

American Rescue Plan (ARP) Act Six-Month Review Assurance Form-Final Review

Directions: Selecting the checkbox is the digital signature for the specified local education agency (LEA) personnel. If necessary, upon request, the LEA could provide documentation demonstrating that they are actively meeting the requirements of this ARP Act provision.

District/LEA	Click or tap here to enter text.		
<input checked="" type="checkbox"/>	The LEA assures that it is actively monitoring the use of the American Rescue Plan Act funds under the requirement that an LEA that received ARP ESSER funds developed, submitted to the SEA, and made publicly available on the LEA's website, a plan for the LEA's use of ARP ESSER funds. The plan and any revisions to the plan should be consistent with procedures through the completion of the grant.		
<input checked="" type="checkbox"/>	The LEA assures that between October 22, 2023, and April 22, 2024, the LEA has periodically, but no less frequently than every six months, reviewed and, as appropriate, revised its American Rescue Plan Act plan. Consistent with section 2001(i)(2) of the ARP Act, the LEA sought public comment on the development of its plan, sought public input, and took such input into account in determining whether to revise its plan and, if it determined that revisions were necessary, the changes were made to its plan.

American Rescue Plan (ARP) Act ESSER III-LEA Application

Name of LEA	Dodge County Schools		
Date of Submission	03/21/2024	Original Budget	<input type="checkbox"/> Amendment # 4 (CFDA #84.425U)

APPLICATION CONTENTS

- Assurances
- LEA Overall Priorities
- Learning Opportunity Loss Plan
- Use of Funds
- Implementation of Preventive & Mitigation Strategies (Return to In-Person Instruction)
- Learning Opportunity Loss Plan Appendix

ASSURANCES

Select each box within each category of assurances. NOTE: Selecting a checkbox is the digital signature for the specified local education agency (LEA) personnel in the assurance.

<input checked="" type="checkbox"/>	<p>An LEA that receives ARP ESSER funds will develop, submit to the SEA, and make publicly available on the LEA's website, a plan for the LEA's use of ARP ESSER funds. The plan, and any revisions to the plan will be submitted consistent with procedures.</p> <p>The LEA assures that ARP ESSER funds will be used for their intended purposes, including:</p> <ul style="list-style-type: none"> • whether and how they will use the funds specifically for COVID-19 prevention and mitigation strategies, • how the funds will be used to address the academic impact of lost instructional time through the implementation of evidence-based interventions, • and how the LEA will ensure that those interventions respond to the academic, social, emotional, and mental health needs of all students and particularly those students disproportionately impacted by the COVID-19 pandemic.
<input checked="" type="checkbox"/>	<p>The LEA assures, during the period of the ARP ESSER award established in section 2001(a) of the ARP Act the LEA will periodically, but no less frequently than every six months, review and, as appropriate, revise its plan. Consistent with section 2001(i)(2) of the ARP Act, the LEA will seek public comment on the development of its plan, the LEA will seek public input and take such input into account in determining whether to revise its plan and, if it determines revisions are necessary, on the revisions it makes to its plan.</p>
<input checked="" type="checkbox"/>	<p>The LEA assures if they revise their plan, the revised plan will address each of the aspects of safety currently recommended by the CDC or, if the CDC has updated its safety recommendations at the time the LEA is revising its plan, the revised plan will address the extent to which the LEA has adopted policies, and describe any such policies, for each of the updated safety recommendations.</p>
<input checked="" type="checkbox"/>	<p>The LEA assures if a plan has been developed prior to the enactment of the ARP Act that meets the requirements under section 2001(i)(1) and (2) of the ARP Act, but does not address each of the required aspects of safety established in the interim final rule requirement, they will (as part of the required periodic review) revise the plan consistent with these requirements no later than six months after its last review.</p>
<input checked="" type="checkbox"/>	<p>The LEA assures the plan will be in an understandable and uniform format; to the extent practicable, written in a language that parents can understand or, if not practicable, orally translated; and upon request by a parent who is an individual with a disability, provided in an alternative format accessible to that parent.</p>

LEA OVERALL PRIORITIES

Please provide the top 2-3 priorities the LEA has determined as the most pressing needs for students and schools within the LEA as a result or in response to the COVID-19 pandemic. Please include the data sources that illustrate why these are the most critical and/or most widespread needs experienced by students and schools within the LEA.

PRIORITIES	DATA SOURCE
Learning Loss/Academic Regression	DRC Beacon/Benchmark Data, EOC/EOG Data, Attendance, MTSS Data
Emotional and Physical Safety of Staff and Students	Perception Data, Attendance, Discipline Data
Continuity of Services- Fund Balance	Performing Arts Center

Learning Opportunity Loss Plan

Purpose

This template should guide district decision making as they plan evidence-based interventions to support accelerated learning opportunities for students impacted by the COVID-19 pandemic. The template follows Georgia's Systems of Continuous Improvement Cycle, with a focus on the Coherent Instruction System.

"Accelerated learning and strong instruction are interdependent. You cannot accelerate learning with poor instructional practices in place, and you cannot have strong instruction if you cannot effectively support unfinished learning. Therefore, it is important to develop your leaders and teachers on the concepts and best practices of accelerated learning and strong instruction."

Embedded within the document are links to guiding questions and research that can support your decisions for interventions and provide guidance for how to implement the interventions.

Section Contents

- **Identifying Interventions**
- **Selecting Interventions**
- **Plan Implementation**
- **Implement Plan**
- **Examine Progress**

LEA ARP Plan LEA Website Link	https://www.dodge.k12.ga.us/departments/federal-programs
--	---

If the contents of this document are explicitly explained and included within a template created by the LEA and posted on the LEA's website, please include the reference to locate the contents of the plan above.

Identifying Needs

Provide data outlining district-wide learning opportunity loss, the current resources to support extended learning opportunities, and additional resources identified through the needs assessment process. Include data identifying learning opportunity loss among students disproportionately affected by the pandemic and school closures, including low-income students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care.

Guiding Questions

Responses

<p>What data needs to be collected and synthesized to determine student needs caused by learning opportunity loss?</p>	<p>The data that will be collected and synthesized by school and district administrators to determine the extent and impact of learning loss and academic regression will include, but will not be limited to: DRC Beacon for 3rd-8th grade students; Benchmark Data for K-12; EOC/EOG Data (December testing and April Testing); MTSS Data; Graduation Rate; Enrollment data, student attendance, staff attendance, credits earned, grades issued, GAA results, ACCESS for ELLs results, anecdotal records.</p>
<p>Analyze data to identify strengths and challenges and determine outcomes.</p>	<p>Dodge County Schools will continue to have in-person school for the 2022-2023 year. In the case of emergency or medical/mental concern, online instruction is available after administrator approval. Discipline rates have increased in 21-22, so more strategies and techniques to curb discipline issues are being implemented for the 22-23 year. Along with discipline data, the district reviews student achievement data in comparisons to the schools within the district and with the Resa district. Dodge county did improve in almost all areas from the 21-22 year, but still fall significantly behind when compared to other school districts in our Resa district. Because of that, ESSER funding will be used to allow teachers to use current and innovative methods to facilitate instruction and increase student achievement.</p>
<p>What are you currently using (interventions, strategies, resources, community partnerships) to address learning opportunity loss?</p>	<p>Credit recovery during the school day for grades 6-12 (DCHS, DCMS, DAC), tutoring at DAC; System social worker monitoring attendance and transmission data with school nurses; System Mental Health worker is evaluating and assisting in critical areas and students in crisis or students with significant mental health concerns; 21st Century program offering limited after-school tutoring; Summer school program for credit recovery, remediation, and acceleration; School wide RTI time (WIN-What I Need) for all students in grades K-8; Academic and Behavioral interventions</p>
<p>What data have you collected to know if current efforts have been successful?</p>	<p>Perception data (surveys); Benchmark Data; Universal Screener Data; Discipline data; Graduation Rate; Enrollment data; student attendance; staff attendance; credits earned; grades issued; GAA results; ACCESS for ELLs results; anecdotal records.</p>
<p>What data will you collect and analyze to identify ongoing needs?</p>	<p>(2024-2025) EOC/EOG Data, Benchmark data, Discipline data (2023-2024) EOC/EOG Data, Benchmark data, Discipline data (2022-2023)-EOC/EOG Data, Benchmark data, Discipline data (2021-2022)-DRC Beacon for 3rd-8th grade students; Benchmark Data for K-12; EOC/EOG Data (December testing and April Testing); MTSS Data; Graduation Rate; Enrollment data, student attendance, staff attendance, credits earned, grades issued, GAA results, ACCESS for ELLs results, anecdotal records.</p>

Selecting Interventions

Research many sources to determine the solutions that have evidence of meeting the identified needs. Select the evidence-based interventions that scale up and enhance existing academic programs and initiatives that accelerate academic progress. Interventions should address literacy, numeracy, credit-recovery, and needs for those students at-risk for not graduating.

- Consider all the evidence for needed improvements.
- Research possible interventions
- Determine if staff has the capacity to implement possible interventions.

This section is to inform the selection of intervention(s). No entries are required in this section.

Intervention Options

Considerations for Selection and Implementation

Class-Size Reduction

According to the research, things to consider with this intervention:

- Most effective in grades K-8
- Generally, class sizes of between 15 and 18 are recommended to ensure impact
- Teacher quality must be considered
- Physical space

[Link to the research in the appendix](#)

Extended School Day (before and after school)

According to the research, it is important to consider the impact of the school start and end time within the school context, on the community, on families, on students, as well as financial implications. Things to consider:

- Curriculum and alignment to content taught during the regular school day
- Transportation
- Meals and snacks
- Required accommodations for students
- Impact on extracurricular activities

[Link to the research in the appendix](#)

Extended School Year (adding days to calendar)

Extending the school day or year may bring non-instructional benefits, but little research-based evidence exists to support the possibility that student achievement will increase as well. The research literature indicates that time is a necessary but not sufficient condition for improving achievement. The crucial issue seems to be how the time is used, with quality of instruction being the key. Things to consider:

- Contracts of teachers and administrators
- Teacher and student burnout
- Parent buy-in to ensure engagement
- School breaks
- Transportation

[Link to the research in the appendix](#)

<p>High Frequency Tutoring</p>	<p>According to the research, the most effective tutoring programs share the following structure:</p> <ul style="list-style-type: none"> • Three or more sessions per week • 30-60 minutes per session • At least 10 weeks • Three to four students per group, but one-on-one or 1:2 tutoring is most effective, using teachers or paraprofessionals • Pair students with a consistent tutor throughout the program • Offer during the school day or immediately after • Align to grade-level or course standards • Use ongoing formative assessment practices to measure growth and make adjustments in delivery <p>Link to the research in the appendix</p> 
<p>Summer Programming</p>	<p>According to the research, the most effective summer programs share the following structure:</p> <ul style="list-style-type: none"> • Five to six weeks in duration • Five days of programming per week • 60-90 minutes of math and 90-120 minutes of reading/writing instruction per day and two-three hours for enrichment activities • Small classes of up to 15 students per teacher • Use highly effective teachers • Provide professional learning focused on consistent curriculum and maximizing instructional time <p>Link to the research in the appendix</p> 
<p>Virtual Learning (remediation, tutoring, credit recovery, etc.)</p>	<p>According to research, things to consider:</p> <ul style="list-style-type: none"> • Instruction combining online and face-to-face elements has a larger advantage • Online instruction should be collaborative or instructor-directed • Provide learners control of their interactions with media and prompt learner reflection • Provide a combination of additional learning time and materials as well as additional opportunities for collaboration • Online learning is much more conducive to the expansion of learning time than is face-to-face instruction • Accessibility – access to technology and connectivity • Meals for students • Teacher training on student engagement strategies • Flexible schedules <p>Link to the research in the appendix</p> 
<p>Other</p>	
 <p>Guiding Questions to Consider – Link to questions in appendix</p>	

Plan for Implementation

Develop a team and plan to implement the solutions that are most promising and can be implemented with fidelity.

- Develop a team that will deeply understand the interventions and best ways to implement them.
- Identify roles and responsibilities of those implementing the interventions.
- Develop the implementation timeline.
- Identify resources and supports needed for the implementation of the interventions.
- Develop a set of benchmarks to be reviewed to track the progress of implementation.

Answer the questions below for interventions being implemented.

Questions	Responses
What is the selected intervention(s)?	Class-Size Reduction <input type="checkbox"/>
	Extended School Day (before and after school) <input type="checkbox"/>
	Extended School Year (adding days to the calendar) <input type="checkbox"/>
	High Frequency Tutoring <input checked="" type="checkbox"/>
	Summer Programming <input checked="" type="checkbox"/>
	Virtual Learning (remediation, tutoring, credit recovery, etc.) <input type="checkbox"/>
	Other: Staff Professional Learning <input checked="" type="checkbox"/>
	Other: Physical/Emotional Safety for students <input checked="" type="checkbox"/>
Which regions/clusters/schools will implement each intervention selected?	<p>Staff Professional Learning and Safety Interventions: Dodge Pre K South Dodge Elementary School/Dodge Primary North Dodge Elementary School/Dodge Elementary Dodge County Middle School Dodge County High School Dodge Achievement Center Dodge County Board of Education Central Office Dodge County Transportation Department Dodge County Maintenance Department K-12 Students</p>
Which grades or grade bands will participate in each intervention selected?	<p>Intervention 1. Prevent additional learning loss (High Frequency Tutoring and Summer Programming): Intervention 3. Respond to social/emotional needs and prepare for physical safety and well being: K-5 (2 Elementary schools), 6-8 (1 middle school), 9-12 (1 high school) and 1 alternative school housing grades 6-12.</p>
Which student subgroup(s) will participate in each intervention selected?	<p>Intervention 1. Prevent additional learning loss (High Frequency Tutoring and Summer Programming): Intervention 3. Respond to social/emotional needs and prepare for physical safety and well being: All students in all subgroups will have the opportunity to participate in selected interventions. Students identified to have academic and emotional/behavioral deficits identified through MTSS will be targeted with more specific and frequent interventions.</p>

<p>What is the target student population(s) for each intervention selected?</p>	<p>Students not on track to graduate or pass courses/grade level; Students who need courses to complete pathways; Students with disabilities; English Language Learner students; Students in tier 2/tier 3 due to academics and behavior concerns identified through MTSS; All subgroups with social/emotional concerns and deficits</p>
<p>What are the proposed number of hours added to the school year?</p>	<p>None. Dodge County Schools plans on having a regularly scheduled school year with the typical school hours. There will be after school and summer programs in addition to the regular schedule. Summer School: Elem-60 hours, Middle/High-120 hours yearly High Frequency tutoring: Contracted services for K-5 and 6-8 totaling 648 hours per intervenionist yearly</p>
<p>What training is required for staff, students, and parents for each intervention selected?</p>	<p>Program implementation and fidelity; Data collection and disaggregation; Social Emotional Learning; Increasing rigor; Health and safety of students and staff; Induction teacher coaching; Student support for parents; Mental Health topics for students, staff, and parents; Any items identified as priority areas after stakeholder surveys and input each year.</p>
<p>What resources (interventions, strategies, community partnerships) are required for effective implementation of each intervention selected?</p>	<p>Highly effective staff with adequate and appropriate resources; Appropriate, up-to-date technology for staff and students; Contracted services for interventioninsts to support student learning and emotional well being; Research based and highly effective programs for Tier 2, 3, and SWD as identified through the MTSS process; Research based and highly effective programs for ELL students as identified though ACCESS testing; Safety for all; Continuity of services.</p>
<p>What is the formative assessment plan to evaluate student progress and impact for each intervention selected?</p>	<p>To accompany administrator walk throughs and observations, all students will take 3 benchmarks prior to state testing in ELA, Math, Science, and Social Studies.DRC Beacon will be administered in grades 3-8, and NWEA MAP will be administered in grades 9-12. Data will be collected and investigated to respond to areas of strength and weakness as well as develop plans of action to continue effective instruction. Students in K-8th grade will complete universal screeners to potentially identify needs for acceleration and remediation. Students with significant deficits will be assessed and monitored further, possibly starting the MTSS process.</p>

Implement Plan

Carry out the plan to implement the promising solutions, making real-time adjustments where/when needed.

- Collect information to monitor the quality of supports being provided for the intervention(s).
- Consider what additional information is needed to determine if intervention(s) are working.
- Assess the degree to which the implementation plan is being followed.
- Identify ways to break down barriers.
- Build capacity of others to facilitate and implement the intervention(s).

Timeline for Implementation

What is the proposed timeline to implement each intervention selected?

FY22-FY24- Academic Summer School high frequency tutoring; student assessment through benchmarks, universal screeners, gifted screening, intrinsic behavior concern screeners; and contracted interventionists for academic and behavior deficits. Student achievement data will be collected to monitor effectiveness, as well as time logs and sign in sheets.

Perception data will be collected with exit surveys from students, parents, and staff. NWEA Map and DRC Beacon will be introduced in FY22. Teachers will receive training. By FY23, all staff will be trained and the assessments will be fully implemented with all applicable students. (DRC Beacon-3rd-8th grade ELA and Math; NWEA Map-9th-12th grade students ELA and Math)

FY22-FY24- Staff professional learning will occur yearly. Certified staff will be trained during the school year and summer break with stipends available. Classified staff will receive training during the summer with stipends available. Training will consist of safety during work (worker's compensation), mental well-being and support, new employee orientations, ethics and professionalism, student engagement, behavior management techniques and strategies, parent engagement and crucial conversation strategies, and other topics that are discovered as being a priority from surveys of parents and staff. Agendas, sign in sheets, and evaluation of professional learning will accompany each session.

FY22-FY24- Dodge County Schools experienced a significant influx of retirements in crucial academic areas in FY21. Due to the low number of teacher candidates in Georgia colleges and universities, DCSS is hiring new-to-the-profession teachers. Each new teacher will participate in an induction program. DCSS also plans on compensating staff with additional hazard pay. Documentation will be kept in the finance department. Safety- Perception data, school and district safety plans, discipline data

Examine Progress

Carry out the plan to implement the promising solutions, making real-time adjustments where/when needed.

- Collect information to monitor the quality of supports being provided for the intervention(s).
- Consider what additional information is needed to determine if the intervention(s) is working.
- Assess the degree to which the implementation plan is being followed.
- Identify ways to break down barriers.

Outline for Evaluating Implementation and Impact

How will you evaluate implementation fidelity and effectiveness on an ongoing basis of each intervention selected by specific subgroups?

Subgroups: low-income students, students with disabilities, racial and ethnic minorities, migrant students, English Learners, students experiencing homelessness, children in foster care.

2021-2022

Summer Programs & High Frequency Tutoring-Student achievement data will be collected to monitor effectiveness, as well as time logs and sign in sheets. Perception data will be collected from students, parents, and staff.
 Staff Training-Agendas, sign in sheets and evaluation of professional learning for each session.
 Safety- Perception data, school and district safety plans, discipline data

2022-2023

Summer Programs & High Frequency Tutoring-Student achievement data will be collected to monitor effectiveness, as well as time logs and sign in sheets. Perception data will be collected with exit surveys from students, parents, and staff.
 Staff Training-Agendas, sign in sheets and evaluation of professional learning will accompany each session
 Safety-Perception data, school and district safety plans, discipline data
 Assessment Systems- Full implementation and data collection with PLC documentation evaluation data

2023-2024

All interventions will be fully implemented by the end of FY 24
 Summer Programs & High Frequency Tutoring-Student achievement data will be collected to monitor effectiveness, as well as time logs and sign in sheets. Perception data will be collected with exit surveys from students, parents, and staff.
 Staff Training-Agendas, sign in sheets and evaluation of professional learning for each session.
 Safety- Perception data, school and district safety plans, discipline data
 Assessment Systems- Full implementation and data collection with PLC documentation evaluation data .

USE OF FUNDS

The LEA shall reserve **not less than 20 percent** of such funds to address learning loss through the implementation of evidence-based interventions. In addition to the interventions outlined in the template above, this percentage of funds can be used to address assessment needs, assistance to parents as they support their students, and student engagement and attendance. Please estimate the approximate percentage of the LEA's ESSER III formula funds allocated for each of the activities or purposes addressing learning loss listed below.

Activities to Address Learning Loss	Percent
Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of at-risk populations.	20.18 %
Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction.	1.1 %
Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment	0 %
Tracking student attendance and improving student engagement in distance education	0 %

Activities to Address Other Needs	Percent
Any activity authorized by the Elementary and Secondary Education Act of 1965, Individuals with Disabilities Education Act, Adult Education and Family Literacy Act, and Carl D. Perkins Career and Technical Education Act of 2006.	0 %
Activities to address the unique needs of at-risk populations	0 %
Developing and implementing procedures and systems to improve the preparedness and response efforts	0 %
Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases	0 %
Purchasing supplies to sanitize and clean the facilities	0 %
Planning for, coordinating, and implementing activities during long-term closures, including providing meals to eligible students, providing technology for online learning to all students, providing guidance for carrying out requirements under the Individuals with Disabilities Education Act and ensuring other educational services can continue to be provided consistent with all Federal, State, and local requirements.	0 %
Providing mental health services and supports, including through the implementation of evidence-based full-service community schools.	4.6 %
Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors including low-income students and children with disabilities, which may include assistive technology or adaptive equipment.	0 %
School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	0 %
Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and nonmechanical heating, ventilation, and air conditioning systems, filtering, purification and other air cleaning, fans, control systems, and window and door repair and replacement	0 %
Developing strategies and implementing public health protocols including, to the greatest extent practicable, policies in line with guidance from the Centers for Disease Control and Prevention for the reopening and operation of school facilities to effectively maintain the health and safety of students, educators, and other staff	0 %
Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency.	74.12 %
Continuity of Services	
Please identify "other activities"	
Total	100%

LEA Implementation Plan for Use of Funds. *In the survey below, please check all that apply:*

At-risk Student Populations

- low-income students: cover costs of specific activities, services, supports, programs, and/or targeted interventions
- students with disabilities: cover costs of specific activities, services, supports, programs, and/or targeted interventions
- racial and ethnic minorities: cover costs of specific activities, services, supports, programs, and/or targeted interventions
- migrant students: cover costs of specific activities, services, supports, programs, and/or targeted interventions
- English Learners: cover costs of specific activities, services, supports, programs, and/or targeted interventions
- students experiencing homelessness: cover costs of specific activities, services, supports, programs, and/or targeted interventions
- children in foster care: cover costs of specific activities, services, supports, programs, and/or targeted interventions

Career, Technical, and Agricultural Education expenses (approved under Perkins Act)

If these efforts support *At-risk Student Populations*, please also check the populations at the beginning of this survey.

Continuity of Core Staff and Services

- cover costs of offsetting the need to furlough or reduce the salaries of school-based staff
- cover costs of bonuses for retaining educators and support personnel
- cover costs of transportation operations
- cover costs of expenses related to utilities
- other operational costs (please explain)

Hazard pay for staff;
Annual salaries for bus monitors

If these efforts support *At-risk Student Populations*, please also check which populations at the beginning of this survey.

Distance/Remote Learning

- connectivity (hot spots, outfitting buildings/buses with WiFi, other wireless, internet service, etc.)
- devices (laptops, tablets, etc.)
- printing costs for learning packets
- instructional resources/tools
- hardware
- software, subscriptions, licenses
- assistive technology or adaptive equipment
- online learning platforms/learning management systems
- other distance/remote learning costs (please explain)

If these efforts support *At-risk Student Populations*, please also check which populations at the beginning of this survey.

Facilities/Equipment

- costs related to sanitizing/disinfecting buildings and buses
- additional personnel costs ('hazard pay', hours, etc. -- unrelated to preparing and delivering school meals; see 'School Meals' below)
- equipment and supplies (gloves, masks, PPE, cleaning supplies, etc.)
- facilities/equipment (please explain)

If these efforts support *At-risk Student Populations*, please also check which populations at the beginning of this survey.

Mental and Physical Health (contracted hours, professional learning, programs, etc.)

- costs related to telehealth
- costs related to counseling
- costs related to school nursing
- costs related to school-based clinics
- costs related to therapeutic services
- costs related to wraparound services and supports
- other mental

District staff that are licensed clinicians and social workers for mental health services for students and staff

October 2021- Potential partnership with Dodge County Hospital on telehealth services

If these efforts support *At-risk Student Populations*, please also check which populations at the beginning of this survey.

Professional Development

- Cover costs of additional professional development for school leaders, teachers, and staff (trainings, extended professional development days, consultants, programs, etc.).
- other professional development costs (please explain)

Cover costs of additional professional development for classified staff to address prevention strategies for Covid and other communicable diseases, and respond to the academic and behavioral needs of students.

If these efforts support *At-risk Student Populations*, please also check which populations at the beginning of this survey.

School Meals

- offset costs due to serving meals (not covered by the USDA reimbursement)
- cover additional 'hazard' pay or hours personnel
- cover additional transportation costs of delivering meals
- other school meals costs (please explain)

If these efforts support *At-risk Student Populations*, please also check which populations at the beginning of this survey.

Supplemental Learning

- remediation opportunities
- enrichment opportunities
- summer learning
- before/afterschool programs scheduled within the school year
- additional instructional resources
- additional pay for teachers, staff, mentors for extended hours/schedules
- other supplemental learning costs (please explain)

Cost for contracted services-Academic and Behavior interventionists for students identified in the MTSS process while preventing additional learning loss caused by Covid-19; ELL teacher to assist students identified as ELL through ACCESS testing.

If these efforts support *At-risk Student Populations*, please also check which populations at the beginning of this survey.

Implement Prevention and Mitigation Strategies

Section A

Return to In-Person Instruction Plan LEA Website Link	https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/index.html	
The Plan Will Be Updated Within 6 Months	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>
	Date: 10/21/2022	Plan is Updated to Current CDC Guidelines

Section B

LEAs that receive ARP ESSER funds must develop, submit to GaDOE on a reasonable timeline, and make publicly available on the LEA's website, a plan for the LEA's use of ARP ESSER funds.

- In the section below, please explain to the extent to which and how the funds will be used to implement prevention and mitigation strategies that are, to the greatest extent practicable, consistent with the most recent Center for Disease Control and Prevention (CDC) guidance on reopening schools, to continuously and safely open and operate schools for in-person learning. The U. S. Department of Education has provided resources that align with the CDS's guidance, please reference resource in the chart.

 Safely Reopening Schools Resources Provided by the U.S. Department of Education	
Safer Schools and Campuses Best Practices Clearinghouse	Best Practices Clearinghouse - Home (ed.gov)
Center for Disease Control and Prevention-Operational Strategy for K-12 Schools through Phased Prevention	Operational Strategy for K-12 Schools through Phased Prevention CDC
Volume 1- 2021 ED COVID-19 Handbook- Strategies for Safely Reopening Elementary and Secondary Schools	ED COVID-19 Handbook, Volume 1: Strategies for Safely Reopening Elementary and Secondary Schools (PDF)
Volume 2- 2021 ED COVID-19 Handbook- Roadmap to Reopening Safely and Meeting All Students' Needs	ED COVID-19 Handbook: Volume 2 2021 (PDF)

1. Please explain how the LEA engaged the entire school community to establish a safe environment for all educators, school staff, and students to promote trust and confidence.

If explicitly explained and included within the Return to In-Person Instruction plan posted on the LEA's website, please include the reference to locate the description from the plan below.

Multiple surveys were conducted through the year in preparation for the 2022-2023 school year and as we conducted the year. Prior to any major decision made by the Dodge County Board of Education, parents and community members were asked to provide input and encouraged to attend BOE meetings (in person or virtually) to help provide transparency and clarity to all stakeholders.

2. Please explain how the LEA used ARP-ESSER funds to implement prevention strategies to reduce the transmission of COVID-19 in schools.

If explicitly explained and included within the Return to In-Person Instruction plan posted on the LEA's website, please include the reference to locate the description from the plan below.

Please check strategies implemented by LEA:

- Universal and correct use of masks
- Physical distancing
- Handwashing and respiratory etiquette
- Cleaning and maintain healthy facilities
- Contact tracing in combination with isolation and quarantine

There are funds allocated for outdoor tables and chairs. There are also funds allotted for more tables for professional learning so the staff can stay far enough to reduce spread in possible infection. Supplies will also continue to be purchased.

3. Please explain how the LEA monitored cases and made decisions about in-person instruction.

If explicitly explained and included within the Return to In-Person Instruction plan posted on the LEA's website, please include the reference to locate the description from the plan below.

DCSS is no longer tracking covid cases.

Appendix

Guiding Questions

Selecting Interventions:

- Were studies conducted in settings and with populations relevant to the local context (e.g., students with disabilities, English learners) and does the intervention have positive and statistically significant effects on important student or other relevant outcomes?
- Have appropriate stakeholders (e.g., students, family, staff and community) been involved in discussions on how to address their needs?
- How can the impact of the intervention be measured?
- What tools will the school/district use to determine impact?
- What resources are required to implement this intervention with fidelity?
- What is the local capacity to implement this intervention with fidelity?
- What skills and resources will staff need to implement the intervention?
- How does this intervention fit into larger strategic goals and other existing efforts?

Examining Progress:

- How will you progress monitor the fidelity of implementation?
- How can progress monitoring ensure that the actions are effective, impact practices, and improve student achievement for all subgroups?
- What benchmarks will be established and what data will be collected to measure effectiveness of interventions for all subgroups?
- What specific evidence and artifacts will you collect to determine if the interventions are executed in a way that has an impact on student outcomes for all subgroups?
- Do the evidence and artifacts demonstrate the fidelity of implementation and effectiveness of the interventions?
- Are the evidence and artifacts easily obtainable?
- Who is responsible for gathering evidence and artifacts? How and where will the evidence and artifacts be stored and shared?
- [Program Evaluation Step-by-Step Guide](#) and [Logic Model](#) – This step-by-step guide assists districts with prioritizing programs to evaluate, planning processes for data collection and analysis, and using the findings to develop action plans for program improvements. An accompanying tool provides an overview of the logic model concept, a template for logic model creation, and a checklist to ensure effective logic model implementation.

Additional Research and Resources

Updates and Research on Accelerated Learning and Best Practices

- [TNTP-Learning-Acceleration-Guide-Updated-Nov-2020.pdf](#)– This is an updated guide from The New Teacher Project (TNTP) with specific goals and strategies that can help schools begin accelerating students back to grade level in any instructional format—in-person, virtual, or hybrid. TNTP has placed special emphasis on the two most important things schools should prioritize right now: grade-appropriate assignments and strong instruction.
- [EdResearch for Recovery School Practices to Address Student Learning Loss \(brown.edu\)](#) – This brief is one in a series aimed at providing K-12 education decision makers with an evidence base to ground discussions about how to best serve students during and following the novel coronavirus pandemic. This brief looks at potential interventions for students who have fallen out of typical grade range, particularly those who were struggling before the pandemic. Evidence suggests that, although most students will experience some learning loss, the majority will still be able to engage with grade-level content.
- [Broad-Based Academic Supports for All Students \(brown.edu\)](#) – This brief provides research and resources to address academic supports schools should prioritize for all students, including strategies to consider and those to avoid.
- [Best Practices for Learning Loss Recovery](#) – This report explores research-based supports for student academic recovery from learning lost due to COVID-19 pandemic-related school closures. This report examines approaches to adding learning time within the structure of the regular academic calendar (e.g., school year, school days, and periods) and existing extended learning opportunities (e.g., after-school programs, acceleration academies, summer school).
- [EdResearch for Recovery Bringing Evidence-Based Decision-Making to School Safety \(brown.edu\)](#) – This brief provides research and resources to address how schools and districts can monitor students' social and emotional well-being throughout the year, including strategies to consider and those to avoid.
- [Restart & Recovery: Considerations for Teaching and Learning: Academics](#) - This resource is one part of a project designed to support states and school systems in addressing the critical set of challenges they will face as they plan for (and restart) teaching and learning amid the COVID-19 pandemic and in light of the moral imperative to actively redress racial and other inequities. It consists of customizable guidance and vetted resources.
- [Review-of-Expanded-Learning-Opportunities.pdf \(hanoverresearch.com\)](#) – Hanover Research expands its previous brief on extended learning time. An expanded discussion of extended school day/year models, summer school initiatives, pre-kindergarten programs, and out-of-school time programs is provided, to inform discussions about strategies to improve student achievement and educational outcomes.

Class-size Reduction

- [NCPEA Policy Brief -Class-Size Policy -The STAR Experiment and Related Class-Size Studies](#) – This brief summarizes findings on class size from over 25 years of work on the Tennessee Student Teacher Achievement Ratio (STAR) randomized, longitudinal experiment, and other Class-Size Reduction (CSR) studies throughout the United States, Australia, Hong Kong, Sweden, Great Britain, and elsewhere.
- [The Effectiveness of Class Size Reduction](#) – This brief provides research-based options for education policy makers on the effectiveness of class size reduction.
- [Rethinking Class Size -The complex story of impact on teaching and learning](#) – This book examines class size reduction with several new approaches and shares an overriding model which shows how class size works through interconnections with other processes and features in the classroom and identifies key pedagogical implications for teachers and schools.
- [Class Size: What Research Says and What it Means for State Policy](#)

Extended School Day

- [Extending the School Day-Year: Proposals and Results](#) – This review provides a review of research on the feasibility of extending the school day/year
- [Research Brief – Extended School Day](#) – This review summarizes what the research says about extending the school day, either starting early or staying later.
- [Do Students Benefit from Longer School Days? Regression Discontinuity Evidence from Florida's Additional Hour of Literacy Instruction](#)

Extended School Year

- [Extended School Day-Year Programs: A Research Synthesis](#) – This analysis reviews the data on two types of extended school programs--those that extend the number of hours per day students spend in school, and those that extend the school year.
- [Extended School Year](#) – This Information Capsule addresses research conducted on extended school years and their impact on student achievement.

High Frequency Tutoring

- [Accelerating Student Learning with High-Dosage Tutoring \(brown.edu\)](#) - Part of EdResearch's Design Principles series that outlines the evidence, design principles and considerations for high-frequency tutoring. Rigorous research provides strong evidence that high-dosage tutoring can produce large learning gains for a wide range of students, including those who have fallen behind academically.
- [Community Engagement in K-12 Tutoring Programs: A Research-Based Guide for Best Practices](#) – This document provides evidence from researchers across disciplines and synthesizes a set of best practices in tutoring for use by community engagement practitioners.

Summer Programming

- [Best Practices for Comprehensive Summer School Programs](#) – This report discusses best practices for summer learning and describes how districts structure summer enrichment, acceleration, and transition programs.
- [Effective Program Design for Elementary Summer Learning Programs](#) – This report investigates the impact of summer programs on student learning outcomes, discusses the features of effective summer programs for elementary school students, and outlines strategies for evaluating summer programs.
- [Getting to Work on Summer Learning – Recommended Practices for Success](#) – This guidance is intended for school district leaders and their partners across the United States who are interested in launching or improving summer learning programs. In this summary version, the authors distill lessons about implementation gleaned from a six-year study of voluntary summer programs in the five urban districts participating in the National Summer Learning Project.
- [Summer Reading Camp Self-Study Guide](#) – This guide is designed to facilitate self-studies of planning and implementation of summer reading camp programs for grade 3 students. It provides a template for data collection and guiding questions for discussion that may improve instruction and increase the number of students meeting the grade-level standard by the end of the summer reading camp.
- [Summer School Design and Evaluation Framework](#) – This report reviews best practices in summer school program design and discusses how districts can leverage multiple research methodologies (e.g., data analyses, surveys, in-depth interviews, classroom observations, etc.) to monitor the implementation and evaluate the effects of their summer school programs.

Virtual Learning

- [Evaluation of Evidence-Based Practices in Online Learning](#) – The goal of this study by the U.S. Department of Education is to provide policymakers, administrators and educators with research-based guidance about how to implement online learning for K–12 education and teacher preparation.
- [Access to Algebra I=The Effects of Online Mathematics for Grade 8 Students](#) – This study tested the impact of offering an online Algebra I course on students' algebra achievement at the end of grade 8 and their subsequent likelihood of participating in an advanced mathematics course sequence in high school.
- [Strategies for Virtual Learning Implementation](#) – This report by Hanover Research examines best practices in planning and implementing virtual learning programs. The report reviews literature on strategies for implementing successful virtual learning programs and profiles four school districts with exemplary programs.
