. Students on our 5th and 6th grade campuses will use the PBL instruction style for math, science, English/Language Arts and social studies classes. They use the computers at home to complete homework, do research, and complete assigned projects. Data is collected using Aware, our data disaggregation program at the beginning, middle and end of year. Student grades are monitored through the Skyward grade book system.

21st Century skills needed by our students include:

- problem-solving and critical thinking
- collaboration through cooperative learning
- generating and testing hypotheses
- effective written and oral communication
- accessing and analyzing information from research
- setting goals and objectives
- taking initiative
- showing curiosity and imagination

These skills can be enhanced by the addition of a personal wireless laptop computer to use throughout the school day. Students are invited to bring their own wireless enabled devices or access a campus owned machine, if needed. Through the use of online instructional resources in the four core academic areas, coupled with professional development for their teacher to design technology-enhanced learning activities, Project Based Learning has the potential to assist our students in acquiring 21st century academic skills to make them productive, technology literate, employable citizens in the future.

Intended outcomes of this program have included: continued improvement of instruction, increased student achievement, an effort to better reflect both society and the workforce, and to better prepare students for their college and work careers. We also hope to create an engaging environment where students can experience greater involvement and responsibility for their learning. Other outcomes are:

- Decrease in absence rates
- Increase in real world, project based learning
- Increased communication between students, teachers and parents
- Increase in overall student satisfaction with school and engagement levels

The PBL model was expanded to include additional elementary and secondary classes during the 2014-2015 school year.

District Staff

The staff, likewise, is recognized as outstanding educators and professionals by their peers in Texas and throughout the nation. Professional learning has always been at the foundational belief for teachers and staff in WISD. As the District seeks to improve student academic performance, staff have used the Professional Learning Community to improve. WISD initiated a Teacher Leader Academy for teachers who aspire to lead other teachers. The Teacher Leader Academy candidates complete an application and go through a selection process before participating in the yearlong professional learning experience. Teachers and District staff work and learn together using the latest educational as well as global research.

Achieving Curriculum Excellence (ACE Academy) is the purpose of the WISD Professional Growth Program, which cultivates a supportive environment of professional growth opportunities which will maximize student achievement. The ACE Academy has three levels of achievement: Bronze, Silver, and Gold.

Professional learning communities are the expectation in WISD. The commitment to continuous learning is evident in our commitment to providing all students with a high common floor with no ceiling (or limits) in terms of their learning. We know that profound learning goes far beyond the results identified through the testing system and a restrictive “one size fits all” instructional approach might make an average school good but it will not produce a great school. This fact, along with the changing needs of our students’ “digital natives” and the demand for a graduate that is considered “ready” for post-secondary opportunities are compelling reasons to reposition our focus on the work we provide for our students.

We Believe

- ◆ *Character and community values are essential to building responsible citizens*
- ◆ *High expectations and accountability should be expected from all students and staff*
- ◆ *Exemplary employees make an exemplary difference*
- ◆ *As Wylie ISD grows, we will sustain our level of excellence in all operations*
- ◆ *Wylie ISD graduates must be challenged and equipped to succeed in the 21st Century*

In Wylie ISD, our core beliefs drive our work with our students, our work with each other, and our work with our citizens and community.

Financial Information

Controls

An internal control structure has been designed, managed and maintained by the District. It is in place to ensure the District's assets are protected from loss, theft, and misuse, and to ensure that accurate accounting data is compiled in the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of a control should not exceed the benefits to be derived, the objective is to provide reasonable, rather than absolute assurance, that the financial statements are free of any material misstatements. Management believes the internal controls adequately meet the above objectives.

Cash Management

Cash temporarily idle during the year is invested with Lone Star Investment Pool, and LOGIC (Local Government Investment Coop). The District recognizes that it forgoes a certain amount of yield by operating with such a conservative investment philosophy. Although changes in Texas law allow investments in a broader range of investment vehicles, the District has determined that safety and liquidity outweigh the benefits of alternative investments. The District's investment earnings have continued to decline over the past two fiscal years due to low interest rates. The District tries to maximize investment earnings while maintaining the goal of safety and liquidity. The Birmingham Scholarship Funds are invested with J.P. Morgan.

Budget and Budgetary Control

The annual budget serves as the foundation for the District's financial planning and control. The District budget process is instructionally driven. District budget planning begins with the senior administrative staff and the Board of Trustees holding goal setting sessions. The Budget Calendar is presented in January and reviewed with the Board of Trustees. Also, campuses annually prepare the required Campus Improvement Plans. The proposed budget, comprised of the general fund, debt service fund and the student nutrition fund must be prepared by June 19th for the July 1st fiscal year start date for Wylie ISD. The board president must call a meeting for the purpose of discussing and adopting the budget and tax rate. A notice of this meeting is required to be published at least 10 days but no more than 30 days before the public meeting. The finalized budget must be adopted prior to June 30th for a July 1st fiscal year start date.

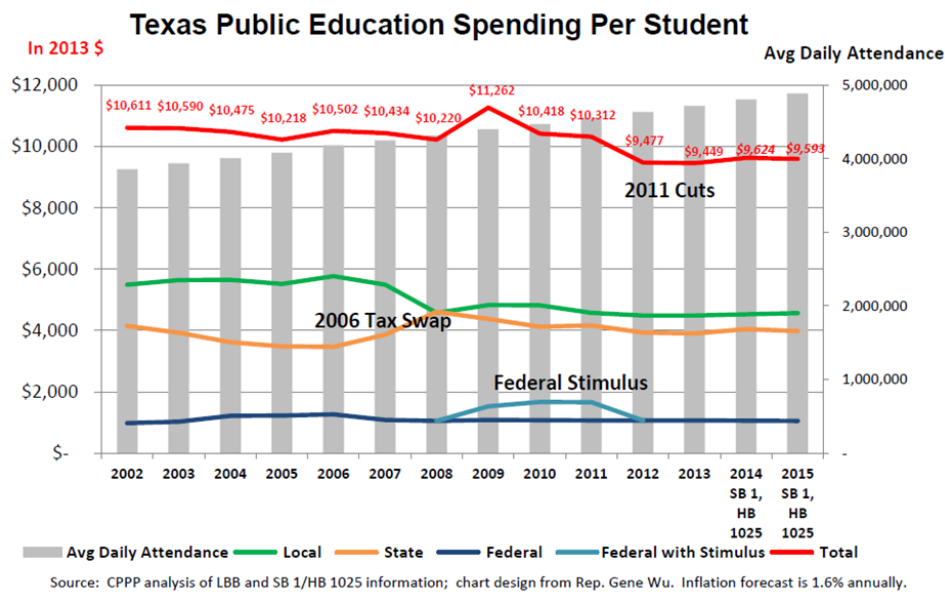

Budgetary controls are in place to ensure compliance with legal provisions embodied in the official budget adopted by the Board. In accordance with procedures prescribed by the State Board of Education, budget amendments that affect the total amount in a fund or functional spending category must be approved by the Board prior to the expenditure of funds. The functional level is specified by Board policy as the legal level of encumbrance of estimated purchase amounts prior to the release of purchase orders to vendors. Outstanding encumbrances at the end of the year are an accounts payable and are treated as expenditures in the prior year upon receipt of the goods and services.

Constitutionally, the Texas Legislature is required to meet in regular session every two years to enact legislation and set a two year state budget. Revenue estimates on property values are determined by the State Comptroller.

State Aid

The state aid system is made up of a multi-tiered funding formula that considers a District’s property wealth per student as a key variable in relation to tax effort by the District. In 2011, the Texas Legislature drastically cut funding to public education by reducing \$4 billion from formula funding and over \$1.4 billion from educational grants. SB1 and HB1025 restores \$3.4 billion to the Foundation School Program. The 2014-15 state budget provides \$3.2 billion more in General Revenue to the Texas Education Agency than the state budget for the 2012-2013 biennium. While the increases have helped to offset the \$5.4 billion loss in the 2011 legislative session, it fails to raise per student funding to pre-recession levels.

Table 15

According to the Center for Public Policy Priorities, in 2008, local/state/federal education spent an average of \$10,220 per student. Under the new budget, per-student funding will drop to \$9,609 for 2014-2015 (amounts are adjusted to 2013 dollars). This represents a \$611 per-student drop in funding from pre-recession levels. The 83rd Legislative Session granted \$3.4 billion back to educational funding, still short of the \$5.4 billion in cuts from the 82nd Legislative Session.

Key State Funding Components

- *Compressed Maintenance and Operations Tax Rate—\$1.00*
- *Local Option Tax Rate—\$0.17*
- *High School Allotment—\$275 per Grades 9-12 ADA*
- *Basic Allotment—\$5,040*
- *Equalized Wealth Level—\$504,000 Level 1*
- *A guaranteed yield to \$31.95 per penny of tax effort on the additional 11 cents of local option*
- *A guaranteed yield to \$61.86 per penny of tax effort on the first 6 cents of local option*

The tax rate is comprised of two component rates each having separate purposes and state laws governing them—Maintenance and Operations (M&O) and Debt Service (I&S) rate. The M&O rate supports the major operational and educational programs of the District for such expenses as staff salaries and benefits, utilities, supplies, equipment, and many other costs. The Debt Service tax rate supports the repayment of debt authorized by District voters. The total amount of debt payable each budget year less any applicable state aid is divided by the taxable property values to determine the rate. The maximum Debt Service tax rate is \$0.50. WISD's 2014-2015 Debt Service tax rate is \$0.47. WISD's largest top ten taxpayers make up only 5.8% of the total taxable value. The lack of dependence on a single employer or business segment means that the loss of even a large business will not have a significant negative impact on the education of children, or imperil the future payment of obligations.

Formerly, the District had been at the maximum \$1.50 tax cap for 2004-2005 and 2005-2006 before decreasing to \$1.37 in 2006-2007 compressed by HB1 (3rd Called Special Legislative Session, 79th Session). The State Legislature compressed the Maintenance and Operations tax rate to \$1.00 in 2007-2008. In 2008-2009, the M&O rate became \$1.17 which includes the four cent local option and an additional \$0.13 cents as a result from voters approval in November, 2008. For 2014-2015, the M&O rate remained the same at \$1.17.

The General Fund is commonly referred to as the "Operating Fund" or "Local Maintenance Fund". State aid and local tax revenue make up the majority of revenues received by this fund. The General Fund revenue for 2014-2015 totaled \$113,067,787 (all sources) which was an increase of \$7.7M over 2013-2014. District revenues per student are capped to avoid property tax creep. The need for increased funding results from keeping WISD salaries competitive, rising utility costs, additional fuel needs, costs of supplies, as well as funding new mandates. Fund balance levels are a sign of fiscal health. For 2014-2015 the fund balance for the General Fund increased by \$7.8M over the 2013-2014 year.

States will be burdened with the increased funding still mandated under the state aid formula. Knowing this, the District will be diligent in taking appropriate action for future funding. For additional information about the financial status of the District, readers should refer to the Management's Discussion and Analysis beginning on page 33 in the Financial Section of this report.

The District's budgeting process is more than just funding the next fiscal year's operations. The Board of Trustees and District administration anticipate major budget concerns two to four years in the future.

1. School Finance lawsuit ruled unconstitutional is still pending with a possible resolution in 2016.
2. The continuation of development, renovations, and additions, as needed due to enrollment growth.
3. Salary and benefit cost will continue to escalate due to competition for highly qualified teachers between neighboring school districts.
4. The District enrollment growth will require new staff increases both for direct instructional positions and support positions.

Economic Condition and Outlook

Wylie, Texas is a unique blend of new edge urban mixed with traditional rural located in Southeastern Collin County, 24 miles northeast of metropolitan Dallas and its cultural, educational, and recreational amenities. Popular recreational attractions include water sports at Lake Lavon and the "South Fork Ranch" of the "Dallas" television series. In just a few years, Collin County has grown into a destination county for individuals, families, and corporations alike. Major employers of Wylie are North Texas Municipal Water District (Regional Water District), Sanden International (Automotive A/C Compressors), Extruders (Aluminum extrusion) and Wal-Mart (Retailer). New corporate headquarters for Toyota and State Farm are also located within 20 minutes from Wylie, TX. Therefore, it is no surprise that the county continues to grow at one of the nation's fastest rates since it is a great quality of life with a business/technology friendly environment. Many residents of Wylie commute to Dallas, Plano, Garland, and Richardson to work.

The City of Wylie has grown by 173.8% over the past decade according to 2010 U.S. Census data. The population increased from 15,132 in 2000 to 45,970 in 2015. The gain of 30,838 residents makes Wylie the third fastest growing city in the state of Texas, during 2000-2010, for cities with population of more than 40,000. A large contribution factor to this growth were the relatively short commute to larger developed city areas such as Dallas, Ft. Worth, Plano, and Irving, and numerous commercial and road construction projects over the last decade to facilitate more business and additional residents.

At the end of June 2015, national unemployment was at about 5.1%. Texas was 1.0% lower than the national average at 5.1%. Wylie's unemployment rate was even lower than the state being estimated at 4.1%.

Wylie is not immune to the national downturn in the housing market. The Collin County Central Appraisal District (CCCAD) lists the average home price in Wylie at \$181,372. This represents an increase of 5.6% from the CCCAD's certified value of \$171,698 from 2013-2014. As the national and state economy continues to recover, so has the local economy.

According to School District Strategies, Wylie ISD's demographers, 34% of number of jobs created in past 3 years in Texas have developed in the Dallas/Fort-Worth area. In addition, the annual job growth in major Texas markets as of June, 2015 reflected the highest change in Dallas/Fort-Worth with 117,800 and Houston second with 55,700. With the job growth continuing, housing markets also increase. New home construction show the most 2nd quarter activity in five years for the year 2015. The annual pace of new home starts is up 43.7% year-over-year to 559 homes. First time the annual pace has been over 500 units since 1st Quarter, 2009. In relation to our property values, 69% of new homes started over the past year are located in subdivisions with average base pricing between \$300k & \$500k. This is a substantial increase over the current average home price of \$181,372 in Wylie ISD.

Major Initiatives

Construction began in fiscal year 2014-2015 for the passage of the \$94.2 million 2014 bond package.

- This bond package will not increase local taxes and focuses on updating four key areas:
 1. **Safety Concerns**
 2. **Technology Upgrades**
 3. **Renovations and Additions**
 4. **Provision for Future Growth.**
- Breakdown of approved spending:
 - ◇ **\$2.5 Million** will go towards addressing campus and facility security needs by installing or increasing security cameras, outdoor lighting, perimeter fencing, and badge security system.
 - ◇ **\$5.2 million** will bring the aging technology infrastructure up to 21st Century standards by upgrading the wireless network and providing a long-term solution for wireless network replacement for technology infrastructure.
 - ◇ **\$26.3 million** will be used for renovations and additions by addressing wear and tear issues on all campuses, but particularly at the 18-year-old Wylie High School.

These repairs include plumbing, HVAC, flooring, electrical, roofs, and other key systems. These funds will also be allocated in response to parent requests for new programs and provide college-readiness opportunities with new additions and renovated spaces for secondary campuses including a centralized junior high tennis facility, Orchestra facilities at our junior highs and high schools, an extra-curricular building at Wylie East, auditorium updates at Wylie High, a culinary arts center with public restaurant at Wylie High School, and information technology/engineering space, business/banking/finance space and health sciences space at both high schools.

- ◇ Finally **\$60.2 million** will provide for future growth.

Our schools are already reaching unsustainable capacity limits, and new housing developments project to bring the district 250 new students each year.

This proposal will allow the district to maintain current feeder patterns and accommodate new students by increasing the enrollment capacity at all intermediate and junior high campuses, setting aside funds for a new, larger elementary campus and to replace 28 buses, all with more than 10 years of service.

Independent Audit

The Texas Education Agency requires an annual audit of all public schools. This audit must be an organization-wide basis and include all fund types that are the accounting responsibility of the District. The audit is performed by an independent certified public accounting firm selected by the District's Board of Trustees. The auditor's report has been included in the Financial Section of this report beginning on Page 32.

Accomplishments and Awards

An important aspect of any budget is to ensure that dollars spent translate into intended results. Results can be measured by objective student achievements and major District accomplishments. The accomplishments listed in this section exemplify WISD's steps toward excellence in attaining its District goals and objectives.

- ◆ GFOA Certificate of Achievement—The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Wylie Independent School District for its Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2014. In order to be awarded a Certificate Of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

- ◆ ASBO Certificate of Excellence— The Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to Wylie Independent School District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2014.

This award is for school districts whose comprehensive annual financial reports substantially conform to the recommended principles and standards of financial reporting adopted by that organization. The award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials.

The Certificate of Achievement for Excellence in Financial Reporting and the Certificate of Excellence in Financial Reporting are prestigious national awards recognizing conformance with the highest standards for its preparation of a state and local government financial report. Management believes that the current year's Comprehensive Annual Financial Report meets the program's requirements and will be submitted for review to determine award eligibility.

- ◆ The Texas Comptroller's office is required to conduct an annual rating of every school district to identify those districts that are producing high achievement while maintaining cost effective operations. The Financial Allocation Study for Texas (FAST) report scores districts on a scale of 1-5 stars. In the 2014 FAST ratings, the District received four and a half stars.

- ◆ In 1999, the 76th Texas Legislature approved legislation requiring the Commissioner of Education in consultation with the Comptroller of Public Accounts to develop a rating system for school district financial accountability. The 77th Texas Legislature in 2001 subsequently adopted rules for the implementation and administration of the financial accountability rating system known as School FIRST, Financial Integrity Rating System of Texas. The financial accountability rating system benefits the public by having in place a system to ensure that school districts will be held accountable for the quality of their financial management practices and achieve improved performance in the management of their financial resources. WISD received a “Superior Achievement” rating for the 2013-2014 fiscal year financials, earning a perfect score of 70 out of 70 possible points.
- ◆ In March, 2015 the District earned its second offered Platinum Leadership Circle Award signifying dedication to:

Opening its books to the public

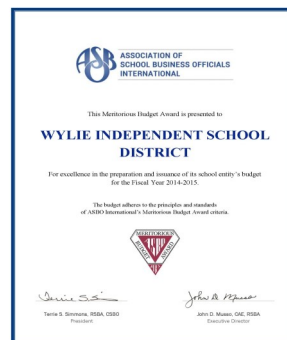

Providing clear, consistent pictures of spending

Sharing information in a user-friendly format that lets taxpayers drill down for more information

The Texas Comptroller Leadership Circle program was launched by the Comptroller of Public Accounts in December, 2009. The program recognizes local governments across Texas that are striving to meet high standards of financial transparency.

- The District earned the Gold Leadership Awards for all previous years.
- The 2014-2015 Budget Document received two awards: The Distinguished Budget Presentation Award from the Government Finance Officers Association (GFOA) of the United States and Canada and the Meritorious Budget Award for excellence from the Association of School Business Officials (ASBO) International. The District received the ASBO award for the sixth consecutive year and the GFOA award for the fifth consecutive year.

- The Wylie Education Foundation awarded the District over **\$73,579** during the 2014-2015 school year. The foundation has supported classroom projects through grant awards totaling \$565,140 since its conception in 2003-2004.

Wylie Independent School District

Acknowledgements

In closing, without the leadership and support of the Board of Trustees and the dedicated service of the entire staff of the Finance Division, preparation of this report in a timely manner would not have been possible.

Respectfully,

Independent Auditor's Report

To the Board of Trustees
Wylie Independent School District
951 South Ballard Street
Wylie, Texas 75098

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Wylie Independent School District ("the District") as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Wylie Independent School District as of June 30, 2015, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

As described in Note K to the financial statements, in 2015, Wylie Independent School District adopted new accounting guidance, Government Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, and GASB Statement No. 71, *Pension Transition for contributions made Subsequent to the Measurement Date -- an amendment of GASB Statement No. 68*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability, and schedule of District pension contributions identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Wylie Independent School District's basic financial statements. The introductory section, other supplementary information, required Texas Education Agency Schedules, and statistical section are presented for purposes of additional analysis and are not required parts of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The other supplementary information, Texas Education Agency schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information, Texas Education Agency schedules, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 12, 2015 on our consideration of Wylie Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Wylie Independent School District's internal control over financial reporting and compliance.

Respectfully submitted,

A handwritten signature in black ink that reads "Edgin, Parkman, Fleming & Fleming, PC". The signature is written in a cursive, slightly slanted style.

Wichita Falls, Texas
October 12, 2015

MANAGEMENT'S DISCUSSION AND ANALYSIS

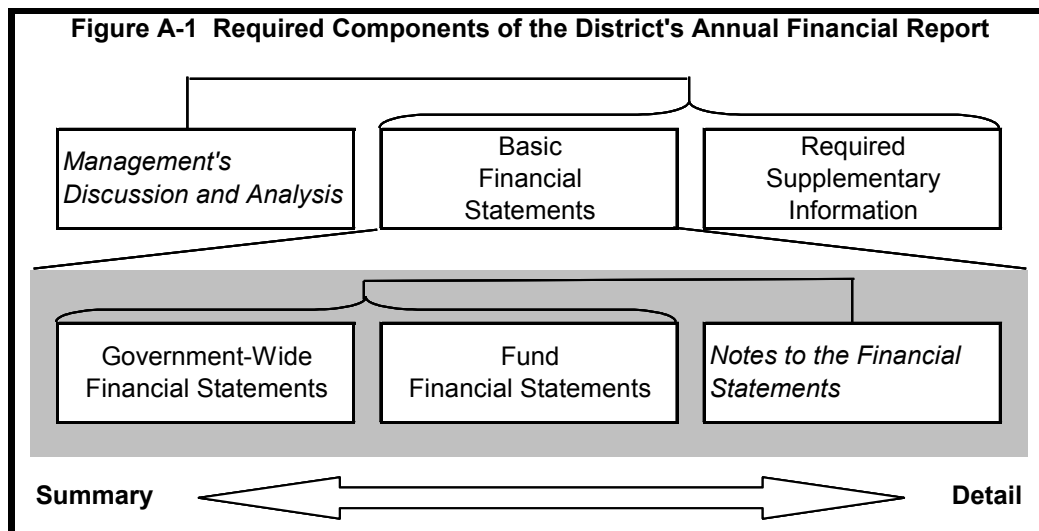

This section of Wylie Independent School District's annual financial report presents our management's discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2015. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The liabilities of the District exceeded its assets and deferred outflows of resources at the close of the most recent period by \$31.6 million (net position). The deficit in net position reflects the extent to which a government has elected to defer to future periods the payment of expenditures, and the required accounting treatment of accreted interest. The District has sold Capital Appreciation Bonds in order to comply with Texas statutory and IRS limits. The accreted interest on these bonds must be reported as an addition to bonds payable each year in accordance with Generally Accepted Accounting Principles. The District would not have a deficit in net position if not for the accounting treatment of accreted interest.
- Capital Appreciation Bonds outstanding necessitated the accreted interest accrual of \$99.0 million in the Government-Wide Financial Statement, thus reducing the net asset value of the District.
- As of the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$144.4 million. The General Fund represents approximately 27.5 percent of this total amount which is \$39.7 million of which \$38.5 million is available for spending at the government's discretion (unassigned fund balance).

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts—*management's discussion and analysis* (this section), the *basic financial statements*, *required supplementary information*, and an optional section that presents *combining statements* for nonmajor governmental funds and internal service funds.

The basic financial statements include two kinds of statements that present different views of the District:

The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.

The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in *more detail* than the government-wide statements.

The *governmental funds* statements tell how *general government* services were financed in the *short term* as well as what remains for future spending.

Proprietary fund statements offer *short- and long-term* financial information about the activities the government operates *like businesses*, such as food service.

Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Figure A-2 Major Features of the District's Government-wide and Fund Financial Statements			
<i>Type of Statements</i>	Government-wide	Governmental Funds	Fiduciary Funds
<i>Scope</i>		The activities of the District that are not proprietary or fiduciary	Instances in which the District is the trustee or agent for someone else's resources
<i>Required financial statements</i>	* Statement of net position	* Balance Sheet	* Statement of fiduciary net position
	* Statement of activities	* Statement of revenues, expenditures & changes in fund balances	* Statement of changes in fiduciary net position
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter, no capital assets included	All assets and liabilities, both short-term and long-term; the District's funds do not currently contain capital assets, although they can
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how they have changed. Net position—the difference between the District's assets and liabilities—is one way to measure the District's financial health or *position*.

Governmental activities—Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes and grants finance most of these activities.

The District has no *business-type activities* and no *component units* for which it is financially accountable.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds*—not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants. The District has two kinds of funds:

Governmental funds—Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

Fiduciary funds—The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that—because of a trust arrangement—can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

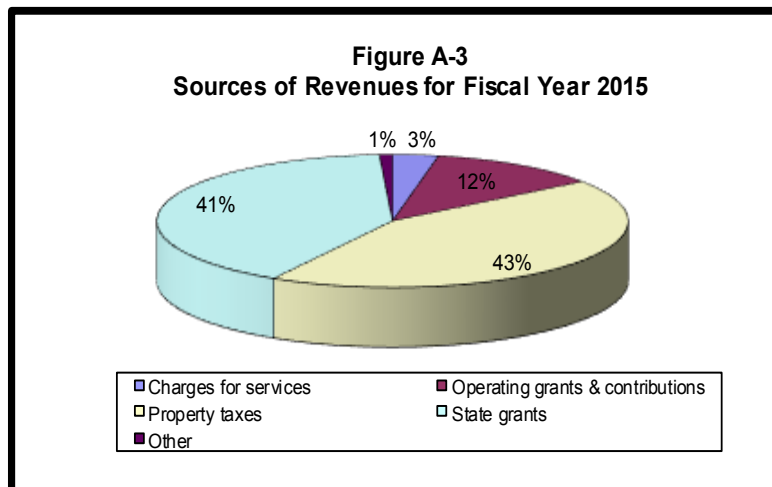

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net position. The District's overall deficit in net position increased between fiscal years 2014 and 2015 by 30.6% to approximately (\$31.6) million. (See Table A-1).

	<u>2014</u>	<u>2015</u>	<u>Total % Change</u>
Current and other assets	\$ 37.5	\$ 162.4	333.1%
Capital assets, net	245.1	252.0	2.8%
Total Assets	<u>282.6</u>	<u>414.4</u>	46.6%
Deferred Losses from Refunding Bonds and Pension Related Outflows			
Total Deferred Outflows of Resources	<u>13.9</u>	<u>15.9</u>	14.4%
Current liabilities	28.4	34.7	22.2%
Long term liabilities	322.4	423.1	31.2%
Total Liabilities	<u>350.8</u>	<u>457.8</u>	30.5%
Deferred Inflows from Pension Related Inflows			
Total Deferred Inflows of Resources	<u>-</u>	<u>4.1</u>	n/a
Net Investment in Capital Assets	37.1	17.8	-52.0%
Restricted	22.5	103.3	359.1%
Unrestricted	(83.8)	(152.7)	82.2%
Total Net Position	<u>\$ (24.2)</u>	<u>\$ (31.6)</u>	30.6%

Unrestricted net position showed an \$152.7 million deficit at the end of this year. This deficit does not mean that the District does not have significant resources available to pay its bills next year. Rather, it is the result of having *long-term* commitments that are more than currently available resources. Such long-term commitments include accreted interest from capital appreciation bonds that were issued in 2014-2015 and make up the substantial increase from the previous year.

Changes in net position. The District's total revenues increased to \$147.0 million. (See Table A-2) A significant portion, 43% of the District's revenue comes from property taxes. (See Figure A-3.) 41% comes from state allocations, and most of the rest is from federal and state grants. The majority increase in revenues are attributed to a 10% increase in property values coupled with an increase of 330 students. The total cost of all programs and services increased by 7.9% to \$139.1 million. A 3% mid-point salary increase for all as well as a \$500 retention stipend was awarded to all employees. Additional staff including teachers were also hired as a result of enrollment growth. The District's expenses cover a range of services such as: salaries, utilities, benefits, and supplies.

Governmental Activities

Revenues for the District's governmental activities increased 8.0% while total expenses increased 7.9%. The District's total net position decreased \$7.4 million.

* Pension Liability implemented as a result of GASB 68.

State grants and property taxes increased in 2014-2015 due to increased student enrollment and an increase in property values. On November 4, 2008, the taxpayers of the District approved a Tax Ratification Election allowing the District to increase the maintenance and operations tax rate to \$1.17 from \$1.04. The increased maintenance and operations tax rate allows the District to maximize state aid. The tax rate has remained the same since 2010.

Table A-3 presents the cost of each of the District's largest functions as well as each function's *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

The cost of all *governmental* activities this year was \$139.1 million. However, the amount that our taxpayers paid for these activities through property taxes was \$63.9 million.

Some of the cost was paid by those who directly benefited from the programs (\$4.6 million), or by grants and contributions (\$17.3 million).

	Total Cost of Services			Net Cost of Services

Plant maintenance & operations	11.5	10.9	-5.2%	11.1	10.5	-5.4%

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending balances of \$144.4 million. The General Fund accounts for \$39.7 million, approximately 27.5 percent of this total amount. Of this \$39.7 million, \$38.5 million constitutes *unassigned* fund balance, and the remaining \$1.2 million is classified as *non-spendable* and *restricted* fund balance. *Non-spendable, restricted, and committed funds* indicate that it is not available for new spending because it has already been committed to inventories, prepaid and miscellaneous items.

The unassigned fund balance of the District's General Fund was increased by \$7.8 million during the current fiscal year. The increase is primarily due to a 10% increase in property values and 330 additional students.

The Debt Service Fund has a total fund balance of \$23.5 million, all of which is restricted for the payment of debt service. The increase in fund balance during the period in the Debt Service Fund was \$2.8 million.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. This fund includes outlays financed from general obligation bond proceeds. A \$94.2 million bond passed by the voters in November 2014 is reflected in the increase in Financing Sources as well as the increase in expenditures as projects were starting within this fiscal year.

General Fund Budgetary Highlights

Over the course of the year, the District recommended and the Board approved several revisions to budgeted revenues and appropriations. The amendments fall into the following categories:

- Amendments approved shortly after the beginning of the new fiscal year for amounts reserved and designated in the prior year.
- Amendments throughout the year to revise estimates for local and state revenue based on the latest information on student attendance and tax collections.
- Amendments throughout the year for transfers to and from other funds and federal indirect cost calculations.
- Amendments throughout the year for unexpected occurrences.
- Amendments throughout the year for resignations and employment of new personnel.
- Amendments throughout the year for sale of bonds and related expenditures.

After appropriations were amended as described above, actual revenues for the General Fund were \$690,346 above the final budgeted amounts due to final calculations in state aid and property values. Actual expenditures were \$2,774,494 below final budget amounts. The major portion of this positive variance in expenditures resulted from lower than projected payroll and reduction in utility costs from energy efficient purchases.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2015, amount to \$252.0 million (net of accumulated depreciation). This amount represents an increase (including additions and deletions) of \$6.9 million or 2.8 percent.

The investment in capital assets includes land, buildings and improvements, furniture and equipment, and construction in progress.

Table A-4
District's Capital Assets
(in millions of dollars)

	<u>2014</u>	<u>2015</u>	Total % Change
Land	\$ 9.4	\$ 9.4	0.0%

Buildings and improvements	83.6	92.4	10.5%
Furniture and equipment	<u>9.2</u>	<u>9.2</u>	0.0%
Total accumulated depreciation	<u>92.8</u>	<u>101.6</u>	9.5%
Net capital assets	<u>\$ 245.1</u>	<u>\$ 252.0</u>	2.8%

Additional information on the District's capital assets can be found in Note C to the financial statements.

Long-Term Debt

At year-end the District had \$424.7 million in bonds payable – an increase of 25.8 percent over last year attributed to the passing of a \$94.2 million bond—as shown in Table A-5.

Table A-5
District's Long Term Debt
(in millions of dollars)

	<u>2014</u>	<u>2015</u>	Total % Change
Bonds payable			
General obligation bonds	\$ 231.0	\$ 316.6	37.1%

	<u>337.7</u>	<u>424.7</u>	25.8%
Other liabilities			
Capital leases	0.2	0.7	250.0%
Compensated absences	<u>0.5</u>	<u>0.6</u>	20.0%
	<u>0.7</u>	<u>1.3</u>	85.7%
Total	<u>\$ 338.4</u>	<u>\$ 426.0</u>	25.9%

The “AAA” long term rating of the District’s Texas bonds reflects the Texas Permanent School guarantee. The District was recently upgraded to an Aa2 underlying bond rating from Moody’s for the November 2014 \$94.2 million bond. The District’s ‘Aa2’ rating reflects: 1) strong and growing DFW Metroplex and Collin County area economy, 2) strong administrative management, and 3) excellent financial performance.

Additional information on the District’s long-term debt can be found in Note E to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES

The District’s assessed property tax value per the Collin County Appraisal District for the 2015-2016 fiscal year in the amount of \$4,238,126,412 increased by 11.5% compared to the audited assessed value in the 2014-2015 fiscal year with \$3,800,264,829. For 2015-2016, Proposition 1 was passed on November 3, 2015 that increased the homestead exemption from \$15,000 to \$25,000. This granted all taxpayers that elect the homestead exemption an additional reduction of \$164 in the overall taxes that would have been prior to the increase in property values. While local property tax revenues were decreased for Texas school districts, the state ‘held harmless’ districts by increasing state revenues for the funds lost due to the homestead exemption. For Wylie ISD, this was an estimated loss of \$2.4 million in local property tax revenue that the state has offset this year and future years.

There is no change in the tax rate for this coming school year, still maintaining the \$1.17 Maintenance & Operating tax rate and \$0.47 Interest & Sinking Fund amounts.

The 2015-2016 budget for state revenues is based on an enrollment of 14,307, an increase of 268 students over the previous year.

Programs and services included in the General Fund budget are primarily supported by local and state sources of revenue. The Debt Service Fund is supported mainly from local revenues and the Student Nutrition Fund (Food Service Fund) is supported by local and federal revenues. The revenue estimates by fund and source for 2015-2016 are presented below:

Revenues	General Fund	Debt Service Fund	Food Service Fund
Local & intermediate sources	\$48,913,107	\$19,147,514	\$3,496,663
State sources	61,992,901	3,335,462	148,201
Federal sources	651,005		2,691,603
Total Revenues	\$111,557,013	\$22,482,976	\$6,336,467

CONTACTING THE DISTRICT’S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District’s finances and to demonstrate the District’s accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District’s Finance Division.

WYLIE INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
JUNE 30, 2015

Total fund balances - governmental funds balance sheet		\$	144,423,789
Amounts reported for governmental activities in the statement of net position are different because:			
Capital assets used in governmental activities are not financial resources; therefore, are not reported in the governmental fund financial statements.			353,642,965
Accumulated depreciation has not been included in the governmental fund financial statements.			(101,612,680)
Long-term debt and other contractual liabilities are not due and payable in the current period and, therefore, are not included in the governmental funds financial statements. These items consist of:			
General obligation bonds	\$	316,616,691	
Premiums and accreted interest for capital appreciation bonds		99,027,162	
Capital leases payable		668,302	
Compensated absences		627,061	(416,939,216)
Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the governmental fund financial statements, interest expenditures are reported when due.			(1,567,405)
In the governmental fund financial statements, refunding losses are expensed when incurred, whereas in the government-wide financial statements they are capitalized, net of amortization.			13,039,198
Premiums and discounts on the issuance of current interest bonds are capitalized, net of amortization, on the government-wide financial statements.			(9,059,404)
Net property taxes reported as deferred inflows of resources in the governmental fund financial statements are recorded as revenue in the government-wide financial statements.			1,027,913
The District's net pension liability and related deferred outflows and inflows related to its proportionate share of the state Teacher Retirement System pension are not due and payable in the current period and are, therefore, not reported in the governmental funds financial statements. These items consist of:			
Net pension liability		13,340,412	
Deferred outflows - pension related items		(2,896,060)	
Deferred inflows - pension related items		4,080,872	(14,525,224)
Net position of governmental activities - statement of net position	\$		<u>(31,570,064)</u>

WYLIE INDEPENDENT SCHOOL DISTRICT*RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2015*

Net change in fund balances - total governmental funds \$ 88,929,252

Amounts reported for governmental activities in the statement of activities are different because:

Current year capital outlays are expenditures in the governmental fund financial statements, but are shown as increases in capital assets in the government-wide financial statements. 17,238,670

Depreciation is not recognized as an expenditure in the governmental fund financial statements since it does not use current financial resources. Current year depreciation expense is: (10,277,177)

The disposal of capital assets is not recognized in the governmental fund financial statements. However, the net book value of the capital assets disposed of in the current year is: (63,691)

Issuances of long-term debt are other financing sources in the governmental fund financial statements, but are reported as increases in long-term liabilities in the government-wide financial statements. The District issued the following long-term debt in the current year:

School building bonds	\$ 94,087,328	
Accreted interest on school building bonds	857,805	
Premium on school building bonds	168,471	
Capital leases	<u>722,929</u>	(95,836,533)

Long-term debt principal payments are expenditures in the governmental fund financial statements, but are reported as reductions of long-term debt in the government-wide financial statements.

Current year long-term debt principal payments are summarized as follows:

General obligation bonds	\$ 8,547,348	
Accreted interest	7,317,652	
Capital leases payable	<u>266,038</u>	16,131,038

Accretion on capital appreciation bonds is not reflected in the governmental fund financial statements, but is reflected as an increase in accreted interest in the government-wide financial statements. The current year accretion is: (8,255,826)

Interest is accrued on long-term debt in the government-wide financial statements, whereas interest is reported when due in the governmental fund financial statements. Accrued interest increased by: (263,187)

Changes in liabilities for compensated absences are not reflected in the governmental fund financial statements, but are reported as increases and decreases in long-term liabilities of the government-wide financial statements. The liability for compensated absences increased by: (120,247)

Amortization of deferred losses on refundings is only reported in the government-wide financial statements. Current year amortization is: (899,008)

Amortization of the premium of current interest bonds is only reported in the government-wide financial statements. Current year amortization is: 560,462

Revenue from property taxes is deferred in the governmental fund financial statements until it is considered available to finance current year expenditures, but is recognized when assessed, net of an allowance for uncollectible accounts, in the government-wide financial statements. Deferred inflows of resources increased by this amount in the current year. 27,866

The District participates in a cost-sharing multiple-employer defined benefit pension plan. Contributions to the plan are expenditures at the fund-level when payments are due. At the government-wide level, pension expenses are recognized on an actuarial basis. Payments exceeded the actuarial expense in the current year by: 790,311

Change in net position of governmental activities - statement of activities \$ 7,961,930

The accompanying notes are an integral part of this statement.

Wylie Independent School District

Notes to the Financial Statements

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

A. Summary of Significant Accounting Policies

The basic financial statements of Wylie Independent School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental reporting entity and there are no component units included within the District's reporting entity.

2. Basis of Presentation, Basis of Accounting

a. Basis of Presentation

Government-wide Financial Statements: The statement of net position and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund: The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of the governmental funds in this fund.

Capital Projects Fund: The proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in this fund.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

In addition, the District reports the following fund types:

Governmental Funds:

Special Revenue Funds: The District accounts for activities funded with restricted or committed revenues in special revenue funds. Most federal and some state grant programs are accounted for in these funds, as well as the District's campus activity funds.

Fiduciary Funds:

Private-Purpose Trust Funds: The District accounts for donations for which the donor stipulated that both the principal and income may be used for purposes that benefit parties outside the District. The District's Private Purpose Trust Funds include the General Scholarship, Joe Stone Memorial Scholarship, Pearl Birmingham Scholarship, Vocational Ag Scholarship, and RC Dodd Scholarship Funds.

Agency Funds: The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Fund is the Student Activity Fund.

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

b. **Measurement Focus, Basis of Accounting**

Government-wide and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

3. Financial Statement Amounts

a. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period.

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

At June 30, 2015, net property taxes receivable is calculated as follows:

Gross property taxes receivable	\$ 1,441,168
Allowance for uncollectible taxes	<u>(413,255)</u>
Net property taxes receivable	<u>\$ 1,027,913</u>

b. Investments

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

c. Inventories and Prepaid Items

Supplies and materials are recorded as expenditures when requisitioned. Inventory is stated at cost using the first-in, first-out method. Inventory in the General Fund consists of expendable parts and supplies. Inventory in the Other Governmental Funds consists primarily of food service commodities.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

d. Deferred Outflows/Inflows of Resources

Deferred outflows of resources refers to the consumption of net assets that are applicable to a future reporting period. Deferred outflows of resources has a positive effect on net position, similar to assets. Notwithstanding the similarities, Concepts Statement 5 clearly establishes that deferred outflows of resources are not assets.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

Deferred inflows of resources refers to the acquisition of net assets that are applicable to a future reporting period. Deferred inflows of resources has a negative effect on net position, similar to liabilities. Notwithstanding the similarities, Concepts Statement 5 clearly establishes that deferred inflows of resources are not liabilities.

e. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings	40
Building Improvements	6-20
Vehicles	5-10
Computer Equipment	7-15
Other Equipment	5-15

f. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables, except for delinquent taxes receivable, which are not scheduled for collection within one year of year end. Of the \$1,441,168 outstanding at June 30, 2015, it is expected that the District will collect approximately \$700,000 during the upcoming year.

g. Compensated Absences

It is the District's policy to permit some employees to accumulate earned but unused sick pay benefits. School Board Policy contains a provision to compensate employees with more than 10 years of service in the District for accrued leave days upon retirement. This policy allows any employee who retires from the District through the Teacher Retirement System of Texas to receive, following termination of employment, a lump sum payment for accrued leave days.

School Board Policy also contains a provision to compensate employees with five or more years of service in the District for accrued local leave days upon resignation from the District.

h. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line on the government-wide statement of net position.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

i. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates. Accordingly, actual results could differ from those estimates.

The amount of Foundation revenues a school district earns from the state each year is based on estimated data until final values for each of the factors in the formula become known, which is typically well into the subsequent fiscal year. It is reasonably possible that actual Foundation revenues for the year ended June 30, 2015 will differ from those reported in the accompanying financial statements, although management does not expect them to be materially different.

j. Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to insure accuracy in building a statewide database for policy development and funding plans.

k. Fund Balances - Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance - represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance - represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance - represents amounts that can only be used for a specific purpose because of a formal action (passage of resolution) by the District's Board of Trustees. Committed amounts cannot be used for any other purpose unless the Board of Trustees removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the Board of Trustees. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance - represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the Board of Trustees or by an official or body to which the Board of Trustees delegates the authority. Per the fiscal management policies adopted by the Board of Trustees, the Board of Trustees, Superintendent and Chief Financial Officer are authorized to assign amounts for specific purposes. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself.

Unassigned Fund Balance - represents amounts which are unconstrained in that they may be spent for any purpose. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

The District's Board of Trustees has formally adopted a minimum fund balance policy that states that the District shall maintain at a minimum, where possible, unassigned fund balance in the General Fund equal to two and one-half months of average General Fund expenditures.

B. Deposits and Investments

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

1. Cash Deposits:

At June 30, 2015, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$6,910,638 and the bank balance was \$10,630,417. The District's cash deposits at June 30, 2015, and during the year ended June 30, 2015, were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

2. Investments:

The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

The District's investments at June 30, 2015, are shown below.

<u>Investment or Investment Type</u>	<u>Weighted Average Maturity (Months)</u>	<u>Fair Value</u>
Held in governmental funds:		
Lone Star Investment Pool	1	\$ 69,720,296
FDIC Insured Cash Shelter Account	1	11,555,274
FDIC Insured CDARS	1	54,719,380
LOGIC Investment Pool	1	837,896
		<u>136,832,846</u>
Held in private-purpose trust funds:		
Stocks / Mutual Funds	N/A	<u>1,979,707</u>
Total investments		<u>\$ 138,812,553</u>

3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

At June 30, 2015, the District's investments, other than those which are obligations of or guaranteed by the U. S. Government, are rated as to credit quality as follows:

<u>Investment Type</u>	<u>Minimum Legal Rating</u>	<u>Rating as of Year End</u>
Lone Star Investment Pool	N/A	Not Rated
FDIC Insured Cash Shelter Account	N/A	Not Rated
FDIC Insured CDARS	N/A	Not Rated
LOGIC Investment Pool	N/A	AAA

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At year end, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Public Funds Investment Pools

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

The District's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

C. Capital Assets

Capital asset activity for the year ended June 30, 2015, was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
<u>Governmental activities:</u>				
<i>Capital assets not being depreciated:</i>				
Land	\$ 9,383,818	\$ --	\$ --	\$ 9,383,818

Governmental activities capital assets, net	<u>\$ 245,132,483</u>	<u>\$ 7,596,327</u>	<u>\$ 698,525</u>	<u>\$ 252,030,285</u>

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

Depreciation was charged to functions as follows:

Instruction	\$ 5,397,007
Instructional Resources and Media Services	324,999
Curriculum and Staff Development	6,757
School Leadership	230,819
Guidance, Counseling, & Evaluation Services	57,773
Health Services	108,951
Student Transportation	725,823
Food Services	829,468
Extracurricular Activities	2,036,430
General Administration	207,061
Plant Maintenance and Operations	183,119
Security and Monitoring Services	25,234
Data Processing Services	143,736
	<u>\$ 10,277,177</u>

D. Interfund Balances and Activities

1. Due To and From Other Funds

Balances due to and due from other funds at June 30, 2015, consisted of the following:

Due To Fund	Due From Fund	Amount	Purpose
General Fund	Other Governmental Funds	\$ 251,008	Short-term loan
General Fund	Capital Projects Fund	44,788	Short-term loan
Capital Projects Fund	General Fund	630	Short-term loan
Other Governmental Funds	General Fund	1,662	Short-term loan
Other Governmental Funds	Other Governmental Funds	409	Short-term loan
	Total	<u>\$ 298,497</u>	

All amounts due are scheduled to be repaid within one year.

E. Long-Term Obligations

The District has entered into a continuing disclosure undertaking to provide Annual Reports and Material Event Notices to the State Information Depository of Texas, which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the District.

1. Long-Term Obligation Activity

Long-term obligations include debt and other long-term liabilities. Changes in long-term obligations for the year ended June 30, 2015, are as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Governmental activities:					
Bonds Payable:					
General Obligation Bonds	\$ 231,076,711	\$ 94,087,328	\$ 8,547,348	\$ 316,616,691	\$ 9,017,399
Accreted Interest	97,231,183	9,113,631	7,317,652	99,027,162	7,137,601
Premium on Bonds	9,451,395	168,471	560,462	9,059,404	-
Total Bonds Payable	<u>337,759,289</u>	<u>103,369,430</u>	<u>16,425,462</u>	<u>424,703,257</u>	<u>16,155,000</u>
Capital Leases Payable	211,411	722,929	266,038	668,302	115,749
Compensated absences *	506,814	147,336	27,090	627,060	5,875
Total governmental activities	<u>\$ 338,477,514</u>	<u>\$ 104,239,695</u>	<u>\$ 16,718,590</u>	<u>\$ 425,998,619</u>	<u>\$ 16,276,624</u>

* Compensated absences are considered other long-term liabilities and are typically liquidated in the General Fund.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

2. Debt Service Requirements

Debt service requirements on long-term debt, excluding amortization of bond premium and deferred loss on refunding and compensated absences, at June 30, 2015, are as follows:

Year Ending June 30,	Governmental Activities		
	Principal	Interest	Total
2016	\$ 9,133,148	\$ 11,210,180	\$ 20,343,328
2017	12,214,553	9,553,265	21,767,818
2018	12,003,488	10,260,159	22,263,647
2019	12,349,207	10,409,340	22,758,547
2020	11,708,419	11,197,992	22,906,411
2021-2025	58,812,540	60,671,179	119,483,719
2026-2030	61,373,200	65,633,095	127,006,295
2031-2035	52,430,234	51,202,438	103,632,672
2036-2040	34,843,507	67,344,109	102,187,616
2041-2045	26,964,717	55,035,284	82,000,001
2046-2050	21,667,352	60,332,648	82,000,000
2051	3,784,628	12,615,372	16,400,000
Totals	\$ 317,284,993	\$ 425,465,061	\$ 742,750,054

Accreted interest of \$99,027,162 is included in the interest column.

3. General Obligation Bonds

A summary of changes in general obligation bonds for the year ended June 30, 2015, is as follows:

	Amounts			Amounts Outstanding 6/30/15	Interest Accretion 6/30/15

2051	3,784,628	12,615,372	16,400,000
Totals	\$ 316,616,691	\$ 352,229,067	\$ 643,393,778

Limitations and Restrictions

There are a number of limitations and restrictions contained in the general obligation bond indentures. Management has indicated that the District is in compliance with all significant limitations and restrictions.

Arbitrage Regulations

The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury for investment income received at yields that exceed the issuer's tax exempt borrowing rates. The United States Treasury requires payments for each issue every five years. The estimated liability is updated annually for all tax-exempt issuances or changes in yields until such time payment of the calculated liability is due. At June 30, 2015, the District has no liability under these regulations.

4. Advance Refundings of Debt

GASB Statement No. 7, "Advance Refundings Resulting in Defeasance of Debt," provides that refunded debt and assets placed in escrow for the payment of related debt service be excluded from the financial statements. As of June 30, 2015, outstanding balances of bond issues that have been refunded and defeased in-substance by placing existing assets and the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments are as follows:

Bond Issue	Amount
Unlimited Tax School Building and Refunding Bonds, Series 1994	\$ 10,180,000
Unlimited Tax School Building and Refunding Bonds, Series 2001	13,289,530
Unlimited Tax School Building Bonds, Series 2005	43,176,501
Unlimited Tax School Building Bonds, Series 2006	22,130,000
Total	\$ 88,776,031

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

5. Capital Leases

Commitments under capitalized lease agreements for furniture and equipment provide for minimum future lease payments as of June 30, 2015, as follows:

<u>Year Ending June 30:</u>	
2016	\$ 223,440
2017	218,980
2018	216,110
2019	216,110
2020	<u>81,636</u>
Total Minimum Rentals	956,276
Less Imputed Interest	<u>(287,974)</u>
Capital Lease Payable	<u>\$ 668,302</u>

F. Other Restrictions of Fund Balance

Amounts reported as other restrictions of fund balance at June 30, 2015, on the balance sheet - governmental funds consist of the following:

<u>Restriction</u>	<u>General Fund</u>	<u>Other Governmental Funds</u>	<u>Total</u>
Local Grants	\$ 468,050	\$ --	\$ 468,050
Course Enhancement	--	240,037	240,037
	<u>\$ 468,050</u>	<u>\$ 240,037</u>	<u>\$ 708,087</u>

G. Risk Management

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2015, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

H. Defined Benefit Pension Plan

1. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

2. Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, Texas 78701-2698; or by calling (512) 542-6592.

3. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using a 2.3 percent multiplier times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on the date of employment, of if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including cost of living adjustments (COLAs). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan Description above.

4. Contributions

Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution, which requires the Texas Legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements if, as a result of a particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. It also added a 1.5% contribution for employers not paying Old Age Survivor and Disability Insurance (OASDI) on certain employees effective for fiscal year 2015 as discussed in Note 1 of the TRS 2014 CAFR. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015.

Contribution rates for the Plan fiscal years (September through August) 2014 and 2015 follow:

	Contribution Rates for Plan Fiscal Year:	
	2014	2015
Members (Employees)	6.4%	6.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employer (District)	6.4%	6.8%

Contributions for the Plan fiscal year 2014 follow:

Members (Employees)	\$	4,777,302
Non-Employer Contributing Entity (State)	\$	3,871,165
Employer (District)	\$	1,266,189

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

Contributions to the Plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools, and state agencies including TRS. In each respective role, the State contributes to the Plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer continuing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

5. Actuarial Assumptions

The total pension liability in the August 31, 2014, actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2014
Actuarial Cost Method	Individual Entry Age Normal
Amortization Method	Level Percentage of Payroll, Open
Remaining Amortization Period	30 Years
Asset Valuation Method	5 Year Market Value
Discount Rate	8.00%
Long-term Expected Investment Rate of Return*	8.00%
Salary Increases*	4.25% to 7.25%
Weighted-Average at Valuation Date	5.55%
Payroll Growth Rate	3.50%

* - Includes inflation at 3%

The actuarial methods and assumptions used in the valuation were based on the results of an actuarial experience study for the four year period ending August 31, 2010, and adopted on April 8, 2011. With the exception of the post-retirement mortality rates for healthy lives and a minor change to the expected retirement age for inactive vested members stemming from the actuarial audit performed in the summer of 2014, the assumptions and methods are the same as used in the prior valuation. When the mortality assumptions were adopted in 2011, they contained a significant margin for possible future mortality improvements. As of the date of the valuation there has been a significant erosion of this margin to the point that the margin has been eliminated. Therefore, the post-retirement mortality rates for current and future retirees was decreased to add additional margin for future improvement in mortality in accordance with the Actuarial Standards of Practice No. 35.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

6. Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 8.0%. The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2014, are summarized as follows:

Asset Class	Target Allocation	Long-term Expected Geometric Real Rate of Return	Expected Contribution to Long-term Portfolio Returns*
Global Equity			
U.S.	18%	7.0%	1.4%
Non-U.S. Developed	13%	7.3%	1.1%
Emerging Markets	9%	8.1%	0.9%
Directional Hedge Funds	4%	5.4%	0.2%
Private Equity	13%	9.2%	1.4%
Stable Value			
U.S. Treasuries	11%	2.9%	0.3%
Absolute Return	0%	4.0%	0.0%
Stable Value Hedge Funds	4%	5.2%	0.2%
Cash	1%	2.0%	0.0%
Real Return			
Global Inflation Linked Bonds	3%	3.1%	0.0%
Real Assets	16%	7.3%	1.5%
Energy and Natural Resources	3%	8.8%	0.3%
Commodities	0%	3.4%	0.0%
Risk Parity			
Risk Parity	5%	8.9%	0.4%
Alpha	0%		1.0%
Total	100%		8.7%

* - The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between arithmetic and geometric mean returns.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability of the plan if the discount rate used was 1% less than and 1% higher than the discount rate that was used (8%) in measuring the 2014 Net Pension Liability.

	1% Decrease 7%	Current Discount Rate 8%	1% Increase 9%
District's proportional share of the net pension liability	\$ 23,838,508	\$ 13,340,412	\$ 5,489,792
Plan net pension liability (in millions from TRS CAFR)	\$ 47,737	\$ 26,717	\$ 10,998

8. Pension Liabilities, Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions

At June 30, 2015, the District reported a liability of \$13,340,412 for its proportionate share of the TRS's net pension liability calculated at August 31, 2014. This liability reflects a reduction for the State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 13,340,412
State's proportionate share of the net pension liability associated with the District	<u>40,873,130</u>
Total	<u>\$ 54,213,542</u>

The net pension liability was measured as of August 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2013, through August 31, 2014.

At August 31, 2014, the District's proportion of the collective net pension liability was 0.0499428%. Since this is the first year of implementation, the District does not have the proportion measured at August 31, 2013. The Notes to the Financial Statements for August 31, 2014, for TRS states that the change in proportion was immaterial and, therefore, disregarded this year.

For the year ended August 31, 2014, there was an adoption of a new mortality assumption that the average life expectancy for members over 65 years of age will increase by approximately nine months over the next four years.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

There was a change in employer contribution requirements that occurred after the measurement date of the net pension liability and the District's reporting date. A 1.5% contribution for districts not paying Old Age Survivor and Disability Insurance (OASDI) on certain employees went into law effective September 1, 2013. The amount of the expected resultant change in the District's proportion cannot be determined at this time.

For the year ended August 31, 2014, the District recognized pension expense of \$3,778,645 and revenue of \$3,871,165 for support provided by the State.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

At June 30, 2015, the District reported its proportionate share of the TRS's August 31, 2014, deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows	Deferred Inflows
Differences between expected and actual experience	\$ 206,314	\$ --
Changes in assumptions	867,142	--
Net difference between projected and actual earnings on pension plan investments	--	4,077,375
Changes in proportion and differences between District contributions and proportionate share of contributions	--	3,497
District contributions subsequent to the measurement date	<u>1,822,604</u>	<u>--</u>
Total	<u>\$ 2,896,060</u>	<u>\$ 4,080,872</u>

The \$1,822,604 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources or deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	Pension Exp. Amount
2016	\$ (838,842)
2017	(838,842)
2018	(838,842)
2019	(838,842)
2020	180,502
Thereafter	167,450

I. Retiree Health Care Plan and Other Retiree Programs

1. Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), cost-sharing multiple-employer defined benefit post-employment health care plan administered by TRS. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under TRS. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at www.trs.state.tx.us under the TRS Publications heading, by calling TRS Communications Department at 1-800-223-8778 or, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701.

WYLIE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2015

2. Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.00% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2015, 2014, and 2013. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and amounts are shown in the table below for the three most recent periods:

Year	Active Member (0.65%)	State (1.00%)	School District (0.55%)
2015	\$ 505,946	\$ 778,379	\$ 428,108
2014	\$ 478,736	\$ 736,517	\$ 405,085
2013*	\$ 445,769	\$ 685,798	\$ 377,189

* - 2013 was a 10-month period with a .5% State contribution rate

3. Federal Government Retiree Drug Subsidy

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended June 30, 2015, 2014 and 2013, the subsidy payments received by TRS-Care on behalf of the District were \$215,000, \$198,641 and \$262,012, respectively.

J. Commitments and Contingencies

1. Contingencies

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

2. Construction Commitments

As of June 30, 2015, the District was party to several uncompleted contracts for renovation and construction projects funded by the Series 2015A and Series 2015B Unlimited Tax School Building Bonds issued in the current year. The total amount of those contracts, portions completed through June 30, 2015, and remaining commitments as of June 30, 2015, are summarized as follows:

Total contract sum - all projects	\$ 24,506,573
Portions completed through June 30, 2015	(8,743,349)
Total remaining commitments as of June 30, 2015	<u>\$ 15,763,224</u>

It is anticipated that all of the above projects will be completed during the fiscal year ended June 30, 2016.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

3. Operating Lease Commitments

Commitments under operating (noncapitalized) lease agreements for facilities and equipment provide for minimum future rental payments as of June 30, 2015, as follows:

<u>Year Ending June 30,</u>	<u>Remaining Commitment</u>
2016	\$ 294,997
2017	294,997
Total Minimum Rentals	<u>\$ 589,994</u>
Rental Expenditures in 2015	<u>\$ 294,997</u>

K. Prior Period Adjustment

In the current year the District implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions - An Amendment to GASB Statement No. 27, as that statement is effective for fiscal years beginning on or after June 15, 2014. Implementation of this statement was made to improve accounting and financial reporting by the District for pensions provided by the Teacher Retirement System of Texas as described in Note H. Implementation required a prior period adjustment to beginning net position of the governmental activities as of July 1, 2014. The prior period adjustment to reduce beginning unrestricted net position is composed of the following June 30, 2014, amounts:

Net Pension Liability	\$ 16,380,930
Net of Deferred Inflows/Outflows of Resources	<u>(1,065,393)</u>
Prior Period Adjustment	<u>\$ 15,315,537</u>

Since pension liability data is not available for periods prior to June 30, 2014, the effect of the prior period adjustment on the change in net position for the fiscal year ended June 30, 2014, is not determinable.

Contribution as a percentage of covered-employee payroll	2.57%

* This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, this schedule provides the information only for those years for which information is available.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2015

A. Budget

1. Basis of Budgeting

The Wylie Independent School District's (District) budget for the General Fund is prepared and presented on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

2. Budget Process

a. Budgeting

Annual budgets are legally adopted for the General Fund, Debt Service Fund and Food Service Fund. The annual budget is presented in the accompanying schedule for the General Fund. The following procedures are used in establishing the budgetary data reflected in that schedule:

1. Prior to June 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board of Trustees is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board of Trustees.

The budget is prepared and controlled by the budget officer at the revenue object and expenditure function level.

The official budget for the General Fund was prepared and adopted through Board resolution before June 30, 2014. The administration performs budget reviews by which budget requirements are re-evaluated and revisions recommended to the Board. The Board may approve amendments to the budget, which are required when a change is made to the functional expenditure categories or revenue object accounts, as defined by the Texas Education Agency. Total expenditures may exceed total appropriations, as amended, by fund as long as those expenditures are certified as being available by the budget officer to the Board. The final amended budget for the General Fund reflected an increase in budgeted revenues for local and intermediate revenues of \$3,606,509 related to increased property tax revenues and an increase in state program revenues of \$1,390,616 due to higher student attendance. Budgeted expenditures were increased by \$1,784,102 in the final budget. These increases were principally for instruction and capital outlay. Altogether the final amended budget resulted in a budgeted increase in fund balance of \$4,371,290. The budget amounts reflected in the accompanying schedule represent final amended budget amounts as approved by the Board.

b. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments are recorded in order to reserve that portion of the applicable appropriation, is used in all governmental funds. There are no outstanding encumbrances at year-end as all encumbrances at that date are canceled and re-appropriated in the subsequent fiscal year's budget to provide for their liquidation.

WYLIE INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2015

B. Defined Benefit Pension Plan

1. Changes of Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

2. Changes of Assumptions

For the year ended August 31, 2014, there was an adoption of a new mortality assumption that the average life expectancy for members over 65 years of age will increase by approximately nine months over the next four years.

STATISTICAL SECTION

This part of the Wylie Independent School District’s Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District’s overall financial health.

CONTENTS PAGE

Financial Trends 102

These schedules contain trend information to help the reader understand how the District’s financial performance and well-being have changed over time.

Revenue Capacity 109

These schedules contain information to help the reader assess the District’s most significant local revenue source, the property tax.

Debt Capacity 113

These schedules present information to help the reader assess the affordability of the District’s current levels of outstanding debt and the District’s ability to issue additional debt in the future.

Demographic and Economic Information 117

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District’s financial activities take place.

Operating Information 120

These schedules contain service and infrastructure data to help the reader understand how the information in the government’s financial reports relates to the services the government provides and the activities it performs.

Source: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

LEGAL DEBT MARGIN INFORMATION

LAST NINE FISCAL YEARS (UNAUDITED)

The Texas Education Code (TEC) authorizes the District to issue negotiable coupon bonds to construct, acquire, or equip school buildings, to purchase necessary sites, and to acquire or refinance property financed under a contract entered into under the Public Property Finance Act. The District is further authorized to levy and assess annual ad valorem taxes sufficient to pay the principal and interest on bonds as they become due. Local policy gives the superintendent or designee management oversight responsibility for the debt service operation of the District. In this capacity, the superintendent recommends all proposed bond sales to the board for its approval. All bond elections are held in accordance with statutory requirements, and bonds are sold, as authorized by the qualified voters of the District, on a competitive basis under the directions of a fiscal agent selected by the board. Texas statutes do not prescribe a debt limit; however, by custom, a practical economic debt limit of 10% of the assessed valuation is used.

	Legal Debt Margin Calculation for Fiscal Year 2015				
Assessed Value					\$3,800,264,829
Debt limit (10% of assessed value)					380,026,483

Independent Auditor's Report on Internal Control over Financial Reporting and
On Compliance and Other Matters Based on an Audit of Financial Statements
Performed In Accordance With Government Auditing Standards

Board of Trustees
Wylie Independent School District
951 South Ballard Street
Wylie, Texas 75098

Members of the Board of Trustees:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wylie Independent School District, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Wylie Independent School District's basic financial statements, and have issued our report thereon dated October 12, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Wylie Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Wylie Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Wylie Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Wylie Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Edgin, Parkman, Fleming & Fleming, PC

Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

Board of Trustees
Wylie Independent School District
951 South Ballard Street
Wylie, Texas 75098

Members of the Board of Trustees:

Report on Compliance for Each Major Federal Program

We have audited the Wylie Independent School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on Wylie Independent School District's major federal programs for the year ended June 30, 2015. Wylie Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Wylie Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Wylie Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Wylie Independent School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Wylie Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the Wylie Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Wylie Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Wylie Independent School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

Edgin, Parkman, Fleming & Fleming, PC
