**7<sup>th</sup> Grade Course Registration Information**

This form contains information regarding classes offered at PJH South for 7<sup>th</sup> grade students, how to select courses, due dates, and our parent information session. Please read both sides carefully. Below you will find important information concerning Pearland Advanced Programs courses.

All Pearland ISD students who wish to accept the academic challenge of rigorous coursework are welcome to participate in Pearland Advanced Programs courses. Prior to making a commitment to course selections, students and parents should be aware of the expectations and rigorous coursework for these classes so they can make informed decisions.

**Academic Considerations**

PAP courses provide greater depth and complexity than general education classes and are intended to prepare students for rigorous high school coursework. Students should be independent learners as instruction may be fast paced, in-depth, complex, and abstract. An A or B in the subject area indicates that the student has the academic ability and the task commitment to succeed. Once enrolled, students must remain in the course for six weeks before a schedule change is considered. For additional considerations, see your campus counselor.

**Performance Considerations**

PAP students should be independent learners who demonstrate:

**A. Motivation**

Some students take PAP classes because they are the best preparation for high school; others, for the academic challenge. Whatever the reason, students should apply their best effort.

**B. Time Management and Organization**

Beginning assignments when they are assigned, using planners and schedules when multiple projects are due, and developing the self-discipline to make academic achievement a priority are keys to success in PAP classes.

**C. Positive Attitude**

PAP courses demand more attention, work, and effort than a regular class. Students should persevere, and when faced with challenges, take the necessary steps to succeed in the class (tutorials, study groups, etc.). Students who can adjust to the rigor while in junior high find greater success in high school.

**D. Strong Work Ethic**

Students should be committed to their goals to be successful in PAP classes and demonstrate that commitment through good attendance, punctuality, and by showing respect for themselves and others. Students should expect to do a considerable amount of study and preparation outside of class, and to complete all assignments on time.

**THIS FORM IS DUE BACK TO HOMEROOM TEACHERS ON MARCH 26, 2023.**
