

# ABBOTSHOLME

AN EDUCATION FOR LIFE

## Prep School RSE & PSHE Policy

### Aims

The aims of relationships and health education (RHE) and PSHE (Personal, Social, Health and economic education at our school are to:

- The aim of RHE is to provide children with age appropriate information to explore attitudes and values and develop skills in order to empower them to make positive decisions about their health-related behaviour. This should take place with consideration of the qualities of relationships within families.
- To allow children to follow the school values of honesty, humility, respect, integrity and courage through our daily use of RHE and PSHE.
- To ensure our pupils are aware how to safeguard themselves through educating them and also to teach preventative education and online safety.
- To support our school vision so that pupils leave Abbotsholme as responsible and socially aware young individuals, able to face a demanding world with confidence and a zest for life. We would wish to know that they were happy with themselves and with their lives; successful in their personal and professional endeavours, whilst remaining sensitive to the needs of others. We want all of our pupils not only to succeed, whatever their unique talents or abilities, but also to feel successful.
- **Personal, Social, Health and Economic education, or PSHE**, aims to give children the knowledge, skills and understanding to lead confident, healthy and independent lives. It also enables children to note topical world and local issues which affect them and links in with SMSC (Spiritual, Moral, Social and Cultural) and British Values.
- **To encourage respect for other people with particular regards to the protected characteristics under the Equality Act 2010.** These are as follows: age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation. These are addressed across Abbotsholme and are taught whilst taking into account the children's age and learning abilities.
- **To promote children's emotional well-being and emotional health** through awareness and support in and out of the curriculum.

### Statutory requirements and definitions

As a Prep school we provide relationships education to all pupils.

We offer all pupils a curriculum that is similar to the National Curriculum including requirements to teach science which would include the elements of sex education contained in the science curriculum. Parents may not opt out of this. Any science on this topic includes plant reproduction and animal life cycles. If any sex education is taught outside of science, then the parent body will be informed and consent received, as parents may choose to opt out of this. At Abbotsholme, we are currently choosing to teach sex education from Year 7 onwards in the senior school.

Within this policy, Relationships Education is defined as teaching about the fundamental building blocks and characteristics of positive relationships, with particular reference to respectful

# ABBOTSHOLME

## AN EDUCATION FOR LIFE

friendships, family relationships, and relationships with other children and with adults, including online.

For the purpose of this policy, Health Education is defined as teaching pupils about physical health and mental wellbeing, focusing on recognising the link between the two and being able to make healthy lifestyle choices

Sex Education is defined as teaching children how human reproduction occurs, including how a baby is conceived and born. This draws on knowledge of the human life cycle set out in the national curriculum for science. For the purposes of this policy, we specifically identify any non-statutory Sex Education that falls outside of Science and those related elements (the physical changes associated with puberty) within statutory Health Education. As a farm school there may be opportunities where the children are able to attend lambing or calving. In this area, children may ask questions relating to birth of the animals. Parents will be informed as to when lambing and calving is occurring and teachers will inform parents if any questions may arise from this.

RSE is not about the promotion of sexual activity.

At Abbotsholme Prep we teach Relationships, Health and Sex Education as set out in this policy.

PSHE is not a statutory requirement to be taught, however at Abbotsholme we choose to teach it so that it encompasses our RHE and school, and fundamental British values and vision. It is taught through the three core areas:

1. Health and Wellbeing
2. Relationships
3. Living in the Wider World: economic wellbeing and being a responsible citizen

This policy also adheres to guidance from KCSIE (2023), which clearly states opportunities to teach safeguarding within the RSE curriculum which should include all statutory guidance, preventative education, remote education and online safety (points 129 - 148).

### **Policy development**

This policy has been developed in consultation with staff and from guidance from a range of sources including the PSHE Association, KCSIE (2023), NASUWT, ISI regulatory requirements guidance (2023), Heartsmart and the Key. The consultation and policy development process involved the following steps:

1. Review – Head of Prep pulled together all relevant information including relevant national and local guidance and wrote the policy to be consulted.
2. Staff consultation – all Prep school staff were given the opportunity to look at the policy and make recommendations. The Head of PSHCE in the senior school was also able to align the policy with the KS3 and KS4 RSHE policy.
3. Parent and Board consultation – parents and the Board at Abbotsholme were invited to read the policy and to give any feedback.

4. Ratification – once amendments are made, the policy is shared to the school web site.

## Curriculum and delivery

Our curriculum is set out as per Appendix I but we may need to adapt it as and when necessary. The Heartsmart curriculum is used as the basis for our PSHE and RHE curriculum however this is supplemented by other resources including CBBC Newsround, Twinkl mindfulness activities, the NSPCC and thinkuknow campaigns as well as Loudmouth Education groups. We also have a number of visitors throughout the year to supplement our PSHE including health professionals, including our school nurses, parent volunteers who share their careers, charitable organisations such as Cats Protection and Greenpeace as well as company initiative groups such as Severn Trent and Warning Zone.

We have developed the curriculum in consultation with parents, pupils and staff, taking into account the age, needs and feelings of pupils. If pupils ask questions outside the scope of this policy, teachers will respond in an appropriate manner so they are fully informed and don't seek answers online.

EYFS and our nursery follow the Early Learning Goals and therefore start to develop their awareness of relationships and health here. Children are encouraged to form good relationships with adults and their peers. In addition, they develop an awareness of their own views and feelings and are encouraged to be sensitive to the feelings of others. As part of their Understanding of the World curriculum the children learn about similarities and differences between themselves and others, and among families, communities and traditions.

In addition, the routines of good hygiene are reinforced on a daily basis. Assessment is undertaken through Family and children are assessed developmentally in the seven areas. Nursery and Reception have access to the Heartsmart scheme of work, however they may use this in collaboration with themed topics and areas of learning.

The curriculum within the Prep school is on a rotation of either Year A or Year B in Year 1 and 2 (KSI) and in Year 3 and 4. The only exception for this is the category on puberty and changing bodies whereby Year 4, each year, will be taught separately to Year 3 so that children are able to cover this area.

PSHE and RHE is taught through circle time, through cross curricular links in other subjects, specific PSHE lessons and in whole school and Prep school chapels in collective time where school and fundamental British values are reaffirmed. Our Forest school and Outdoor Education provision is also used as time to reflect on the positive decisions and school values in a practical environment.

Relationships education focuses on teaching the fundamental building blocks and characteristics of positive relationships including:

- Families and people who care for me
- Caring friendships
- Respectful relationships
- Online relationships
- Being safe

AN EDUCATION FOR LIFE

These areas of learning are taught within the context of family life - taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

Children in Prep are also taught about the beliefs and traditions of other faiths through separate teaching of Religious Studies. Within this subject, children gain an understanding about different faiths, however there is no promotion of one faith over another. The subject supports the promotion of respect to others and a culture of tolerance and diversity. Children in Year 5 visit the Open Centre annually to visit different places of worship and meet people of different beliefs and cultural backgrounds.

## Roles and responsibilities

The school board and Headmistress will approve the PSHE and RHE Prep policy.

Staff are responsible for:

- Delivering RHE and PSHE in a sensitive way
- Modelling positive attitudes to RHE and PSHE.
- Responding to the needs of individual pupils

Class teachers in the Prep school are responsible for teaching the RHE and PSHE curriculum.

## Legislation

The documents that inform the Prep school's PSHE and RHE policy include:

- Education Act 1996
- Learning and Skills Act (2000)
- Education and Inspections Act (2006)
- Equality Act (2010)
- Supplementary Guidance RSE for the 21st Century (2014)
- Keeping children safe in education (2023)
- Children and Social Work Act (2017/2020)
- ISI update to School (June 2022)
- Links with other policies

This policy links with our school policies for Safeguarding, anti-bullying code and policy, equality opportunities and diversity policy, SEND policy, disability policy, fundamental British Values, prevent duty approach policy and remote online provision.

# ABBOTSHOLME

AN EDUCATION FOR LIFE

Pupils are expected to engage fully in RHE and, when discussing issues related to RHE, treat others with respect and sensitivity. This is underpinned by our school values of respect, honesty, humility, integrity and courage.

## **Parents' right to withdraw**

Parents do not have the right to withdraw their children from relationships and health education or personal, social, health and economic education.

If there is any change in the curriculum regarding Sex Education in the Prep school then parents will be informed and consent requested from all parents and guardians.

Alternative work will be given to pupils who are withdrawn from sex education, if this does occur.

## **Monitoring arrangements**

The delivery of PSHE and RHE is monitored by Head of the Prep school through:

Learning walks, work scrutiny and pupil voice.

Pupils' development in RHE is monitored by class teachers as part of our internal assessment systems and effort grades are given in each termly report. In the final academic term, teachers comment on children's engagement and work.

This policy will be reviewed by the Head of Prep annually. At every review, the policy will be amended and adapted. The policy is available on the School web site. The next annual review date is January 2025 unless statutory guidance is amended prior to this.
