

FEBRUARY 2024

# OSHKOSH AREA SCHOOL DISTRICT PROJECT PROGRESS REPORT

## CONSTRUCTION UPDATE

Mild weather has allowed construction crews to make great strides at Menominee Elementary School, with different phases of work occurring throughout the building. The two-story portion is the closest to completion with brick and windows installed on the exterior, along with drywall and ceiling grid being installed on the interior. The remaining portion of the building is in a variety of finish states, with the gymnasium having received paint and the southern academic area and the admin/music/art areas receiving load bearing walls and concrete floors. The phasing of this building will likely remain the same throughout the remainder of construction with the two-story portion being finished first. However, the project remains on track to be completed in early August.

Environmental branding efforts are wrapping up over the next month. The District is planning on placing the graphics in strategic locations through the building to serve as daily learning opportunities. The goal is to incorporate engaging "seek and find" elements, concealing lessons on nature-related sciences, the Menominee Nation, and Oshkosh imagery. This approach allows students to continuously explore and learn as they navigate through the school environment. Two preliminary design concepts, which are subject to change, are shared below and on the following page.

## WHAT'S NEXT?

- » Painting will begin in the two-story academic area.
- » Exterior brick and stone will continue to be installed.
- » Final sections of roofing will be installed over the single-story portion of the building.

PRELIMINARY ENVIRONMENTAL GRAPHIC ADJACENT TO CAFETERIA ON FIRST FLOOR
