This document was developed by the Resource Materials and Technology Center for the Deaf/Hard of Hearing, a special project funded by the State of Florida, Department of Education (FDOE), division of Public schools and Community Education, Bureau of Exceptional Education and Student Services (BEESS) through federal assistance under the Individuals with Disabilities Education Act (IDEA), Part B and IDEA Part B Trust funds and through an agreement with the Florida School for the Deaf and the Blind.

Revised 03/2024
Established in 1978 by the Florida Legislature, the Resource Materials and Technology Center for the Deaf/Hard of Hearing (RMTC-DHH) is a statewide discretionary project of the Florida Department of Education, Bureau of Exceptional Education and Student Services (BEESS). RMTC-DHH functions as a statewide specialized center within the Florida Diagnostic & Learning Resource System (FDLRS) network.

RMTC-DHH staff members provide training, technical assistance, and resources to school districts, agencies, associations, families, and other state and federal discretionary projects working with students who are deaf or hard of hearing in Florida.

Services from RMTC-DHH are provided by request and at no charge to the school, district, or organization.

RMTC-DHH works collaboratively with all Florida stakeholders to positively influence outcomes of students who are deaf or hard of hearing in preparation for college, career, and life.
