

High School Math Teacher

Westminster Christian School is seeking a passionate and dedicated High School Math Teacher to join our faculty. The ideal candidate will have a strong background in mathematics education, a commitment to fostering academic excellence, and a desire to inspire students to reach their full potential and be ambassadors for Christ. Our school values a supportive and collaborative learning environment where both students and faculty can thrive. This employee is considered an ambassador of Christ and a minister of the Christian gospel and is expected to integrate his/her Christian faith into his/her service to the school while actively participating in the spiritual formation of students.

Essential Duties and Responsibilities

- Teach various levels of high school mathematics courses, including but not limited to Algebra, Geometry, Trigonometry, Pre-Calculus, and Calculus.
- Develop and implement engaging lesson plans that cater to diverse learning styles and abilities.
- Create a positive and inclusive classroom environment that encourages active participation and critical thinking.
- Assess student progress through a variety of methods, including quizzes, tests, projects, and presentations.
- Provide timely and constructive feedback to students to support their academic growth and development.
- Collaborate with colleagues to align curriculum, share best practices, and enhance the overall educational experience.
- Communicate regularly with parents/guardians regarding student progress, achievements, and areas for improvement.
- Participate in faculty meetings, professional development opportunities, and school events as required.

And other duties as assigned.

Qualifications

- Active participant of a Protestant church whose doctrine is consistent with the Westminster Christian School Statement of Belief
- Alignment with the Westminster mission/philosophy, goals, and objectives
- Bachelor's degree in Mathematics, Education, or related field (Master's degree preferred).
- Valid teaching certification/license.
- Previous experience teaching high school mathematics preferred.
- Strong knowledge of curriculum development, instructional strategies, and assessment techniques.
- Excellent communication and interpersonal skills.
- Passion for working with adolescents and helping them succeed academically and personally.
- Ability to work collaboratively in a team-oriented environment.
- Familiarity with educational technology tools and resources.
- Experience teaching Advanced Placement (AP) Calculus courses preferred.

Reports to: High School Principal

Schedule: 10 month employee
