Addendum

Requests for Information

Any questions about the Request for Proposal process must be received in writing by **4/1/2024**
3/16/2022.

If you would like to receive email notification of any RFP amendments, questions and clarifications, notify the district via email your intent to bid.

Scope of Services

Services must include the below services:

- Managed SOC Service or SOCaaS
- 24x7x365 SOC (SOC analysts/operators and all collected data must reside in the United States).
- Managed Vulnerability (management capable of leveraging existing Tenable data)
- Network detection & SIEM utilizing the Mixmode platform. The SIEM must be capable of integration with leading EDR platforms.
- External attack surface monitoring. Advisory services encompass strategic planning, risk management, and best practice guidance from cyber security experts with CISSP or equivalent industry certification.
