

2/6/2024

Attendees:

Janice Ninepence, Student

Damon Smith; Principal

Vanessa Landeros; counselor

Omneya Gomaa; teacher

Takoa Raney, Vice Principal

- Welcome, Introductions, Call the meeting at 3:16. Minutes from previous meeting: Omneya moved, Vanessa second. All approved.
- Will still be in need one more student, one more teacher, and three parents.
- Title Funded positions - Staff voted to keep all positions for another year as we have seen significant decrease in student behaviors and an increase in attendance and students feeling safe across camps.
- SPSA - process will begin soon for next year, as district climate and culture survey closes tonight and we get access to that data. We will also start working on needs assessment for staff. Vanessa asked about support for academics now that students are in class more, how can we support that. Omneya commented how kids are now asking for help when she pushes in. They aren't embarrassed to ask for help, and they do want to learn. Council discussed this could be a part of our needs assessment and to start thinking of ways to support academics more (curriculum, training, additional staff, etc).
- Reports on Meetings/Committees:
  - Construction of new school is delayed and will not be completed by December 2024 with a move in to January 2025. Return from Winter break to new site. Construction team is making good progress but this last storm and high winds did cause some damage to new buildings. This shouldn't delay the completion.
- New Business:
  - We still have vacancies we are dealing with and now have an attendance clerk added to the list. Job is posted and if anyone knows anyone who could be interested for them to apply or reach out to admin.
  - We are going to be able to hire early again this year, per our sponsorship team. This worked well filling teaching positions and the district has approved it again.
- Public Comment:
  - 0
- Meeting Adjourn at 4:02. Vanessa motion to adjourn, Omneya second.
