Ways to use Halo AR to Add ASL in the Classroom

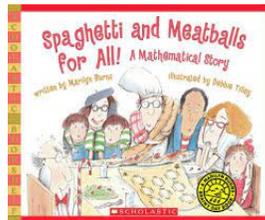

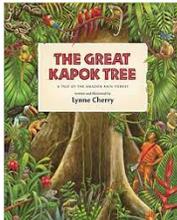

[Halo AR](#) is a free app that allows anyone to create with augmented reality by connecting digital content with the physical world. Create [accessible instructional materials \(AIM\)](#) using the Halo AR app in three easy steps.

1. Take a picture of an image on a page in a book or other flat object to create a trigger.
2. Choose an ASL video of the text (or other media) to overlay on top of the trigger.
3. Save it with a name.

Optional: Share it via a link or QR code.

RMTC-DHH has created three sample collections so you can try the app.

Follow @RMTC_DHH on the app. Share your collections with RMTC-DHH, info@rmtcdhh.org.
