## KEY TAKEAWAYS

Our board meeting agendas often include many items for discussion. While you will always be able to review the agenda, meeting minutes and video recordings of these meetings on [our Board webpage](#), this Board Bulletin provides key takeaways for our Stevenson community.

- 1** The Fine Arts Division's Art Team presented an update on their ongoing journey to incorporate social emotional principles into the art curriculum. Their efforts have been focused on identity and belonging. At the same time, the faculty members have witnessed positive growth in students' ability to give and receive feedback. This and other team building activities have resulted in improved student sense of identity and belonging in art classes. While students struggled initially, they eventually learned to embrace and even welcome feedback from others while also improving their own individual ability to give critical feedback in a respectful and collaborative way. The process of providing and receiving feedback is an important and critical skill that students can carry forward well after high school.
