Motion to approve by Raven Stewart, 2nd by Amber Shannon

- Reports on Meetings/Committees: PBIS. Working on increasing positive incentives for positive attendance and active participation in learning. Data shows works more than negative. Student listening circles continue to share concerns around safety-not enough staff in hallways/lunch time. Students cutting class and going to places where there is no staff. Fall Party tardy admission requirement reduced tardy drastically. Will continue to gather student and parent voice.
- New Business: Before next meeting brainstorm ideas for positive incentives. New school being built at another location; build will begin in January. Will open the year of 24-25.
