- ✓ Without this program I would've been totally lost. Mr. Rotondo & Mrs. Carolan offered solid, constructive advice.

--**Nick Mehno** '20 *Hofstra University*; BFA in Acting

- ✓ I walked into the college essay program with a draft in-hand and left with something entirely different, an essay that really told a story about who I am. Mrs. Carolan and Mr. Rotondo helped me take some retrospective ideas and craft it into a well-thought out, light-hearted paper that really highlighted what I wanted my colleges to know about me. This is one of the hardest essays a student will have to write and I genuinely do not think I could have done it without their help.

--**Nola Gialanella** '20 *Fordham University Rose Hill*; English

I thought writing my essay would be the most stressful aspect, but Mrs. Carolan and Mr. Rotondo helped me form an essay that I was proud of and confident in. It really captured who I am as an individual and what I wanted to portray to my future college. They helped me put my best foot forward and took so much weight off my shoulders. I can proudly say that my college essay represented me as an individual and I am happily accepted and will be attending my dream school.

- ✓ The college essay program was amazing. It helped me focus my thoughts on what I really wanted to do when going to college and it made me extremely confident and have no second doubts about sending the essay to the schools. I highly encourage people to do it especially those who are unsure about their ability to write the essay or how the college might view it.
