						F. LEGISLATIVE REPORT	
						➤ Mr. Pitton reported the Colorado legislative session has ended. Prior to ending the sessions, a committee was formed to study a proposed mill levy bill that would require the state to match any mill levy increases passed at the county level. If passed this bill would allow districts to ask for a smaller amount to possibly add days to the school calendar or increase salaries.	
						G. AUDIENCE COMMENTS	
						➤ Sandy Richmond, Grand Junction 81503	
						Ms. Richmond, a concerned citizen and grandmother, feels the District is indoctrinating students with political ideologies contrary to Christian and patriotic beliefs. Some of the political ideologies she listed were Critical Race Theory (CRT), diversity, inclusion, equity, liberalism, racial and gender ideology, the glorification of homosexuality and more. She feels such ideologies create an unnecessary division and attempts to shame students into believing they are homophobic or racist for having different opinions or beliefs. She noted such ideologies will squelch free thinking and free speech and override a parent's responsibility to raise their children in the fear and admonition of the Lord, according to the bible. She noted the students do not belong to the District but rather to the parents and the District's role should be to teach students only the basics: reading, writing and arithmetic.

						<p>➤ Wreadith Jacob, Grand Junction 81507 Ms. Jacob reminded the Board that District employees work for the tax payers and the students belong to their parents. She is upset that the students and parents have had to listen to Superintendent Sirko's views regarding sports, dances, playground protocol, masks and vaccination. She noted it is the parents and guardians' role and right to make medical decisions for their students and the District cannot require vaccines for anyone. She was informed the District was adding curriculum and a highly paid position for equity, social justice, diversity and inclusion, which are chosen euphemisms to hide Marxism and CRT. She wants the District to focus on high academics to raise student's test scores which has nothing to do with equity, social justice, diversity or inclusion.</p> <p>➤ Sarah Fletcher, Grand Junction 81507 Ms. Fletcher reiterated what Ms. Richmond shared in that District employees work for the citizens and schools are not indoctrination camps. She reported people are angry at the District because they are teaching children that America is a racist society of hierarchy that demonizes whites and halts all debate. The District is rejecting people who do not agree with them and instead are listening to teachers, liberals and special interest groups such as Black Lives Matter (BLM) and Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ). The District does not have the right to indoctrinate students about controversial subjects or medical advice. The District needs to teach only the basics: reading, writing and arithmetic.</p> <p>➤ Jose Lewis Chavez, Fruita 81521 Mr. Chavez shared he has been listening to people speak against the Equity and Inclusion Director position. People feel the word "equity" is communist. He noted many feel we should concentrate on equality, yet to be equal means everyone starts at the same place and everyone did not start at the same place. He noted, per an audit of the District, the District is not equitable in hiring practices and curriculum. He elaborated that Board meetings are not equitable in that they do not offer translation or signing for those who do not speak English or are hearing impaired. The position of Equity and Inclusion is not a new position and in hiring this person the District is becoming more courageous in helping students grow and learn what is equitable in life. Teachers need to agitate the thoughts of their students to help them grow to become a well-rounded person.</p> <p>➤ Denise Rodriguez, Grand Junction 81505 Ms. Rodriguez thanked the Board for everything they do. She spoke on the position of Director of Equity and Inclusion. She has been a member of the community for the past seventeen years and has worked with community members who do not have a voice and cannot be heard. She supports the position of Director of Equity and Inclusion.</p> <p>➤ Kasey Watts, Grand Junction 81501 Ms. Watts, the mother of a twelve and a ten year old boy, reported she was forced to home school her students last year, due to the District's mask mandate. She would like her students to return to in-person learning and questioned mandates for the fall school program. She quoted facts from the New England Journal of Medicine on how masks don't work. She feels</p>

						<p>requiring students, who are not vaccinated, to wear a mask would be discriminatory and the District should not be encouraging or mandating vaccines as they are experimental and not authorized by the Food and Drug Administration. She quoted information from the Center of Disease Control regarding COVID deaths.</p> <p>➤ Debrah Moorland, Fruita 81521 Mrs. Moorland, age 74, shared she has several underlying factors which would make her high risk for COVID, yet she has remained healthy. She shared children should not be shamed and guilted into wearing masks by telling them they are killing old people. She reported there is important information, that has been suppressed, about early intervention therapeutics that are effective alternatives to the COVID vaccines. She feels people are being coerced, bribed and shamed into getting the vaccine. She summarized masks and vaccines are not necessary.</p> <p>➤ April Schulte-Barklay, Grand Junction 81506 Mrs. Schulte-Barklay, a health care practitioner and a parent of twins, noted the District needs to take responsibility of protecting students' health. She reported she home schooled her twins due to masks and social distance mandates. She feels masks do nothing to stop the spread of the virus. She feels the District has been lead in the wrong direction by the governor and media in supporting masks and vaccines. She reiterated it's the District's responsibility to protect the students' health. She does not appreciate the government and media shaming those who choose not to be vaccinated. She does not want anyone hurting her kids and others, and requested people not follow the advice of the governor.</p> <p>➤ Mr. Kevin Barclay, Grand Junction 81506 Mr. Barclay has studied non-verbal communication. He asked if the Board has heard anything compelling enough to change their position on masks and vaccines. He shared he is 65 years old and has ten year old twins he is home schooling. As the Executive Director of the National Alliance of Mental Illness he knows Mesa County has had problems with mental illness for over 100 years and fills a crisis is headed our way. He noted even the Indians living in the area wouldn't come down into the valley because they felt death resides here. He expressed a need to figure out the problem with mental illness. He reiterated vaccines are experimental and those administering the vaccines have no liability. He asked what we are going to do different to protect the people of our county.</p> <p>➤ Margot Gates, Grand Junction 81501 Ms. Gates asked questions about the new positon of Equity Director. She inquired who was hired, their qualification, why they were hired, what trainings will the teachers be given, what surveys will students be required to complete and will students be required to do race walks or read material on whiteness. She feels her intelligence was insulted by her employer when she had to attend diversity training to learn how to fairly treat her coworkers. She asked if the District would be insulting teachers in the same way. She noted there are already strong anti-discrimination laws with penalties. She shared her heritage is from several different nationalities including two native American tribes, Spanish, Hebrew, English, Welch and Hungarian. She questioned if</p>

						<p>she is Hispanic, Jewish or white. She questioned if students will need to take a DNA test to determine their race to know what advantages they need and how they should be treated in the educational system. She feels treating someone according to their race is practicing CRT which is based on Marxism and communism.</p> <p>➤ Mike Redeker, Fruita 81521 Mr. Redeker, spoke against CRT or World Language, as some are calling it, which has its roots in communism and is the grandchild of Critical Theory from 1937. He noted the 1937 Critical Theory comes from Marx, who was a Lutheran Christian, but abandoned his Christian faith and substituted his belief in God with a humanistic philosophy of socialism and communism. He noted many other movements have their roots in communism such as CRT, Equity and Inclusion, 1619 Project, Antifa and Black Lives Matter. He shared the definition of religion by the Supreme Court and reminded the Board they work for the people and the children who attend District schools are not their children but belong to the parents. He reported other states and school districts are banning CRT.</p> <p>H. SUPERINTENDENT'S REPORT</p> <p>H-1. Budget Update</p> <p>➤ Mrs. Melanie Trujillo, Finance Director, and Mr. Phil Onofrio, Chief Operations Officer, presented information on changes to the 2021-2022 budget up for adoption, at this meeting, in comparison to the budget presented at the May 25, 2021 meeting. Since the meeting in May, state legislators finalized the School Finance Act and passed legislation shifting the way funding for at risk students is allocated from one time funding to adjustments of the per pupil revenue. The shift will result in slightly less funding this year, for at risk students, but will benefit the District in the long run. Mrs. Trujillo noted adjustments were made in expenditures to compensate for salary increases for numerous classified positions. The increases were approved through the Compensation Oversight Committee to raise those wages to a fair market level. Highlights of the budget such as, a decrease in the state's Budget Stabilization Factor, an increase in staff salaries and an increase in Fund Balance Reserves were shared. Comparison data was displayed noting the District is behind all competing and similar districts with the percentage of funds held in reserve. Mr. Onofrio and Mrs. Trujillo explained the need to have a strong reserve and recommended the Board consider adopting the proposed resolution to hold the fund balance of not less than 8% and if possible not less than 10%.</p> <p>➤ Mr. Pitton questioned line items in the budget for funds being paid to the City of Grand Junction. The funds are required to pay for School Resource Officers, facility usage and facility improvements. It was clarified a new \$100 thousand facility improvement fee would be included for the next ten years, along with a reduction in usage fees. The usage fee budgeted is based on the previous year's user fees since the new fee rates have not been issued and usage amount determined.</p> <p>[Recess 6:43 p.m. Resume 6:58 p.m.]</p>

Grand Junction High School Forensic Study Update

D51 School Board members on Tuesday agreed that pursuing a new Grand Junction High School complete with a new gym would be more cost-effective and provide a better facility overall for years to come than trying to build a new school around the aging gym facilities.

Knott Laboratory performed a Facility Condition Assessment of the gyms at GJHS and presented the results at Tuesday's board meeting. The

findings were not encouraging. The 65-year-old main gym would need significant repairs and modifications in order to keep functioning, including replacement of the plumbing system, HVAC and electrical repairs, installation of a fire suppression system, and asbestos abatement. More troubling, shifts in the foundation under the gym have caused cracks, separation, deterioration, and bowing in the masonry walls, and masonry walls infilled between steel do not meet seismic requirements. To prevent further damage, builders would need to remove the gym floor and install an estimated 350-400 piles under the gym. Even then, the slabs are still prone to heaving, and the foundation would be in better shape, but not as good as a brand new foundation.

FCI and Shaw estimated what it would cost to build a new Grand Junction High School with a new gym or a renovated gym. FCI estimated that rebuilding GJHS while retaining the old gym would actually cost nearly \$900,000 more than an all-new building, and Shaw estimated that retaining the gym instead of building a new one would save only half a million dollars given all of the considerations above.

Now that the board has selected an all-new, three-story building concept, the next step is to complete a schematic design and submit the design to builders in order to estimate the cost of reconstruction. Once that cost has been determined, the board can vote later this summer on specific ballot language for a bond measure. Until then, a bond measure is not official.

MathLeague Recognition

The board recognized New Emerson students Jeremy King, Leah Kuzminski, and Perry Qiu for qualifying for the National MathLeague Competition! They each qualified for nationals by placing in the top three in their grade level at the State MathLeague Competition on May 15. MathLeague is a mathematics competition offered to students around the world. Perry, Jeremy, and Leah were entirely self-motivated to participate in the Math League competition. They took the initiative to ask their teachers for help and encouraged their parents to help them participate in the competition. Their hard work and persistence paid off, and their performance at state is a celebration for all of District 51.

2021-22 Budget Presentation

One of School District 51's top priorities for the 2021-22 budget is appropriate compensation for staff to retain existing employees and attract new talent. In

keeping with this goal, the proposed budget offers teachers, counselors, instructional coaches, curriculum specialists, and school psychologists an average increase of 10% in salaries and restores two furlough days, with starting teachers with a bachelor's degree making \$41,000. Other D51 employees will receive an increase as well, averaging 8%. Subs in various positions will also receive a market adjustment, and elementary counselors will have their contracts increased by two days.

The proposed 2021-22 budget has a net increase in funding due to staffing adjustments and a proposed state revenue increase. The School Finance Act introduced May 11 in the Colorado Senate and currently in the House will likely send \$8,420.68 per student to District 51 in 2021-22, up from \$7,661.98 in 2020-21. The School Finance Act generates a dollar amount for each Colorado school district based on enrollment and other factors, then fulfills that amount using local property and vehicle registration tax revenue, mixed with state funding from numerous sources. About a third of this funding comes from local sources. In addition to an increase in state funding formula dollars, D51 anticipates a \$226,832 increase in anticipated mineral lease revenue.

The district has received \$3.2 million of one-time funding from federal ESSER I (Elementary and Secondary School Emergency Relief) dollars and is anticipating more COVID-related funding is on the way from ESSER II and III over the next three years.

Additionally, the Colorado Supreme Court ruled constitutional a tax change that would bring in additional annual revenue for school districts and would not rely on voter approval. The court ruled that mills from previous years were erroneously reduced, and their ruling would allow districts to recoup this funding in the future. In District 51, this would lead to a \$1.99 million local increase and a \$197,339 state increase. One mill at a time, D51 plans to move up from 24.214 mills to 27 mills. The estimated impact of an increase of 1 mill on a \$300,000 home based on 2020 assessed valuation is \$21.45 per year.

College and Career Readiness Update

District 51 has a long roster of career and college readiness options. A few programs and data points discussed with the board Tuesday night include:

Pathways in Technology Early College High Schools: PTECH has grown from offering three associate's degree pathways in the Science, Technology, Engineering, and Math field to Central High students in 2019-20 to offering 13 pathways total with 200+ kids enrolled for 2021-22 at Central, Grand Junction High, and the Career Center.

Industry Credentials: D51 has gone from one student earning an Industry Credential to qualify them for the workforce in 2016-17 to 410 students earning credentials in 2019-20.

Concurrent enrollment: While concurrent enrollment, or enrollment in college courses either on the CMU, WCCC, or high school school campus, dropped statewide during COVID-19, D51's numbers continue to increase. Overall, 899 students earned 8,245 college credits in 2019-20, up from 807 students earning 6,257 credits in 2017-18.

Career Pathways: D51 students continue to have the opportunity to experience job apprenticeships, internships, and job shadowing and explore 40-plus Career-Technical Education programs serving grades 6-12. One of the newest CTE opportunities is a Fire Academy at Central High offered in cooperation with Clifton Fire Department.

Strategic Plan

VISION

Engage, Equip, and Empower Our Learning Community Today for a Limitless Tomorrow

MISSION STATEMENT

To lead all students to reach their individual potential by rigorously pursuing and evaluating achievement of high academic and ethical standards in a disciplined, nurturing environment.

STRATEGIC PLAN PROCESS

In the fall 2010, the Mesa County Valley School District commissioned a Comprehensive Assessment for District Improvement (CADI) review to be completed. The results of the review along with recent assessment data and the need to focus on raising student achievement resulted in the District adopting a new strategic planning process. The first step of this process was to have the executive cabinet complete a short-term plan with a long-term outlook. This short-term plan guided improvement efforts and provided focus for the organization until the long-term plan was completed.

A Long-Term Planning Committee was organized in December, 2011. This committee which was comprised of parents, staff members, community members and leaders, and business leaders conducted numerous focus groups and drafted long-term goals for the District. Subsequently, these goals were modified slightly by the Board of Education and adopted. Executive Cabinet was responsible for developing objectives, strategies and action plans for achieving these goals.

The following questions are addressed during the process:

1. Where are we now?
 - Review available data including assessment growth results and trends, Organizational Health, and the CADI review results
2. Where do we want to be?
 - Review and update the District's mission and vision
 - Identify the gaps that need to be addressed between where we are now and where we want to be
3. How will we close the gaps/how will we get there?
 - Defined long-term goals
 - Defined measurable objectives to meet those goals
 - Documented strategies to achieve objectives
 - Completed action plans to implement strategies
 - Assigned personnel to be responsible and accountable for completing the action plans
4. How do we measure and monitor our progress?
 - Established process for monitoring progress including specific deadlines
 - Identified key performance indicators to assess impact of efforts

The five long-term goals adopted by the Board of Education are:

1. Increase student growth and achievement in Literacy, Math, Science and Social Studies by focusing on curriculum, instruction and assessment.
2. Promote shared responsibility for student learning through students, schools, families, and community members working together.
3. Ensure effective educators and high quality leaders throughout the District.
4. Improve organizational efficiency and effectiveness through increased accountability and communication
5. Promote public awareness and community support for public education.

Measurable objectives and strategies targeted for achieving these goals by 2017 have been developed. Action plans including tasks and timelines are in place and will be used to direct work and spending decisions over the next 5 years. The progress on action plans will be monitored by the Executive Team and reported to the Board of Education on a regular basis.

This is now being deployed throughout the District. It is critical for all employees to be aware of and understand the strategic priorities of the District. The interim plan will be used to guide decision making in the District including where funds will be spent and where people will place their efforts. The following page shows the 2013-2014 goals and objectives, which are ongoing.

COMMITTEES

Colorado Revised Statutes, C.R.S. 22-7-102 to 22-7-104, require “an accountability and parental and community involvement program to define and measure academic and safety quality in education.” The District Accountability Committee (DAC) fulfills that requirement. DAC serves as the primary community advisory for strategic plan implementation, progress monitoring, and reporting.

DAC assists each school with a review of their Individual School Improvement Plan (ISIP) annually. They gather input from school advisory committees on prioritization of expenditures and make recommendations to the Board of Education. DAC also reviews charter school applications.

2021-2022 General Fund Expenditure Summary

PERA On-Behalf Fund

The State of Colorado will provide a direct payment to Colorado PERA (Public Employees' Retirement Association) in the amount of \$225 million on July 1, 2021; renewing their commitment to the long-term viability of PERA.

The payment, made on-behalf of PERA covered employers, is allocated based on the proportionate amount of annual payroll to the School Division Trust Fund, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. GAAP (Generally Accepted Accounting Principles) require each entity to report its proportionate share of the on-behalf payments as both a revenue and expenditure. Because these offsetting entries have no financial impact on district operations, we have chosen to record them in a new stand-alone sub fund to the General Fund.

Colorado PERA does not provide the calculations of each district's proportionate share of on-behalf payments until after year-end. As such, budgeted amounts represent a conservative estimate based on prior years' data.

Total Expenditure = \$5,000,000
Per Pupil Expenditure = \$237.13

2021-2022 Mill Levy Override (2017) Expenditure Summary

Colorado Preschool Program

Colorado preschool programs were established in January 1989, according to C.R.S. 22-28-104. "The purposes of the program are:

- To serve four-year- and five-year-old children who lack overall learning readiness due to significant family risk factors, who are in need of language development, or who are receiving services from the state department of human services pursuant to article 5 of title 26, C.R.S., as neglected or dependent children and who would benefit from participation in the state preschool program;
- To determine the school districts in which participation in the state preschool program would be beneficial;
- To establish criteria to be followed by school districts in establishing district preschool programs; and
- To encourage parents to participate with their children in district preschool programs." (C.R.S. 22-28-104 [1])

The 2001 legislature established SB 01-123 concerning the required expenditure for the school district's preschool and full day kindergarten programs. Guidelines for establishing this fund include:

- For fiscal year 2001-2002 and every year thereafter.
- The district shall budget an amount equal to the district's PPOR (per pupil operating revenue) multiplied by the district's preschool FTE (October count).
- Such budgeted amount shall be allocated to the "Preschool and Kindergarten Program Fund." (SB 01-123)

Beginning in 2014-15, the Colorado Preschool Program was approved for expansion by the Colorado General Assembly. Additional slots for ECARE (Early Childhood At-Risk Enhancement) became available to allow the existing program to serve a greater number of CPP eligible preschool and kindergarten children. As a result of this legislation, District 51 applied for and received additional slots through ECARE.

In 2019, House Bill 19-1262 was passed providing funding for full-day kindergarten beginning in the 2019-20 school year. As a result, all current ECARE slots were converted to slots for preschool programs.

Fiscal year 2021-22 budget is based on 286.5 FTE.
 $286.5 \times \$8,501.28 = \$2,435,617$

Total Expenditure = \$ 2,730,455

It is the desire of both the district and the charter school that the charter school be accountable to the Board and subject to the ultimate authority of the Board, but that the Board grant the charter school flexibility to achieve successful educational results in new and innovative ways. The charter school is designed to increase the educational opportunities of at-risk pupils within the meaning of sections 22-30.5-103 and 109(2), C.R.S.

The revenue for the 2021-22 school year is based on 440 FTE.

Per Pupil Revenue \$8,501.28 X 440 FTE = \$3,740,563

Juniper Ridge Community School

Juniper Ridge Community School is a multi-cultural K-8 charter school using an arts and nature-based curriculum rooted in the Waldorf tradition.

A great body of research suggests the Waldorf approach of using art, nature, and a unique understanding of child development helps all children—regardless of aptitude or socio-economic status--reach remarkable academic and personal success. Waldorf-inspired graduates love to learn and continue to seek knowledge far beyond the last day of school, becoming highly valuable employees and community members.

Traditional Waldorf schools are tuition-based and often inaccessible to all but a small tier of students. JRCS believes this outstanding educational model should be available to all children, regardless of finances, which is at the heart of the creation of this outstanding school.

The revenue for the 2021-22 school year is based on 397 FTE.

Per pupil revenue $\$8,501.28 \times 397 \text{ FTE} = \$3,375,008$

Total General Fund Expenditure = \$3,872,210
Per Pupil Expenditure = \$183.64

Mesa Valley Community School

In 2007, a group of families and community members in the Grand Valley began exploring the idea of blending homeschooling with public schooling, keeping the best of each and making a hybrid more robust than either alone.

After negotiating a contract with School District #51, Mesa Valley Vision—Home and Community Program opened its doors for the first time. The 2008-09 school year was the first of six great years of operation for MVV. Families liked the opportunities MVV provided, and the school did very well, getting excellent performance ratings.

In 2013, it became clear that the structure of MVV as a contract school would be impossible to maintain and the difficult decision was made to close the doors of MVV at the end of the 2013-14 school year.

However, many people were not willing to let this great idea die. Too many students had benefited from being able to pursue a personalized learning plan supported by District and private resources. A group of people worked hard to create a new school which would fill the gap that MVV was leaving behind. This school would also be built on the solid principles of personalized education in a variety of environments.

In early 2014, an application for Mesa Valley Community School to become a District #51 charter school was submitted for approval and the new school opened its doors for the 2014-15 school year.

The revenue for the 2021-22 school year is based on 397.08 FTE.

Per pupil revenue $\$8,501.28 \times 397.08 \text{ FTE} = \$3,375,688$

Total General Fund Expenditure = \$3,923,125
Per Pupil Expenditure = \$186.06

2021-2022 Nutrition Services Revenue Summary

2021-2022 Nutrition Services Expenditure Summary

Physical Activities

This fund accounts for most of the revenue and expenditures associated with athletic programs in the four high schools. Actual costs for student athletics and activities are split between two different funds. The General Fund covers salaries and benefits for coaches, activity sponsors, and athletic directors, as well as such indirect costs as maintaining athletic fields, utilities for athletic facilities, and supplies. Revenue from gate receipts and student participation fees are reported in the Physical Activities Fund. District 51 believes that student participation in athletic and activity programs is essential for a well-rounded education. In order to allow as many students as possible to participate, fees need to be kept within reasonable limits. Therefore, District 51 chooses to fund a part of the costs associated with these activities.

Total Expenditure = \$786,000
Per Pupil Expenditure = \$37.28

Beginning in fiscal year 2020-21, Governmental Accounting Standards Board (GASB) Statement No. 84 requires that Student Body Activity funds which were previously reported as Trust and Agency Funds, now be reported as Special Revenue Funds.

Bond Redemption

The Bond Redemption Fund is required by state law to provide revenue for repayment of bonded indebtedness which has been approved by the voters. Property taxes are levied each year in an amount sufficient to cover only the required principal and interest payments. These are long term obligations of the school district and by law, monies in this fund cannot be used for any purpose other than to retire voter approved debt.

Colorado Revised Statutes, Section 22-42-104, provides a maximum bonded indebtedness of "twenty percent of the latest valuation for assessment of the taxable property in such district, as certified by the assessor to the board of county commissioners."

This Bond Redemption Fund Budget Summary accounts for the property taxes received and the payment of principal and interest on the district's 1996 General Obligation Bonds, 2004 General Obligation Bonds, and 2018 General Obligation Bonds.

Approved by the voters in November 1996, the 1996 General Obligation Bonds were approved to build two new elementary schools and one middle school, as well as to extend current building capacities.

The 2004 General Obligation Bonds were approved by the voters in November 2004. These bonds were approved to build two elementary schools and an 8/9 school, replace a middle school and an alternative school, and provide maintenance and upgrades to existing sites.

Approved by the voters in November 2017, the 2018 General Obligation Bonds were passed for priority 1 maintenance projects, the replacement of Orchard Mesa Middle School, technology upgrades, a gym at Dual Immersion Academy, an auxiliary gym at Palisade High School, and security features at schools across the district.

Total Expenditure = \$17,125,357
Per Pupil Expenditure = \$812.17

Capital Projects

Capital Projects Fund is funded by monies allocated pursuant to the provisions of section 22-54-105(2) CRS transferred from the General Fund. Such revenues may be supplemented by gifts, grants and donations. Per student amount to be transferred is determined each fiscal year. The amount is dependent upon state funding received by the state. Funding is then distributed to the general fund, capital projects and insurance funds.

According to CRS 22-45-103 (1)(c), expenditures from the fund shall be limited to long range capital outlay expenditures and shall be made only for the following purposes:

- Any acquisition of land, improvements, construction of structures or additions to existing structures, and acquisition of equipment and furnishings;
- Alterations and improvements to existing structures;
- Acquisition of a school vehicle, or other equipment;
- Any installment purchase agreements or lease agreements with an option to purchase for a period not to exceed twenty years and any lease agreement without the option to purchase;
 - Any software licensing agreement;
 - Acquisition of computer equipment.

Expenditures from the fund shall be authorized by a resolution adopted by the Board of Education at any regular or special meeting of the Board. The resolution shall specifically set forth the purpose of the expenditure; the estimated total cost of the project; the location of the structure to be constructed, added to, altered, or repaired; a description of any school buses or equipment to be purchased and where such equipment will be installed.

The budget is structured to provide authorization for expenditure of all possible funds which may be available. This includes possible balances that remain from previous projects, estimated carryover funds from the preceding year, and new revenue for the budget year. Any balance remaining upon completion of any authorized project may be encumbered for future projects which are authorized as provided in C.R.S., Section 22-45-103(c).

Total Expenditure = \$5,287,322

Per Pupil Expenditure = \$250.75

Medical Insurance

On November 11, 2003, the Board of Education approved the option to move to self-funding for employees' medical coverage. This health benefit plan for employees became effective January 1, 2004.

Self-funded plans are health plans developed and managed by the school district. The district uses a third-party administrator to support the plan. Under the self-insured arrangement, the district chooses to retain the risk rather than pass it on to an insurance company or Health Management Organization (HMO). Both the employee and employer may make monetary contributions to fund the plan, as with a traditional health insurance program.

In order to insure against catastrophic losses, the district purchases "stop loss" insurance.

Insurance

Colorado Revised Statutes, Section 22-45-103, allows school districts to maintain a fund created solely for the management of risk related activities. The Insurance Fund is funded by a transfer from the General Fund. Activities for this fund include:

- Pure self-insurance needs for property, liability, and workers compensation
- Aggregate contributions for organized and licensed pool participation
- Accumulation of funds to meet future self-insurance needs
- Insurance premiums paid to commercial insurance firms
- Staff wellness programs
- School safety and security

Coverage for property and liability is through membership in the Colorado School Districts Self Insurance Pool. Participation in pools and associations help keep costs to the district as low as possible.
